Hermiston, Ore., Sept. 9.-A large part of the voters in the Hermiston voting precinct have now registered and the registration books show a voting population of 225 and it is likely by the time all are in it will reach 250. The books show about eight republicans to one democrat. They also show a few scattering socialists. It will be remembered that last year Hermiston voters had to go kle to Echo to vote, but this year a voting precinct has been created at both Stanfield and Hermiston. It is likely that a good registration will be shown in the Stanfield precinct. Many wonder why every candidate has his eye on the west end, but there is no cause for wonder when the votes are count-
