T. R. WILL TEST
HIS POPULARITY

(Continued from Page One.)

Roosevelt will speak at Sioux Falls, S. D., and on the following Monday, Labor Day at Fargo, N. D. In the latter city many thousands of people will be on hand to greet him as a friend and neighbor. Mr. Roosevelt having owned a ranch in North Dakota in the early eighties.

While the former president is speaking at Fargo, President Taft will be delivering an address before the National Conservation congress in St. Paul. The president will leave the Minnesota capital in the evening and a few hours later young Lochinvar Roosevelt will come out of the west. He will talk about conservation on Tuesday, September 6, the day after President Taft's address. It is not considered likely that the two men will meet, but the arrangement of itineraries preventing a meeting was of course, no more than a coincidence.

In Wisconsin After Primaries.

Colonel Roosevelt will arrive in Milwaukee September 7, the day after the primaries. This is unfortunate for the Wisconsin insurgents, who are now engaged in the fight of their lives. It is pretty generally admitted that the fight against Senator La Follette is an administration battle, and that President Taft would be delighted to have the Wisconsin soldier retired to private life. It is suspected that even the radical Colonel Roosevelt has on several occasions found Senator La Follette too radical. Otherwise the colonel might have found it convenient to get to Wisconsin the day before the primaries, instead of the day after. Whether Mayor Seidel, the socialist chief executive of Milwaukee, will give Colonel Roosevelt the glad hand, is also a topic of interesting conjecture.

Two speeches are scheduled for September 8. The colonel will be in Freeport, Ill., in the morning, and in the evening he will go to Chicago to deliver an address before the Hamilton club, the largest republican organization in the west. From the Windy City he goes to the Smoky City and will speak September 10 before the Pittsburg City Civic club. On September 11 he will be back at the office of The Outlook.

In October he will make another tour, going first to Atlanta, where he is to deliver the principal address on "Uncle Remus' Day," October 8. This occasion will be of the nature of a memorial to the late Joel Chandler Harris, the kindly southern humorist, who in his lifetime was a warm friend of Roosevelt. His other addresses will be at Knoxville, Hot Springs, Peoria and in Indiana.

T. R. Will Hunt Down Crooks.

Buffalo, Aug. 25.—"I feel it just a little bit more my duty to hunt crooks out of public life if they happen to be in my own party," said Roosevelt today in addressing the Ellicott club here. The colonel was the guest of honor at a breakfast at which fully 500 were present. He assured the members he would fight in the New York state convention.

In his speech he said: "Just as we must keep unpolluted the waters of the great lakes we must likewise act in the field of moral public and do-

mestic life. I believe in pure government and in this belief I don't recognize party distinction."

FALLS 100 FT., MAY LIVE;
MAN HE HIT IS DYING

Hartford.—After Frank Shea had tumbled 100 feet from the top of the six story factory of Russell & Erwin, in New Britain, where he was working as a carpenter, and had seen another man, Michael Joseph, whom he had hit on the way down, carried away probably fatally hurt, he turned his head while the doctors were fixing him up and told questioners quietly that he lived at 63 Fulton street, Bridgeport, and that he was married and had two children.

Just how he started on his miraculous trip downward is not known, but hundreds of men on the way to work at noon saw him plunging head first to the earth. He hit a piece of scantling forty feet down. This fell and fractured the skull of the other workman, who was on the ground.

Shea landed in the midst of a derrick and hoisting-engine apparatus, escaping with a three-cornered gash in his head, a bruise on his right leg and a sprained left leg.

Joseph, who lives in New Britain, is suffering from concussion of the brain and may not recover. Concerning Shea the doctors are hopeful.

ORIENTAL PRINCESS PROVES
KIPLING ONCE IS WRONG

London.—Kipling's dictum that "East vs. East and West vs. West may be true, but that they do meet sometimes, and meet charmingly, is proved by Princess Previata, of Hindustan, who is one of the most prominent members of Anglo-Indian society.

The daughter of the Maharajah of Cooh Behar, and born in India, the Princess is a typical Oriental in appearance, but in all her habits of thought she is essentially Occidental. She spends most of her time in England and on the Continent, and at Moritz she has established quite a reputation as a daring tobogganist.

Extremely modern and progressive in all her tastes, she has received a thorough European education, and excels alike in all domestic accomplishments and outdoor sports. The possessor of a collection of the loveliest pearls in the world her tastes in dress and adornment are remarkable for their simplicity.

British Cruiser Watches.

Ceiba, Spanish Honduras.—The British cruiser Scylla has again sailed with a promise to return at an early date. The Honduran officials of this district have experienced the practical results of demands by the British government for alleged indignities to British subjects. The president has recalled Governor Medina, who was in charge of the department of Atlantida. Mayor de Plaza Planas, who was charged with the killing of a British-Honduran negro named Thurston and a Honduran officer named Gonzales, who is believed to have assaulted another negro, a British subject, are reported to have been put in prison.

Dickinson Tours Islands.

Manila.—Jacob M. Dickinson, American Secretary of War, has left Manila on a fortnight's tour of the southern islands. The secretary has been indisposed for the past two days and was compelled to cancel several engagements. Today, however, he attended the celebration of the occupation day, arranged by the veteran organizations, and made a brief address. The veterans announced their intention of forwarding a petition to President Taft, asking him to promote Brigadier General Clarence E. Edwards to the post of commander of the Philippines.

Frozen Egg Kills Guinea Pig.

Philadelphia.—As the result of an experiment upon a guinea pig that died twelve hours after being inoculated with frozen eggs, J. Buschel, an egg dealer of this city, was arrested. Harry P. Cassidy, special agent of the dairy and food department, alleges Buschel sells frozen eggs that have been removed from the shell and in a solid body are disposed of to bakeries, which thaw out the product.

ROOSTER TRIES TO ACT
LIKE MRS. O'LEARY'S COW

Montclair, N. J.—It cost just \$2500 to awaken a sleepy rooster in the chicken coop of Charles G. Child of this city.

Child's hired man passed through the coop carrying a lighted lamp and accidentally jarred a board on which the rooster was reposing. The rooster flew at him and knocked the lamp from his hand. The lamp smashed on the floor, the oil blazed up and the coop caught fire. The fire spread to the barn and other buildings and it was two hours before the blaze was under control. The firemen placed the loss at \$2500.
