### TUESDAY, SEPT. 27, TO BE "MORROW DAY"

#### NEIGHBORING COUNTY WILL BE HERE IN FORCE

Exhibits Will be Best Yet Displayed—  
Two First Days of Fair Will be Most  
Successful in History.

Tuesday, Sept. 27, "Pioneer Day," is also to be "Morrow County Day" at the greater district fair.

This announcement was made this morning by Secretary Thomas Fitz Gerald, after having received letters from different prominent residents of the neighboring county. Much interest is being manifested in the fair this year by residents of the southwestern half of the district and Morrow County Day promises to be more largely attended than ever before.

The Morrow county exhibit at the fair will also be the best that section of eastern Oregon has ever displayed, according to a letter received this morning from D. C. Gurdane of Hesper, who is again to be in charge of the exhibit. He asked for the same space the county had last year and

#### Scientific Optical Knowledge

## HEADQUARTERS FOR Round-Up Hats and Hat Bands

Anything printed on the band  
that you want

### WORKINGMEN'S CLOTHING CO.

Less Expense Makes Our Prices Lower

Talk about it! Come! Bring your friends, to "The Round-Up" and Third District Fair. Sept. 26 to Oct. 1.

#### STAINS THAT WON'T

COME OUT  
can be concealed by dyeing as many a fine gown has been saved that otherwise would have been irretrievably ruined. Our skill and experience as practical dyers enable us to properly treat the most delicate fabrics, so as to make them look good as new. We guarantee thorough satisfaction.

#### Pendleton Dye Works

206 1/2 East Alta St., Phone Main 169.

### Newsy Notes of Pendleton

#### Official Weather Report.

Maximum temperature, 76.  
Minimum temperature, 34.

#### Marriage License Issued.

A marriage license was issued this morning to Harry Claudius Mayo and Fanny Rader of this county.

#### Moving to Pendleton.

M. J. Moran, section foreman for the O. R. & N. at Cayuse, moved his family to Pendleton today so that the children might have the advantage of the city schools. They will occupy the residence property recently purchased on Jane street.

#### A. J. Sturtevant Very Low.

A. J. Sturtevant, the Pilot Rock pioneer is seriously ill at his home in that city. He was thought to be dying last evening but was still alive this morning and some hopes are now entertained for his recovery. Mr. Sturtevant is past 80 years of age.

#### Council Meets Tonight.

Owing to the fact that the mayor and several members of the city council went to Hermiston yesterday afternoon, no meeting of the council was held last evening. A meeting will therefore be held this evening for the purpose of auditing the accounts against the city.

#### Fire Laddies Will Dance.

At a meeting of Hose Company No. 2 of the Pendleton Fire Department, it was decided to give a hard times dance Wednesday, September 22. The boys hope to raise some money by giving the dance to defray the expense of securing some rubber coats for their use in fighting fires. Music for the dance will be furnished by the United Orchestra.

#### Favors Forty-foot Roads.

C. R. Myers, a resident of the Hermiston country, is up to confer with the county court regarding the opening up of some county roads. He says that while the rapid settling up of the country makes the building of more roads imperative, that most of the settlers on the projects are in favor of 40-foot roads. There are some, however, who think the 50-foot standard should be maintained.

#### Skilled Employes Wanted.

The board of civil service examiners is advertising for applicants for positions as assistant chemical engineer in forest products, microscopist in forest products, and assistant chemist in forest products. The salaries range from \$1000 to \$1500 per year. Lester Cronin, local secretary for the civil service is authorized to conduct the examinations in this city.

#### Returns From Extended Outing.

Rev. Ralph Storey, pastor of the Baptist church, returned last evening from an extended tour of central Oregon. He was accompanied by his family, traveling by wagon and camped enroute. They were gone six weeks and were as far south as Silver Lake, near which place Mr. Storey has a desert claim. He reports a splendid outing and some good hunting.

#### Mrs. Davis Dies.

Mrs. Jessie M. Davis, wife of Cal Davis, died last night about 10 o'clock at the family home, 822 Hazel street. Inflammation of the bowels was the cause of death. She was 24 years of age and in addition to her husband and 1-year-old son, is survived by her parents, Mr. and Mrs. G. W. Hanna, a brother and two sisters. Funeral services will be conducted at the house tomorrow afternoon at 2 o'clock.

#### Noon Train Is Late.

O. R. & N. westbound passenger train No. 17 will not pass through Pendleton until midnight or later. A wreck over on the Short Line, east of Huntington is responsible for the delay. The Portland local was run as far east as Huntington last night and brought back today on No. 17's time. Washington division train No. 7 was late last evening, having had an engine failure on the Blue mountain grade, north of Weston. It did not arrive until 9 o'clock.

#### School Teachers Arriving.

With Monday as the day for the opening of the city schools, the teachers, especially the new ones, are beginning to arrive from the different parts of the country. Miss Mona Nagle arrived this morning from Albany, where she has been teaching for the past two years and Miss Louise Wise will arrive tomorrow morning from Tacoma. C. C. Ruth, the new instructor in the science department of the high school, has arrived from his home in Valparaiso, Indiana. Principal A. C. Hampton of the high school, is spending his afternoons in the high school office this week, certifying to the credits of those students who are going away to college this fall for the first time.

#### PINCHOT ADDRESSES THE CONSERVATION CONGRESS

(Continued from Page One.)

iple is that the natural resources still owned by the people which are necessities of life like coal and water power, should remain in public ownership and disposed of only under leases for limited periods, with fair compensation to the public for rights granted.

#### Make Streams Useful.

"As to our waters, every stream should as soon as possible, be made useful for every purpose for which it can be made to serve the public and every power site now in state or federal control should be held so.

"In the development of our waterways the co-operation of the states with the nation is essential for our general welfare.

"As to our forests, all forests necessary for the public welfare should be in the public ownership, such as the national forests already in existence, the proposed Appalachian and White Mountain national forests, and

the state forests of New York, Pennsylvania, Wisconsin and other states.

"The protection of forests against fires is the first duty of forestry of states and nation alike. The way to stop fires is to get men to them as soon as they begin. The maintenance and extension of forest fire control by the nation, the states and their subdivisions, and by associations of private citizens who own timberland is absolutely necessary.

"The protection of existing forests by wise use is the first step in forestry. Reforestation is the second.

"Land bearing forests should be taxed annually on the land value alone and the timber crop should be taxed when it is cut, so private forestry may be encouraged.

"Private Ownership Is Public Trust.  
"The private ownership of forest land is a public trust, and the people have both the right and the duty to regulate the use of such lands in the general interest.

"As to lands, every acre of land should be put to whatever use would make it most useful to all the people.

"The fundamental object of our land policy should be the making and maintenance of permanent prosperous homes. Land monopoly and excessive holdings must not be tolerated.

"Settlement must be encouraged by every legitimate means on all the land that will support homes. Thus the tillable land in public ownership within and without the national forests should be disposed of in fee simple to actual homesteaders but not to speculators.

"The first and most needed thing to do for our cultivated lands is to preserve their fertility by preventing erosion.

"The non-irrigable, arid public grazing lands should be administered by the government in the interest of the small stockman and the homemaker until they can pass directly into the hands of actual settlers.

"Would Repeal Timber and Stone Act.  
"Rights to the surface of the public land should be separated from the minerals beneath it and each should be held subject to separate disposal. The timber and stone act should be repealed.

"As to our minerals, those still remaining in government ownership should not be sold but should be leased upon terms favorable to their development up to the full requirements of our people. Until legislation to this effect can be enacted temporary withdrawals of land containing coal, oil, gas and phosphate rock are required in order to prevent speculation and monopoly.

"It is the clear duty of the federal government as well as that of the states to provide through investigation, legislation and regulation against loss of life and waste of mineral resources in mining. The recent creation of a national bureau of mines makes a real advance in the right direction.

"With regard to national efficiency the maintenance of national and state conservation commissions is necessary to ascertain and make public the facts as to our natural resources. Such commissions supply the fundamental basis for co-operation between the nation and the states for the development and protection of the foundation of our prosperity.

"National Health Service.  
"A national health service is needed to act in co-operation with similar agencies within the states for the purpose of lengthening life, decreasing suffering and promoting the vigor and efficiency of our people.

"In the effort to conserve our natural resources, we must recognize that combinations against the public welfare which extend beyond the state lines can be met effectively only by agencies equally capable of operating across such boundaries. It is clear that the control of interstate commercial power is possible only by the use of interstate federal power. We are opposed to the extension of state jurisdiction at the expense of real control by the people over monopoly, as in the case of waterpower.

"While I do not believe that the state alone can carry out the conservation program in face of interstate attacks upon it, I do not fail to recognize the great and useful part which the states must play in this great movement for the public welfare of all our people. Also, I appreciate now as I have always done that much of the work ahead co-operation between the states and the nation is an essential condition of success. But when I see the special interests attempting to take refuge behind the doctrine of state rights, I propose to speak out and say so.

"The principles enunciated in this short statement have all been repeatedly presented to congress in the form of concrete bills or embodied in action taken by the executive for the public welfare. Some of them have been enacted into law. Others remain to be embodied in legislation, both state and national. There is much hard fighting ahead, but the progress already made is encouraging.

"Conservation more and more generally goes out not only the belief which it has already, but the determined fighting support of our people."

#### Lancaster Celebrates.

Lancaster, Pa., Sept. 8.—Just two centuries ago, in 1710, Pastor Hans Herr led a little flock of German pioneers into Lancaster county, then a barren wilderness of dark woodland and heavy swamp. Today the citizens of Lancaster county, Quaker and Scotch-Irish as well as German, are celebrating the two hundredth anniversary of the first settlement near the house of Hans Herr and paying tribute to the memory of the brave pioneer.

Hans Herr was a Mennonite, as were his followers and like the Quakers and the Pilgrims, fled to America to escape religious persecution. Nearly all of the pioneers are now represented by hundreds of descendants bearing the family name and the celebration today will be of the nature of a great family reunion.

Fresh Eastern and Olympia Oysters and Clams arriving daily at Lyman's.

#### WILL EXPEND \$70,000 ON ORCHARD LAND

Boise, Idaho.—The 900-foot tunnel is now nearly completed for the bringing of the flood waters of Little Willow creek through the Boise mountains for the irrigation of 500 acres of the finest fruit lands in the west at what is known as the Big gulch, five miles northwest of Boise.

The flood waters of Little Willow creek are taken through the mountains over into Big gulch and from there to Little gulch. From the tunnel the water is dropped into a reservoir holding 5000 acre feet of water. The dam for this reservoir is expected to be completed next spring. The dam will be 60 feet high and 400 feet long.

The cost of the tunnel will be about \$16,000 and the cost of the dam about \$30,000. It is estimated that the whole cost of the project, including the tunnel, dam, canal system, etc., will be about \$65,000 or \$70,000, which would make the water cost about \$20 per acre, which is very reasonable when the richness of the lands to be irrigated is taken into consideration.

The company expects to develop this project into a large and magnificent orchard. The land to be irrigated is high enough to ward off the late spring frosts which will insure a fruit crop every year. The soil is ideal fruit land, with good water and air drainage.

#### Jersey Cops Hold Meeting.

Atlantic City, N. J., Sept. 8.—Criminals are giving Atlantic City a wide berth today, for the seaside resort is fairly swarming with the bluecoated wielders of the nightstick. Cops from every city and town in Jersey are participating today in the annual state convention of policemen. At the business session various matters of legislation affecting the police will be discussed, and officers will be elected. John Beggans, of the Jersey City force, is the present president.

#### Hold a Midnight Mass.

Montreal, Sept. 8.—A midnight in the Church of Notre Dame was held during the early hours of today and was attended by thousands of men, who filled the great edifice to overflowing. The ceremony was a part of the Eucharistic congress and was participated in by some of the most distinguished churchmen of the Catholic world. A solemn service was held today in St. James Cathedral and there will be a celebration in Notre Dame this evening.

#### Mrs. Sage Is Eighty-Two.

New York, Sept. 8.—Mrs. Russell Sage, who, since the death of her money-grabbing husband, has devoted herself to dissipating his fortune in far-reaching philanthropies, is today receiving the congratulations of friends upon her eighty-second birthday.

#### Big Shipment of Hides.

Grangeville, Idaho.—A shipment of 15,000 pounds of hides valued at \$2,000, has been made by the firm of Ashby & Alshue, Grangeville Junk dealers. The shipment had been purchased from Camas prairie farmers and local butchers during the past six months.

#### Lebanon, Ore.—The building for the new steam laundry is almost completed.

The main building is 32x60 and the engine room is 12x14. The machinery has been ordered from Chicago and will arrive soon.

### AT THE MOVING PICTURE SHOWS

#### The Orpheum.

Fine program for Friday's change.  
1. Wilful Peggy. Biograph, 1000 ft. long. A most delightful romantic comedy of the early days in Ireland. Peggy, though a peasant is self-willed and afraid of no one. Her spunk, pugnacious nature, which tends to emphasize her beauty, impresses the lord of the manor, to the extent of proposing marriage. The marriage takes place and after a tumultuous honeymoon, he finds he is in possession of a rare jewel of womankind.  
2. Forgiven. Selig, 1000 ft. long. A beautiful story, graphically told, full of heart interest and human emotion.  
3. A College Chicken. Essanay, 1000 ft. long. The story of an ill-gotten pullet. Full of snap and true to life.  
4. Mulchay's Raid. Essanay. The further adventures of Sergeant Mulchay. A rattling good comedy with novel situations.  
Song. I Love My Wife But Oh You Kid.

The Pastime Theater.  
Friday's change of program:  
"The Usurer." Biograph, drama, length 1000 feet. Here we are with another of those interesting Biograph stories. A subject of much dramatic power.  
"The Red Girl and the Child." Pathé, drama, 1000 feet long. "A sensational western picture." A powerful and imaginative story. Interesting from beginning to end.  
"The Water Cure." Comedy. A lively comedy, representing how a man adopted the water cure as a panacea for his ailments.  
"Picturesque Waters of Italy." Scenic.

Special added attraction Saturday, September 10, and Sunday, September 11. Something that will interest you. All in addition to the regular program.

#### Mothers in English Race.

London.—A feature of the sports held at Great Bromley was a Marathon race from Colchester to the sports ground for mothers of not fewer than six children, who were required to wheel the youngest child in a perambulator.
