### ARGENTINA BUILDS WARSHIPS.

Southern Republic Fears War or Would Insure Peace.

Berlin.—Argentine Republic is either preparing for war or else it is following the lead of other "mated fist" nations and preparing to prevent war at all hazards. This is due to the fact that Argentina is placing the biggest orders for rifles, field guns and Krupp's of all nations in the world. Four battleships are under construction for Argentina in the United States and an order has just been given to a German gun factory for 250,000 Mauser rifles for army service. Argentine is buying Krupp's for coast defenses and a score of machine guns are also coming from Turkey, Serbia and Roumania.

The smallest perfect achievement is nobler than the grandest failure.

REGISTERING BOOTH OPEN THIS EVENING

For the convenience of those voters who have not already placed their names on the books a registering booth will be opened in front of the St. George restaurant at 5 o'clock this evening. The books will be kept open as long as there is anyone desiring to register and if the demand continues the booth will be kept open each evening next week. With the time nearly gone, the number of registered voters is only half the number of voters in the county.

### ROYAL COUPLE WILL GO ON REST CRUISE

London.—After King George has inspected the fleet he and Queen Mary, who have worked harder during the last few weeks than any royal couple in Europe, will take several rest cruises on the royal yacht Alexandra.

The King and Queen will make their headquarters at Barton Manor in the Isle of Wight, a residence which the late king never occupied, but which has been redecorated and generally improved for the use of the royal children. The route of the royal yacht will not be published, so that the king and queen can enjoy absolute rest from state cares. They have both created a wonderfully good impression in army and navy circles, and the queen especially has displayed a charm of manner for which few people gave her credit when she was Princess of Wales, and deliberately kept herself as much as possible in the background.

Meanwhile alterations have already begun at Buckingham Palace in the absence of Queen Alexandra, who will divide her time between Scotland and Norway and Denmark until October. The simple bedroom in which King Edward died is to be left, by King George's command exactly as it was. Not a single piece of furniture is to be moved and the room will of course never be used again. Instead of living in the suite facing the private gardens King George and Queen Mary will occupy the suits facing the Mall and full view of the general public. Queen Alexandra will take up her residence at Marlborough House before Christmas.

Parliament has granted her an income of \$135,000 per annum, but her actual income is nearly double this amount, so she will have no difficulty in keeping up both Marlborough House and Sandringham in proper style, and at the same time have a large surplus to devote to her many charities.

In Scotland, Queen Alexandra will not reside at Balmoral, but at Mar Lodge, the residence of the Duke of Fife and her daughter Princess Louise, Duchess of Fife. Princess Victoria, who has been in a state of great nervous depression since her father's death, will spend the fall with her sister, Queen Maud of Norway, whom she will accompany later to their mother's unpretentious villa near Copenhagen.

### HONEY INDUSTRY FLOURISHES IN IDAHO

Meridian, Idaho.—The valley surrounding Meridian holds the distinction of having the largest bee industry in the northwest. The E. F. Atwater company of Meridian, with 1100 bee colonies, is the biggest bee firm in Idaho, Oregon, or Washington. Other big bee men in the valley are:

- J. E. Lyon, Boise, 800 colonies.
  - G. J. Yoder, Boise, 400 colonies.
  - L. C. McCarthy, Nampa, 350 colonies.
  - T. H. Wahle, Nampa, 150 colonies.
  - E. Schultz, Parma, 250 colonies.
  - Ben Payne, Roswell, 200 colonies.
  - H. C. Dudley, Middleton, 200 colonies.
  - Mr. Stark, Middleton, 200 colonies.
- In addition to the foregoing there are many people in the Boise valley with 25 to 100 colonies each.

### NEWS AND GOSSIP FROM ABROAD.

London.—A world-wide warfare on revealed religion will be inaugurated when the freethinkers of the world meet in international convention at Brussels on Sunday. With Spain and Portugal now fighting the church, the leaders in the movement believe that the time is ripe for an anti-religious propaganda greater than ever before attempted. Nor are these leaders political radicals nor unknown visionaries. Men and women famous the world over are enlisted in the "cause," including Dr. Ernest Haeckel of Germany, perhaps the greatest living scientist and evolutionist; M. Anatole France, of the French academy; Joseph McCabe of England and others equally distinguished.

In England, of late, the rationalist propaganda has been carried on with increased vigor. Scientific works, in which Christianity is branded as a "superstition," have been issued to sell at a low price, and distributed by the millions. A London weekly of tremendous circulation has published a series of attacks on the truths of the scriptures, and many other movements have been set on foot to discredit all creeds having a supernatural basis.

There have been such crusades in the past, but they have usually been led by men and women without name and reputation, and so have failed of effect. Now that leaders of wide fame have come to the front, the rationalists are confident that religion will be "stamped out."

Many matters of great importance are to be decided at the international convention of transportation, which begins tomorrow at Copenhagen. It is expected that the sessions will last a full week.

## AT THE PICTURE SHOWS

### The Orpheum.

Program for Sunday's change:

1. Her Father's Pride. (Biograph) 1000 ft. long. A stubborn father, through unreasoning pride, brings much sorrow and many a heartache to his family. When he and his devoted wife are finally driven from their home to the poor house he becomes an object of contempt, a common ending of the proud. Then the disowned daughter comes to their rescue and succeeds in subduing her father's pride and thereby re-unites the family.

2. Peg Woffington. (Edison) 1000 ft. long. The great actress of the past. How she loved and how, when she found her lover was a married man, she sacrificed her own happiness for the sake of his wife, are told in series of scenes splendidly acted and beautifully photographed.

3. More of Betty's Pranks. (Pathe) Another picture displaying more of the humorous antics of this individual. She makes it lively for people in her immediate vicinity and adds materially to the gaiety of the audience in doing it.

Song, Little, Tattle, Tattle Tale.

### The Pastime.

Program for Sunday's change as follows:

"The Law of the West." Sellg. drama, length 1000 feet. An interesting story of sterling dramatic worth. It is a notable addition to the long series of pictures interpretative of western life and character.

"Pure Gold." Kalem, drama, 1000 feet long. A story of truth in a woman, worked out through the love vicissitudes of a broker who lost his fortune and was spurned by the girl to whom he was engaged.

"The Ace of Hearts." Drama. An unusual love story, without the objectionable parent to give it zest. The lovers seem to be doing nicely. It is the father of the girl who gets in bad this time.

"An Ancient Mariner." Comedy.
