DAILY EAST OREGONIAN, PENDLETON, OREGON, MONDAY, JULY 25, 1910.

LACK OF CONSERVATION OF SOIL LOSES MANY FARMERS TO THE UNITED STATES PINKHAM

Added to the Long List due to This Famous Remedy. Oronogo, Mo .- "I was simply a neracross

Phase of Conservation,

my heart fluttering and I could not even receive a letter. This explanation of the Canadian WRITER SAYS LONDON movement was made a few days ago IS FULL OF Every month I had by W. J. Spillman, the expert on farm such a bearing down management brought into the departsensation, as if the lower parts would fall out. Lydia E. Pinkham's Vegetable Compound has done my nerves a great deal of good and has also relieved the bearing dewn. I recommended if to some triands and two of them have been greatly benefited by it." - Mrs MAE MCK NIGHT, Oronogo, Mo. Another Grateful Woman. St. Louis, Mo.- "I was bothered terribly with a fémale weakness and had backache, bearing down pains and pains in lower parts. I began taking Lydia E. Pinkham's Vegetable Com-pound regularly and used the Sanative Wash and now I have no more troubles that way." - Mrs. AL. HERZOG, 5722 Prescott Ave., St. Louis, Mo. Because your case is a difficult one, doctors having done you no good, and has also relieved northern borders should act as a warning to the farmers of America and show them the need of restoring and maintaining the productivity of the soil. From his standpoint, this is

the most important phase of the whole conservation problem. Some of the American emigran's are taking up the lands in Manitoba. Alberta and Saskatchewan, where there is almost a stampede to establish farms on the virgin soil, in the belief that the fertility of the land is "inexhaustible." Similar claims because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Finkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as in-flammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling indigation displacements and nerwere made a few years ago about the prairies of the west and middle west. Experience has proven, however, that soil is inexhaustible unless cared for under an approved system of farm management

Should Fertilize More. "This country has been prodigal in the utilization of all its natural reof low yields. Many of our farmers, States." instead of staying at home and adoptng methods of renovating their worn ut solls, find it easier to sell the old farm and pack up and move on.

"We are facing a new situation, Noonger does the improvement of land in the west meet the loss due to the abandonment of older lands in the east, combined with the increased demand for the products of the farm. tells about it in this way: That the process of soil exhaustion which caused the decrease of agricultural population and abandon- the head. ment of farms in the cast is how west ing on in the west and middle west said I. IS FULL OF YANKEES

London .- Frederick Townsend Martin, despite his round of social enent of agriculture by Secretary Wil- gagements, is spending some hours son a little more than eight years ago daily compiling reminiscences. He and now chief of an important branch has already written 56,000 words and of the department which has done expects that his book will be ready much toward bridging the chasm between science and practical farming, with American and European society Mr. Splilman thinks that the stream in an anecdotal, pleasant way and of migration which is flowing over the northern borders should act as a will not be offensive. Mr. Martin has another book, on

"The Disgrace of Idleness," showing that even in monarchial countries there has been a continual growth in the contempt felt for men who do nothing, with the result that even in the highest circles. utilitarianism is

nt with previous seasons in London, said:

ans than 1 have ever seen here before. Every hotel is taxed to its utmost capacity, yet it is astonishing how few well-known Americans are about. I have wandered about the various hotels and restaurants and scarcely have seen a handful of what 1 call the 'old guard.' It is the new

throng that is predominating, the people who have become prosperous and who are coming to Europe for the sources, especially the soil, and we first time. They are spending money are now paying the penalty," said freely and exude everywhere the spirit Mr. Spillman a few days ago before of American prosperity. Above all, caving Washington for a field trip. It is a contingent that makes me feel "In many of our older communities proud of my country. They are well soil fertility is greatly reduced.
