fly between two precipitous walls scarcely a mile apart. After Domodossola is passed, the journey is easy. The valley is wide, green and level along the course of the Toco. The aeroplanes will cross Lake Maggiore from Fondo Toco to Arona, and, traversing the plains of Lombardy, will fly above Milan. An observatory on the Simplon, united by telephone with Brieg and Domodossola, will make reports regarding the aerial currents. Special trains will run along the Simplon line, and endeavor to follow the flights from the mouth of the tunnel to the goal, while motor cars will be stationed along the route. The aviators will be allowed 24 hours to complete the journey, with an unlimited number of stops.

CHINK PREFERS BOSTON TO BEVERLY WEATHER

Beverly, Mass.—Most people, including the president of the United States, come to the summer capital with the idea of enjoying the ocean breezes. Hundreds of Boston business men live in Beverly and "commute" to Boston daily.
 It has remained for Joe Lung, proprietor of Beverly's justly celebrated laundering establishments, and a countryman of Wu Ting Fang the wise, to reverse the order of things. Joe "commutes" to Beverly and lives in Boston.
 "No like climate," he said to a group of newspaper correspondents. "Business him good, climate velly bad. I no standee weather here. Boston, him heap better."

MAKING READY FOR SOUTHWEST FAIR

Centralia, Wash.—The race track at the Southwest fair grounds is in fine condition, and already about 25 horses from various parts of the country are training. The track has been sprinkled in such a way that those who wish a hard, smooth, speedy strip to drive over have it, and those wishing a soft speedway have the same privilege. An electric pump will soon be installed and then more water will be sprinkled.
 Farmers from all parts of the country are taking an interest in the fair and are preparing exhibits of grain, fruit and vegetables and are preparing their fancy livestock and poultry.

 Moscow.—A certain Youravieff, who has just been executed here, is credited with having committed no fewer than 265 crimes. It is stated that Youravieff developed a propensity for pillaging monasteries, killing priests, monks and deacons indiscriminately if they dared to offer any opposition. He made a desperate fight before he was finally secured, seriously wounding several police officers.

A SENSATIONAL WILL CASE AT BAKER CITY

Baker City.—What promises to be a sensational will case was filed today in the probate court of this county. Nellie Wright and Floyd Wright bring suit to set aside the will of their late father, James W. Wright, alleging that fraud and forgery were practiced in securing the will. Serious charges are made against Fannie H. Wright, his second wife, by Nellie and Floyd, children by his first wife.
 James W. Wright died in this city February 26, 1910, leaving an estate valued at about \$20,000, and of this amount Nellie and Floyd received \$500 each, and the remainder goes to his wife.
 According to allegations of the children, they have been in Kentucky for the past three years attending school and have not seen their father. They claim that Mrs. Wright kept their letters from her husband and otherwise influenced him against them.
 They allege that the purported will is not the last will and testament of the deceased man, and that the signature which is attached to the will is not that of James W. Wright, as the will is dated February 26, the day on which he died, and they claim that on that day he was not able, either mentally or physically, to sign his name.
 The case will be hard fought on both sides and some prominent legal talent will be employed. County Judge Messick has set September 15 as the date for hearing the case, as the will has been admitted to probate and the plaintiffs ask that it be removed from probate.
Officials Given Their Deserts.
 Berlin.—During the recent floods a comic incident occurred in the Ichtenberg suburb, where the county councillors crossed the street on an impromptu raft. When in the middle of the stream they were recognized and being held responsible for the state of affairs, were promptly ducked by the raftsmen.
