DREAD CHOLERA LAYS 30,000 RUSSIANS LOW

St. Petersburg.—The cholera situation steadily grows more alarming. Already the figures show that there have been more than 3,000 deaths from the plague, and new points of infection are reported daily.

The best estimates now place the number of cases at 65,000 and the death rate has been fully 50 per cent. The output of coal in the Donetz region has been reduced by 60 per cent and a partial paralysis of railway and industrial operations has set in. The ignorance of the peasants, coupled with the awful lack of proper medical and sanitary organization, makes the task of coping with the unprecedented epidemic well-nigh desperate.

Professor Rein and a numerous medical staff have gone south with instructions from the government to take every measure to arrest the progress of the cholera, especially in the solitary districts. The action is somewhat tardy. The epidemic has already laid low 4000 miners and thousands of others have fled to their homes, spreading contagion in the villages in the central and southern zones.

COUNTESS PROBABLY INSANE.

Was Involved in Notable Tragedy, and Never Recovered.
 Rome.—According to telegrams received from Venice, the Countess Larnowski has grown so violent in her hysterical fits that it has been found necessary to confine her at times in a straitjacket.

It is feared that she is losing her mind, and her condition has been made worse by the news of the tragic death of her cousin recently, which the doctors vainly attempted to keep from her. It will be remembered that the countess was sentenced about two months ago to eight years' imprisonment for her complicity in the murder of Count Kamarowski who was shot by one of her lovers.

Lit Pipe With Ticket; Lost \$40,000.
 Rotterdam.—A Rotterdam blacksmith, excited by the news that he had won \$40,000 in a lottery, lit his pipe with his ticket and is now unable to prove his claim.

DEALT IN CHARM RINGS.

French Police Capture the Unlawful Trader.
 Paris.—For the alleged offense of dealing in amulets and charms, a practice which is forbidden by French law, a man has just appeared before a provincial court, which will deliver judgment in a week. According to the charge, he made a good thing out of the business, though he was reasonable enough in his prices, at least for what he professed to supply. For 15 francs a customer could become possessed of an "all-powerful ring," which gave him such strength of will that success in his enterprises was assured.
 For 10 francs he could have a "negative ring," which spread confusion among his enemies. Then there was the amulet which brought luck for the modest sum of 7 1-2 francs.
 There was, however, such a rush after these rings and amulets that their vendor is supposed to have made greatly from this traffic. Proceedings were taken against him when some disappointed buyers discovered that they were not "all powerful," that their enemies were still flourishing, and that, in the matter of luck, they were going on pretty much as usual.
 If there have been "victims" most of them have been willing ones, and are silent. The judgment, when it comes to be delivered, will certainly be interesting.

"Foley Kidney Pills Have Cured Me."
 The above is a quotation from a letter written by H. M. Winkler, Evansville, Ind. "I contracted a severe case of kidney trouble. My back gave out and I seemed to have lost all strength and ambition; was bothered with dizzy spells, my head would swim and specks float before my eyes. I took Foley Kidney Pills regularly and am now perfectly well and feel like a new man. Foley Kidney Pills have cured me." A. C. Koeppen & Bros.

GERMAN NEWS.

Crown Prince May Visit U. S.—Sulicide Club in Kaiser's Army.
 Berlin.—While, according to the official program, the crown prince will not visit the United States on his return from India, it is by no means sure that the program will not be changed. His royal highness is anxious to visit America, that is certain, and there is high authority for saying if the necessary arrangements can be made he will return via San Francisco and New York, touching the principal cities of the United States, particularly those having a large German population.
 Suicide Club in Army.
 The German military authorities are considerably perturbed at the statement that a suicide club is in existence among the soldiers of the Nuremberg garrison. Recently a private shot himself, apparently for no reason at all. His death has been followed by that of a lance corporal.
 The second tragedy seemed as mysterious as the first, until among the dead man's effects a letter was found stating that he and the previous suicide belonged to a club, each member of which was bound by an oath to die by his own hand. A rigorous search by the military authorities has failed to reveal the identity of the remaining members of this society.
 Ferment in Egypt.
 Dr. Berger, an oriental traveler, makes a remarkable statement on the alleged insecurity of British rule in Egypt. He asserts that in the case of an insurrection in Egypt the natives would be armed with plenty of the most modern weapons, there being over 40,000 English repeating rifles, with ammunition, buried in a certain neighborhood. These weapons have been smuggled into the neighborhood despite the watchfulness of the British cuirassiers. The British authorities, Dr. Berger declares, have made most strenuous efforts to locate the hidden spot, but no native has been found willing to betray the insurgent cause.
 Help for Elderly People.
 W. H. Dawes, Maton, Ill., over 60 years of age, found prompt relief for his kidney trouble in using Foley Kidney Pills. He writes: "For several years I have been bothered with kidney trouble, having much pain in my back, so severe that I would have to stop right where I was. I bought a bottle of Foley Kidney Pills and started to take them. They acted promptly, as the pain gradually grew less and less, till it was nifrely gone. I am now over my trouble and am glad to recommend Foley Kidney Pills to people suffering as I did, as a quick and permanent cure." A. C. Koeppen & Bros.
