Election Notices Sent Out.

Election notices for the coming primary election, were sent out to the different precincts in the county this morning by County Clerk Salling and his deputies.

Burgess Is Delegate.

J. N. Burgess, president of the Cunningham Sheep & Land company, has been appointed a delegate to the national conservation congress from this county by Acting Governor Jay Bowerman.

Came Through Fire Zone.

Miss Anna Durkee of this city, who returned last evening from a business visit to St. Paul, came through the forest fire zone in northern Idaho and has therefore recently added to her list of experiences some that she is not anxious to duplicate.

Administrator Is Sued.

A suit for the collection of a note for \$500, given by Peter Nelson, deceased, to the Baker-Boyer bank of Walla Walla, was filed in the circuit court this morning by Edward Byrnes against Frank Brown administrator of the Nelson estate. Attorney fees in the sum of \$100 are asked for.

Prominent Official Here.

M. J. Maddox, superintendent of the American District Telegraph company, with headquarters in San Francisco, arrived in Pendleton yesterday for a visit to the local office of the company. He is making a tour of the northwest offices and noting what changes if any can be made for the improvement of the service rendered patrons.

Arranging for Dance.

A number of the young men of this city are making arrangements for a dance to be given the first week in September, possibly Wednesday September 7. As a number of the young folks will be leaving for college early next month it is planned to have the party before they leave. The big United Orchestra will furnish the music.

Preparing for School Opening.

Principal E. O. Draper of the Pendleton business college is making arrangements for the opening of the school next month. He is enlarging his equipment and preparing to accommodate the enlarged enrollment which his present bright prospects indicate is to be expected. He purchased four new Underwood typewriters today and is otherwise adding to his equipment.

Fine Wallowa Views.

E. D. Weaver, who recently returned from Wallowa lake, where he had been spending the summer, is displaying some of the finest photographic views of Wallowa take scenery ever shown here. Though Weaver is an amateur photographer the pictures of the lake, together with the streams and mountains in that vicinity made by him would be a credit to any professional in the country. It is doubtful if some of the photos ever have or ever can be duplicated.

Pendleton Academy Sued.

Alleging that the conditions attached to the gift have not been complied with, J. H. Kooz of Echo, has brought suit against the Pendleton academy to foreclose a mortgage on the Kooz hall, the girl dormitory, which building was donated to the school four years ago. It is alleged that the academy has not paid the interest on the \$5,000 given to purchase the building and that it has not kept the building insured in favor of the plaintiff. The academy apparently lived up to the terms of the contract until January 1 of this year, since which time it has been in arrears.

LIBRARY IS AGAIN WITHOUT LIBRARIAN

Miss Elizabeth Topping, who has been in charge of Pendleton's free public library for the past few months, left today for McMinnville college, where she will be engaged in cataloging the college library. During her stay here Miss Topping has proved herself to be a very competent and conscientious librarian and her departure is regretted by every patron of the library.

The new librarian has not yet arrived and until she does the library will be in charge of Miss Laura McKee, who served as assistant for several weeks under Miss Topping.

New Books Added.
A contribution of 13 volumes has just been received at the library. They are the theological works of Swedenborg and were donated by the Swedenborgian society. The books have been catalogued and are now ready for distribution.

300,000,000 "HAT" BIRDS.

French League Aroused; Yet Rostrand Gets "Grand Prix."

Paris.—The French league for the Protection of Birds is greatly concerned about the vast slaughter of birds caused by the fashion for "Chantecier" hats. The league asserts that 300,000,000 birds are killed yearly for the adornment of women. Last year a single London merchant is asserted to have sold 32,000 humming birds.

Oddly enough, the Society for the Protection of Animals this year presented its annual "grand prix" to M. Rostrand, the author of "Chantecier."

Much American humor has been the result of the English lack of it.

FANCY STOCK SHOW.

New Department of Walla Walla Fair of Great Interest.

One of the most interesting features of the eighth annual Walla Walla county fair, to be held in the Garden City, September 19-24, will be the livestock exhibit, which this year contains classes and departments heretofore not connected with the annual event. Among the more important additions is that embracing fancy horses, and liberal prizes are hung up by the association for all exhibits entered by the stock-raisers of south-eastern Washington. Following are a few of the classes contained in the fancy live-stock section:

	1st	2nd.

Another Feature.

Still another feature of the fair will be the midway, located on the grounds between the pavilion and grand stand. Secretary Johnson has an exceptionally attractive list of amusement concerns on the list, and visitors to the fair are assured of royal entertainment. Flights during the week by an experienced aviator in a Demoiselle monoplane have been arranged for, and Ruzzi's famous Italian band, with accompanying vocalists will give the musical numbers.

Special railroad rates on all railroads have been granted and special accommodations will be provided for the large number of visitors expected in Walla Walla fair week. Farmers are requested to send in at once their grain samples for competition for the special \$100 cash prize offered by Ben C. Holt of the Holt Manufacturing Co.

O'BRIEN TO BUILD A NEW RAILROAD

J. P. O'Brien, C. G. Sutherland and James G. Wilson today filed articles of incorporation with the County Clerk for the Grants Pass & Western Railroad company, says the Portland Telegram. The object of the new incorporation is the construction and operation of a line of railroad and a telegraph system from a point connecting with the Oregon & California railroad at or near Grants Pass, or some practicable route in a general southwesterly direction to Crescent City, Cal. The company is given the power of issuing bonds and making loans for the financing of the project. The capital stock is \$500,000 and the principal place of business is Portland.

This move by the vice-president and general manager of the Harriman system of the northwest reveals his motive in that half-raising automobile tour over the rugged Coast Range from Grants Pass to Crescent City with Traffic Manager R. B. Miller some months ago. Hitherto Mr. O'Brien has steadfastly denied that the Harriman interests were planning an invasion of that rich timbered belt between Grants Pass and Crescent City, but it now seems that there is more railroad building "in the air" for the Grants Pass & Western will not only open a rich timber belt, but will give the great fruit and other agricultural industries in the lower end of Oregon easy access to water transportation at tidewater.

There may also lurk behind this new road a plan to block the Hills from projecting a line to the Pacific coast in that general direction which might easily be done from Medford, the Western terminus of the Pacific & Eastern, which Hill recently bought and of which John F. Stevens is president. In addition to Vice-President and General Manager O'Brien, other incorporators are Harriman officials. Curtis G. Sutherland is Mr. O'Brien's assistant and James G. Wilson handles the corporation branch of the Harriman legal department in Portland.

2. An Advertisement Answered. Comedy. Essanay, 1000 feet long. Robert Earl, a prosperous young farmer, advertises for a wife. A day or two later he receives a dozen or more letters from ladies all anxious to marry him. The number of letters confuse him and as a final mode of solving the problem, writes a letter to each and addresses them and then shuffling them up, closes his eyes and selects one at random. Satisfied with this he goes out and sends one of the hands in for the letter which he wishes mailed. The man becomes confused and takes the bunch of letters, unconscious that he is implicating his employer in a rather disagreeable predicament. But everything comes out all right in the end.

DISTRIBUTE REEVES PHEASANTS IN STATE

LOCAL SPORTSMEN WANT SEVERAL PAIR HERE

State Game Warden Stevenson has purchased 100 pairs to be liberated through Oregon—Reeves Pheasant Largest of Pheasant Family.

Local sportsmen are greatly interested in the prospect of securing several pair of Reeves pheasants to be liberated in this county. According to a dispatch from Corvallis, State Game Warden Stevenson has just purchased 100 pairs of the game birds and will distribute them among those sections of the state showing the fewest number of game law violations. Though the law has been violated in this county the local shooters hope to secure some of the birds by pledg-

ing their co-operation in the enforcement of the laws more strictly in future.

This week four pairs will be sent to each of the following and liberated by them: Bob Hughes, eight miles south of Corvallis; C. B. Gay, Medford; Eugene Wright, Grants Pass; J. D. Wilson, Yoncalla; Philip Ritter, Albany, Paul Houser, Salem.

Others will be liberated later when suitable localities have been found and where the assurance is given that they will be properly protected. Reeves pheasants are the largest of the pheasant family and have proved a great game bird in England but so far as known Oregon is the first state to stock up with this variety just as it was the first to successfully plant the China ring-neck which has been so prolific in its propagation. Many of the states have been wasting their money on the Hungarian partridge.

The pheasants just bought are paid for out of the general game fund, of which there is now \$50,000, on hand. Mr. Stevenson gives it out as his intention to spend a portion of this money in an effort to restock the fields and streams. The birds bought from Mr. Simpson are of exceptional size and thoroughly acclimated.

PORTLAND AND THE DALLES PEOPLE WILL SEE ROUND-UP

(Continued from page 1.)

ered as one of the first. In addition to letters of encouragement and promises of support which have already been received from different people in the city at the head of the lower Columbia navigation, Major Lee Moorhouse this morning received a letter from Mrs. R. S. Shackelford, president of the Old Fort Dalles Historical society and one of the most prominent women in The Dalles. She says a party of people from The Dalles is desirous of coming up to attend the "round-up" and she wrote for information concerning the attractions to be offered and the expenses to be encountered in making the trip. The information was desired for the entire party.

Special Trains to Run.
Round trip rates of 1-1-3 fares will be in force on both the O. R. & N. and Northern Pacific roads and in addition special trains will be run from all directions. Especially will there be one or more run from Portland and way points.

Rode Bucking Horses.
That Lee Caldwell, one of the champion bronco busters in this section of eastern Oregon, will be in trim for the big round-up is evident from the amount of experience he is getting. He rode two horses yesterday and the second riding proved to be a very pretty contest. A wily iron gray horse fresh from the wilds of the John Day country, objected to being ridden and used most of the tactics familiar to bucking horses in his efforts to dislodge the young cowboy. Caldwell proved master of the situation, however, and never once was in danger of losing his seat.
