

Monster Parasite Expelled From System Was Forty Feet Long

Mrs. W. E. Mills Tells of Her Experience With Horrible Monster—Also Large Tumor Removed from Mr. Chatfield The Fer-Don's European Medical Experts Did the Work

To arrive in Pendleton, Monday, July 11th. Offices will be located at Hotel La Fontaine, 633 Main St.

Many remarkable cures have been performed by these doctors. The cripple has been made to walk and the deaf to hear. Many cases that were given up by other physicians have been cured right before the eyes of the public. The Fer-Don's European Medical Experts' reputation in Oakland, San Francisco, Sacramento, Redding, Roseburg, Eugene and Medford is of the best, and he and his medical experts come to Pendleton highly recommended. All manner and form of diseases of men, women and children are now treated scientifically by new methods which are unknown to other physicians. These experts accomplished great work in Eugene and Salem where they are visiting now. We print below a clipping from one of the Reno, Nevada, papers, which reads as follows:

Monster Parasite Expelled.

"Saturday afternoon an unusual occurrence took place at the offices of the Fer-Don European Medical Experts. Mr. W. E. Mills, who lives at 227 Maple street, Reno, came rushing into the room holding in his hand a package, and exclaimed: 'I want to see the European Medical Experts quick, as I have something here I want them to see.' The crowd that was also waiting to see the doctors became deeply interested and they began to gather closely around Mr. Mills, all eager to see what was the cause of so much excitement. Just then one of the Medical Experts appeared upon the scene. Mr. Mills said: 'I have something in this glass jar I wish to show you, doctor. I have hurried here as quickly as I could. You see my wife called here to see you this morning about 10 o'clock. She had been sick for a long time, and tried in every possible way to regain her health. She was very nervous, her appetite was irregular, her stomach would bloat, and she would belch gas; weak spells with hot and cold flashes would come over her, accompanied with headaches and dizzy spells. For 12 years my wife has doctored without any benefits whatever. 10 different doctors treated my wife and couldn't cure her. Now just think of it. The European Medical Experts treated my wife just one minute. They gave her a dose of peculiar medicine, then sent her home, and in less than two hours' time this awful thing you see in this glass jar passed from my wife's system.' The crowd in the room pressed up so closely that Mr. Mills was taken into another room, where the nature of the parasite was explained to him. The Great Doctor said, in speaking of the matter: 'There is nothing remarkable about this occurrence, as hundreds of these things are brought to us.' Just then Mr. W. Chatfield, who lives at 351 N. Virginia street, came to have a tumor removed.

Bloodless Operation Performed.

"For 15 years I have had a large tumor in my head. I heard of the European bloodless surgeons and made up my mind to have it removed. The bloodless surgeons removed my tumor in five minutes' time—no pain whatever. In fact, I was surprised that it could be removed so easily. The European Medical Experts are so wonderful," exclaimed Mr. Chatfield, as he went out of the door back to his work at Nelson & Peterson's grocery store, where Mr. Chatfield has been employed for over two years.

CURED IN 48 HOURS

"I have been a sufferer from hemorrhages for months, experiencing the most intense pain and agony," says Mrs. R. W. Herman, living at 622 Twelfth street, Sacramento. "I was treated by a local physician for one entire month, but experienced no relief. One day in perusing a daily paper, I noticed an article about the European Medical Experts and concluded to call and see what they could do for me, as I had made a mistake in selecting my physician before I felt satisfied that as they had cured others, they certainly could cure me."

"I called at their offices, explained my condition to one of the experts, and after an examination placed myself in their hands. After only 48 hours' treatment I was perfectly cured, and am today as hale, healthy and hearty as I ever was in my life. I cannot speak too loud in praise of their wonderful cure in my case, and can heartily recommend them to all who suffer as I was doing."

"My husband, kindness itself, was anxious and nervous about my condition at first, but now joins me in all I have said, and is more than pleased at my rapid and complete recovery. He, like myself, was willing to grasp at anything promising a cure, as a

drowning man would grab at a straw. It is almost useless to describe my condition, as it is the same old story—dragging pains, constipation, torpid liver, backache, and worst of all, nervousness. At times I could hardly drag one foot after the other, and words can hardly describe my sufferings. But thanks to the European Medical Experts, I am now a well woman."

MR. P. F. FENWICK, OF OROSI, CALIFORNIA, WHOSE DAUGHTER IS A NURSE IN THE HOSPITAL AT VISALIA, HAD A LARGE TUMOR.

For a long time this tumor growth had caused him much pain and worry and the dread of the surgeon's knife had prevented him from undergoing an operation.

He came to the European Medical Experts and placed his case in their hands. No knife was used, and according to Mr. Fenwick's own statement, he suffered not the least pain. There was merely an application of one of the secret preparations and in five minutes' time the tumor was lifted from the head and it was all over.

"How did you do it?" this Great Doctor was asked. The European Medical Experts do these things with the aid of their secret and powerful preparations. At their office they remove many tumors and cancers; they cure appendicitis (in cases where the pus has not formed in the appendix) and perform many other wonderful cures with the syringing and other treatments. The knife is never used by these men, as their system of bloodless surgery does away entirely with the painful operations.

The European Medical Experts will arrive in Pendleton, Monday, June 11th, their offices will be located at Hotel La Fontaine, 633 Main St., office and reception rooms on second floor. They charge \$1.00 for consultation and examination; Office hours from 10 to 12 noon, 2 to 4 and 7 to 8 p. m. Sundays from 10 to 12 noon.

SALVAGE IN ISLANDS, SAYS SAMUEL GOMPERS

(Continued from Page Two.)

take care of their grievances and remedy all wrongs.

"The men returned, but nothing was done for the people, and the owners of the plantations evidently took another course to drive the people into submission. It started with the arrest of their three leaders, A. Vasilieff, Blouff and Surupoff, who, charged with vagrancy, were sentenced to three months imprisonment; then came 10 more arrests for alleged vagrancy, and six of them were sentenced to six months' imprisonment.

"At the time Vasilieff was arrested the people rose in indignation, demanding an explanation for the arrest of their leader, but they were brutally attacked by the police, brutally wounding many of the men, as well as the women and children. Rumors have been spread through the press dominated by the planters, with a view of overawing the peasants and forcing them into submission that the police commissioner of Honolulu had ordered the police to shoot to kill."

A Frightful Wreck

of train, automobile or buggy may cause cuts, bruises, abrasions, sprains or wounds that demand Bucklen's Arnica Salve—earth's greatest healer. Quick relief and prompt cure results. For burns, boils, sores of all kinds, eczema, chapped hands and lips, sore eyes or corns, it's supreme Suresst pile cure. 25c at Tallman & Co.

AVIATORS WILL DROP BOMBS IN ODD RACE

London.—A bomb-dropping competition for airmen is likely to be one of the attractions at the forthcoming Midland flying meeting at Dunstall Park race course, Wolverhampton, which opened recently.

It is hoped by this means to go a considerable way toward settling the problem of how much damage could be done by men in aeroplanes dropping bombs on a town or dockyard, an army, or a fleet.

Somewhere near the center of the course a space will be provided and indicated to competitors and spectators by a white sheet or other suitable material, into which the "bombs" may be thrown.

Competitors, while circling above, will drop "bombs" into the sheet and the prize will be awarded to the competitor scoring the greatest number of points.

Valuable evidence is expected to be obtained as to the possibility or otherwise of a straight aim under such conditions, and as to the weight of bomb which can be most easily dealt with.

The bombs, it need hardly be said, will be "dummies." The prize will be \$500.

NEWS OF THE NORTHWEST

The La Grande Chautauqua.

La Grande, Or.—Mrs. Urrinch, the noted W. C. T. U. lecturer, and Professor Cordley of O. A. C., were the central figures in the third day of the La Grande Chautauqua Tuesday. The crowds are large. Monday Judge Stephen A. Lowell of Pendleton delivered the oration of the day.

Hood Twice Victor.

Hood River, Or.—The Hood River Heights baseball team won a double header Monday at Stevenson. The score, in the morning game was 1 to 0; in the afternoon game 3 to 1. No hits were secured off Hart of Hood River in either game. Hood River defeated The Dalles by a score of 11 to 2.

Handle Factory at McMinnville.

McMinnville, Or.—McMinnville's newest manufacturing industry, a handle factory, began operations last week. A. C. Ahrendsen is at the head of the factory. B. K. Haveland of Newberg is foreman. The capacity of the plant will be about 250 handles per day. Mr. Ahrendsen received his first order for shipment today from Middleton.

Notarial Commissions.

Salem, Or.—Notarial commissions have been issued to James McElwood, Portland; P. J. Glauz, Hammond; William Ulrich, Medford; Oliver S. Brown, Grants Pass; J. J. Van Kenlen, Adel; M. E. Pogue, Salem; H. F. McGrath and J. G. Richardson, Portland; Henry Henderson, St. Johns; B. M. Lombard, Portland; Percy A. Cupper, Salem; J. E. Goyer, Baker City.

Attack Newspaper Office.

Laidlaw, Or.—Last Thursday night an ineffectual attempt was made with stones to wreck the building housing the plant of the Laidlaw Chronicle. Later, between 2 and 3 o'clock in the morning, an attempt was made to set fire to the building, but the incendiary was frightened away as he was applying the match. The building occupied by the Chronicle is the largest in Laidlaw. For the past two months threats have been made to burn the Chronicle office.

Fire at Long Creek.

Canyon City, Or.—The most serious fire that has swept Long Creek since 1895 destroyed fully half of the business part of that town Monday afternoon. The fire originated in Non-unital Hotel, and in addition to destroying that building consumed the buildings and stocks of the Long Creek Drug company, the Long Creek Mercantile company, the Long Creek Hotel, meat market and Masonic hall. The loss will reach \$25,000, only partially covered by insurance.

Vancouver Youth Drowns.

Seaside, Or.—Elmo Myers, 20 years old, of Vancouver, Wash., was drowned Monday afternoon while surf bathing in front of the Moore pier. The drowning was due to heart failure it is thought, superinduced by exhaustion caused by the swimmer's attempts to reach the shore after going too far out.

Myers was an employee of the firm of MacSweeney Brothers, Vancouver contractors. He was spending the Fourth here.

Price of Beer Goes Up.

Medford, Or.—Beer is no longer 5 cents nor whisky 10 cents a glass in Medford saloons. Hereafter the thirsty will have to pay 10 cents for beer and mixed drinks, and bottled goods will be 15 cents. This raise in the price of wet goods, the liquor dealers claim, is due to the \$1000 license now to be paid by the saloons as a result of an increase ordered by the city council, the annual license heretofore being \$800. Medford now has 10 saloons. The only other "wet" towns in Jackson county are Jacksonville with four saloons, Gold Hill with four and Woodville with one. Two years ago the county voted "dry" but the courts declared the election illegal. The prohibitionists are preparing to have the question voted on again at the election this fall.

"Strangler" Smith Loses.

Roseburg, Or.—The feature of the Fourth of July celebration at Oakland was a wrestling match between "Strangler" Smith and Emmet Hall, both well known in the northwest. With each man having a fall to his credit, Hall was awarded the match in the third round by Referee Greenland of the Multnomah Athletic club. Hall won the first fall in 24 1-3 minutes. Smith captured the second in 8 minutes and 56 seconds. In the third round Smith began using his strangle hold, which was barred, and Hall struck him. Greenland warned Smith sharply, but hardly were the wrestlers at it again before Smith fastened his strangle hold once more, and Hall was promptly declared the winner, two minutes after the round had opened. The match was for a purse of \$100 and a side bet of \$200.

Wheat Free From Smut.

Walla Walla.—Smut and barley are prevalent in wheat in a much smaller degree than ever before, according to the best posted farmers of the valley. The loss in dockage this year will be almost entirely due to weeds, and the fact that the crop in the Walla Walla valley is not marketed at 100 per cent is due to this cause alone.

Smut usually causes more or less trouble in the valley, and has been responsible in some years for explosions destroying threshing outfits. This year, however, there will be little danger from anything of the kind. H. D. G. Cox, one of the best known farmers of the valley, says the percentage of smut will be small compared with other years.

INDIANS HAD SAFE AND SANE FOURTH

REAL AMERICANS HELD GREAT ENCAMPMENT

Congregated Near Mission Station for Five Days—Services Held Each Day With Much Enjoyment Between Times.

(J. M. Cornwell.)

The Indian congregation of Tutuilla has just closed what is conceded to have been one of the best July encampments ever held by them. Their big tent was erected in the shade near Mission station, four miles from the church, and the tents and tepees of the people and missionary encircled it for there were "the upper springs and the nether springs" of the finest water, and ideal weather prevailed throughout. The encampment lasted from June 30 to July 4, and there were from 120 to 150 people present all the time. Since the dates coincided with the quarterly communion season, the first days were spent in preparatory services before communion with preaching each morning and evening by Rev. James G. Dickson, the Indian minister. Rev. J. E. Youel, the pastor evangelist of the presbytery, spoke also at this time and assisted in the singing. Mr. Dickson's preaching was evangelistic in tone throughout the services. Sabbath morning he made an impassioned appeal for all to follow Jesus who had suffered so much for all. The communion service was conducted by the missionary, Rev. J. M. Cornwell, who also administered the bread, and Rev. J. R. Knowdell, superintendent of Oregon Anti-Saloon league, who was present, administered the wine. There were 60 communicants present to partake. The individual communion set which was recently presented to the Tutuilla congregation by the Calvary Presbyterian church of Portland, was used for the first time and highly appreciated by all. Though it was regretted that Dr. Thomas H. Walker, pastor of the Calvary church could not be present to assist in the first service, as had been hoped. The non-Christian and Catholic Indians are encamped at Cayuse station about seven miles up the river. On Sabbath afternoon, the missionary having made previous arrangements with the leader of that camp, took Rev. J. R. Knowdell with Mr. Dickson and about twenty-five good singers of men and women and conducted in their dancing both a religious service. There are about 100 camps and over 500 people present with many visitors from neighboring reservations. When the Christians arrived the "crazy" rode the rounds of the tents and announced our presence and invited all to assemble at the booth. The singers sang lustily a number of gospel hymns, and the people gathered in number over 200. After prayer led by Elder Robinson Minthorn, Mr. Knowdell was introduced by the missionary who was acting as leader for the service and he made a strong temperance address, illustrating same with maps, and showed all their duty this fall if the saloon is to be driven from Oregon. Mr. Dickson was interpreter, and later Mr. Dickson addressed the people before the service was closed. There were hearty hand shakes by all at the close. It is at this camp of non-Christian and Catholic Indians that the "and otherwise"—than a safe and sane Fourth is transacted.

With over 500 people present, and many that are "undestructible" citizens from this and other reservations much drunkenness, immorality, racing and card playing and gambling on same, and dancing and other things not to be mentioned are indulged in during two and at times three weeks of this protracted Fourth. During this time the bears fleece the lambs and the same lambs make a howl if any effort is put forth to keep them from being fleeced. On the other hand—the safe and sane—was written all over the Christian camp. Besides the happy communion season, and the impassioned temperance appeal of Mr. Knowdell and good talk of others, the booming of giant crackers, and streaks of fire from rockets and candles after midnight in the wee hours of the morning announced to all asleep and those who wished to sleep that the glorious Fourth of July was already a reality. All morning each camp was a beehive of activity for the committee had distributed to each its quota of the 100 pounds of salmon and 300 pounds of beef to be prepared for the big public dinner. About \$50 worth of other good things were purchased from the bakers with lemonade galore. Strong men were preparing four large tables in the tent which seated 140. In all 202 Indians and white people partook and took of the feast, for what each one can't eat he is at liberty to carry off, and what was left the committee in charge distributed to the different

homes. In the afternoon the games began. There was some baseball, but what caused the most merriment was the climbing of a slick pole, bag races by the little boys, searching for a pole blindfolded, and searching for money in a deep pan of flour with the mouth. These sports furnished so much fun to both young and old and made all laugh so much that any bad effect from so hearty a dinner was offset. We wish to note here that the missionary was the only one who succeeded in climbing the slick pole. He went to the top some 20 feet and was disappointed when he felt for more pole to climb, and found none.

Prizes were given to all who excelled in these games. The last service was held Tuesday morning at an early hour, and the big tent was removed and returned to the mission and the people went to their homes and their work which they had left, happy in their effort after such a Fourth to counteract the bad influence of the other camp and to keep the Christian people away from it. And all are determined to make it still better next year.

Napoleon's Grit

was of the unconquerable, never say die kind, the kind that you need most when you have a bad cold, cough or lung disease. Suppose troches, cough syrups, cod liver oil or doctors have all failed, don't lose heart or hope. Take Dr. King's New Discovery. Satisfaction is guaranteed when used for any throat or lung trouble. It has saved thousands of hopeless sufferers. It masters stubborn colds, obstinate coughs, hemorrhages, a gripe, croup, asthma, hay fever and whooping cough and is the most safe and certain remedy for all bronchial affections. 50c and \$1. Trial bottle free at Tallman & Co.

COOK'S TUBE FOUND ON MOUNT MCKINLEY

Colorado Springs.—P. J. Carrigan, a seaman and former Alaskan miner, who is here searching for a former mining comrade, said that he had ascended Mount McKinley in Alaska and had there found the records which Dr. Cook, the discredited Arctic explorer, claimed he left on the summit of the mountain.

Carrigan says while placer mining in the Mount McKinley district in June, 1907, he struck what he thinks was the Cook trail and followed it to the top of the mountain. Carrigan claims that he had a letter from Cook while a passenger on the steamer on which Cook was returning after the failure of his first Mount McKinley expedition and at that time had suggested to the explorer the feasibility of the route by which Cook says he afterward reached the summit.

According to Carrigan's story, which John R. Bradley, the millionaire and former backer of Dr. Cook, is inclined to believe is true, he found, on reaching the summit of Mount McKinley, a copper tube containing records and an American flag, sticking out of a crevice in a boulder in such a way that it would attract the notice of anyone coming

AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pinkham's Vegetable Compound

Milwaukee, Wis.—"Lydia E. Pinkham's Vegetable Compound has made me a well woman, and I would like to tell the whole world of it. I suffered from female troubles and fearful pains in my back. I had the best doctors and they all decided that I had a tumor in addition to my female trouble, and advised an operation. Lydia E. Pinkham's Vegetable Compound made me a well woman and I have no more backache. I hope I can help others by telling them what Lydia E. Pinkham's Vegetable Compound has done for me."—MRS. EMMA LIME, 833 First St., Milwaukee, Wis.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

within a hundred feet of it. Carrigan says that not until his return from Alaska recently did he learn that Dr. Cook's story of his ascent of Mount McKinley was doubted.

The world's most successful medicine for bowel complaints is Chamberlain's Colic, Cholera and Diarrhoea Remedy. It has relieved more pain and suffering, and saved more lives than any other medicine in use. Invaluable for children and adults. Sold by all dealers.
