**O. R. & N. ASKS THAT
STREET BE VACATED**

**PETITION IS PRESENTED
TO CITY COUNCIL**

Council Is Divided Over Proposition
—Final Action Next Week—Citizens Want West Court Street Improved.

A petition from the O. R. & N. company asking the city to vacate certain portions of Aura and Lilith street was presented to the council last evening. Councilmen Stroble and Brock of the street committee signed a favorable report on the petition but Councilman Sharon, the other member of the committee, refused to recommend the vacation of the streets without further investigation. The matter was passed over until the next meeting of the council for final action. A special meeting of the committee will be held in the council rooms Tuesday evening.

Nothing was said in the petition about making Pendleton the freight division point in case the request was granted and for that reason Councilmen Sharon, Strain and Dyer seemed inclined to hesitate about giving their consent to the proceedings. The petition alleged that the railroad company owned all the abutting property that would be affected by closing the streets and stated that the public demanded that the streets be vacated as petitioned for.

Being the first meeting of the month the usual large gist of ac-

counts against the city were audited and ordered paid.

Bids for Hose Opened.
Bids from five different companies for supplying 500 feet of fire hose to the city were read and referred to the fire committee and the chief of the fire department. The prices ranged from 80 cents to \$1 per foot.

Want Court Street Improved.
G. I. La Dow, representing a number of West Court street property holders, appeared before the council last evening and asked that steps be taken toward improving West Court street. He asked that it be done as soon as possible so that the street could be put in condition before winter arrived and stated that if necessary, the property owners would be willing to bear a part of the expense. The request was referred to the street committee by Mayor Murphy without comment.

Wants Lower License Fixed.
The proprietor of a steam popcorn cart appeared before the council and asked that a monthly or quarterly license be fixed for his business. He declared that the present license of \$3 per day was exorbitant and more than he was able to pay.

**HEAR OF PENDLETON
IN FAR-OFF CHINA**

Having heard of Pendleton from thousands of miles away, James G. Auld, a business man of Hong Kong, one of the famous "treaty ports" of China, arrived in Pendleton yesterday morning for a brief visit and registered at the Pendleton.

Mr. Auld said he had business on the Pacific coast and had concluded it was about time to return to his home. First, however, he wanted to see Pendleton.

Auld asked about the population. He commented on the prosperous nature of the city and generally made himself cognizant of conditions here. He said he was almost inclined to invest in Pendleton and he queried as to realty values.

Mr. Auld will leave tomorrow morning for Portland. He said it was with regret as he did not care for the damp Portland climatic conditions, but he could not praise eastern Oregon's present weather too highly.

"Slurred" Her "Relations."
Declaring that her husband "slurred" her "relations," conducted himself unbecomingly about the house and was uncleanly at the table, Mrs. Sarah F. These aged residents of Pendleton were married here, June 2, 1907. In addition to the above alle-

Utterly Wretched
Nervous Prostration Long Endured Before Remedy was Found.
Miss Minerva Reminger, Upper Bern, Pa., writes: "For several years I had nervous prostration, and was utterly wretched. I lived on bread and beef tea because my stomach would not retain anything else. I took many remedies, but obtained no relief until I took Hood's Sarsaparilla, when I began to gain at once. Am now cured." Pure, rich blood makes good, strong nerves, and this is why Hood's Sarsaparilla, which purifies and enriches the blood, cures so many nervous diseases. sations, Mrs. Jones says her husband objected to her cooking and complained of her purchases. She says he is worth \$6000 and asks for \$500 expenses, \$50 a month alimony and her share of his property.

**NEW MANIFESTO AGAINST
POLYGAMY IS PROBABLE**

Salt Lake, Oct. 6.—Joseph Smith, head of the Mormon church, it is believed, sounded the keynote of the three day semi-annual session of the Mormon church today when he declared certain practices among the Mormons must cease. Thousands of Mormons representing nearly every state in the Union, Mexico and Canada, are here. It is rumored a new manifesto on polygamy will be issued before the session adjourns. The Desert News, the church's official organ, today printed a list of several prominent Mormons who are excommunicated. They are accused of performing plural marriages.

FIENDISH ATTEMPT.
Robbers Drug Woman, Place Her in Pool of Oil and Place Lighted Candle Near.

Oakland, Oct. 6.—This city is aroused by the attempts of fiends to burn Mrs. E. H. Sweetzer to death at her home at Elmhurst, a suburb of this city this morning, after robbing her house. When Sweetzer returned home early today she found her wife drugged and unconscious and lying on the floor in a pool of kerosene. A lighted candle was in the kerosene. He extinguished it just before it reached the oil. The house had been robbed and everything of value which could be carried away taken. The woman's condition is precarious.

**JEALOUS GIRL USES
GUN ON HER LOVER**

San Francisco, Oct. 5.—Guido Barsi, aged 19, was shot and fatally wounded in front of a local hotel early today, dying two hours later. Effie Wilson, a young girl employed in a dance hall, confessed at the emergency hospital, where she went to take a last look at Barsi, that she had shot him, although Barsi, who was then on the operating table, attempted to deny the statement. Jealousy is supposed to have caused a quarrel between the two that led to the shooting.

**JURY INVESTIGATES
DEATH OF MRS. BARR**

**WILL ENDEAVOR TO
FIX RESPONSIBILITY**

Coroner Empanels Jury Which Is Taking Testimony—First Meeting This Morning—Will Examine Eye Witnesses This Evening.

For the purpose of fixing the responsibility for the death of Mrs. Ed Barr, who died yesterday morning as a result of the injuries received in the automobile accident on the afternoon of September 26, Coroner Folsom empaneled a grand jury this morning, which is now engaged in making a full and complete investigation of the accident. The jury held a short session this morning at 11 o'clock, took the testimony of Dr. I. U. Temple with reference to the cause of death and then adjourned until 7:30 this evening.

The members of the jury will then meet again and examine all the eye witnesses to the fatal accident, who can be found and subpoenaed to appear at that time. It is probable that only a small part of the testimony can be secured this evening and that other witnesses will be examined tomorrow. Owing to the large number of persons on the streets at the time and to the fact that no two eye-witnesses have yet appeared who are able to tell exactly the same kind of a story concerning the happening, it may be several days before a verdict is reached.

The members of the jury are A. J. Gibson (foreman), George Hamblen, James Crawford, L. E. Frank, D. B. Waffle, J. E. Montgomery.

Dr. Temple testified that the immediate cause of death was peritonitis, which in turn was the result of the injuries received when the woman was crushed against the wall by the automobile.

District Attorney Phelps or his deputy, Frederick Steiwer, will be present at the succeeding sessions of the grand jury and it is probable that McBee, owner of the auto will also be represented by attorney.

Flights in Spokane.
Spokane, Oct. 5.—J. C. ("Bud") Mars, the aviator, made four flights here today at the Spokane interstate fair grounds, staying in the air, all told, 31 minutes, and reaching an altitude of 1600 feet. He claims to have established a world's record for high glide, cutting off his engine at his highest point of flight. On one of his flights he carried with him as a passenger, C. N. Cosgrove, manager of the Minnesota state fair, who is here visiting his son, Robert Cosgrove, secretary of the Spokane fair. The exhibition was spectacular in the extreme.

WOMAN SCIENTIST SILENT.
Her paper before the Academy of Sciences was extremely laconic. Its substance has already been fully cabled to America. Madame Curie refused to add anything to it by way of explanation, and her aversion to newspaper interviews seems never to have been more intense than now. Attempts were made after her return to Secaux to induce her to give fuller information of her remarkable discovery, but in vain. The world will doubtless have to wait for fuller information, that it ardently desires, until she has made a further communication on the subject to the academy.

Thence she returned to her unpretentious home at Secaux for a few hours last Sunday, and then proceeded to Brussels to visit the International Exposition.
