Official Weather Report.
Maximum temperature, 75.
Minimum temperature, 35.

Routine Business Transacted.
Bills were allowed and reports were read at last night's meeting of the council. Nothing but routine business was transacted.

Academy Attendance Good.
At the St. Joseph's academy the attendance this fall is larger than ever before in the history of that school. Over 100 pupils were enrolled the first day and of these 40 are boarding pupils. The children come from various parts of Oregon and Washington, British Columbia and from places as far distant as Chicago.

Indian Woman Died.
Nora Whitman, an Indian woman living just this side the old agency grounds, died night before last and her funeral was held today. The deceased was 45 years of age and died from the effects of cancer. She was an active member of the Tutuilla Presbyterian church and the funeral was held today from that church.

lieres signed a reprieve, and Graby's death sentence was transmuted to life imprisonment.

The sensational murder of Madame Gouin came shortly after the Steinhil case caused a furor throughout France. At the outset there were no clues, and the authorities admitted themselves baffled until passengers upon the train recalled that they had seen two French soldiers in uniform, who had acted suspiciously, leave the train.

The degradation of Graby and Michael before their regiment took place recently. It was a solemn scene.

One of the interesting school fetes recently was the distribution of certificates of progress and capacity at the City of Paris Technical School for Girls. It is strictly a school for "trades and housekeeping," and is in the Rue Fondary. To enter it a girl must have gone through the whole primary course at a communal school. The age limits are from 13 to 15, and the pupil leaves at the end of the third year. The great houses of business show a keen interest in their work, and generosity by sending materials for them to work upon. The competition among them to secure the services of graduates is keen also.

Some girls have entered on scholarships given by the city. Others pay fees. A great number, as deserving pupils at primary schools, are received because they are poor and good girls. The directress alone knows of the poverty of their families. All the girls take turns in the kitchen in preparing the mid-day meal, which is for the whole school. They also take turns in helping the "housekeepers" to tidy up. There are eight trades divisions—namely, modes, artificial flowers and feather mounting, children's dresses, embroidery of tissues for wearing apparel and furniture, corsets, ladies' vests and jackets, lingerie, clear starching and fine ironing.

All the housekeepers practice plain sewing, mending and darning.

grade; Maud L. Maxwell, first grade.
Washington School.
Lulu George, principal, eighth grade; Mary G. Maclay, seventh grade; Mary E. Whitney, sixth grade; Angie Schroeder, fifth grade; Mona Nagle, fourth grade; Lillian Holman, third grade; Matel Elder, second grade; Neva Lane, first grade.

High School.
A. C. Hampton, principal, mathematics; C. C. Ruth, head of science department; M. S. Pate, agriculture and assistant in science; Margaret Melkoth Latin and German; Mary E. Elder, English; Louise Wise, commercial department; Pearl Porter, history.

Laura E. Schroeder, supervisor of music and drawing.
J. S. Landers, superintendent.

With the opening of the city schools now but a few days distant active preparations for the resumption of work is now being carried on. Superintendent Landers is kept busy at his office in the city hall attending to various matters in connection with the opening. He has just issued the following instructions to parents and teachers:

All pupils of the grades on the south side of the river, west of Main street, will attend the Hawthorne school; those east of Main street, the Washington school. All pupils on the north side of the river, below sixth grade, will attend the Lincoln school. Classes in first grade will be organized in the Washington, Hawthorne and Lincoln schools. All children who are six years of age, or who will be six by November 1 may enter these classes.

A preliminary meeting of all teachers will be held at the city hall at 10 a. m. Saturday, September 10.

For further information, apply to the superintendent at city hall.

At this time no preparation has been made for the opening of the Field school. It is the intention if possible to provide room for all the children in the brick buildings. However it is possible it may be necessary to reopen the Field.

As announced by Superintendent Landers the following is the list of teachers for the coming year together with the positions they are to occupy:

Lincoln School.
Florence Harris, Principal, fourth and fifth grades; Augusta Moulé, second and third grades; Celestine Moorhouse, first and second grades.

Hawthorne School.
Viva D. Warren, principal, eighth grade; Elsie Conklin, seventh grade; Mary Zurcher, sixth grade; Velma M. Wilkinson, fifth grade; Carrie Sharp, fourth grade; Inez O. Makin, third grade; Mrs. Paralee Halley, second

**ACKERMAN SHOWS GREAT
GROWTH OF SCHOOL SYSTEM**

Salem, Or.—Superintendent J. H. Ackerman has completed his statement showing the growth and development of the public school system in Oregon during the past year. While the expenditures for school purposes for the school year of 1908-9 were \$4,235,528.64, the expenditures for the school year closing June 30, 1910, were \$5,062,580.37. The receipts for the former period were \$5,334,883.83, while for the school year of 1909-10 the receipts were \$5,378,508.20.

During the school year just closed \$2,299,889.42 was expended for teachers' wages and \$1,280,365.52 was expended for new buildings and sites. The value of school buildings and sites in this state is \$7,832,219.99, covered by insurance amounting to \$3,421,407.35. The average monthly salary of male teachers increased last year over the previous years from \$69.25 to \$73.53, and the average monthly salary of female teachers from \$51.15 to \$55.04. The average salary of principals in buildings of more than one room increased from \$87.03 to \$91.22, and the monthly salary of teachers in one room, buildings increased from \$50.15 to \$53.44. The average annual salary of city superintendents increased from \$1,615.88 to \$1,665.

The enumeration of children of school age from 4 to 20 years, taken November 25, 1909, showed the population of school children in this state to be 171,742 of which 87,609 were males and 84,133 were females. The census of the year previous gave 166,649, an increase for the year of 5093. The enrollment shows a corresponding increase. For the school year just closed the enrollment was 118,322, of which 59,545 were males and 58,777 were females. The enrollment for the previous year was 114,674. There were employed last year in Oregon's public schools 4734 teachers, of which 922 were males and 3812 were females. The number employed the previous year was 4453. Last year 5109 eighth grade diplomas were issued in Oregon and the year previous but 3174. The decrease in district school taxes due to increased earnings of school funds and despite larger expenses of a growing public school system, was almost one mill. Last year the levy was 3.52 mills, as against 4.448 mills for the previous year.

**FAIR PAVILION IS
BEING IMPROVED**

**CARPENTERS AND PAINTERS
ARE BUSILY AT WORK**

Entire Interior of Wall Will be White-washed—Other Improvements and Changes to be Made—Business Men Urged to Brighten up Their Fronts.

The district fair pavilion is now in the hands of the carpenters and painters.

The work of preparing the big building for the fair was started about ten days earlier than usual this year and it is expected that with this start no difficulty will be experienced in having everything in complete readiness by the time the doors are swung open, Monday afternoon, Sept. 26.

The entire inside of the pavilion is to be whitewashed, thereby greatly improving the appearance and making the work of inside decoration much easier. Many other improvements and changes are also to be made. An awning is now being put up in front of the corner occupied by the office.

The committee which has in charge the matter of street decorations is also at work and expects soon to complete the details of the decoration scheme. When these details are worked out it is believed that it will be found a plan has been evolved which will add greatly to the appearance of the city during fair week.

Local merchants and property holders are also taking kindly to the suggestion that every business front in the city of Pendleton be brightened up. Some of the business men have already painted the fronts of their buildings and it is believed that the remainder will follow the example which has been set.

**PAYETTE VALLEY HAS
A BIG FRUIT CROP**

Payette, Idaho.—According to estimates given out by the big orchard men and the managers of the large packing houses, 450 cars of winter apples will be shipped from this point and 150 cars of pines. This is a very conservative estimate, and the shipments may exceed that number.

The question of securing help is a most serious one, but the women of the valley can always be depended upon to lend their assistance in times of need, and many who do not as a rule work in the orchards and packing houses will do so this year. This means that many thousands of dollars will be returned to the growers' wives and daughters which would otherwise be paid out to help, which in many cases is most incompetent, although demanding \$2.25 and \$2.50 per day.

AMERICAN SUPPLY CO.,
365 Third St., Portland, Ore.

LABORING ON CANAL

Boise, Idaho.—With nearly 600 laborers at work on the New York canal widening the big ditch and putting in the concrete lining, the pay roll of the reclamation service in this city this month will amount to between \$50,000 and \$60,000.

Along the big ditch three camps have been established and the men are working full blast, there being 300 men in one camp and between 100 and 200 in each of the other camps. Nearly every nationality on the face of the globe, with the exception of Mongolians, are represented in the camp life, the yellow race being prohibited from working on government jobs. Of all the laborers hired it has been found that the Bulgarians head the list as to qualifications, they being willing to do anything at any time and are fast workmen. Spaniards come next, according to the foreman in charge, then the Italians and next the Greeks, the last being the steadiest but very slow. While Americans are given the preference on the work, few remain long, as they are composed mostly of the hobo class, who are only seeking a few day's work.

**HALF MILLION DOLLAR
ABBATTOIR TO BE OPENED**

Spokane, Wash.—E. H. Stanton Packing company's model abattoir and packing plant in the eastern limits of Spokane, erected and equipped in seven months at a cost of more than a half million dollars, will be opened on October 3, giving employment to 250 skilled men and laborers. The abattoir, a six story brick structure with full basement and cellar, has a capacity to handle 1500 hogs, 350 sheep, 250 cattle and 100 calves daily. Scientific construction enters into all departments of the plant, which covers between five and six acres, other prominent features being sanitation, protection from fire and labor saving devices. There is also a 38-room hotel for visitors, a garage and barns and other buildings. The surrounding grounds will be parked. Charles F. Kamrath, for 12 years with the Swift Packing company, who has supervised the building of packing houses all over the country, says the Stanton establishment is the most modern and best arranged of its size in America. It is estimated the output of the house will amount to \$12,000,000 a year.

**PRIZE FOR BEST PACKED
CARLOAD OF APPLES**

Spokane, Wash.—Recognizing the importance of the industry in the box apple states and placing its stamp of approval upon the enterprise, the Chicago Association of Commerce, in the name of its Northwest Pacific coast trade extension delegation, has presented a massive silver trophy cup suitably engraved, to the National Apple Show, Inc., for award to the best packed carload of apples exhibited in Spokane, November 14 to 19.

"We believe that by offering the Chicago trophy to the carload scoring highest on pack the competition for the \$1,000 prize will be keener than under any other condition," said Ren H. Rice, secretary and manager of the National Apple Show. "While climate, soil, sunshine and moisture are, of course, the chief factors in apple growing, we believe that when an exhibitor receives a prize because his apples are packed better than all others, he wins personal recognition for his skill and knowledge."

The Chicago Association of Commerce comprises 32 divisions, representing the business, manufacturing, shipping and professional life of the great city. It is deeply interested in the plan of sending the prize exhibits at the National Apple Show and district displays to Chicago after the close of the exposition in Spokane and through its executive committee. It has tendered its services in making a success of the show in the First Regiment Armory, Chicago, November 28 to December 4. The influence of the powerful association means much to the Chicago show, which will be under the same auspices as the exposition in Spokane.

**SET OUT ORCHARD
IN MOSES COULEE**

Wenatchee, Wash.—The Moses Coulee Orchard company is planning to set out 25,000 fruit trees on its holdings in the Moses Coulee. The coulee first became known as a fruit section three years ago and several hundred acres of fruit trees were set out and the success of their growth and the rapid development of the country is now drawing hundreds of people into this small district.

**MAKING IMPROVEMENTS
AT BIG POWER PLANT**

Grangeville, Idaho.—The Grangeville Light & Power company is engaged in improvements consisting of the enlargement of the power station on the South Fork, the reconstruction of the high power line and the construction of a modern building in Grangeville. The work at the power plant is well advanced and the work of distributing new poles for the reconstruction of the high power line between Grangeville and the power station has commenced.

EXHIBITORS GET RATES.

Spokane, Wash.—Official announcement is made that the Northern Pacific passenger association has granted a rate of one and a third for the round trip to exhibitors at the third National Apple Show in Spokane the week of November 14. To obtain this rate the exhibitors will pay full fare one way and on presentation of a certificate as an exhibitor he may purchase a return ticket for one-third of the regular fare. The dates are so arranged that exhibitors may come to Spokane a week before the show opens.

**CAR MURDERERS ARE
SENT UP FOR LIFE**

Paris.—The last dramatic chapter in the sensational murder of Madame Gouin, who was mysteriously killed and robbed about a year ago on a railway train near Paris, was enacted last week when Michael Graby, the French soldier who, with another soldier named Michael, committed the deed, was transported to New Caledonia to enter upon a life sentence of penal servitude. Michael was first sentenced to life imprisonment in the French penal colony in New Caledonia and Graby was sentenced to death. After his dishonorable discharge from the army, President Fal-

THE ORPHEUM.

1. Willful Peggy. Biograph, 1000 ft. long. A most delightful romantic comedy of the early days in Ireland. Peggy, though a peasant is self-willed and afraid of no one. Her spunk, pugnacious nature, which tends to emphasize her beauty impresses the lord of the manor, to the extent of proposing marriage. The marriage takes place and after a tumultuous honeymoon, he finds he is in possession of a rare jewel of womankind.

2. Forgiven. Selig, 1000 ft. long. A beautiful story, graphically told, full of heart interest and human emotion.

3. A College Chicken. Essanay, 1000 ft. long. The story of an ill-gotten pullet. Full of snap and true to life.

4. Mulchay's Raid. Essanay. The further adventures of Sergeant Mulchay. A rattling good comedy with novel situations.

Song. I Love My Wife But Oh You Kid.

**LETTERS AT LOCAL P. O.

**THREE COUNTIES JOIN
IN BUILDING BRIDGES**

Lewiston, Idaho.—Three counties are to pay for two steel bridges to be erected near Lewiston. One of the bridges will span the Potlatch creek near Juliaetta and the second will be located on Lawyer Canyon creek near Kamiah. The Juliaetta bridge is on the Nez Perce-Latah boundary line and the expense of construction will be borne jointly by these counties, while the Lawyer canyon bridge is also a boundary structure and will be paid for by Nez Perce and Idaho counties. The former bridge will be 180 feet in length and the Lawyer canyon structure is 140 feet.

A Grasshopper Record.

Longmont, Colo.—A world's record was broken when J. Q. V. Wise, a farmer living south of here, caught 125 bushels of grasshoppers on his farm in three days.

**FIRE IS PREVENTED
BY QUICK ACTION**

What gave promise of developing into a serious fire was discovered and extinguished last evening by Dr. E. O. Parker in the office of Dr. L. D. Idlemann, the dentist. The fire department was called out but Dr. Parker had the flames under control before the department reached the scene.

A gas heater in the dental office had been left burning when the office was closed for the day. A pan of water which had been left on the heater boiled dry and became so hot that it melted a rubber tube with which it came in contact. A partition then caught fire and the fire was just then getting a good start when Dr. E. O. Parker, who has an adjoining office, heard the noise, made an investigation and discovered the blaze. He turned in an alarm and then set to work to extinguish the fire.

The loss is estimated at \$50 by Dr. Idlemann and is fully covered by insurance.

**AT THE MOVING
PICTURE SHOWS**

The Pastime Theater.
"The Usurer." Biograph, drama, length 1000 feet. Here we are with another of those interesting Biograph stories. A subject of much dramatic power.

"The Red Girl and the Child." Pathé, drama, 1000 feet long. "A sensational western picture." A powerful and imaginative story. Interesting from beginning to end.

"The Water Cure." Comedy. A lively comedy, representing how a man adopted the water cure as a panacea for his ailments.

"Picturesque Waters of Italy." Scene.

Special added attraction Saturday, September 10, and Sunday, September 11. Something that will interest you. All in addition to the regular program.
