**WARNS MERCHANTS AGAINST  
FAKE ADVERTISING SOLICITOR**

A warning to advertisers in Pendleton and this part of the country has been issued by S. B. Calderhead, general agent at Walla Walla for the Northern Pacific railroad.

According to Mr. Calderhead, a man calling himself an advertising agent for the Northwest Magazine and saying that the Northwest Magazine is published by the Northern Pacific railway has been selling advertising space in the magazine and not turning the returns of his sales in to the advertising department of the Northwest Magazine. This man has been operating in different parts of this country and it is said that he is heading toward Pendleton. Mr. Calderhead said:

"The Northern Pacific is in no way connected with the Northwest Magazine. We have heard through various sources of this man's work. He is nothing but a grafter and the business men should be on the lookout for him, as he never turns in any business to the publishers."

### MEDFORD'S CANNERY READY FOR WORK

Medford, Or.—The Rogue River Canning & Evaporating company is preparing to can and dry an immense amount of fruit and vegetables this season. The new building, which will be used for canning, is 60x93 feet in size, is three stories high. This building is supplemented by a dryer 45x50 feet and two stories high, which is connected to the cannery by an overhead track. The dryer has a capacity for turning out 7000 pounds of dried stuffs every 24 hours, and when in operation has two shifts of men.

A carload of cans, which will number about 60,000 is on the way from Chicago, and the company expects to begin work within 30 days. The canning this year, owing to the lateness in getting the building completed, will be confined to peaches, pears, apples and tomatoes. The butter and cider making will be very extensive and a large number of men will be employed while the plant is in operation.

**No Monopoly of Words.**  
London.—Justice Parker has delivered judgment on an application by the Gramophone company that was seeking to obtain a trade monopoly of the use of the word "Gramophone" for their talking machines.

The company asked for an order directing the Registrar of Trade-Marks to register the word. The Registrar refused to do so on the ground that it was a generic term applicable to all talking machines of a particular type and was not distinctive of the Gramophone Company's goods.

The prosperity that waits for a lazy man to catch up with it isn't worth catching.
