Minimum temperature, 46.

County Court Meets Tomorrow.

The regular July term of the county court will be convened tomorrow morning.

Injured at Umatilla.

Ben Archer, hostler for the O. R. & N., at Umatilla, was brought to the hospital here this morning. He is suffering from a badly scalded leg. The accident occurred while he was climbing over a locomotive and was caused by steam escaping from the safety valve.

Just From China.

Hong Gen, the 16-year-old son of Mean Lee, the local Chinese merchant, has arrived from Canton, China to join his father in Pendleton. The youthful Mongolian has been attending the high school in his native land and the proud father will now endeavor to Americanize him.

Wedding Permits Issued.

Marriage licenses have been issued to George Gray of Michigan and Annie McBean of this county; W. H. Conrad of Union county and Lillian Padon of this county; and to F. P. Littlejohn of Fresno, California and Clara E. Brannon of this county.

Socialist Orator Here.

J. L. Flitts, a socialist orator, held forth on a dry-goods box at the corner of Main and Alta streets last night and will appear in the same place again tonight. The crowd that listened to his remarks last night was neither large nor enthusiastic.

Mrs. Newport Improving.

Mrs. H. G. Newport who recently underwent two operations at Hot Lake, is rapidly recovering, according to Mr. Newport, who is in the city today. At the present rate of recovery she will be able to leave for home in a few days.

Miss A'Lyan Stanfield of Echo came up this morning with the celebration crowd and will be the guest of Miss Ivy Hill for a few days.

Tom Hill, who is employed on the Stanfield farm out from Echo, is in the city for a brief visit.

Willie Moore Gets Diploma.

Willie Moore, a pupil in school district No. 83, known as Vincent district in the Hudson Bay country, has been awarded an eighth grade diploma. He took the examination some time ago but his diploma was held up because of an error.

Busy Day in Police Court.

Though there was no celebration in Pendleton yesterday, the crowd in town was large and the number of cases on the police court docket this morning was the largest in many months, totaling 14. Burt Benedict, Dennis James, John Doe (an Indian) Ed Hurlin, Tom Nelson, Jesse L. Edmisten and Ed Jacobson, each forfeited bail in the sum of \$5 for being drunk. Ed Murray forfeited \$10 bail for the same offense, while Fred Dueke, the Italian who made the gun play at the depot is serving a twelve day sentence for carrying concealed weapons. G. Thompson, Joe Martin and Joe Nelson, each pleaded guilty to the charge of being intoxicated and were sentenced to serve three days each in jail.

NO MORE FIGHTS FOR THIS COUNTY

DISTRICT ATTORNEY WILL PUT BAN ON BOXING

Investigation of Mullin-Burgo Mill at Stanfield Will Be Conducted—Principals and Promoters May Be Prosecuted.

Umatilla county has probably seen its last prize fight or boxing contest. District attorney G. W. Phelps is now engaged in investigating the fight which was held at Stanfield yesterday and if he finds that the law was violated in any manner he will bring prosecutions against the promoters of the affair as well as the principals, officials and all those directly connected with the battle. It is also understood that hereafter he will place such a strict interpretation upon the Oregon statute that only the most amateur boxing exhibitions will be permitted.

It is certain that had there been a knockout in yesterday's contest, that arrests and prosecutions would immediately follow, for these were the instructions given to Deputy District Attorney Stelwer by the district attorney. Since there was no knockout an investigation of the affair will be made before any line of action is determined upon.

If District Attorney Phelps finally decides to issue a final decree against the squared ring contests, the population of this city will be slightly decreased.

Department Meetings.

Boston, July 5.—Sessions of the various departments of the National Education association were commenced this morning in the various churches about Copley Square and at the Boston Normal school and the Harvard Medical school. The afternoons of the next four days will be occupied largely with excursions to the various historic spots in Boston and vicinity.

For sale—Two pair horses, weigh about 1300 each, for one hundred dollars per pair. Good harvest stock. The Newport Land & Construction Co., Hermiston, Ore.

NEWS OF THE NORTHWEST

Bandon Votes \$60,000 Bonds.

Bandon, Ore.—The people of Bandon at the city election voted a bond issue of \$60,000 for a municipal water works. J. W. Mast was elected mayor. He defeated C. R. Wade, E. B. Kausrud was elected recorder and G. P. Topping, city judge, R. W. Boyle Herbert Manciet and M. Brewer were elected councilmen.

Steelheads Running Late.

Astoria, Ore.—Reports from both up and down the river tell of fair catches of fish, especially by the Bakkers bay traps and the bar fishermen. Steelheads are beginning to make their appearance, fully a month late, and are in demand with the price varying from 5 1-2 to 7 cents per pound and many go higher. Blue backs are also showing up and are rated at the same as the smaller Chitlocks, 5 1-2 cents per pound.

Longshoreman Murdered.

Seattle—John Ryan, a longshoreman, was shot and killed Monday by William Horn, ex-member of the union, following a quarrel on a street corner.

There had been bad blood between the men for three years, following Horn's leaving the union. Ryan and a crowd of longshoremen met Horn on the street. Hot words followed, then gun plays. Horn was arrested. Three other longshoremen are held by the police as witnesses.

Salem Bad Check Artist.

Medford, Ore.—Arrested in Medford for passing checks for which he had no funds in bank, Clarence E. Young of Salem was taken last evening to Roseburg by Deputy Sheriff W. A. Wright of Douglas county, for trial. Young was a canvasser for the Pacific Homestead of Salem, and is reported to be prone to pay his bills with bad checks. On a former trip to Medford he ran a large bill at a local hotel and was told that the bank would not honor. For this the hotel management had him arrested in Salem and brought back to Medford for trial, but he effected his release by squaring the account with cash and paying the costs.

Salem's Cherry Fair.

Salem, Ore.—Salem will hold its fifth annual Cherry fair July 7, 8 and 9. The event has been widely advertised throughout the valley with circus posters and the capital city expects to be flooded with visitors from different points in the valley from the first to the last day of the festivities. Many attractions have been scheduled including E. J. Arnold's shows, five bands, many elaborate and magnificent parades and sporting events.

Clarke to Stay at School.

Eugene, Ore.—Dudley Clarke, the University of Oregon baseball pitcher, who has received offers from the Tacoma Northwest league management to play on that team and from Walter McCredie of the Portland Coast league team, says he will not play professional ball and has refused both offers. He is now taking a course in the university summer school to make up a number of credits so that he will receive his diploma. He lost a lot of time during the past season of baseball and it put him behind in his studies. He will take a post graduate course at Harvard next fall and will leave for Cambridge about August 1.

Horticulturalists to Meet.

Walla Walla.—Local horticulturalists are preparing for the annual convention of the Pacific coast nurserymen, which is to be held in this city July 12, 13 and 14. Almost every phase of the fruit tree will be discussed, and between 150 and 200 delegates are expected to be present. Expert nurserymen from all parts of the coast will be here, and the convention is expected to be the biggest in the history of the association. The visitors will be shown all the fruit orchards in the valley, and practical demonstrations in orchards and nurseries are to take a part in the program.

To Protect Water Supply.

Ashland, Ore.—There will be no more desecration of Ashland Canyon within the Asland forest reserve by woodchoppers, thanks to the efforts of the Ashland Commercial club and the city council. A protest has been filed with the forest service, which sent a special representative from division headquarters at Portland, who viewed the work of the past. Upon his return to headquarters, orders were forthcoming that no more cutting of timber be allowed in the Ashland reserve, which was primarily created for the preservation of the city's water supply. The complaints arose out of the recent indiscriminate sale of timber for wood by local forest officials, which resulted in denuding the canyon at some of its most attractive points, besides endangering the water supply.

Letter Leads to Arrests.

Seattle, Wash.—An anonymous letter signed "K. S." and delivered to the police station here Sunday by a messenger boy, led to the arrest of Max Lavigne and J. Yaffe, in a room in the southern part of the city, on suspicion of having committed several robberies along the Pacific coast. With the letter was sent \$250 in travelers' checks on the Wells-Fargo express company, which, the writer explained, were stolen from Robert O'Neil in San Francisco, June 20.

The Busy Boston Store Now Located at 725 Main Street West side between Atla and Court Sts.

In his letter the writer told of numerous robberies in Seattle, Tacoma and Portland, into which he said he had been forced by Lavigne and Yaffe. The travelers' checks he explained had been given him to dispose of but he wished them restored to their owners. "K. S." said he was "sick and dying."

Good Berries in Interior.

Prineville, Ore.—Central Oregon is developing in population much faster than in the exploiting of its various agricultural resources. On an average 15 crates of strawberries are shipped daily over the 65 miles of stage road to Prineville, where they retail at \$4.50 a crate. The cost of the express shipment from Shaniko to Prineville is \$1 a crate and many crates are injured or ruined in transit.

A careful investigation shows there are small patches of strawberries in many different locations, and that the quality is excellent, and the yield good; but no one makes a consistent effort to grow them.

There are many different varieties and no crop failures. Examination of the central Oregon market shows that no less than \$10,000 will be paid by Crook county this year for strawberries, and a crop can be grown at home far superior to that which is shipped in.

Rain Short in Harney.

Burns, Ore.—The dry weather and frost experienced in eastern Oregon have not slighted Harney county. There has not been a rain storm since April that has done the grain and dry land any good. The few showers have generally been followed by heavy frosts that damaged the grain and potatoes. The spring grains, such as wheat, barley and oats are a failure, excepting where the grain is sub-irrigated. Fall grain will be the only kind that will be worth threshing. On the dry sage-brush land the settlers who have fall rye will harvest good crops, and will have feed for their stock. The indications are that potatoes and all other vegetables will be scarce this fall, unless some heavy rain storms visit this country soon. The prospects were never better in this country than they were in April for good crops, but the weather man seemed to have forgotten this section of the state when the need came for a good rain. Silver river below Burns is dry in several places and stockmen are finding it difficult to water their stock.

SIR WILLIAM BUTLER DIES.

Served With British Force in Canada. Dublin.—The painfully sudden death of General Sir William Butler will be deplored throughout Ireland as well as in England and in those colonies where he had seen much active service.

A brave and capable soldier, he served the British empire in Canada and Africa, and rose to within a step of the highest office in the army, though owing to his frank, honest, and, as events proved, sensible advice given to the government on the day before the outbreak of hostilities in South Africa he was for a time most unpopular in England, and scarcely received the full measure of reward which his services merited. He was as skilled with the pen as with the sword, and some of his books

make most entrancing reading. His wife, too, as Miss Thompson, earned undying fame by her paintings, two military subjects, "The Roll Call" and "The Scots Greys at Waterloo," being among the most admired of the pictures shown at the Dublin International exhibition of 1907.

It is, however, as a patriotic Irishman that Sir William Butler will be best remembered in this country. He was a convinced home ruler, but though his name was several times mentioned for constituencies he never entered parliament. Still in another sphere he rendered good service to his country, being a prominent member of the national university commission and of the senate.

Masons to Build Home.

Vancouver, Wash.—A Masonic home will be built in Washington by the Masons of the state. There is strong likelihood of an effort being made to have the home located in Vancouver. There is available for the buildings and site \$65,000 and \$10,000 is being added each year to this Masonic home fund.

At the meeting of the grand lodge in Tacoma, the grand master was instructed to appoint a committee of five to prepare plans for a home and its government. The committee will look up the question of a site and report to the next meeting of the grand lodge. Four sites have already been offered by Walla Walla.

AGED COUPLE WED AT BRILLA.

Lovers in Youth and Parted, Joined at Last.

Vienna.—A remarkable wedding has just been celebrated at Brilla. The bridegroom was Joseph Stopf, a centenarian, and he married Maria Liga, whose age was 101. These aged people had loved each other in youth, 80 years ago, but their parents would not consent to their marriage and the girl was married to another man. This man died a few months ago, and now the sweethearts of 80 years ago are man and wife.

The bishop of Brilla officiated at this strange marriage and several thousand people assembled outside the church. Both the bride and bridegroom are in good health and comfortable circumstances.

Gerald E. Stanfield is up from Echo.
