As the colors of the rainbow Make the one uncolored beam So the Universal changes Make the One Eternal Dream.

And the dream is all within you, And the dreamer waiteth long For the morning to awaken him To the living thought and strong.

Dwell in thought upon the grandest And the grandest you shall see, Fix your mind upon the highest And the highest you shall be.

—Anonymous.

ARGUMENTS FOR PEACE.

It would seem that the new terrors which science is constantly adding to warfare, and the enormous burden the modern navy places upon the taxpayers of the country, would serve as most potent factors in hastening the day when universal peace among nations will be assured.

Congress recently organized the construction of some new battle ships in order to place the navy of this country upon a basis which would make it formidable in a conflict with the navy of any other country.

The sight-seeing gentleman from the middle west had reached the land of the Pharaohs, the home of the aged pyramids, the resting place of the immutable Sphinx.

"I wonder," he drawled, as he gazed about him, "why they call this place Kiro? We've got a town down in Illinois spelt like this and we call it Kayro, and, b'gosh, I believe we're right."—From Success Magazine.

He was very bashful and she tried to make it easy for him. They were driving along the seashore and she became silent for a time. "What is the matter?" he asked. "O, I feel blue," she replied. "Nobody loves me and my hands are cold."

"You should not say that," was his word of consolation "for God loves you and your mother loves you, and you can sit on your hands."—From Success Magazine.

While in the present stage of air navigation the lieutenant's observations are rather inclined to produce smiles than serious thoughts, aviators are constantly announcing new triumphs and it can be but a short time until the aeroplane is brought into much more practical use.

WHAT CAUSES HIGH PRICES? The point of view makes a mighty divergence in the estimate of public questions, says an exchange.

minority report, which, in fixing the responsibility, declares: "The tariff and the trusts are the chief malefactors, and they are of our own creation or permission."

"The Payne-Aldrich tariff encourages the drinking of champagne and discourages the wearing of woollen clothes."

"The tariff makes great fortunes for the few and great suffering for the many."

"While everywhere in the world the price of harvesting machines has been materially reduced since 1900, in the United States it has been materially increased. The increase started with the Dingley tariff."

These are sample sentences from a minority report which fairly bristles with epigrams which seem to derive their virility from the facts.

Of the two documents the minority report is the most interesting—and the most convincing.

Margaret Illington, the actress and former Mrs. Frohman who forsook her husband and the stage because of her love for babies and an overweening desire to darn socks, is back to the stage again and will appear in Pendleton tonight in "Till Eternity," under the management of her new husband.

A group of European society women have organized a "Big Feet" club, the avowed purpose of which is to cultivate the growth of the pedal extremities as they have discovered that amplexity in size in this part of the human anatomy is closely identified with health and beauty.

Gallagher, the assailant of Mayor Gaynor is credited with having the peculiar powers once attributed to the pied piper. It is reported by his former fellow workers that rats come at his call and play about him.

The fiancée of F. Augustus Heinze is described as a Titian haired actress. If she were less notorious she would in all probability be called "the chorus girl with the brick top."

It is entirely fitting that the first day of the district fair should be "Home Coming Day" for the former sons and daughters of Umatilla and Morrow counties.

An exchange suggests Teddy's experience with African elephants will enable him to successfully manage the G. O. P. elephant.

WE'RE ALWAYS RIGHT. The sight-seeing gentleman from the middle west had reached the land of the Pharaohs, the home of the aged pyramids, the resting place of the immutable Sphinx.

He was very bashful and she tried to make it easy for him. They were driving along the seashore and she became silent for a time. "What is the matter?" he asked. "O, I feel blue," she replied. "Nobody loves me and my hands are cold."

IT'S A HARD, HARD WORLD. A group of hoboes waiting for their coffee to boil in a tomato can were telling of their hard-luck experiences.

ROYALTY WILL VISIT AMERICA NEXT WINTER

Washington.—Royalty galore will grace America next season, according to advisers just received. No less than five highnesses will visit the United States during the coming winter, besides the possibility of the stay of the Duke of Connaught.

Then will come the two Serbian princes, George and Alexander, whose visit, scheduled for last March, was deferred because of the wide publicity given to the object of their errand—the matrimonial search for heiresses to replenish the Serbian royal treasury.

There have also been reports that Albert Edward, 16 years old, heir to the British crown, will be sent for a year's voyage on board one of the British battleships that will go around the world at an early date and which will stop at some American port on the way.

Prince Tsai Houn, brother of the prince regent of China, will reach the United States early in October, and will remain in this country several weeks. He is also a brother of Tsai To, who was here last April and was entertained by the president at the White House.

All these notabilities—or those that come—will visit Washington, where they will be idolized by society. In anticipation of their coming, society is arranging several entertainments.

GERMAN EMIGRATION FAST DECREASING

Berlin.—A remarkable proof of the prosperity of Germany under its protective policy is the diminution in the number of emigrants. Thirty years ago 200,000 Germans left their country every year; now the annual number of emigrants is approximately 20,000.

Official statistics show that the population of Germany already numbers 64,750,000, and at the present rate of increase the population will be fully 65,000,000 when the next census is taken on December 1. The increase of Germany's population for some time past has been approximately 1,000,000 per annum.

Forty years ago France and Germany had almost equal populations—40,000,000 in each case. Now Germany has 65,000,000 and France only 39,000,000 and the effect of this change on the political and military situation in Europe is evident.

The remarkable growth of German population is continuing in spite of the reduction of the birth rate from 42 per 1000 in 1875 to 33 per 1000 in 1908. The contributory causes are the reduction of the death rate from 27 per 1000 in 1885 to 19 per 1000 in 1909 and the diminution of emigration.

No Oil There. "I hear, Mr. Parvenu, that your son is a great student, and passes most of his time over the midnight oil."

"There isn't a word of truth about that oil, ma'am; we have gas all over the house, and Alfred has a whole chandelier in his room. Oil, indeed!" And the haughty dame tossed her head.—Puck.

AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pinkham's Vegetable Compound Milwaukee, Wis.—"Lydia E. Pinkham's Vegetable Compound has made me a well woman, and I would like to tell the whole world of it. I suffered from female trouble and fearful pains in my back. I had the best doctors and they all decided that I had a tumor in addition to my female trouble, and advised an operation. Lydia E. Pinkham's Vegetable Compound made me a well woman and I have no more backache. I hope I can help others by telling them what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. EMMA LEMSE, 833 First St., Milwaukee, Wis.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.
