Portland 6, Frisco 3.
Portland, Ore., Aug. 25.—Hard hitting that came in bunches gave Portland the victory yesterday over San Francisco by the score of 6 to 3. San Francisco started off a winner, but Portland tied the score in the sixth and added substantially to it in the seventh and eighth. Seaton, who started to pitch for Portland began to look risky in the sixth and was replaced by Steen. Score: R. H. E. San Francisco . . . 3 9 0
Portland 6 11 0
Batteries—Stewart and Berry; Seaton, Steen and Murray.

NORTHWEST LEAGUE.
Vancouver 6, Tacoma 3.
Tacoma, Aug. 25.—Vancouver played better ball than Tacoma and won yesterday in an eighth inning battling rally, four runs coming in. Maston for Tacoma pitched good ball, but was given poor support. The Tigers hit Engle hard, but lost runs by stupid base running. Score: R. H. E. Tacoma 3 11 5
Vancouver 6 9 1
Batteries—Maston and Byrnes; Engle and Lewis.

Seattle 5, Spokane 4.
Spokane, Aug. 25.—Baker's errors lost yesterday's game for the Indians. After two men were gone in the ninth, Clafin was pulled out and Baker sent in with the home team two runs to the good. He made an error, allowing two more to score, tying the game. In the 12th Seattle scored one more. Baker starting the trouble when he covered first. Score: R. H. E. Spokane 4 11 2
Seattle 5 6 2
Batteries—Clafin, Baker and Shea; Chinault and Hemenway.

NEW FOOT BALL RULES SEEK TO MINIMIZE DANGERS
New York.—The football rules committee has announced revolutionary changes for the season of 1910. These will have a tendency to minimize danger of accident. The time of play is divided into four periods of 15 minutes each. The flying tackle is eliminated and players on the offensive side are forbidden to push, pull or interlock arms with the men with the ball.
The usual intermission of 15 minutes is maintained between the second and third period but an intermission of three minutes only is allowed between the first and second, and the third and fourth periods. During the short intermission no player will be allowed to leave the field.
A new ruling is that which provides that a player must have at least one foot on the ground when tackling.
A player is qualified to receive a forward pass only when he is at least one yard back of his own line of scrimmage or occupies the position on the end of the line. No man may make a forward pass or kick the ball unless he is five yards back of the line of scrimmage.
The territory forward of the line of scrimmage and correctly in the enemy's camp, is adjudged neutral for a distance of 20 yards pending the completion of a forward pass or kick.
A forward pass is not legal if the ball crosses a line 20 yards in advance of the spot where it was put in play before touching the ground or a player.
In the case of a kick the players on the defense within the 20-yard zone must not interfere with the ends or other players until their opponents have advanced 20 yards beyond the line of scrimmage.
A player who has been removed for any cause excepting disqualification or suspension may be returned to the game once at the beginning of any subsequent period.
It's easy to say lots of bright, original things if your auditors never heard them before you stole them.

MAYOR PRO TEM OF NEW YORK IS ONLY AGED 31

New York.—John Purroy Mitchell, who assumed his duties as acting mayor of New York City when Mayor Gaynor was shot down on the deck of the Kaiser Wilhelm der Grosse, is the youngest man who ever held such a position in so great a city. He is a type of "the young man in politics," and as president of the board of aldermen usually a politically moribund office, has proven a "live wire" of the liveliest kind.
Mitchell is only 31 years old. He was unknown in political life in New York prior to April 1907, but since that time he has been especially active. He has driven two borough presidents out of office, has exposed graft and corruption in a dozen places and has done more than any man save Mayor Gaynor, to place the government of the city of New York on a sound business basis.
Young Mitchell graduated from the law school of Columbia University in 1899 and became a member of the firm of Mullin, Cobb & Mitchell. He practiced law until chosen in 1907 to represent the city in the investigation of the affairs of Borough President Ahearn. Ahearn had been saving his borough for Tammany. His patronage was stretched to the limit. Charges were preferred against him. Mitchell prosecuted the charges against some of the best lawyers in New York. Governor Hughes removed Ahearn from office. The same course of events followed with President Haffen of the Borough of the Bronx. Haffen was dismissed.
Though a republican in politics, Mitchell has co-operated with Mayor Gaynor, a democrat, in every plan started for the betterment of the city. Political lines were banished between the two men; they were working for New York.

GIRL ELOPES IN THE TROUSERS OF HER PA

Philadelphia.—Though unable to reconcile themselves to so unique a plan as their daughter, Blanche V. Potts, carried out in her determination to wed George P. Milward, the girl's parents are today asking "what's the use?"
Fearing that Blanche was about to elope, Mrs. Potts hid her daughter's clothes when she retired last night. No sooner had her parents gone to sleep than the girl crept to her father's room and attired herself in his clothes. In this attire she slipped from the house, entered her fiance's waiting automobile, drove to the minister and was married.

SPAN CLEARWATER BY STEEL BRIDGE

Lewiston, Idaho.—A Northern Pacific crew is engaged in reinforcing the bridge across the Clearwater river at Spalding, but the repairs are of a temporary character as it is expected a steel structure will be installed next year. The survey for the steel bridge was made early this year and it was expected the structure would be erected during the present summer. The Spalding bridge is a wooden structure which was erected at the time the Palouse branch was extended into Lewiston in 1890. The new bridge will be about 1000 feet in length.
Heavenly love is more than a love for heaven.

NORTHWEST NOTES

Murdered Baby Buried.
Centralia, Wash.—The body of the baby, which was found on the train here about three months ago, saturated with carbolic acid, was buried last week. The police abandoned the case; having no clues whatever, as to the identity of the murderer.

Big Profit on Peas.
Condon, Ore.—H. Grebe has harvested his peas and had 15 bushels to the acre. It would have been 20 or more but for a shower of rain about three weeks ago, which flattened the peas down and the machine could not get them all. Mr. Grebe has sold the crop, except about 200 bushels, to local farmers for \$2.50 a bushel and has the fodder left, which makes a fine feed for stock.

125 Autos at Hood River.
Hood River, Ore.—Hood River has now over a quarter of a million dollars invested in automobiles. At the beginning of the year there were only about 25 machines in the valley, and now there are about 125. The auto owners are enthusiastic for good roads and will only support a candidate for the next session of the state legislature who will favor a bill providing for a county bond issue to secure funds for the immediate construction of good roads.

100 Cars of Prunes Shipped.
Walla Walla, Wash.—The Blalock Fruit company has contracted to deliver 100 carloads or 1000 tons of Italian prunes to Schobel & Day of New York. The price is not stated, but it is understood to be about \$30 a ton f. o. b.
Prune picking in the Blalock orchard has begun. The prunes are of the Columbia variety. From the first 17 trees 410 crates, weighing 25 pounds each, were taken. This is an average of 600 pounds of fruit to the tree. The prunes sold for 3 cents a pound, making the average returns from each tree \$18. The trees are planted 100 to the acre. If the other trees average as well as the first 17 the gross returns will be \$1800 an acre.

300 Cars Peaches Shipped in 1 Week.
North Yakima, Wash.—Peaches in greater number than the Yakima valley ever before handled will go from the Yakima country this week. It is expected that North Yakima will have shipped 300 cars by Saturday. This will be the biggest week of the season and the heaviest fruit shipping week in the history of the valley. The secretary of the farmers' labor bureau states that he will be able to find work for 300 laborers in the next week to pick and pack the crop.
For canning purposes 180 tons of peaches have been guaranteed Libby, McNeil & Libby of Chicago, who are operating the Weber-Bussell cannery and who have already opened their plant.
Next week will also be heavy. The Elberta peaches will continue to come in for three or four weeks, whereas the season for Early Crawfords and prunes is almost over.

Oriental Labor a Necessity.
Vancouver, B. C.—"Oriental labor is an actual necessity for the completion of the Grand Trunk railway," declared Collingwood Schreiber, chief engineer for the Canadian government and the railroad, on his return from Prince Rupert.
"The road cannot be completed before 1914 at the closest, under present labor conditions," he continued. "It is apparent that the white man cannot be obtained, for they are not in the country, and it is a question whether relaxation of the immigration laws permitting the entry of American labor is going to make any difference. With men so scarce I can see no legitimate objection to Oriental labor."
"The total pay roll on the Grand Trunk on the division east of Prince Rupert now carries 3200 names. From five to six thousand men are needed. The contractors pay well but white men won't go into the wilderness."

Unwritten Law Frees Slayer.
Eugene, Ore.—At the coroner's in-

quest over the body of L. S. Prindle, who was shot and killed Sunday night by John Johnson as he was leaving Johnson's house, after Johnson had found him with his wife, the jury returned a verdict of justifiable killing and Sheriff Brown released Johnson from custody.

The evidence introduced at the inquest showed that Prindle had ruined Johnson's home and that Johnson caught him in an embarrassing position with his wife. Johnson has a 5-year-old son who was at the house at the time of the shooting and it was partly through his testimony that the father was cleared.

Prindle was aged about 32 years and single. He lived at Five Rivers, in the extreme northwestern corner of the county, but had been in the vicinity of the Johnson home for some time.
The sheriff and Coroner Gordon, accompanied by Deputy Sheriff Fisk and Deputy District Attorney G. F. Skipworth, who left in an automobile for the scene of the tragedy Monday afternoon, arrived home late last night.

HIGH PRICES EXPECTED TO PREVAIL FOR HAY

Walla Walla.—That "hay will be hay" in the northwest before the crop of 1910 is harvested and that the price will go higher than ever before in the history of this valley, is the opinion of representative farmers of the Walla Walla country, and as a consequence there is little changing hands at the prevailing figures. From \$11 to \$13 a ton, f. o. b., for alfalfa is offered, but there are few who will part with their crops at that.
One indication of the high price that is expected is the buying of local hay dealers from the Palouse country. In that section of the country, where they ordinarily export hay, this year will be a shortage. The demand now is for hay for immediate use, and there is none to be had in this locality, for the farmers simply will not sell.
A few heavy sales opening the season have been followed by two or three smaller ones, and since then the market has been stagnant. No farmer believes that the price is going to remain stationary, or that it is going down in the fact of the shortage in the northwest and elsewhere. California buyers have been reported in the valley in the last week and there is little doubt they will make a strong effort to pull down some of the bigger crops.
But there is little doing. Reports show more and more the shortage of crops and the lure of high prices will tie up the hay in the Walla Walla valley for some time.
However considerable hay is believed to have been harvested in the Big Bend and if enough is left for export purposes the effect may be to loosen prices here.

Ladies wishing sewing done at their own homes or otherwise may phone Black 3786. Terms \$2.00 per day. Mrs. J. L. Dennis.

Like Finding Money.
Koeppen & Bros. the popular druggists, are making an offer that is just like finding money for they are selling a regular 50 cent bottle of Dr. Howard's celebrated specific for the cure of constipation and dyspepsia at half price. In addition to this large discount they agree to return the money to any purchaser whom the specific does not cure.
It is only recently through the solicitation of Druggist Koeppen that this medicine could be bought for less than fifty cents. They urged the proprietors to allow them to sell it at this reduced price for a little while, agreeing to sell a certain amount. The result has justified their good judgment for the sale has been something remarkable.
Anyone who suffers with headache, dyspepsia, dizziness, sour stomach, specks before the eyes, or any liver trouble, should take advantage of this opportunity for Dr. Howard's specific will cure all these troubles. But if by any chance it should not they will return your money.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys must, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

Fort St. James
On Lake Stuart.
BRITISH COLUMBIA

This is destined to be the Portland of British Columbia, on a navigable river and deep water lake with two trains running in next fall.
Letters pour into our office all day with applications for lots. To those who cannot come in we would do our utmost to make a good selection.
