Spokane Takes Two.

Spokane, July 17.—Seattle's two crack pitchers, Zackert and Chinault, were unable to stop the Indians today. By hitting both effectively Spokane was able to win two games by decisive margins. In spite of the heavy hitting and wealth of incidents in each game, both were played in rapid time. The first took an hour and 35 minutes and the second about the same, being called at 5:30 to permit Seattle to catch the train. Cartwright got six hits in he wo games, one a triple. Scores: First game— R. H. E. Seattle 3 9 5 Spokane 3 11 1 Zackert, Henkle and Hemmenway; Holm and Shea. Second game— R. H. E. Seattle 2 6 2 Spokane 5 8 1 Chinault and Hemmenway; Kratzberg and Brooks.

KIDNAPPERS ERR BY TAKING WRONG GIRL.

Tacoma, Wash.—Mistaken for the adopted daughter of Mr. and Mrs. Seth W. MacDonald, Margaret Fawcett, the 10-year-old daughter of Mayor A. V. Fawcett, was stolen out of the mayor's yard Thursday morning by an unknown man, thrown into an automobile and whisked away. At intervals until two years ago Ruth MacDonald's mother, Mrs. Lizzie McCabe, has sought to get her away from her foster parents. The MacDonald girl and the mayor's daughter, dressed alike, were playing in the mayor's yard, when a big automobile containing two men and two women drove up. It stopped at the mayor's house; one man got out and came into the yard, spoke to the children and grabbed little Margaret suddenly and rushed out of the yard. Evidently the would-be abductors soon discovered their blunder, for by the time the police had arrived little Margaret came walking back, her nose bleeding and her face cut and scratched by the rough handling. She said they had put her out of the automobile. Mrs. Fawcett, who had seen her daughter thrown into the car, was in hysterics and the neighborhood in an uproar. The kidnapping incident happened a few hours before the mayor was crushed in the city hall elevator. The accident to Mayor Fawcett happened as he undertook to step into the elevator from the third floor of the city hall when the machine suddenly started upward. The mayor was thrown from the passenger platform of the elevator to the freight platform below.

SOCIALIST VICTORY SURPRISES GERMANS

Berlin.—Another socialist victory at Friedberg some three weeks ago, has aroused the greatest political excitement Germany has seen for years, because it was here made plainly evident that many National Liberals voted for the socialist candidate. That the radicals join hands with the socialists is now taken as a matter of course, but that also the voters of the National Liberals have gone over to the enemy shows how bitter is the feeling among the people against the present government. The public is so embittered over the "Blue-Black Bloc," which is now the ruling factor in Germany and Prussia over its financial legislation and its general reactionary policy, that support is being given and will continue to be given on all hands to socialist candidates as the only means of definitely scattering it. How many more defeats will be required, asks the National Zeitung, before the conviction is arrived at that a change of system is an absolute necessity? Whether the policy of the Liberal parties of helping the socialists with the object of undermining the power of reactionaries will benefit themselves is another matter. The ground they now relinquish in favor of the socialists will be recovered with great difficulty, and there is a possibility that after the general election next year there will be the extreme Conservative and Agrarian parties on the one side of the Reichstag and extreme Radicals or socialists on the other, with the center again predominant through being in a position to form a majority with either the right or the left, as the occasion may demand.

UNCLE SAM EXERTS HIMSELF TO INFORM THE TAXPAYERS

Washington.—One of the chief functions of the federal government in this country is to disseminate knowledge. In bill after bill that passes congress, special appropriations are made for this purpose. When an American citizen desires information concerning industries, commerce, or agricultural conditions of the country, his natural habit is to write to his congressman or to one of the government departments. Seventeen thousand letters a day are sent out from one department alone to answer questions of the taxpayers. Agents are maintained all over the country in order that farmers and investigators may be kept advised as to crop conditions. Scientific investigations are continually being carried out that the farmer may better his crops; the health may be improved and that even the housewife may reduce her bills. There is not an important port in the world where there is not an American agent to dig up facts concerning the local market in any line for any manufacturer. Constantly Uncle Sam works to increase the information of Americans. For the first time Russia has now established a bureau to spread information for the benefit of its industrial and commercial life. The facts are not sent to citizens. They must ask for them and must pay for them. An ordinary inquiry will be answered in Russia for \$155 if it is concerning an industry or conditions in the vicinity of St. Petersburg. If, however, it is in the remote parts of the empire it costs \$2.55. This is the charge for inquiries that require no special or extended investigation. When this is necessary, special rates are quoted according to the service demanded. This bureau has regular subscribers who pay a contract price to learn facts which the American government for nothing gives to every inquirer.

PATCHED FLAG INDICATES ECONOMY OF GOVERNMENT

Washington.—A striking example of the economical reform in the running expenses of the government was shown, the other day in the form of a "patched" United States flag floating from the roof of the department of commerce and labor. This demonstration of the methods which the officials in the departments are instituting to reduce the current expenses has attracted widespread attention. A general reform from the methods of the "days of plenty" is in progress and has resulted in the retrenchment in pens, pencils, paper and all office necessities. Some officials in the government service are growing so cautious that in order to eliminate the careless use of such articles they take the name of each applicant and date on which the pen, pencil or whatever it may be is issued. Numerous other little checks are noticeable throughout the departments and it looks, at present, as though

SERPENTINE THESPIAN IS LONDON'S LATEST

London.—A rock python from India plays an important part—the title role in fact—in a new play produced at the Adelphi. The ornid actor is introduced in "The speckled Band"—a melodrama adapted from Sir A. Conan Doyle's Sherlock Holmes story of the same name.

Coiled up in a box, the python is brought each evening from his owner's menagerie in the East End to the theater. He seems quite satisfied with his part, which he performs excellently, and never threatens to strike for better salary. In case he is sick there are five understudies ready to take his place.

Collected up in a box, the python is brought each evening from his owner's menagerie in the East End to the theater. He seems quite satisfied with his part, which he performs excellently, and never threatens to strike for better salary. In case he is sick there are five understudies ready to take his place.

St. Louis 23	51	.311	

Oakland 2, Portland 1. Portland, Ore., July 17.—Portland lost the final game of the series with Oakland today by the score of 2 to 1. On the throw in, after Lively's hitch in the fifth inning, Olson hit Wares who was between second and third. The ball caromed to the grandstand and, when retrieved, Wares had scored and Lively was on third. A single served to score Lively. Krapp, in the eighth went to first on an error and made the circuit of the bases on a double and single which followed.
