THE ONLY SOLUTION.

Voters of Oregon will be compelled to pass upon 32 legislative measures being due directly to the good wheat when they vote this fall. The number Y is entirely too large and many of the measures are of such a nature that voters simply cannot hope to judge intelligently as to their merits: Conspicuous in this class are the

eight county division bills that have been filed. Each of these measures pertains to an issue that is strictly tocal in character. The people of the state at large are not interested in county division disputes. The average voter cannot hope to judge of the merits of these division bills. From one side he will be showered with literature favorable to division; from another quarter he will be implored to vote against division. Often people residing in the proposed new coun. Indianapolis as though it were off the ties do not want division to carry. This is most assuredly true with respects to "Orchard" county. The towns of Weston and Athena are strongly opposed to the creation of that county although they are includec within the boundaries of the embryo county. People living in the country tributary to Weston and Athena do not want division. They know to would inture them.

Now what is the poor voter to do? people who are directly interested in for. them. It is pretty certain that such a law will be passed by the next legislature. Such a law was passed by the some returning Pendletonians are last legislature but for some un-liable to imagine they have gotten the known reason was vetoed by .Gov- wrong town. ernor Chamberlain following the close of the session.

In order to hold these division measures until they can be settled with a proper degree of intelligence It will be necessary to vote down the initiative bills that have been filed, Vote "No' upon every county division bill. To do so will be to justly rebuke the divisionists. Those men are abusing the initiative law. They have taken advantage of an opportunity to cover the ballot with division bills, thinking the people will vote daughter wants to remain as she is blindly for them. Show them that the people are not to be imposed upon in this manner.

THE SCHOOL IS NEEDED.

In a communication published in a Portland paper Clark Wood of Weston makes a very able argument for Ely's Cream Balm the support of the Eastern Oregon Normal School. He points out that It cleanses, "single normal schools are contrary beals and protects to the educational trend of the age the diseased memto the educational trend of the age and are the policy of seven states only. The normals are not properly understood by the people. They have been libelled and purposes, that many people are unjustly disposed against them. At the last legislative session the normals were jobbed, for political reasons, by a embination of which Jay Bowerman, president of the senate, was the moving spirit. That action disgraced the state of Oregon and this state now ducational world.

"DIFFERENT."

Though the administration papers have been loud in proclaiming the friendship between Roosevelt and Taft jects the two men hold ideas that are different in some respects at least Not long ago the news was flashed over the country that the president was displeased with Senator Beveridge and with the Indiana progressives. To show his displeasure it was citizen, announced that upon his westward trip he would "pass up" the city of map, just because Beverldge lives

But the colonel of the rough riders who does not take advice from Frank Hitchcock, John Hays Hammond and and right before a crowd of amazed others of that class, is openly in favor of Beveridge and will make a speech in his behalf this fall. All this regardless of any differences there may exist between Senator Beverldge and the president.

FIXING IT UP.

An amusing story is being told in ocial circles in London about a young American woman who was anxious to be presented at a certain European court. BE COUNTED.

Mark Tulley, state treasurer and candidate for re-election, was a traveling salesman for twenty-five years and has a fund of good stories of the road, says the Kansas City Journal He tells that one time he was in a town in central Kansas where a protracted revival meetings was going on One of the residents of the town was named Toby. He was a tall, gaunt man, with long whiskers and was very fond of whisky of which he frequently imbibed beyond his dimit. This man was attending one of the meetings, and the revivalist was busy scoring every form of vice and calling down drastic condemnation upon

"Woe to the drunkard! Woe to the drunkard! Woe to the drunkard!" he houted in doleful tones.

Old Toby got on his feet and tugged t his whiskers and the fact that he stuttered only made his interruption more marked: "G-g-guess th'th'that's m-m-e! I-I-I I'm p-p-present!"
The preacher went on: "Woe to the liars! Woe to the liars! Woe to thieves! Wee to the thieves!" voice was dolorous and sepulchral. Again old Toby got on his feet. He motioned around the room, swinging

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be

at her finest and fairest. Why isn't it so? The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr.

Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription." Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R.V. Pierce Pres., Buffalo, N.Y.
