Girl Worked Year as Man. Sydney.—The mysterious disappearance a year ago of Miss Margaret Hale, daughter of a retired army officer, has been solved by the discovery of the young woman working at Fremont as a man. She came from Oakland to Australia several years ago as a teacher. Last December she started home and it was several months before it was discovered that she had disappeared. A search was instituted and she was found working in an office as a man. She had been a club steward, bartender, light porter, bookkeeper and several other positions as a man.

To Demonstrate New Suction Cleaner. Mr. J. Emigh of Walla Walla, is in Pendleton for a few days showing the Magic Electric Suction Cleaner. Mr. Emigh is representing the Davis-Kaiser company of Walla Walla and he would be pleased to demonstrate the workings of the cleaner. Calls left at the office of the Pacific Power & Light company will be promptly answered.

More Irrigated Fruit Land for Oregon. Pendleton, Sept., 1910. Messrs Lee Teutsch and Dan Kemler are authority for the statement that a development is about to begin in Malheur county, such as will add greatly to the already large exports of fruit from this state and will furnish homes for a large number of homeseekers and investors. These gentlemen have just completed arrangements to act as representatives for the Brogan Townsite Company and they are now in a position to offer the people of Pendleton an opportunity to take part in the opening of 695 valuable lots and tracts of land and buildings which are included in the sale.

Mr. Teutsch advises that he will only be allowed to receive 25 applications, as only a limited number are to be offered for sale in any one vicinity. The demand from the local points near Brogan is heavier than was anticipated and he has been unable to secure more than 25.

The properties in Brogan are valued at from \$250 to \$40,000 and the cost of participating in the opening is very low. A hotel, bank building, electric lighting plant, bungalow and a large number of very valuable acre tracts will be deeded to the purchasers by the Townsite Company. So far the demands of applicants have far exceeded the number allowed per town and it will require quick action on the part of Pendleton people if they secure their share.

The demand is partly due to the fact that the Willow River Project is about to be opened, offering about 20,000 acres of Oregon's richest fruit lands to the investor. A large number of people are already on the ground awaiting an opportunity to purchase land and lots and many have been disappointed where only a limited number are on sale and have come to headquarters of the Townsite Company at Boise, Idaho, to secure an application.

It is hoped by Messrs Teutsch and Kemler that they can offer more applications should this supply be taken before the entire 695 are gone.

BETTER ILLUMINATION

Mr. Business-Man Mr. Store-Keeper

This Interests You! We have arranged for F. W. Loomis of New York and G. A. Kumler of San Francisco, our illuminating experts, to deliver a demonstration-lecture on illumination at the Commercial Club, Thursday October 6th, at 8 p. m.

They will show the difference between good and bad lighting and the lecture will be particularly interesting from the standpoints of store interior and show window lighting.

Be sure and attend. Ladies welcome
