NO 6968

CRIPPEN NEAR VOYAGE'S END

Accused Wife-Murderer Has But Few Hours More of Fancied Freedom.

TUG WILL MEET SHIP BEFORE IT IS DOCKED

Inspector Dow Will Make Arrest Before Doctor Has Chance to Escape—Suspected Man Aboard Montrose Did Not Sleep Last Night—Safety Pin in Trousers Revealed Disguise to Captain—Guard Will Prevent Accused Man From Taking Own Life.

Montreal, July 30.—Everything is ready for the arrest of Dr. Crippen and Mme. Leneve when the Montrose arrives tomorrow afternoon. Inspector Dow of Scotland Yard has arrived here. The tug Eureka has been chartered to meet the steamer in the stream where Crippen will be arrested before he has a chance to escape to the shore. Captain Kendall, aboard the steamer, today said he first suspected the couple because the "son's" trousers fitted miserably and were gathered at the waist with a safety pin.

Spent Sleepless Night. Father Point, Que., July 30.—The United Press received a wireless from Captain Kendall of the Montrose saying: "The suspect did not sleep last night and appears haggard and worried today. The woman is not as nervous as the man, and does not experience the same terror." The dispatch indicates a guard over the couple has been posted to prevent any attempt of Crippen to suicide if he suspects he is being watched.

Open Motor Parkway. New York, July 30.—As a curtain-raiser for the Vanderbilt Cup and the grand prize races in October, the 1910 season of the Motor Parkway begins today with three events carded. The amateur sweepstakes is the principal race and will bring together a large field of entries from the Amateur Contest association.

Swiss National Holiday. Geneva, July 30.—Switzerland's independence day, the anniversary of the forming of the Swiss Confederation, was celebrated today in the usual manner. The observance is always quiet, since this was the way of the patriots of 1291, who immediately returned to the care of their herds.

Increase "Katy" Capital. Parsons, Kan., July 30.—A special meeting of Missouri, Kansas & Texas stockholders was called here today to authorize an increase of the bonded indebtedness of the company to a maximum of \$125,000,000, the issue to bear interest of not more than 5 per cent and to be secured by a mortgage and deed of trust on the property of the corporation.

SPECIAL WESTERN TRAIN TO CHAMPIONSHIP SERIES

Spokane, Wash.—Frank W. Smith, promoter and patron of clean sports, is arranging for a party of 250 baseball fans from various parts of the northwestern states and provinces, traveling in a special train, to attend the world's championship series at the close of the regular season. The trip will occupy from two to three weeks, depending upon where the series is played. Stops will be made in the principal cities to and from the objective point. Smith, who has been identified with every sporting event of importance in Spokane and the Northwest, since 1886, says there will be at least 150 men and women from Spokane in the party, the rest coming from other cities in Washington and adjoining states and the provinces of British Columbia and Alberta. More than 50 reservations have already been made. The excursion is not a money-making enterprise. The actual cost of the train and service is to be apportioned among those joining the party, the promoter donating his time in the interest of the sport.

TROOPS HUNTING FOR MURDEROUS MANIAC

Quincy, Ill., July 30.—A hundred members of the Illinois national guard and fifty Quincy policemen are engaged in a man hunt today for Louis Rastelli, who yesterday ran amuck and killed his mother, shot H. E. Harwick to death, and wounded three others. It is believed Rastelli is violently insane and will do further damage unless killed. The police are ordered to kill him on sight.

ENGINEERS ON GRAND TRUNK MAY STRIKE TOO

Durand, Mich., July 30.—One hundred and twenty-five engineers on the Grand Trunk will strike tomorrow according to a statement issued by strikers today. It is believed with the engineers on that difficulties will be settled within two days. The engineers will go out unless non-unionists are fired. Twelve freight cars were derailed in the yards and the train kept from pulling out by a switch being turned when half the train had passed. An investigation is on. Strikers deny they had anything to do with the accident.

BURTON DECLARES COX IS NO GENTLEMAN

Cleveland, July 30.—Replying to a statement in Cincinnati newspapers quoting "Boss" Cox as referring to him as a "rusty pin head," Senator Burton today declared Cox was no gentleman and did not know how to talk to one. "Cox is bitterly disappointed that he could not nominate him candidate for governor, and now is venting his spite on those who would not take his orders. It is time the people of Ohio refused to submit to a tactless man of Cox's character," said Burton.

MOTHER SEES TWO OF HER CHILDREN DROWN

Bellingham, Wash., July 30.—While their mother looked on helplessly only a few yards away Alma Hilderbrand aged 21, and Irving, aged 13, were drowned last night in Lake Whatcom near their summer home on Reville Island. "Another sister saved herself by clinging to the overturned canoe in which they had been paddling. The mother dragged her ashore. The bodies have not been recovered. The grief-stricken mother and sister came to this city today.

IDAHO MINING TOWN IS IN PATH OF FIRE

Butte, July 30.—Idaho dispatches state today that unless the wind shifts the mining town of Wardner is doomed. Flames are rapidly approaching through the timber and are only two miles from the town. The men, assisted by the women, are making a desperate stand to save their homes. There are not half enough men to fight the various fires. Reports from the St. Joe country state an area of ten miles by five has been burned over and the fire is still burning.

Civil War Is Certain

London, July 30.—Republican Spain or a limited monarchy under Don Jaime, the pretender, is foreshadowed here today in the Spanish-Italian imbroglio. Civil war in Spain is regarded as certain. The British will remain neutral.

YOUNG DEFAULTER CONFESSES GUILT

Erwin Wider, Youthful Assistant Cashier of New York Bank, Arrested and Owes Up to Taking \$600,000—Played Wall Street and Lost All.

New York, July 30.—Blaming the bank which employed him for paying him a miserable salary and allowing him to handle millions, Erwin Wider, the arrested assistant cashier of the Russo-Chinese bank, admitted he stole \$600,000 and wept while he told his story. "I took the money all right," he said. "It was only what could be expected of a man getting \$25 a week and handling millions. Wall street seemed safe and I played the market. I did not get reckless till I got so deep there was no escape and then I played heavy, hoping the market would change. It didn't and I am here."

LINN COUNTY CROPS IN FINE CONDITION

Albany, Ore.—Crop conditions in Linn county are the very best. Optimistic reports are being received from all portions of the county as to quality and yield in all lines of agriculture. Haying is practically over and a fine crop is secured. Reports indicate that the oat crop in Linn will be the heaviest known within the past few years. The wheat crop bids well to be above the average and with good prices prevailing there will be added prosperity among the farmers when harvest is over.

TROOPS HUNTING FOR MURDEROUS MANIAC

Quincy, Ill., July 30.—A hundred members of the Illinois national guard and fifty Quincy policemen are engaged in a man hunt today for Louis Rastelli, who yesterday ran amuck and killed his mother, shot H. E. Harwick to death, and wounded three others. It is believed Rastelli is violently insane and will do further damage unless killed. The police are ordered to kill him on sight.

PEACE, PEACE SWEET PEACE

Friends and Advocates of Universal Peace Gather in Sweden's Capital.

NEARLY EVERY NATION SENDS REPRESENTATIVES

Eighteenth Universal Peace Congress Meets in Stockholm and Will Last For Week—Many Topics Will Be Discussed—Establishment of International Court of Arbitration and Immunity From Capture of Merchant Ships Two Most Important.

Stockholm, July 30.—Men and women of nearly every nationality, color and language, but animated by common humanitarian motive, the abolition of war, met in the Swedish capital today to inaugurate the eighteenth Universal Peace Congress. The deliberations of the friends of peace will continue through the first five days of next week.

Although primarily a convention of delegates from the five hundred peace societies now in existence in various parts of the world, the congress has also enrolled representatives of trade and labor unions, churches, civic and philanthropic societies and educational institutions. It was originally intended to hold the eighteenth congress in this city last year, but it was postponed on account of a strike which threatened to develop into civil war.

Among those scheduled to deliver addresses are Baroness von Suttner of Austria and Signor Moneta of Italy, both recipients of the noble peace prize; the eloquent Signor La Fontaine, or Belgium; Joseph G. Alexander of England, and Prof. Quilide of Germany.

Topics to be considered during the congress include the effect of the probable establishment of an arbitral court of justice; the possibility of an international agreement for the limitation of armaments, as foreshadowed in former President Roosevelt's noble address; the immunity from capture of merchant ships at sea during time of war, a measure that would do away with the necessity of naval protection for commerce, and therefore greatly reduce armaments; the removal from the category of war of questions of national honor, and the growing demand for treaty provisions pledging the nations not to take territory from each other by conquest.

GRANDE RONDE CROP OF WHEAT IS GOOD

La Grande, Ore.—In all parts of the valley harvesters and threshing is now proceeding without a hitch. Contrary to the previous expectations, the grain yield will be almost up to the usual standard, although the past season has been notoriously dry. In many places the crops have matured without a drop of rain. Reports received yesterday show that in almost all cases the fall sown grain will give an output about the same as in the average year and an encouraging thing is that a large proportion of the spring sown grain gives good prospects of an average yield. This is very encouraging in view of the adverse weather conditions of the past few months.

WESTON FARMER HAS LABOR SAVING DEVICE

J. H. Key has an equipment for his steam threshing outfit that is much admired by men who appreciate new wrinkles in harvesting machinery, says the Weston Leader. His dump carts are so arranged that the wagons are emptied into the automatic hood-down by engine power. One man only is needed to keep the separator fed with straw, and takes the place of five formerly used. The attachment works like a charm and Mr. Key's outfit is said to be well worth a visit for the purpose of seeing it in operation.

Dominion Handicap

Buffalo, N. Y., July 30.—Some of the best horses from both sides of the international border will start this afternoon in the great Canadian turf event, the \$10,000 Dominion Handicap, the opening day feature of the Niagara Tacing association's meet at Fort Erie. The distance is one mile and a quarter. Hundreds of followers of the game of kings are gathered today at Fort Erie and the session promises to be uncommonly successful.

SPAIN BREAKS WITH VATICAN

Both Pope and King Alfonso Recall Ambassadors and Cease Friendly Relations.

RUPTURE MAY MEAN DOWNFALL OF MONARCHY

Great Struggle Between Vatican and Spain Over Supremacy of State and Church Ends in Open Rupture—Alfonso and Pope Both Recall Their Representatives—Break May Give Revolutionists Their Chance—Don Jaime Ready to March Into Disrupted Kingdom.

Rome, July 30.—Monsignor Vico, papal nuncio to the Spanish court, was recalled this afternoon by the pope. This action followed the recall of Ambassador Emilio Deodeda from the vatican by King Alfonso. This completely severs relations between Spain and the vatican. This open rupture it is believed, foreshadows the downfall of the Spanish dynasty. The recalls today are the result of a long fight over the question as to whether the state and church should have equal power.

King Alfonso favors the supremacy of the state. With thousands in industrial turmoil this action today will probably precipitate trouble and give the revolutionists their long-awaited chance. Don Jaime is encamped on the border with 10,000 exiles and has issued appeal to Spaniards to join him on his march into Spain and civil war seems certain.

Praise for Alfonso

Madrid, July 30.—The abrupt severance of friendly relations of Spain with the vatican brings King Alfonso to the front in European politics today. Opponents who doubted the sincerity of the young king's anti-religious actions are now praising him. Marquis Emilio Deodeda, the Spanish ambassador to the vatican, is expected to return his credentials to the pope and return immediately to Spain. This would mark a complete severance of relations which are now virtually broken.

Conservation in Madrid

San Sebastian, July 30.—The recall of the Papal Nuncio and the severance of relation with the vatican has caused consternation at the capital. Radical clericals are predicting the overthrow of Alfonso. Orders have been issued for the military to be ready to occupy Madrid. The royal family is closely guarded.

Big Tournament Closes

Tacoma, July 30.—The six day military tournament at the stadium closes tonight with a parade and final performance of 2000 United States soldiers. All records for attendance at the stadium were broken last night when 32,000 people were present.

MALONEY IS BOOMED FOR COUNTY JUDGE

J. W. Maloney for county judge. This is the latest political gossip in the city and county and it is a subject which during the past few days has been taken up with much enthusiasm by the friends of the ex-banker and present day farmer. Just how the boom started does not seem clear but according to those who have investigated matters Mr. Maloney will have decided strength if he cares to make the race for county judge. Though he is a democrat he will draw hundreds of republican votes, so it is asserted, because he is popular with all classes. Up to this time Mr. Maloney has not said whether or not he will be a candidate for Judge. At this time he is busy looking after his wheat crop and has been in town but little. He has devoted his time to farming since he resigned as cashier of the American national bank. Mr. Maloney served for two terms as county recorder and according to his friends left an enviable record as an official.

MURDERER OF ALMA KELLER IS ARRESTED

San Francisco, July 30.—Police today arrested a man who admitted he is Joseph Wendling wanted at Louisville, Ky. for the murder of Alma Keller aged eight. Her body was found in a heap of rubbish at the St. John's school, of which Wendling was janitor. His arrest follows a country-wide search into Mexico, Central America, and on the Pacific coast. Wendling disappeared after the murder. The girl was the daughter of a wealthy brewer. She went to mass but did not return and it was believed she was kidnaped. A large reward was offered and then the body was found.

INTERNATIONAL ROAD CONGRESS IN BRUSSELS

Brussels, July 30.—America is exceptionally well represented among the delegates who are here today to take part in the second annual International Good Roads congress. The congress will be officially convened tomorrow and will continue its deliberations and demonstrations through all of the coming week. Among the American organizations represented are the United States department of agriculture, the American Automobile association and the American Road Builders' association.

Twenty-six nations are represented in the congress which was organized for the purpose of securing, translating and distributing information concerning the best methods of road building and maintenance. Last year's congress, the first, was held in Paris and was attended by more than 2000 delegates.

The king is manifesting much interest in the convention and will give a reception to the delegates. He is a trained engineer and has invented a material for roads which is said to withstand admirably the wear of automobiles.

President Samuel Hill, of the American Road Builders' association, says that America is further behind in respect of highway construction than any other civilized nation and that it ranks with Turkey in this respect. He places the responsibility for this condition on the state legislatures, the federal government being impotent in the matter.

BRITISH TROOPS PREPARE TO REPEL CHINESE INVADERS

London, July 30.—A dispatch received from Simla, British India, indicates that British troops are preparing to proceed to the India-Tibetan frontier to prevent further reported aggression by Chinese troops. It is no longer doubted by British officials that China plans a series of invasions in Tibet and Indian territory.

Reed to Open Campaign

St. Louis, July 30.—Former Mayor Reed of Kansas City, will begin his campaign for the United States senatorship at Moberly today. He is opposed by former Governor David R. Francis, and a merry war between the two is promised. Former Governor Folk will not enter the contest for the top, as his friends are grooming him for the democratic presidential nomination in 1912.

A. A. U. Swimming Championship

New York, July 30.—In connection with the New York Athletic club's swimming meet at Travers Island this afternoon, the Amateur Athletic union national 440-yard swimming championship will be decided.

HARMON IS SORE AT CITY AUTHORITIES

MAY DECLARE MARTIAL LAW AT COLUMBUS

Dispute Between Governor and City and County Officials Leads Former to Take Matters in His Own Hand—More Troops Ordered—Riots Last Night.

Columbia, July 30.—Governor Harmon did a right about face and today probably he will declare martial law at Columbus and take a hand in the street car strike. Adjutant General Weybrecht has ordered the fourth and eighth regiments to this city, and the troops will arrive this afternoon. Two other regiments, the first and fifth, were ordered to be in readiness to come. The summoning of extra troops followed a dispute between Harmon and the city and county authorities. Harmon was angry because the troops were called and the authorities were disgruntled because the troops were not patrolling the streets last night when several riots occurred.

Last night rioters wrecked twenty streets cars and injured a score of strikebreakers. Citizens today are prohibited from congregating at public places and the governor has reversed his order for troops not to patrol the lines.

Taft Tries to Persuade Hadley to Accept Job

Beverly, July 30.—President Taft spent the greater part of the day trying to convince President Hadley of Yale university that he should accept the chairmanship of the government stocks and bonds commission. Hadley has not decided yet whether he can spare the time.

BOARD OF THREE NAMED TO RAISE THE MAINE

Washington, July 30.—A board of three was named today to have charge of raising the battleship Maine. They are Colonel Black, Lieutenant Colonel Patrick and Captain Ferguson.

We don't become righteous by doing what is righteous but having become righteous we do what is righteous.—Luther.

SAVAGE RACE WAR IN TEXAS

Whites and Blacks are Fighting Desperately at Little Town of Palestine.

GOVERNOR ORDERS RANGERS TO HURRY TO SCENE

Race War Starts When White Officer Attempts to Arrest Black Man—Ten Negroes and Five Whites Were Killed Yesterday—Saloons Closed in Palestine—Rangers and Militia Hurry to Scene But Rioting Continues—Bloody War Feared.

Austin, Texas, July 30.—There is desperate fighting between whites and blacks near Palestine today. Governor Campbell has ordered rangers and militia to proceed to disarm all citizens, but the rioting still continues. Troops have left Fort Worth and Marshall for the scene. The saloons of Palestine are closed and merchants are ordered not to sell arms.

Texas Rangers Out

Fort Worth, Texas, July 30.—A company of Texas rangers has been ordered to proceed today to Palestine, Texas to quell riots between whites and negroes. No details have been received here except that ten blacks and five whites were killed in a fight yesterday which started when a white official went to arrest a black man.

Militia in Readiness

Austin, Tex., July 30.—The adjutant general of the national guard this afternoon issued a general order for militia to be in readiness for duty at Palestine. One regiment is already en route to the scene of the riots.

MEXICAN FIELD PEAS GROW WELL IN KLAMATH

Klamath Falls, Ore.—The experiments being made in Klamath county soil in the growing of Mexican field peas has proved a great success so far, and those having planted them believe this product is destined to be one among the principal products of the country when the people find that they will grow successfully here. These peas start in developing the pods early in the season, and continue to bloom and grow new pods until the frost catches them in the fall. These pods will remain on the vines until they are all ready to gather or the farmer is forced to gather them by the stoppage of their growth by the fall frosts and cold weather. They are then cut and threshed and the seed is very valuable for the market. It is not threshed, they are considered among the best fattening feed for all kinds of stock that can be fed. They are especially good for hogs and can be fed on the vine, the animals shelling out the seed themselves. Both the vines and the pods are devoured by cattle and horses and they are far ahead of alfalfa as a feed.

F. E. Smith has 10 acres of Mexican peas under surface irrigation, 13 acres on dry land and about 3 acres that are being sub-irrigated. He intends to make a thorough test of the growing qualities of the soil with and without water. He says while the vines on the irrigated lands are larger than those on dry land, he believes the dry land peas will bear the heaviest.

This is the first year that these peas have been grown in this vicinity. Last spring a carload of the seed was brought from Colorado and distributed over the country to the farmers who would experiment with them. Reports come from men who planted them that the outlook for an immense crop is good.

Mexican field peas are very valuable in the market. They bring on an average 4 cents a pound, and an acre of them will produce from 40 to 60 bushels. If this climate and soil proves to be adapted to their growth it is safe to say this is one of the most profitable crops the farmer can grow.

British Bowling Meet

London, July 30.—British Crown Green Bowling association's championship will be decided today and Monday at Manchester.

RAILROAD OFFICIALS RESIGNING FAST

Chicago, July 30.—Nineteen officials of the Illinois Central have resigned and already a dozen arrests are expected as a result of the voting into the car repairing graft. Authorities are seeking Henry Osterman, organizer of Memphis Car company, wanted as a witness. The Memphis company did the repairing where it is alleged wholesale graft was practiced. There is no trace of Osterman.
