### Newsy Notes of Pendleton

**Official Weather Report.**  
Maximum temperature, 91.  
Minimum temperature, 52.

**Two in Police Court.**  
John Jurdies, reappeared in police court this morning after an absence of several weeks. He was fined \$5 for being drunk. John Lang paid a fine of \$10 at the same time for being drunk and disorderly.

**Marlow-Campbell.**  
At the Methodist Episcopal church parsonage Friday, July 8th at high noon, Rev. N. Evans united in marriage Mr. Bert L. Marlow of Baker City, and Mrs. Anna R. Campbell of this county.

**Extending Water Main.**  
The city water commission is now engaged in extending its water main from Jackson street to Haley on Lincoln and then out to Haley to the Walters' mill. A force of 18 men is being employed.

**No. 104 in Commission.**  
O. R. & N. engine No. 104, used as a switch engine in the local yards and sent to the repair shops several weeks ago, following a collision with a cafe car, is again on duty. The engine was returned from the Albina shops yesterday.

**Dr. Hoisington Buys Auto.**  
Dr. G. S. Hoisington has purchased the Chalmers-Detroit automobile purchased a few weeks ago by J. R. Dickson. It is a five passenger touring car of this year's model, smooth running and considered one of the nicest in the city.

**Gilbert Bayly.**  
John J. Gilbert, a weaver in the Pendleton woolen mills and Miss Bessie Bayly of Eugene, were married last evening at Brown Hall by President W. H. Bleakney of the Pendleton academy. They will make their home in this city.

**Observing Crop Conditions.**  
H. H. Cohen, market editor for the Oregon Journal, is spending the day in Pendleton. He is on a tour of eastern Oregon for the purpose of ascertaining crop conditions for the Journal and has been writing some very interesting articles regarding the conditions in this section of the state. Mr. Cohen is a veteran member of the Journal staff and is the best market editor in the northwest.

**Another Runaway.**  
The runaway spirit seems to be rife for another horse took a disastrous spin this morning. It was the animal used by L. K. Curtright in hauling his delivery wagon, which this time decided to try his hand at lowering the speed records for the harness events. All went well until a telephone pole by the city hall, loomed up in front. There was a collision and a badly demolished rig.

**Rector Gets Vacation.**  
By action of the vestry of the Church of the Redeemer, the Rev. Charles Quinney, rector of that church, has been granted a three weeks leave of absence, the same to start August 1. On August 2 Mr. and Mrs. Quinney will leave for Anaconda, Mont., where they will visit for a time with their son. They will then revisit Mr. Quinney's old parish at Virginia City, Mont.

**Injured by Falling Beam.**  
Walla Walla, Wash.—When a chain from the derrick carrying a big steel girder five stories in the air slipped and the iron fell, two men narrowly escaped death here Wednesday.  
The big beam fell three stories to the framework of the second floor, where it rebounded and struck Bert Schrimper and O. D. Parker, both carpenters. Schrimper was badly cut about the head, and Parker's hip was crushed. Neither are reported to be fatally injured.

**Saw the Big Fight.**  
E. B. Morris, traveling salesman for the Winchester Repeating Arms company, arrived in Pendleton yesterday, fresh from the big fight at Reno. But like others who witnessed the fiasco he is too badly disgusted to even discuss the alleged battle. Morris is here to make arrangements for the appearance of Mr. and Mrs. Ad Toppervien of San Antonio, Texas. They are said to be the world's greatest wing and fancy snots with rifle, revolver and shotgun and will give a free exhibition in this city on July 27. They are advertising the Winchester guns and ammunition.

**Two for Reform School.**  
Two candidates for the reform school were brought down from Freewater this morning by Constable Propeck. They are Elmer and Henry Loyal, aged 11 and 13 years and the sons of a woman who was deserted by her husband about two years ago. An older brother was committed to the reform school several months ago. While the boys are said to have been incorrigible for some time the particular offense with which they are now charged is that of stealing \$41 from a young workingman. Practically the entire sum was recovered by the constable.

**EMPLOYEES DISCUSSING GARMENT WORKERS' STRIKE**  
New York, July 8.—Employers of the garment workers, 50,000 of whom struck yesterday, are holding a conference this afternoon to decide on a course of action. The strike is the largest here for several years and promises to get bigger. Unless the garment workers received a favorable action to their demands it is believed that 20,000 sympathizers will join. The employers are divided. Some want to arbitrate, but most seemingly rather would fight.

### BUTTER CREEK LINE AGAIN CHANGES HANDS

#### INDEPENDENT TELEPHONE COMPANY REPURCHASES

**Previous Transaction Made Invalid by Failure to Make Payments When Due—New Board of Directors—Asa B. Thomson Manager.**

The Butter Creek Telephone Line, the most important independent telephone system in eastern Oregon, has again been taken over by the Eastern Oregon Independent Telephone company. Several months ago the line was sold to the Interstate Telephone company, of which R. H. MacWhorter is manager, but the purchasers were unable to make the payments when they became due and the line was taken back.

At a recent meeting of the stockholders a new board of managers was chosen and Asa B. Thomson was named as manager. He was manager of the company before it was sold.

The new board of directors consists of Robert Stanfield, William Slusher, G. B. Saylor, A. B. Thomson and C. J. Smith.

#### MARSHALL, MO., WAS DRY.

But the St. Louis Drummers' Delegation Came to the Rescue. When the state executive committee of the United Commercial Travelers chose Marshall, Mo., as the place for the annual state convention, apparently they didn't know the citizens of Marshall some time previously had gone to the polls with their little white ballots and returned a verdict against J. Barleycorn.

But when the delegates reached Marshall the other day they were confronted by the melancholy intelligence. Whereupon some of them were in favor of postponing the convention.

Down to St. Louis, however, the bad news traveled on Mercurial wings. And when the St. Louis delegation reached Marshall they brought along two carloads of the product that has made St. Louis renowned the country over.

Naturally, the W. C. T. U. had a meeting when it heard of it. But the St. Louis delegates had a meeting first and distributed the two carloads in question among several other carloads of delegates before the product could be seized. Considering it discourteous to search its guests, Marshall dropped the matter. And nobody died of thirst.

But it was said by "drummers" returning to Kansas City from Marshall that a list of towns available for future meetings is being prepared for the guidance of the state committee.—Kansas City (Mo.) Star, May 17, 1910.

#### KAISER SEEMS TO BE COSTLY LUXURY

Berlin.—It is being discovered in Germany that the kaiser is an expensive institution to keep up. A comparison shows that every man, woman and child in Prussia contributes on an average of 20 cents per year for the upkeep of the kaiser, which is nearly three times as much as England pays for the maintenance of her royal family, five times as much as the Russians pay for theirs and more than twice as much as the Austrians have to provide.

Compared with these prices republics are "dirt cheap," for the president of France only costs each Frenchman a trifle over 1-2 cent a year, while Americans only pay about 1-96th cent apiece for their president and expect to get a first-class article, too.

#### CARUSO GIVES 5000 FRANCES TO CHARITY

Paris.—Mme. la Comtesse de Grefule recently invited the golden-voiced Caruso to sing for the benefit of a poor school. The hall selected was the Trocadero, which seats 10,000 people. It is needless to say that every seat was filled and the lobbies packed with people unable to buy seats.

When the concert was over the benevolent countless found her charity the richer by \$13,000. She sent her secretary with a letter of thanks to Caruso. When he opened the envelope he found it contained 10,000 francs. Without a moment's hesitation he took 5000 francs from his own pocket, added it to the 10,000 which the countless had included, and sent the whole back for the benefit of the children for whom he had sung.

This was indeed a magnificent gift, but Caruso says it was a privilege as well as a pleasure to help along so worthy a work.  
He made light of his generosity; indeed, he refused to talk about it, but there are several thousand poor waifs in Paris who bless his name and will never forget his kindness.  
Caruso was very popular in Paris before this concert. He has now become the lion of the hour.  
Count Zeppelin is 72 years old, but he can fly as fast and as far as if he were only 22.

### PENDELTON TO PLAY GARDEN CITY SUNDAY

Pendleton and Walla Walla baseball teams are to meet on the diamond next Sunday in this city for the first battle of the season between these two cities. That it will be a game worth seeing, there is not the least doubt in the minds of the fans of both cities.

Though Pendleton ended second in the race for the championship of the Blue Mountain league, no one believes for a minute that the Weston team is in the same class with Pendleton. On the other hand Walla Walla also has a good aggregation in Bader's Mixtures.

The Garden city fans are anxious to duplicate last season's victories over the Pendleton aggregation and for that reason two extra coaches will be attached to the regular morning train in order to accommodate the excursion crowd which is coming over. Sturgis will probably be in the box for Pendleton, while Harlan will play short. Baker, the mighty sticker will hold down the first station, while Ward will be behind the bat and the remainder of the team will be about as usual.

#### STATISTICS ON PRODUCTION OF WEALTH PRODUCERS

Washington.—A bulletin just issued by the bureau of the census on cotton production for 1909 in the United States shows that the value of the cotton crop for that year was about one-half that of the corn crop; was nearly \$100,000,000 more than that

of the wheat crop, and was twice the value of the oat crop.

It is pointed out that the world's production of gold in 1909 was the greatest ever produced, \$160,000,000, and this amount is but slightly more than half the value of the American cotton crop for last year, and that the total building expenditures for 1909 in 105 cities of the United States, which amounted to \$857,530,869 was only \$45,500,000 more than the value of the cotton production for a like period.

Cotton growers are becoming annually more efficient and successful in subduing and holding in check the ravages of the boll weevil through following the instructions through the national and state departments of agriculture. The bulletin says. Investigations by the former have proved that, through a more careful selection of seeds for planting and better methods of cultivation, the maturing crop can be so hastened by the use of commercial fertilizers and cultural methods as to develop a large percentage of the crop before the weevil has so multiplied as to materially damage it.

The most effective check for the pest is dry weather. The damage from it is practically in proportion to the precipitation. The greatest advance in boll-weevil ravages in 1909 was that of 120 miles in southeastern Mississippi, but the insect failed materially to extend its range in to the Yazoo river valley. In Oklahoma the greatest advance was only 30 miles, while the average was only 10 miles.

The bulletin further says that the United States in 1909 contributed 59.6 per cent of the commercial cotton; British India, 21.8 per cent; Egypt 5.5 per cent; and Russia, 4.3 per cent.  
The world's production in 1909 amounted to about \$270,000,000 pounds, valued at about \$1,000,000,000.

#### IRISH PARTY IS STRONGER.

Ireland Appears More United Than Formerly.  
Dublin.—Realizing the importance of presenting a united front in the next parliament the Irish parliamentary party is campaigning as actively almost as though a general election was in progress.

The Redmonds, Devlin, Lillon, O'Connor and the other leaders are making speeches constantly and are paying especial attention to the constituencies represented by O'Brien malcontent.

It is confidently predicted that the O'Brianites will not be able to carry more than three or four seats at most, and it is regarded as well within the line of possibility that both O'Brien and his lieutenant, Timothy Healy, will be defeated.  
Bishop O'Donnell said recently: "I do not remember any time when the country was more united in support of the Irish party than it is at present; neither was there any time when that support was better deserved."

#### POST OFFICE RECEIPTS CONTINUE TO INCREASE

That the receipts of the Pendleton postoffice are constantly growing is shown by the report of Assistant Postmaster Harry Rees, made for the quarter ending June 30. This shows that the receipts for the quarter amount to \$4865.74. Those for the same quarter last year only amounted to \$4,597.84, leaving a gain of nearly \$300.

The following is the receipts of the past quarter by months:  
June ..... \$1,525.96  
May ..... 1,463.41  
April ..... 1,886.37

O. Johnson will get his licking some day; they all do.
