Miracle Cure for home Treatment

The world knows Chinese doctors, with powerful and wonderful Chinese remedies, cure all diseases successfully. If you are out of health, unable to regain it, write us today and describe your symptoms. We accept only curable cases. York & York, Chinese Medicine Co., 219 W. Main St., Walla Walla, Wash. After suffering with rheumatism for many years, other doctors not curing me, I wrote Drs. York & York for treatment. Their wonderful treatment cured me within a month, and now I am permanently cured, for which I write this true testimonial. If any one suffering, wishes to know more about their treatment, they can write me.

J. M. ASHWORTH, Weston, Oregon.

FOLEY'S HONEY AND TAR Cures Colds; Prevents Pneumonia

STANFIELD WILL NOT GET FIGHT RETURNS

(Special Correspondence.) Stanfield, Ore., June 29.—It seems from wire received this morning from Associated Press managers that there has been a conflict between the Associated Press and the Western Union in regard to detailing the Jeffries-Johnson fight by rounds and so the committee is obliged to say that they will be unable to feature this by rounds as advertised a day or two ago. In lieu of this a match will be put on between Mullin and Burgo. This contest will take place at 11 o'clock on the base ball grounds and from reports received it will be well worth while. Burgo will have a large following from La Grande here that day, so that those who are interested in this sort of a contest may be assured of a good time.

Dr. Henry W. Coe is back in town again after a few days visit to Portland and one day in Pendleton. He reports that work on his house near the government project is progressing nicely.

Ed Marshall is down today, having driven down from Pendleton in record time.

SOCIALIST CAMPMEETING PLANNED FOR KLAMATH

San Francisco.—The Oregon-California Socialist Encampment, which will attract workers in the new faith as far as Alaska and Mexico will be held at Klamath Falls, Or., next week. Three hundred tents will form a community such as has never been known in this country. During the progress of the meeting the principles of socialism will be carried out in act as well as in word. Every activity of the community, every financial transaction, will be attended by that equal interest principle for which socialism stands. The experiment is being watched by a number of writers from eastern centers.

SALMON FALLS POWER PLANT IS FINISHED

Ontario, Ore.—The power plant of the Great Shoshone & Twin Falls Water Power company at Lower Salmon falls, has been completed and is in operation, according to announcement made by Samuel H. Hays.

In discussing this important project, Mr. Hays said: "This is the beginning of the installation of one of the greatest power plants in the west as it will have an ultimate capacity at the lowest stage of water, of 30,000 horse power. At the present time a capacity of 2000 horsepower is installed.

Owing to the character of the power plants being installed, Idaho is destined to be the field where the greatest electrical experiments of the future will be made. The Great Shoshone & Twin Falls Water Power company has already made extensive experiments in the way of furnishing electricity for heating purposes. More buildings are heated with electricity in Twin Falls and Jerome than in any other towns of their size in the world.

"This company has already made experiments which have considerably advanced the heating problem, and it is probable that southern Idaho will be the first locality where electricity is extensively used for heating purposes. The company offers every inducement to the people of Wendell, Jerome, Gooding, Twin Falls, Milner, Buhl and other towns in the Twin Falls district to use electricity, not only for lighting, but for household and power purposes.

"Considering their age, there are more miles of electrical transmission wires on the Twin Falls north and south side projects, including the Salmon river project, than in any other similar district in the United States."

BONES PERSONAL EFFECTS.

"Already Worm" Mark on Skeletons at Customs House.

Geneva.—Here is the latest European custom-house story to match the eccentricities of the assistants of William Loeb.

A Swiss missionary, after several years in Patagonia, came home with his baggage full of relics, including some skulls found in Patagonian cemeteries. Arrived at the Swiss frontier, the officials demanded the keys of the trunks marked "bones of animals" and then assessed the duty at 2 cents a pound.

Fiercely the missionary argued that the bones were not for commerce or for profit, but for scientific purposes only, which made them admissible on the free list. The debate continued for an hour. At last the missionary won. The skulls were admitted, marked on the official forms, "personal effects already worn."

MERRILL MEN TRY FOR ARTESIAN WATER

Merrill, Ore.—The beginning of a big project for developing the Sand Hollow dry land country was started Saturday in the transfer of E. G. Wilson's traction engine to that section, to be used in drilling for artesian water.

It is believed that a good supply of water can be had at a moderate depth in that section, and if secured it means a big development for the section.

A Reliable Remedy FOR CATARRH Ely's Cream Balm

It is quickly absorbed. Gives Relief at Once. It cleanses, soothes, heals and protects the diseased membrane resulting from Catarrh and drives away a Cold in the Head quickly. SHORT NEWS NOTES FROM PILOT ROCK

(Special Correspondence.)

Pilot Rock, June 29.—William McCutcheon, whose home was formerly here, but who is now living in Texas is here visiting with relatives and friends.

A very nice program was rendered by the school children of District No. 111, Friday evening, June 24. One of the main features of the program was Tom Thumb's wedding. After the program refreshments were sold to those who wished them, the proceeds amounting to \$16.

George Linsner of Nye, who has been under the care of Dr. Parker in Pendleton, returned to his home Friday morning feeling some better.

R. L. Linsner of the Pilot Rock hardware store was a Pendleton visitor Thursday evening.

H. G. Castel, our postmaster, spent Thursday in Pendleton.

Mrs. George Schlegel, who has been spending the last few days with friends in Pendleton, returned to Pilot Rock Monday morning.

Miss Lola Perry of Pendleton came to Pilot Rock Monday morning to attend her music class here.

Miss Esther Sturtevant was a Pendleton visitor Monday evening.

I. R. Laurence of Ukiah, was a Pendleton business visitor Monday.

Master Dewey Jaques was a passenger on the Pilot Rock local for Pendleton Tuesday evening.

Miss Ella McBroom, who has been in Portland for the last two months where she had an operation performed, has returned to her home at Pilot Rock.

The Rockwell brothers pulled into Jinks Jaques grain with their combine Monday evening where they began work Tuesday morning.

Little Robert Manning, son of Robert Manning of Pilot Rock, died at the home of Mr. Barr, a few miles north of Pendleton Wednesday, June 22, from brain fever. The remains were brought to Pilot Rock Friday morning and were laid to rest here in the cemetery.

The Pilot Rock nine was defeated again Sunday by Weston with the score of 8 to 5.

The remains of John Grooms, brother of Fred Grooms, were brought to Pilot Rock Monday morning and were laid to rest here Monday at 2 p. m.

The Pilot Rock train pulled into Pilot Rock Monday morning without any mail.

Lame shoulder is almost invariably caused by rheumatism of the muscles and yields quickly to the free application of Chamberlain's Liniment. This liniment is not only prompt and effective, but in no way disagreeable to use. Sold by all dealers.

GREWSOME ACT OF FATHER.

Arrested for Burying His Child, Dead From Diphtheria.

Berlin.—A peculiar burial incident took place at Grosswardeln, where the 5-year-old daughter of Joseph Jauerling, a local official, died of diphtheria. Jauerling had turned his back on the Roman Catholic religion and refused to allow a priest to take part in the burial of his child. He himself performed the duties of undertaker and at night time carried the coffin to the cemetery, performing the ceremony himself. Since the child had died from an infectious disease, and as Jauerling had carried the body through the whole town, the authorities are taking proceeding against him.

\$2,000,000 IS ADDED TO LAND VALUES IN IDAHO

Boise, Idaho.—Insuring the construction of the largest pumping project undertaken in Idaho under the provisions of the Carey act, the state land board has set July 25 as the date for the drawing of lands to be irrigated by the Snake River Irrigation company, with which the board last February contracted for the reclamation of 17,000 acres in southern Ada county at the uniform price of \$50 an acre for water rights. Grand View is designated as the place for holding the opening.

This project it is estimated will add more than \$2,000,000 to the assessed valuation of the taxable property of the county, and will result in the construction of an immense power plant near Castle Butte generating 10,000 horsepower, or more than three times as much power as will be actually required in connection with the irrigation enterprise. All surplus energy is to be marketed by the company which has already entered into a contract with the Grand View Extension Irrigation company to pump water for 7000 acres on the south bank of the river.

The Ada county tract extends along the river from the mouth of the Bureau to a point four miles above Swan Falls. The soil is a sandy loam and the location and climatic conditions, it is stated, make the land particularly adaptable to fruit culture. The project covers a western slope and the entire tract is protected by a wall of rimrock 800 feet in height.

Construction on the project is well under way and the main canal is nearing completion. In the event the company is able to carry out its present plans, water will be ready for delivery next spring. A large amount of material for the dam, which is to be 450 feet in length and 15 feet in height, has already been purchased. The first actual work on the dam will commence July 15, when it is expected that the river will have reached the low stage. The pumping plant will have a capacity of lifting water to the 125 foot level.

RAILROADS PLANT TREES IN TREELESS MEXICO

San Francisco.—The National Railways of Mexico are planting 40,000 eucalyptus and cedar trees in the western section of the republic. This is the first extensive work to come under the supervision of Stanley F. Morse, newly appointed agricultural expert of the National Railways. The transfer of the trees from the company's 18,000 acre nursery will necessitate the use of three special trains, totaling 75 cars.

The trees will be shipped to 82 different haciendas interested in the Mexican agricultural question, all being located along the lines of the National Railways. Though these trees are supplied entirely without cost to those who desire to them, many will be bought at maturity, by the National Railways, for ties and other purposes.

The trees will produce ties and lumber for other purposes, keep down the dust, conserve moisture, break destructive winds, etc. The idea in appointing an expert to whom the haciendas of the nation may apply for free information concerning many things in relation to agriculture is to promote interest, through the republic in agriculture.

Mexico is practically treeless, the expert says, and for the proper conservation of rain the country must be seeded thoroughly, resulting, eventually, in solid, productive forests.

The planting of trees will occupy the first week in July, the opening of the rainy season.

The Conservation of Nature's Resources

Apples as well as our physical state as to material things. C. J. Budlong, Washington, R. I. realized his condition, and took warning before it was too late. He says: "I suffered severely from kidney trouble, the disease being hereditary in our family. I have taken four bottles of Foley's Kidney Remedy, and no longer consider myself thoroughly cured. This should be a warning to all not to neglect taking Foley's Kidney Remedy until it is too late." Koep-

When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter, free. All correspondence strictly private and sacredly confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

If you want a book that tells all about woman's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 31 stamps.
