WILL FIGHT GO TO THE LIMIT?

New Question Rises to Agitate Followers of Jeff and Johnson.

ARE BOTH MEN WILLING TO STAY FOR A KNOCKOUT?

Fans Raise Question As To Whether Jeff and Johnson Would Be Willing to Fight Longer Than 45 Rounds—Johnson Says He Will Stay 100 Rounds—Cornell Says Jeff Never Has Been in Such Fine Form Has Trained Better Than Public Thinks.

Moana Springs, July 2.—While but few expect the fight to go to the limit some have begun to figure on a possibility of what may happen if it goes the limit of forty-five rounds with the fighting equal. Jeff is confident he can go to the limit with ease. But if he did fight a draw would Jeff frisk stand for it. Tom Flanagan for Johnson says Jack is willing to go as far as necessary for some decision. He says, however, Johnson will win before the limit is reached. He said: "If the Jeffries crowd is willing we are willing to go the extreme limit, 100 rounds, till one is knocked out." Berger, for Jeffries said: "What's the use of crossing the bridge before we reach it. Johnson need not figure on a draw. Johnson will not be on his feet at the 30th." Farmer Burns says Jeff is willing to go to the finish.

Jeff in Great Shape. Reno, July 2.—In a special article written expressly for the United Press papers, Roger Cornell, chief trainer for James J. Jeffries, today said that Jeff will be in the best condition of his career when he enters the ring Monday. He said Jeffries retired when he was 30 and had not attained his mature strength. Jeffries trained a year and a half to "come back" where he usually gave the people thought Jeffries was not boxing but now on the eve of the battle and when secrecy is no longer valuable he said Jeff had done practically double the work the public thought but had done it secretly. He has been doing it at four in the morning with his brother Jack. Armstrong and Corbett, when the crowd was not present. Cornell predicted Jeff will win under 20 rounds, but should the fight go beyond he said Jeffries can endure the full 45.

Preacher Defends Fight. Carthage, Mo., July 2.—The Jeffries-Johnson scrap has found a champion in Reverend H. E. Tralle, pastor of the First Baptist church here, who said: "Every red blooded man should see Jeffries remain the champion. I believe he will win before the tenth round. I don't see any harm in being interested in the fight. As a minister or man I have this right. This will be the last big fight. Prize fighting is going out of business. It is fallen into bad hands and is doomed, although it is not as brutal as football."

Large Bets Being Made. Chicago, July 2.—The betting on the Jeffries-Johnson fight is rapid today. A wager of \$75,000 was made at 10 to 7 in Jeffries' favor, \$100,000 from Canada was received here today to wager.

Odds Tighten. Reno, July 2.—Odds tightened today, and are now 10 to 7-1-2 with Jeff on the long end.

Johnson Likes Arena. Reno, July 2.—Johnson today visited the arena and inspected it closely. He said it was the best he ever saw, but requested a three inch board be nailed to the edge of the ring to prevent the fighters slipping out. The first load of San Francisco fans arrived today and the eastern jam commences tomorrow. Promoters Rickard and Gleason today gave Stakeholder Sullivan \$51,000 in gold, completing the purse of \$101,000 for the fighters. Everything is ready for the gong Monday.

Fear for Outcome. Washington, July 2.—There is much apprehension in the south over the

AIRSHIP WILL TRY TO REACH NORTH POLE

outcome of the big fight. The negroes are taking an intense interest, believing the result will determine to a great extent their social position. Should Johnson win, it is feared the negroes, exulting, will assume an arrogant attitude, and endeavor to show their superiority by crowding white women off the sidewalks. This will cause trouble, it is sure.

FIVE CONVICTED FOR DEATH OF SHEEPMAN

Canyon City, Ore., July 1.—For the lynching of Ollie Snyder, which occurred at Hamilton, in northern Grant county, on last Christmas day, five men now stand convicted and mob law is repudiated in Grant county. Ben Hinton was convicted of murder in the second degree. Last night Judge George E. Davis pronounced upon him the sentence of life imprisonment. Today Sheriff C. M. Collier left with Hinton for the penitentiary at Salem.

Deputy Sheriff Caseday was tried this week and found guilty of murder in the first degree. Feeling was stronger against Caseday than any of his co-conspirators. He was an officer of the law, he had the reputation of being a fearless gun man, and when it was learned that he had entered into the conspiracy to mob his prisoner, Ollie Snyder, the feeling against him was bitter. After the conviction of Caseday yesterday his co-defendants, Earl Shields, Emmett Shields and Bert Green, sent word last night to District Attorney J. W. McCullough that they wanted to plead guilty. They were brought into the courtroom and withdrew their pleas of not guilty to the charge of murder in the first degree and entered a plea of murder in the second degree. This ends one of the saddest chapters ever written in the criminal annals of Grant county.

With the exception of Caseday, the convicted men are all under 30 years of age. Caseday is a married man with a family. Green and Hinton are each married and have children. The Shields are brother-in-laws to Bert Green. The families are all well known in Grant county.

During the progress of the trials the courtroom was haunted by the wives, babies, mothers and fathers and members of the families of the guilty men. Sentence will be pronounced on the co-defendants in a few days. The Caseday case will be appealed.

Reports say he is accused of incompetence and injudicious conduct—Assistant District Attorney Succeeds Him.

Boise, Ida., July 2.—Announcement that United States District Attorney Lingenfelter, had been removed from office by the department of Justice at Washington has created a furor in political circles. It is reported he was ousted on account of charges of incompetence and injudicious conduct. Assistant United States District Attorney Tipton succeeds him. Lingenfelter is now in Washington. He was appointed in 1908 following the removal of N. M. Rulek, who brought indictments charging conspiracy against Senator Borah and Marshal Rounds.

NEGROES AND WHITES CAN'T WATCH RETURNS TOGETHER

Birmingham, Alabama, July 2.—Negroes and whites will not be allowed to congregate before the same bulletin boards in this city to watch the fight returns Monday. One Dairy Bad; Two Good.

Albany, Ore., July 1.—According to the report of Paul V. Maris, deputy food and dairy commissioner, there is one Albany dairy that falls short of the standard required by the law governing food and dairy products. The other two dairies supplying Albany with milk were found in satisfactory condition by Mr. Maris. A test of milk from D. P. Misher's farm showed 4.1 per cent butter fat, and the milk carried by H. M. Palmer's wagon showed 4.2 per cent.

By order of the Sultan, the third of July, the anniversary of the re-establishment of the constitution, will hereafter be observed as a national holiday throughout the Empire.

WAR OF RACES IN MISSISSIPPI

Whites and Negroes Shooting Down Each Other; Negroes Fleeing.

THREE WHITES DEAD AND SIX NEGROES

Mob in Mendenhall Attacks Negro Quarters Today and Pursues Fleeing Blacks—Murder of White Man Starts Bitter Race War—Two Whites Shot Down From Ambush While Pursuing Negroes in Swamps.

Mendenhall, Miss., July 2.—Having killed six negroes in a race riot beginning last night, the mob resumed its attack on the negro quarters today. The negroes have fled and the mob is hunting them. One named Skiffer was riddled with bullets and slain.

Trouble started Sunday when Luther Buckley, white, went to the cabin of a negro named Brady to collect \$2. They quarreled and Buckley was killed. Brady and other negroes present then fled, and took refuge in Swiffer's cabin from pursuing whites. The whites dragged out and killed Skiffer, beat four of the others and released one. While pursuing the negroes in the swamps yesterday two whites were killed, shot from ambush. Authorities hope to control the situation without militia.

WILL SLAUGHTER 8000 MALE SEALS IN ALASKA

Washington, July 2.—Eight thousand male seals in the Pribyloff Islands, Alaska, will be killed. The commissioner of fisheries, George Bowers, will direct the work. The fur will be sold by the department of commerce and labor. Only a thousand males will be left in the herd. By an act of congress in April the slaying of seals by private contract was stopped.

Suicide in Salem.

Salem, Ore., July 2.—An unknown suicide was discovered hanging by his neck in a woodshed at the rear of the North Howell school house Thursday afternoon by some children who were picking berries. People in the vicinity were notified at once, and Coroner Clough hurried to the scene and brought the remains to this city. The man met death by strangulation; his toes were touching the ground when he was taken down. There was absolutely nothing about the remains to offer a clue to his identification. The North Howell school house is about nine miles northeast of Salem. The man carried a roll of blankets bound with rope which he hanged himself with. He was undoubtedly an ordinary hobo.

TRAIN KILLS MAN AT COE STATION

VICTIM WAS LABORER AT TWOHY BROTHERS' CAMP

Michael Miller Pulled Onto Track By Frightened Horse and Is Killed Instantly—Horse's Legs Broken—Nothing Known of Dead Man.

Michael Miller, a laborer, was instantly killed while working for Twohy Brothers, just west of Coe station, this morning, when he was run over by an extra westbound freight train. His remains were brought to Pendleton this afternoon on a special train which had been sent down for that purpose.

Absolutely nothing is known of Miller's past life or of his relatives. He came along the track last evening, applied for a job and was put to work this morning. He was a young man and was put to work driving a horse which was hitched to a wheel scraper. He was working near the track and when the first two trains passed by this morning he took the precaution to have his horse a safe distance away. The animal paid no attention to these, however, but when the third came by the horse became wildly excited. In order to keep the animal from dashing onto the track in front of the train young Miller grabbed him by the bridle. When the train was but 15 feet away the horse made a lunge, landing himself and his driver in the middle of the track. The horse jumped again, but was caught in the air and both hind legs were broken. The man was struck before he could get off the track and the whole top of his head was torn off.

Local Agent T. F. O'Brien assembled a special train, consisting of an engine and engine, as quickly as possible and took Coroner Folsom, Attorney C. J. Ferguson and Dr. E. B. Waffle to the scene of the accident. An inquest was held and the facts brought out as given above, after which the man's remains were brought to Pendleton.

As he had no papers of any kind on his person it is not probable that any of his relatives will ever be located.
