

HOARSE COUGHS STUFFY COLDS

that settle on your lungs and may develop into Pneumonia over night are quickly cured by

Foley's Honey and Tar

This great remedy clears the air passages instantly, stops the irritation in the throat, soothes the inflamed membranes, and cures the most obstinate cough no matter how severe. We have never heard of a cough or cold developing into Pneumonia after Foley's Honey and Tar had been taken. It strengthens and heals sore and inflamed lungs, and expels the cold from the system. Why take chances on a cold developing into Pneumonia, Pleurisy or Consumption when Foley's Honey and Tar cures coughs quickly, and heals and strengthens the lungs, and you are in no danger of serious results. Foley's Honey and Tar contains no opiates or other harmful drugs. Refuse any but the genuine in a yellow package.

Dear Friend:
We like molasses so well at our house that Mama sent me downtown to get a jug full so big that I could hardly carry it home.
I made an ugly face while I was carrying the molasses home, but when I had some on my cakes for breakfast this morning you ought to have seen me smile. I got a whole gallon can full for 65 cents.
Just received—Medical Lake Soap, a sure cure for all skin troubles, 3 bars for 25 cents. Try it.
Your friend,
JACOB.

ATHENA MILL HANDS STRIKE FOR RAISE

PRESTON-PARTON COMPANY
EMPLOYEES WALK OUT

Demand Increase in Wages But Manager Refuses to Take Them Back—High School Instructor Refuses Walla Walla Football Game.

(Special Correspondence.)
Athena, Ore., Oct. 14.—A strike occurred here yesterday morning among the mill hands of the Preston-Parton Milling Co., the object of the strike being to gain higher wages. The wages paid by the mill here are \$2.25 per day and owing to the high prices of the necessities of life, the men claimed that they were entitled to more than that sum and refused to work for that wage any longer. However, Manager M. L. Watts, absolutely refused to take the men back to work for any wages and he says that if hands cannot be found to do the work that the mill company can well afford to close down for a while, as there are no rushing orders on hand at present as usual.

About twenty-five of the leading citizens of this community went to Pendleton last night by auto and by rail to attend a republican meeting at the court house, at which meeting the main speaker of the evening was acting Governor Jay Bowerman, who is the republican nominee for that office in the ensuing election on November 8th. This was the first opportunity that the people of this city have had to become acquainted with Bowerman.

Prof. Ernest F. Wells, vice-principal of the high school of this city, went over to Walla Walla today to officiate in a football game there today between Whitman college and Walla Walla high school. Prof. Wells was graduated last spring from the University of Washington and up to a year ago played with the college team, filling the position of full back for the team. Mr. Wells is coaching the different activities taken up by the high school of this place, and he knows the game of football from A. to Z.

MANY AT O. A. C.

1011 Students Registered and a Possibility of 1800 or 2000.

Corvallis, Ore.—The attendance at Oregon Agricultural College has increased twenty-four per cent over that of last year. Up to date 1011 students have matriculated. They are registered from every county in Oregon, eighteen states of the union and eight foreign countries. Benton county leads the list with 174 students and Multnomah comes next with 127. Linn county sends 29, Marion 36, Lane 34 Douglas 33, Washington 28, Yamhill 43, Jackson 25, Clackamas 21, Clatsop 18, Umatilla 17, Polk 20, Lincoln 15 and other counties from 2 to 14.

Students have come to the college this fall from 23 colleges and universities located in all parts of the world. They come from such institutions as the Universities of Michigan, Wisconsin, Minnesota and Columbia, and from the Agricultural Colleges of Michigan, Colorado, Oklahoma and Kansas. One man from India who has degrees from the schools of India and the University of Edinburgh, Scotland, has registered here in order to get special work in horticulture. Dean Cordley, of the School of Agriculture, reports an exceptional growth in that work. He states that the Freshman Class has increased 63 per cent; the Junior Class 59 per cent; the Senior Class 90 per cent; special students 50 per cent and graduate students 100 per cent.

In speaking of the increase in attendance President Kerr said, "I am convinced that the total registration for the year will reach 1800 and possibly 2000. I am particularly impressed by the large growth in the School of Agriculture and in the great number of graduate and special students who are coming to us from other institutions."

Catarrah Cannot Be Cured
with LOCAL APPLICATIONS, they cannot reach the seat of the disease. Catarrah is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrah Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrah Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrah. Send for testimonials free.

SAYS ARMY LIFE IS DEBILITATING

London.—According to Lieutenant Adam Sutor, who was recently court-martialed for writing a criticism of the army, English military life is demoralizing. In his defense he said he had calculated to carve out for himself a military career, but he found there was nothing for him to do. The work he had had to do amounted to about 20 minutes a day. His work amounted to signing papers which he did not understand, and which nobody understood. He enjoyed it much, but his enjoyment did not blind him to the futility of it. His life in the army for 19 years had only served to confirm what it was impossible for him not to see on the first day of his service. He soon gave up the idea of getting on. He did as little as he could and enjoyed himself as much as he could. There were officers who told him that he did a good deal more than he needed to have done.

Never Worry.
About a cough—there's no need of worry if you will treat it at its first appearance with Ballard's Horehound Syrup. It will stop the cough at once and put your lungs and throat back into perfectly healthy condition.

ONE DOSE MAKES INDIGESTION GO

DYSPEPSIA, GAS AND OTHER
STOMACH MISERY ENDS

Five Minutes After Taking a Little Diapepsin Your Stomach Will Feel Fine Again—Eat Your Favorite Foods Without Fear of Distress.

If your meals don't fit comfortably, or you feel bloated after eating, and you believe it is the food which fills you; if what little you eat lies like a lump of lead on your stomach; if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, brash or a belching of gas, you can make up your mind that you need something to stop food fermentation and cure indigestion.

To make every bite of food you eat aid in the nourishment and strength of your body, you must rid your stomach of poisons, excessive acid and stomach gas, which sour your entire meal—interferes with digestion and causes so many sufferers of dyspepsia, sick headache, biliousness, constipation, griping, etc. Your case is no different—you are a stomach sufferer, though you may call it by some other name; your real and only trouble is that which you eat does not digest, but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapepsin will cost fifty cents at any pharmacy here and will convince any stomach sufferer five minutes after taking a single dose that fermentation and sour stomach is causing the misery of indigestion.

No matter if you call your trouble catarrh of the stomach, nervousness or gastritis, or by any other name—always remember that a certain cure is waiting at any drug store the moment you decide to begin its use. Pape's Diapepsin will regulate any out-of-order stomach within five minutes, and digest promptly, without any fuss or discomfort, all of any kind of food you eat.

LIBRARY NOTES.

The question has recently been asked, in the library, "Have you a catalogue of your books?" Yes, indeed we have but it is not in book form as might be natural to expect, ours is what is known as a card catalogue and is contained in the small cases of drawers standing on the table in the fiction corner of the main room. Considerable time, pains and money have been expended on this catalogue, designed primarily, for the use of our patrons and the librarian is always more than glad to explain it and "how it works" to all inquirers, it is alphabetically arranged by author, title and subject. It answers the following questions:

- Has the library a book by a given author?
 - Has the library a book by a given title?
 - Has the library material on a given subject?
- Each book in the library is represented in this catalogue by at least one card under the author's name, and usually by cards under the title and one or more subject headings.
- The author, title and subject are arranged in one alphabet like the words in a dictionary; thus books may be found under the last name of the author, the first word of the title not an article and under the name of the subject of which the book treats.

Example: Greeley's Three Years of Arctic Service may be found under Greeley the author; under Three Years of Arctic Service, the title and under Arctic Regions, the subject.

Record of all works by or about an author may be found under his name.

All subject headings, including names of persons treated as subjects, are written in red ink. The red letters and figures in the upper left corner of each card represents the call number, and show to what class the book belongs, and where it may be found on the shelf. The books are arranged on the shelves in numerical order from 100 to 900, and under each number, alphabetically by author.

Through the kindness of Superintendent Landers there has been exhibited in the library, this week, two rather rare objects of interest; one is the mounted specimen of the Edelweiss, the national flower of Switzerland, which has lately been presented by Mr. H. E. Lantz to the Pendleton high school; the other a facsimile of the Horn book, the earliest of text books.

FOR NATURAL FLOWERS ON HAT

Cuban Patents Headgear With Water Reservoir for Purpose.

Geneva.—It is announced that the firm of Felix Mate Aguirre, Havana, Cuba, has taken out a patent in Switzerland for "a hat for women with a water reservoir for natural flowers." The patent has been accorded and registered. The "reservoir," to which tubes for the flowers are attached, is made of a very light substance and can be concealed in any hat. By supplying a little water natural flowers can be kept fresh for a day. A visit to the florist can, of course, change the character of the hat completely as fashion or weather may dictate.

Your cough annoys you. Keep on hacking and tearing the delicate membranes of your throat if you want to be annoyed. But if you want relief, want to be cured, take Chamberlain's Cough Remedy. Sold by all dealers.

The horse is a fine creature, but he isn't the main thing, by several thousand dollars.

People Who Work Indoors With Their Hands

Seamstresses, watch-makers, artists, draughtsmen, and many others, cannot properly handle their tools with cold, stiff hands. Many a lost hour or two on cold winter mornings results from the delayed heat of furnace or stove.

The Perfection Oil Heater in a few minutes gives the temperature that assures the worker warm hands and pliable muscles. The

PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless

quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. Has automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so the wick can be quickly cleaned.

It has a damper top and a cool handle. Indicator always shows the amount of oil in the font. The filler-cap does not need to be screwed down; it is put in like a cork in a bottle, and is attached to the font by a chain, and cannot get lost.

The burner body or gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily unscrewed in an instant for reworking. The Perfection is finished in japan or nickel, is strong, durable, well-made, built for service, and yet light and ornamental.

Desires Everywhere. If not at yours, write for descriptive circular to the nearest agency of the
