

MARKET FOR FANCY CATTLE HOLDS WELL

SELLING AT \$5.75 IN NORTH PORTLAND

Select Stuff Is Wanted and Buyers Continue to Pay Extra Good Value—Only Poor Quality is Showing Neglect.

Portland Union Stockyards, North Portland, Ore., June 29.—For strictly select cattle the market at North Portland is holding well, and during the past 24 hours sales were made as high as \$5.75.

It is only the poor quality that meets with opposition from the trade and therefore brings low prices.

No arrivals of hogs are reported locally, and the market is nominally firm.

Calves of light weight went at \$6.75, and considering this the cattle market in general seems to be in good shape for real good quality.

Several sales of bulls were made during the 24 hours at \$3.50.

Today's arrivals were light except in sheep, where a fairly good supply was presented. The market for sheep did not open early, but general expectations were for a continuation of the market of yesterday.

Among the Shippers.

Cattle—S. N. Kelley, from Roseburg, with two loads; L. E. West from Myrtle Creek, Ore., one load.

Sheep—W. E. Stafford, from Eugene, with one load; D. Taylor, from Halsey, with two loads.

Horses—J. D. Houston, from Caldwell, Idaho, with one load.

A year ago today all lines of livestock were quoted with a firm tone.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or asphyxiation often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away till they fail.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. Swamp-Root corrects inability to hold urine and sealding pain passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and refreshing effect of Swamp-Root, the great Kidney remedy, is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone. Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When ordering mention reading this advertisement in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root. If you do you will be disappointed.

EVERY WOMAN is interested and should know about the wonderful Marvel Wiping Spray Douche.

Ask your druggist for it. If he cannot supply the MARVEL, accept no other, and send stamp for illustrated book—sealed. It gives full particulars and directions invaluable to all. MARVEL CO., 46 E. 7th St., New York.

PORTER NOT GUILTY OF KILLING SHANNON

Albany, Or.—Ernest Porter will not be tried for the killing of John Shannon near Lebanon a month ago. The grand jury in session Tuesday failed to find a true bill against him. Porter claimed to have acted in self defense and the evidence sustained him. The grand jury also failed to bring in true bills in two cases where the charge was violation of the local option law, one in which robbery was charged and another of alleged horse stealing.

Northern Pacific railroad from Seattle to Portland. At this place the work is not greatly advanced, as it was late in the spring when the cut through the Harris hill was commenced.

Tearing through the hill in the north part of town is the largest steam shovel west of the Cascade mountains. Assisted by a drilling machine and dynamite, it is rapidly cutting its way northward through a formation of soft red rock and clay. Two "dinky" engines with strings of dump cars are being used to haul the rock and earth south, and since the fill on both sides of the depot east of the track has been finished, to a point on the west side of the track, the embankment is being built up from the river at this point, covering the slipping which has prevented flood damage for years. On the west side of the track the trains will dump dirt to a point beyond the south limits of the city.

Laying Steel. South of town steel has been laid for about two miles. Beyond that, little has been done, but within a week or 10 days five Shannon excavators will commence making the long fill from the Coveeman bridge to a point one and a half miles north of Carrolls. At the latter place, three weeks' work will complete the side cut and the fill which will raise the old track about six feet. Between Kalama and the Point, a dirt train carrying 15 to 25 cars is dumping material taken near Ridgefield.

Boring Rocky Point. The task of boring through Rocky September will probably be completed, which was commenced last September will probably be completed by the first of October. The hardest of basalt rock has been encountered in the tunnel and progress has been comparatively slow. At Ostrander, much of the work is completed, which between this place and Castle-rock there still remains a large amount of dirt to be moved.

At the rate things are going, it is thought that by the time the fall rains commence the heaviest of the grading will be completed. It will be several months, however, before the steel is all laid, the ballasting done and the new depot built. At Carrolls a new depot will be erected, probably one at Kalama and one at Castle-rock.
