an open, discharging place on the fiesh because the circulation constantly de-posits into the fibres and tissues which surround the spot, the infectious matter with which the blood is contaminated. It is impossible for the sore to heal while the blood is in this impure state. S. S. S. heals old sores because it is the greatest of all blood purifiers; it goes into the circulation and removes the cause from the blood. When the blood has been purified there is no longer any inflammatory impurity or infectious matter to irritate the place, and nature causes a certain and natural healing of the ulcer. It is all well enough to endeavor to cleanse an old sore, or stop the itching, or absorb the discharge, with external applications, but a cure can never be reached in this way, because such applications do not reach the blood where the cause is located. S. S. S. does not simply cause a scab to form over an old sore, but beginning at the bottom it heals the place permanently by building new tissue, and filling the place with firm healthy feet. S. S. S. is a purely botanical remedy, being made entirely of roots herbs and barks, each of which has a direct and lasting effect in removing impurities and poisons from the circulation. Old people who have suffered for years with a aronic sore will find S. S. S. a most helpful tonic and system builder in countersoting the debilitating effects of the old ulcer.
