NO 6957

PENDLETON, OREGON, MONDAY, JULY 18, 1910.

LONDON POLICE ARE BAFFLED

Unable to Clear up Mystery of Body Found in Crippen Cellar.

MUTILATED BODY IS BURIED, UNIDENTIFIED

Doctors Unable to Testify That Body is That of a Woman, Much Less That of Mrs. Crippen—Inquest is Postponed for a Month—Detectives Trying to Find Fugitive Dentist—Many Persons Visit Crippen House Where Body Was Found.

London, July 18.—The mutilated and eaten body, supposed to be of Mrs. Crippen, was buried in a pauper's grave today unidentified. The great illington murder mystery is now deeper still. Doctors testified they can not tell whether the skeleton is that of a woman, much less that of Mrs. Crippen. The inquest has been postponed a month to give Scotland Yard time to unearth evidence that the woman is dead and find Doctor Hawley Crippen, the American dentist, suspected of the crime. Every steamer in New York is being searched at New York for him.

The coroner heard the testimony of detectives and physicians today. Dr. Marshall and the government physician testified there is no proof of murder, owing to the bad decomposition of the body. The police admit the strongest link in the evidence are the disappearance of Crippen and his wife, the conflicting statements and letters of which Crippen wrote after his wife had dropped from sight.

The Hilldrop Crescent residence of Dr. Crippen, in the cellar of which the mutilated body of the woman was found last week, was visited yesterday by thousands of Londoners. All day long the house was the center of attraction for great crowds of the curious interested in the digging operations of the police, which have been renewed in the hope of finding some further clue to the crime.

During the latter part of the week there has been a remarkable series of murders in London, Newcastle and Cromer, and in every case the murderer has escaped. According to the published statement of her married sister, Ethel Leneve, who is believed to have been Dr. Crippen's companion when he disappeared from his home, in a hurried visit to her on July 9, professed the greatest anxiety over the possibility that she was not Crippen's legal wife.

After the announcement of the death of Belle Elmore, Dr. Crippen introduced the Leneve woman as his wife, although there had been no proof forthcoming so far that a marriage took place. The sister says Crippen informed Ethel Leneve that he had just discovered that Belle Elmore was still living and that he proposed to go to America to clear up the matter.

Steamers Searched.—Three inbound steamers from British ports were searched for Dr. Harvey Hawley Crippen today—the Cedric from Liverpool and Queenstown, the Columbia and Glasgow, and the Cleveland from Hamburg, Southampton and Cherbourg—but on none of them was a trace of the man for whom the police of the world are looking.

Three detectives and friends of Belle Elmore, the doctor's missing wife, scrutinized every passenger. Although they were disappointed once more, they still have hopes of interception the doctor here.

Racer Injured.—Long Beach, Cal., July 17.—A B. Chubbie, a motorcycle racer, was speeding at 50 miles an hour on the strand here today when the mud guard of the machine caught in the spokes of the front wheel and hurled the rider over the handlebars. Chubbie's skull was fractured and he probably will die.

Rain in Wyoming.—Cheyenne, Wyo., July 17.—Reports from the dry farming country between Cheyenne and the Nebraska state line say that the heaviest rain of the season fell last night and early today, insuring maturity of crops threatened by prolonged dry weather.

ARTIST EARLE QUILTS AFFINITY BUSINESS

New York, July 18.—Ferdinand Earle, the artist of affinity fame, announced his retirement from the affinity business today. "Personally I rather like the affinity game," said Earle. He says he won't try any more because he wants to shield his mother from notoriety.

PINCHOT WILL BOOST CALIFORNIA INSURGENCY

San Francisco, July 18.—It is believed that the insurgent cause in California will be given a big boost when Pinchot, Roosevelt's close friend speaks here tomorrow night. While the formal subject of his address is not announced it is believed the slogan "People vs. the Insurgents" will be the keynote of his speech. Pinchot will support Hiram Johnson, the progressive candidate for governor and William Kent, in the second congressional district, Kent is running against Representative McKinley.

Pastor Deposed.

La Porte, Ind., July 17.—The official board of the First Christian church has announced that it had deposed Rev. J. J. Cole from the pastorate and that he would not be permitted to preach tomorrow for the alleged reason that he swam in the lake on Sunday and that he drank some whiskey on the order of a physician and that he had been seen at the theater.

Mr. Cole in a public reply does not deny the allegations but says he offended the members of the board by not appearing in evening dress at a church reception.

Roosevelt to Church.

Oyster Bay, July 17.—Colonel Roosevelt went to church today. Mrs. Roosevelt and Archie were with him. This week is to be a quiet one at Sagamore Hill. Colonel Roosevelt hopes to put in most of the time writing speeches for his western trip. The only interruption now on the program are his visits to his editorial office in New York on Tuesday and Friday.

Fires Again Threatening.

Calgary, Alb., July 17.—The committee of independents organized to arrange a state convention for the nomination of candidates in opposition to the republicans and democratic state tickets, today made public a formal call for a convention to be held in this city on July 28.

RECLAMATION CHIEF STOPS IN THE CITY

SAYS EXTENSION OF PROJECT IS UP TO BALLENGER

A. P. Davis in Pendleton en Route to Hermiston on Official Visit Says His Department Has Completed Work of Investigation.

The west extension of the Umatilla project in this county is up to Secretary of the Interior Ballenger, according to A. P. Davis, chief engineer of the reclamation service today, who is in the city this afternoon on his way to Hermiston for an official visit to the present project. He came in from the East on No. 7 and will go on to Hermiston on the motor car this afternoon. After an inspection of the Umatilla project he will go on to Klamath.

By stating that the proposed extension of the project is now up to the secretary of the interior, Mr. Davis meant that his department has completed its work of investigation and has reported its findings to the secretary, that the money for the work is available and that all that remains to be done is for the Secretary of the Interior to order the work to commence and the extension will be undertaken.

It will be remembered that the government engineers made their investigation of the proposed extension several months ago and that they reported the project as entirely feasible.

Davis is making an official tour of all the projects in the west and as a result of long and constant exposure to the sun's rays his face is wearing a tan that flatteringly belongs to a harvest hand.

ABOUT THE COOLEST SUICIDE ON RECORD

New York.—The authorities declare the suicide of the stranger who jumped from the Brooklyn bridge to the roadway 200 feet below was the coolest exhibition in the history of New York's "bridge" suicides.

Some minutes before his leap the stranger accosted a passerby at the bridge entrance. He rolled a cigarette and gave the man one. After studying the race track news of a sporting extra, he handed the paper to the man, remarking indifferently on the outcome of a race. Then without a word he climbed the tower and leaped. It is believed the suicide had been disappointed in love.

JOKER IN BILL WILL PREVENT ANY CHANGE

Washington, July 18.—The light house board is no different today than it was before congress adopted the law providing for reorganization of the board on a civilian basis. Unless some way is discovered to pay civilian inspectors, it is asserted the board will continue to operate on a purely military-naval basis. A joker in the bill, it is said, was found in the bill. Although the inspectors are provided for, nothing is said about pay.

TAFT WANTS NONE OF IT

President Intimates He Will Not Mix in State Politics.

WADE ELLIS HAS HIS TRIP FOR NOTHING

Chief Executive of U. S. Decides He Has Enough to Ro to Steer the Republican Bark Through Waters of National Politics—Listens to Ellis, Dick and Burton But That is All—Boards Yacht for Cruise Along Coast.

Beverly, July 18.—President Taft, aboard the Mayflower, sailed at 3 o'clock this afternoon. There are 13 in the presidential party, mostly members of the family.

Besides the president the party includes Mrs. Taft, his brother Charlie, Horace Taft, Professor Louis Moore, Mrs. Moore, Secretary Morton, Beckman, Winthrop, Mrs. Winthrop, Captain Butt, Stenographer Webster and Jim Sloan of the secret service.

Beverly, July 18.—Politicians who want endorsements to state platforms or candidates for state office, may as well stay at home. President Taft has intimated strongly that he, as head of the republican party, has enough to do in national politics without mixing in state squabbles. Wade Ellis today arrived with the Ohio state platform, but the president would not play with it. He has made it clear that politicians must settle their own troubles.

Taft took a farewell turn at golf with John Hays Hammond today and this afternoon boarded the yacht Mayflower for a cruise along the New England coast. He will touch a number of ports and deliver addresses. Just before leaving the president went over the Ohio situation with Wade Ellis and Senators Dick and Burton, although he had decided not to interfere with state politics. His first stop may be Eastport, Maine, July 19, Bangor, Maine, July 25, and Rockland, July 29.

KING GEORGE NAMES DEAD MAN FOR POST

London.—A post for a dead man was a strange feature of King George's first list of household appointments. In the official "London Gazette," which contained numerous paid and honorary appointments at court, appeared the name of the very Rev. Professor A. H. Charteris, D. D. LL. D. who was named for the post of chaplain in ordinary to the king in Scotland.

Later on a letter to the Times revealed the fact that Dr. Charteris died in 1908. The blame lies with someone in the king's secretary's department, who drew up the list of appointments without verifying the existence of the man concerned.

Daniel Glascock Dead.

Morgantown, W. Va., July 17.—Daniel Glascock, eighty-two years old and father of Governor Glascock, died at his home in this city today. Besides Governor Glascock, two other sons, Fuller of this city, and S. A. D. Glascock of Bellingham, Wash., also survive him.

AUTO RUNS DOWN BUGGY AND WOMEN THROWN INTO STREET

Pendleton's first serious automobile accident occurred on East Court street about 9:30 last evening, when a machine driven by Darr Phelps ran into the rear of a buggy containing Mrs. Maud Campbell and the Misses Francis and Vera Smith, daughters of Conductor Jack Smith. The occupants of the buggy were thrown to the street, Mrs. Campbell sustaining a broken wrist and the younger Smith girl being severely bruised about the shoulder and abdomen. The occupants were immediately picked up and taken to the offices of physicians where their injuries were attended to and all are rapidly recovering from the effects of the accident. Mrs. Campbell was the most seriously injured as the bones of her left wrist were crushed.

The manner of the accident is somewhat of a mystery and is not altogether explainable. Mrs. Campbell

UNCLE JOE WILL DEFEND ALDRICH

Speaker Cannon Declares He Will Reply to Lie Circulated by Senator Bristow.

BRISTOW CHARGES ALDRICH BELONGS TO RUBBER TRUST

Czar of House Will Address Chautauqua at Emporia, Kansas Today—Says Bristow Spread Lies About Senate Ruler—Bristow Charges Aldrich Manipulated the Rubber Trust—It Would Add to His Own Personal Profit in Rubber.

Emporia, Kans., July 18.—"Why shouldn't I have been over here in Winfield. It was hot as hell," apologetically explained Speaker Cannon today in referring to Saturday when the heat got the better of him while speaking at the Chautauqua. Cannon speaks here this afternoon at the chautauqua. He said he would reply to "Senator Bristow's lie about Senator Aldrich's connection with the organization of the rubber trust." After a conference with Roosevelt, Bristow charged Aldrich allowed crude rubber to remain on the tariff free list, but increased the duty on refined rubber 36 per cent. Bristow then charged Aldrich with Guggenheim and Ryan formed an inter-continental rubber company with a capital of forty million dollars.

Bristow also charges that Aldrich's son became vice president of the concern. The price of rubber goods increased, Bristow said, and during the first three months the new company paid a dividend of approximately eighteen percent of the preferred stock. "Since the organization of the company there has been a rapid increase in price of every rubber product," said Bristow.

IF CONFERENCE FAILS, STRIKE WILL ENSUE

Philadelphia, July 18.—Though both sides are hopeful that an agreement will be reached between trainmen and conductors and the Pennsylvania road, General Manager Meyers admitted today the strike can not be avoided if the conference fails. Elaborate preparations are being made for the conference. The best men of the railroad and unionists will be present and the whole situation will be gone over.

Lightning Strikes Church.

Cincinnati, July 17.—Torrential rains also visited a large section of southern Ohio, northern Kentucky and southwestern Indiana today, adding to the large damage done by yesterday's cloudburst. So far as reported, there was no loss of life today, though many persons were injured. Near Paris, Ky., a bolt of lightning struck a church and a dozen worshippers were stunned.

Miners Convene.

Denver, July 18.—Delegates representing seventy thousand Western Federation miners, met in annual convention here today. It is not expected that any strike will be developed as things have been quiet during the past year. President Meyer is expected to decline another term on account of ill health.

Cloudburst Reported.

Cripple Creek, Colo., July 17.—Messengers received from Divide, Colorado, report a cloudburst there today which carried away several bridges and did much damage to crops.

COEUR D'ALENE IS SWEEPED BY BLAZE

Wallace, Ida., July 18.—One man is insane, a dozen settlers are homeless, tens of thousands of dollars worth of timber is destroyed, mining companies' mills are threatened and one is burned by a forest fire that is sweeping the Coeur d'Alene mining district on Pine creek today. One hundred and fifty men fought the blaze last night. At midnight over three square miles were in ashes and the flames were racing toward Kellogg Peak. The Delnata Mining company's structures are already burned. It is reported that Nabob, Highland Chief and Little Pittsburg mines are in the path of the racing flames. Every available man in Kellogg and Wallace has been called out to fight. The fire started from a camp fire yesterday. This is the second fire in this district this year.

BATHER IS SAVED FROM DROWNING BY SWIMMER

Malott, Wash.—Jumping into the Okanogan river without shedding his clothes, Austin Warnick prevented a near tragedy Sunday, rescuing George J. Stewart, manager of the local townsite, who had slid off a sandbar into the water beyond his depth. The victim had sunk the third time, but fortunately had not taken in a great deal of water, and was fighting his way under the surface when brought to the air by young Warnick. Other witnesses were not aware that Stewart could not swim.

MEXICAN CHIEF OF POLICE DENIES HE WAS OUSTED

San Francisco, Cal., July 18.—Felix Diaz, chief of police of Mexico City, stopped here today enroute home after seeing the Reno fight. He denied that he had been ousted as chief of police. He is a nephew of President Diaz, and also denied he had any disagreement with his uncle or conspired against him as reported.

"HOUSE MACHINE" FEARS SOLID SOUTH

PLAN REAPPORTIONMENT OF REPRESENTATION

Would Make One Representative to Every 220,000 People—Such Arrangement Would Benefit New England—"Machine" Would Curtail Powers of South.

Washington, July 18.—That a new apportionment for congressional representation is being planned by republican leaders became known here today. The plan is to prevent a great increase in representation from the southern states which it is feared would endanger the "house machine." It is predicted the membership of the house under the new apportionment would not be more than 410 as against the present membership of 386. It is expected the new apportionment may be one representative to every 220,000 people. Now it is one for every 194,182. From figures already given out by the census bureau it is estimated the population in the south of 23,000,000 would give the south two more congressmen. Republicans it is said, are planning to give the benefit of reapportionment to New England.

NEW BIRTHMARK CURE IS BEING TRIED OUT

London, July 18.—A novel cure for lupus and birthmarks is being used at a London hospital, the curative agent being carbonic acid gas in the form of a snow 100 degrees below zero.

The "snow" is gathered on a piece of green baize from a cylinder of gas liquefied under pressure. It is then scraped off and placed in a small hard rubber cylinder, where it is pressed down until it forms a hard icy batton. This batton is applied to the disfigurement for 30 seconds a day, leaving each day a perfectly white patch of frozen tissue.

The intense cold freezes the part for a second or two and severe local inflammation follows, leading to a breaking down and absorption of the abnormal tissue. This heals in the natural way leaving the skin surface practically normal.

Women Interviewed.

New York, July 18.—The liners Chicago and Massachusetts were searched upon arrival today by the police and inspectors for Dr. Crippen, the suspected murderer. Many believed he might disguise himself as a woman and therefore every woman aboard was interviewed.

105 in Texas.

Fort Worth, Texas, July 17.—The temperature registered 105 degrees at 3 o'clock today, making this the hottest day of the year in Fort Worth. The hot winds have done great damage to crops.

SPAIN AFLAME WITH REVOLT

Bloody Riots Prevail Throughout Kingdom. Martial Law May be Declared.

REVOLUTION MAY BE THE DEATH KNEEL OF MONARCHY

Reports From all Cities of Southern Kingdom Indicate Situation is Serious—All Dispatches are Censored—Known There Has Been Fighting in Several Cities—One Faction Wants Curtailment of Power of Church, Another Wants Republic.

San Sebastian, Spain, July 18.—Bloody riots in which both the police and rioters are suffering, swept Spain yesterday and today. All dispatches are being censored. Border line information says another revolution is impending unless troops overcome the riots soon. The secret service is making a concerted action for one of the greatest strikes. In Barcelona, Bilbao, Santander and Saragossa strikes have been declared. Workmen have quit work, tying up business. So great is the danger that troops have been centered in cities to stem the tide. The general opinion is that Spain is aflame with revolt, and that the cabinet and king are ready to proclaim martial law and suspend the constitution temporarily.

San Sebastian is near the French border and has been made the revolutionist headquarters according to reports. Barcelona is reported quiet today. General Weyles and his troops are there. Fighting is reported in a number of districts. The people are demanding a curtailment of the power of the church in politics while the republican party wants the abolishment of the kingdom and the creation of a representative body elected by the people.

Veteran Is Dead.

Winnipeg, Man., July 17.—Bob Simmons, a veteran American driver dropped dead Saturday evening after driving Beulah R. to victory at Exhibition track. He was 56 years old and 45 years was a driver. Simmons was well known in Montana and other western states.

Louisiana Congressman Dies.

New Orleans, July 18.—Representative Samuel Gilmore, democrat, died at his home here today after a lingering illness. He took a prominent part in southern politics. He was a native of New Orleans. Before going to congress he was city attorney for 13 years.

Committee Makes Call.

Philadelphia, July 17.—The committee of independents organized to arrange a state convention for the nomination of candidates in opposition to the republican and democratic state tickets, today made public a formal call for a convention to be held in this city on July 28.

SPIRITUALISTS ARE IN CAMP NEAR CANBY

New Era, Or.—The spiritualist camp meeting opened here last Sunday with a large attendance of leaders in the movement from Oregon, Washington and California. W. C. Hodge, of San Diego, delivered the first address. Before every meeting throughout the week a short operatic concert has been enjoyed, given by Mr. and Mrs. A. F. Robinson of Eugene, and Mrs. Boyle of Hood River. On Sunday several of the leading lecturers will speak, and this will be followed by tests and messages.

Large School Clerk Bond.

The largest bond of a Umatilla county school clerk was filed with Superintendent Welles Saturday. It was for \$25,000 and was for Ralph A. Holte, clerk of the Stanfield district. The sureties are Henry W. Coe and R. N. Stanfield. The building of the new school house at Stanfield is responsible for the size of the bond.

D. C. Brownell is up from Umatilla today for the transaction of business.

THOUSANDS OF IRISH POUR INTO PORTLAND.

Portland, July 18.—This city is in festive attire today in honor of the arrival of the delegates to the national convention of the Ancient Order of Hibernians which convenes tomorrow and continues till Saturday. Ten thousand visitors are expected and every train brings delegates. Chief among the arrivals today was the New England and eastern Canada special with fifteen hundred men and women aboard.
