

WEATHER REPORT. Fair tonight and Friday; westerly winds.

COUNTY OFFICIAL PAPER. VOL. 23.

Calling cards, wedding stationery, commercial stationery and job printing to order at the East Oregonian.

CITY OFFICIAL PAPER. NO 7037

PENDLETON, OREGON, THURSDAY, OCTOBER 20, 1910.

ATHLETICS TAKE THIRD GAME OF WORLD SERIES FROM CUBS

CHICAGO OUTCLASSED

Mackmen Take Third Consecutive Contest by Another One Sided Score.

Despite Advantage of Home Grounds, Chance's Men are Unable to Down Victorious Philadelphia's—Game is Replete With Slugging—Cubs use Three Pitchers to no Avail—Chance is Bench for Kicking at Decision—Home-run Breaks up Game.

Score table for Athletics vs Cubs. Athletics 12, Cubs 5.

Chicago, Oct. 20.—Rain fell throughout the night and this morning at nine quite a cold wind started. It was announced, however, that the world's series game would be pulled off unless it rained more. In the event of postponement, it is said the two teams will play three successive games in Chicago, including one Sunday. Undiscouraged, however, many fans stayed up all night to secure places in the bleachers and by the time the gates opened at 9 thousands were in line. Hundreds of Philadelphia fans are here and offered odds of 2 to 1. Heavy betting is going on.

First Inning. Athletics—Strunk walked and Lord sacrificed Reulbach to Chance. Collins fled to Sheekard; Baker singled, Strunk scored. Baker out, stealing. Kling to Tinker. One run. Cubs—Sheekard walked and Schulte doubled; Hoffman fled to Strunk, Sheekard scoring; Chance fanned and Zimmerman flew out to Strunk. One run.

Second Inning. Athletics—Davis walked and Murphy sacrificed, Steinfeldt to Chance. Barry doubled, scoring Oavis. Thomas fled to Schulte, Coombs doubled, Barry scoring. Strunk out, Zimmerman to Archer. Two runs. Cubs—Steinfeldt fled to Barry, Tinker doubled, Reulbach and Sheekard walked. Schulte doubled, scoring Tinker and Beaumont, Hoffman fanned. Two runs.

Third Inning. Athletics—McIntyre succeeded Reulbach. Lord fled to Sheekard and Collins singled. Baker singled and Collins scored on Schulte's error, Baker reaching third. Davis was hit by the ball. Rain is falling. Murphy hit a home run, scoring Baker and Davis ahead of him. A wrangle followed and the umpire decided it was a home run ball as it sailed over the crowd. Chance kicked so hard he was benched. Archer is playing first and Pfeister succeeded McIntyre. Barry doubled and Archer dropped Tinker's throw of Thomas' grounder and Barry scored. Coombs hit into a double play, Zimmerman to Tinker to Archer. Five runs.

Fourth Inning. Athletics—The ball is slippery and difficult to handle. Strunk fled to Hoffman and Lord singled. Collins forced Lord, Pfeister to Zimmerman. Collins out, stealing, Kling to Tinker. No runs. Cubs—Tinker singled and Kling hit into a double, Baker to Davis, Pfeister out, Baker to Davis. No runs.

Fifth Inning. Athletics—Baker out, Zimmerman to Archer. Davis singled and Murphy fled to Hoffman, Barry forced Davis, Tinker to Zimmerman. No runs. Cubs—Sheekard bunted and Schulte fanned. Hoffman fled to Murphy and Sheekard, thinking it a double, continued running. Murphy to Thomas to Davis. No runs.

Sixth Inning. Athletics—Thomas out, Tinker to Archer. Coombs popped to Zimmerman and Strunk fanned. No runs. Cubs—Archer out, Thomas to Coombs. Zimmerman fanned and Steinfeldt fouled to Baker. No runs.

Seventh Inning. Athletics—Lord lined out to Zimmerman and Collins went out, Steinfeldt to Archer. Steinfeldt errored on Baker's grounder, Davis singled, Tinker errored on Murphy's grounder and the bases were full, Steinfeldt muffed Barry's grounder, Davis and Baker scoring. Thomas walked and Coombs singled, scoring Murphy and Barry. Strunk singled, Lord went out, Zimmerman to Archer. Four runs. Cubs—Tinker went out, Baker to Davis. Kling went out, Collins to Davis. Pfeister fanned. No runs.

Eighth Inning. Athletics—Collins fled to Schulte and Baker went out, Zimmerman to Archer. Davis doubled, Murphy

SCOURING MILLS CLOSE FOR SEASON

After a very successful run lasting six months the Pendleton scouring mills will close for the season on Saturday November 5. An announcement to this effect was made today by E. J. Burke, secretary of the mill company and who has been in active charge of the plant this year. According to Mr. Burke the local mill has scoured two and one half million pounds of wool this year. This is a heavier business than was done last year and is more than both the other scouring mills of the state have handled this season. But while much wool has been scoured here this year the total amount of wool handled through this city has been less than last year. Last year approximately seven million pounds of wool was baled or scoured here. This year there has been less baling to do owing to the fact that the railroads now give a good rate on sack wool and much of the north-west clip goes east without being baled in the west. Through the season at the scouring mill an average of 35 men have been employed and the mill has paid out approximately \$800 per week in wages. The payroll will cease on November 5 as the plant is to be closed down completely until spring. Work preparatory to the closing down of the plant is now underway. According to Mr. Burke the plant will not resume work until spring even should some more wool be purchased. After closing up his work here Mr. Burke will leave upon a short trip east but will return west and with Mrs. Burke spend the winter in Portland.

WOODROW WILSON HANDS IN HIS RESIGNATION Princeton, N. J., Oct. 20.—President Woodrow Wilson of Princeton University, democratic candidate for governor of New Jersey, today offered his resignation as head of the great educational institution to the board of trustees. Whether the board, which is in session today, will accept the resignation, is doubtful. They value highly President Wilson's services, and are reluctant to part with him. It is quite probable that the resignation will be held in abeyance until after Nov. 8 next, so that if Dr. Wilson fails of election as governor he may return to his old post. The distinguished educator is now in the midst of a spirited campaign, and devotes practically his entire time to his political interests. Many names have been suggested as possible successors to Dr. Wilson, in case the latter is elected governor. Prof. Andrew F. West, dean of the graduate school, is a favorite with many Princeton men. Former Mayor McClellan of New York, Dean Henry Burchard Pine, President John Finley of the College of the City of New York, and President Harry Garfield of William College, son of President Garfield, are among other prominently mentioned.

120 CARLOADS OF APPLES FROM 100 ACRE TRACT

Spokane, Wash.—Pomona ranch of 100 acres at Dayton, Wash., in the Touchet valley, south of Spokane, yielded 120 carloads of standard winter apples this season, which is believed to be a record for an orchard of this extent. The yield is 200 per cent greater than in 1909. The apples are free from blemishes and a careful examination showed but one wormy apple for each 1,000. The average yield was 750 bushels from 70 trees, though individual acres run as high as 250 boxes. The owners paid \$25,000 for picking and packing and boxes, and it is estimated it will cost \$35,000 to transport the crop to eastern markets. The commercial value of the yield is placed at \$100,000. The orchard was developed by J. L. Dumas of Dayton, ex-president of the Washington State Horticultural association, who sold it to a syndicate of Walla Walla and Dayton capitalists for \$150,000 several months ago, at which time it was estimated the crop would reach a value of \$75,000 on the ranch.

STRANGE PAPERS ARE PUZZLE TO SCIENTISTS

Calcutta.—Some remarkably interesting documents from Central Asia have been acquired by the Asiatic Society of Bengal from a Montenegro gentleman. They consist of five leaves of brownish yellow paper, measuring 8 inches by 3 3/4 inches. The true significance of these five leaves, the genuineness of which cannot be doubted, is that scholars are here confronted with a number of consecutive passages in a language to which no clue has yet been found and of which hitherto only fragments have been rescued from the sands of Central Asia. It is possible that by means of these five leaves an important literary language of whose existence the world had no suspicion may be rescued from oblivion. The papyrus on the reverse side of each leaf shows that they once formed a part of an extensive work.

Moving to Pendleton. Will Harris, a prominent stock buyer of Portland, is moving his family, consisting of a wife and two daughters, to Pendleton to live. They have taken up their residence in the Daugherty house on Lewis street.

MANY LIVES LOST IN BIG HURRICANE

New Orleans, Oct. 20.—A steamer arriving here reports that the Florida storm caused the deaths of at least 100. Several vessels are reported in a sinking condition in the gulf without the chance of aid offering. The Steamer Carthage sent a wireless that she had reached a schooner on the beach water logged and helpless today. A dozen ships wrecked on the beach are reported.

Shipping Is Damaged.

Havana, Oct. 20.—Cables from Key West indicate the greatest damage done by the Florida hurricane was to shipping. The Norwegian steamer Fos is still stranded and a Standard Oil barge is ashore. The east coast railroad is washed out below Mimas. The hurricane today centers off the coast of North Carolina.

PENDLETON MAY MEET WITH OTHER CITIES

Pendleton may have a representative at the next annual meeting of the California League of Municipalities which is to be held in San Diego, California, Nov. 15-19, inclusive. This league was formed for the purpose of improving the government of the cities on the Pacific coast and, as all the important subjects in connection with the administration of city government are to be discussed, Mayor Murphy is under the impression that it might be well for the city to accept the invitation which has been received to send a delegation to the meeting. The matter will be definitely decided at a future meeting. The Overland Rubber company of Cleveland, Ohio, was last night awarded the contract for supplying the city with 500 feet of fire hose. It is to be the 'Cleveland' brand and will cost 90 cents per foot. The matter of improving the sidewalk along the west side of Main street, south of Bluff, was brought up last night and referred to the street committee with power to act. It is reported that the walk is in a dangerous condition. The property owners will be formally notified to rebuild the walks and in case they fail to do so, the city will build it and take a lien on the property. A vote of thanks was extended to Sam Forshaw for a gift of 40 lilac bushes to be planted in Olney cemetery. Nothing was said last evening concerning the proposition of allowing the railroad company to close Aura and Lillieth streets.

PRESIDENT TAFT IS READY FOR WINTER

Washington, Oct. 20.—After a summer vacation in which he golfed, traveled and enjoyed himself, President Taft arrived at Washington today and prepared for the winter grind at the capitol. He looked the picture of health and was in good spirits. During the last few hours in New York last night, the president heard considerable from the republican leaders who spoke well of the republican success this fall. Lloyd Griscom told him that the New York outlook was growing better every day and reports from Ohio now are not as bad as reported from the republican standpoint.

MANUEL IN ENGLAND.

Is Almost Broke and May Seek an American Heiress. London, Oct. 20.—Manuel, the deposed king of Portugal, with his mother and suite, arrived on the royal yacht Albert last night and today are en route to the estate of the Duke of Orleans in Wrochestershire, where they will rest for a time. Manuel looked pale and worried. Reports are current that he needs money badly with a small chance of securing any. There would be small surprise if he sought the hand of a wealthy American girl to retrieve his fortune as his marriage with royalty is now out of the question. The queen mother has coin but she is extravagant.

MEN BLOWN FULL BLOCK BY FORCE OF EPLOSION

New York, Oct. 20.—Six men were killed, two fatally injured, and nearly 20 hurt severely, today in a boiler explosion at the American Manufacturing plant and Jute mill at Green Point, Long Island, today. Twelve men were in the boiler room and some of them were hurled a city block by the force of the blast. A panic resulted among the 2500 employees and many were hurt in the rush for the exit. The walls of the building were wrecked.

Clear Store Changes Hands.

Phil McBrien has disposed of his cigar store in the Matlock-Brownfield building on Main street to Dayton Barnhart, formerly of the Standard Grocery company. Barnhart is now employed in the freight warehouse of the O. R. & N. and though the store is now in his possession he will not take active charge for ten days or two weeks.

THINK DYNAMITERS LOCATED IN MEXICO

San Francisco, Oct. 20.—Governor Gillette is today awaiting word from the Los Angeles police in answer to a message he sent last night in connection with the Times dynamiting. As soon as he hears from Los Angeles, the governor will wire Secretary of State Knox at Washington in reply to the latter's telegram in which he had stated that three men suspected of complicity in the dynamiting were aboard a Pacific mail steamer which would soon land at San Benito on the gulf of Tehantepec, Mexico. Knox received information from the Mexican ambassador who got it from the Mexican police. E. J. Marquis is down today from his home at Adams for the transaction of business.

FOUR BALLOONS ARE STILL UP

All American Records Broken and International Records in Danger.

BALLOON HAMBURG III DROPS INTO LAKE

Descends With Frightful Velocity Distance of 1300 Feet But Fortunately Lights in Lake—Two Occupants in Water Two Hours Before Reaching Island—American Bag Still 50 Miles in Lead—Headed for Hudson Bay.

St. Louis, Oct. 20.—All American records are broken and international records are endangered by the four balloons which started Monday and are still up. According to last reports, it is believed the America II, the Hokveta of Switzerland, the Azura of Switzerland and the Dusseldorf of Germany are flying over toward Hudson Bay. At last reports the American balloon was leading by fifty miles with the Dusseldorf second. The Hamburg III went into Lake Ontario last night and Pilot Vogt and his aide, Ashman, were compelled to swim to a small island where they were rescued. Vogt wired today: "Our balloon dropped a sheer 1300 feet into the lake and Ashman had his arm broken." Dispatches to friends gave more complete details of the flight which was one of the most brilliant ever recorded. They first tried to land Tuesday but after throwing over most of the ballast the wind swept them over the bay. Wednesday night they decided to take a chance. It was pitch dark and they ripped open the bag and let it drop with frightful velocity. Luckily they lit in the lake otherwise they would have been killed. They were two hours in the water before they reached the island from which they were rescued.

LEAVES OVER A MILLION TO RELATIVES AND FRIENDS

Seattle, Oct. 20.—The will of Michael J. Henry, founder of Cordovia, Alaska, who died recently in California, was made public today. More than a million dollars was bequeathed to relatives and friends. Henry directs that ten thousand be spent for the benefit of Alaska Indians and that five thousand be spent for a club house at Cordovia. Henry built the Copper river railroad.

SUIT CASE THIEF IS CAUGHT HERE

BELIEVED TO BE MUCH SOUGHT FOR CRIMINAL Caught While Riffling Suit Case—Also Had Clothing Stolen from Bert Montgomery—Believed to Be Man Escaped from Wyoming Pen.

A man giving the name of Charley Keriss and believed to be the famous suit-case thief who has been operating along the lines of the Union Pacific, Oregon Short Line and O. R. & N. since escaping from the Wyoming state penitentiary a few weeks ago, was arrested in a room in the Arlington last evening by Night Officer John Kearney. When caught he had in his possession a set of military brushes and some clothing which he had taken from the room of Bert Montgomery of the Kerr-Gifford company and was going through a suit case which he had stolen at the O. R. & N. depot a few minutes before. He was arrested for the suit case theft, but will be held to the grand jury on a charge of larceny from a building by reason of his theft of the brushes and clothing from Montgomery's room. O. R. & N. Detective E. B. Wood, who is in the city is almost positive in his identification of the fellow as the Wyoming convict and the man who is wanted in half a dozen states for his numerous suit case thefts. The suit case stolen here was the property of D. R. Neville of 2597 Broadway, Spokane. It was taken about 8:30 from a truck just outside the depot baggage room. Night Baggageman Glenn Bushee had placed it there and returning a few minutes later found it gone. He immediately suspected the suspicious characters and putting the officers on their track the guilty man was soon apprehended. Asa S. Arbogast and wife of Ritter are in the city, having brought in a consignment of hogs for the Central Meat market.

DEFENSE OF DR. CRIPPEN BEGINS

Counsel for Accused Man Will Attempt to Prove Body Was Not That of Mrs. Crippen.

SAYS DOCTOR WAS AWARE HE WAS WATCHED ON STEAMER

Barrister Tobin Also Declares That Crippen and Mlle. Levene Gave Themselves Up Voluntarily and Had Knowledge of Every Wireless Message Sent Out—Quartermaster Offered to Smuggle Them Ashore, He Declares—Explains Suicide Letter.

London, Oct. 20.—The defense of Dr. Crippen began this afternoon. Barrister Tobin, Crippen's counsel, in his opening statement said both Dr. Crippen and Mlle. Levene gave themselves up to authorities voluntarily and said further that Crippen was aware he was being watched, and every plan and wireless message regarding him was told him by the ship quartermaster, and that the quartermaster offered to smuggle him ashore but he refused and stayed on board the Montrose. The suicide letter found on Crippen, his counsel said, was written by the doctor to prevent a search of the vessel had he decided to hide and be smuggled from the Montrose when she arrived at Quebec. The prosecution closed its case in the forenoon and Barrister Tobin opened the case by saying his intention was to prove to the court's satisfaction that the body found in the basement of the Crippen home was not Mrs. Crippen. Crippen took the stand in his own defense late today. He did not appear nervous and indicated he would seek to prove his wife was not dead but went to America to join Bruce Miller, his Chicago friend.

OPEN BIDS FOR BIG TUBE IN NEW YORK

New York, Oct. 20.—Bids will be opened today in the public service commission for the construction of the new \$125,000,000 tri-borough subway system. Contracts will be let as soon as possible. It is thought that the tubes will be completed within from three to five years. Already New York's transit facilities are crowded to their capacity, and at the present rate of growth of the city conditions will soon be well nigh intolerable. The rush of the home-going crowds in the subway from 5 to 8 o'clock is a battle of incredible ferocity, in which the strongest win and the weak are buffeted about headlessly and forced to wait until the rush has subsided. The new tube system offers a distant cure for the conditions which render going to and from work in Manhattan a task to be undertaken only by those strong of body and nerve. Alternative plans are suggested for the subway contracts, one permitting private capital to bid upon the work of equipment, operation and maintenance, as well as construction. Bids involving the latter plan will be opened a week hence. The route of the proposed new system covers not only the densely populated districts of Manhattan, but affords outlets to sections of the Bronx, Brooklyn and Coney Island not now reached by subway or elevated lines.

GRAFT COMMITTEE WILL PROBE SLUSH FUND

New York, Oct. 20.—The legislative investigating committee is holding an executive session today. Reports are current that the committee is investigating the fund, fully as large as the half million slush fund that was used to defeat the anti-race-track bills, which it is reported had been used to defeat bills affecting Wall street. The men who have been active in opposing anti-bucket shops legislation and other adverse measures will be asked to testify, it is said. Albany correspondents of New York papers are accused of having a knowledge of alleged anti-gambling bribery but deny any participation in the scandal.

IRISH PARLIAMENT LEADER IN NORTHWEST

Victoria, B. C., Oct. 20.—T. P. O'Connor, the Irish leader of parliament, is here today, the guest of Premier McBride. He delivered a speech this afternoon before the Canadian club. Sunday he will be the guest of the Portland Press club of Portland, Oregon. Clarence L. Evers, prominent young settler at Stanfield and who has ten acres of fine land under the Furnish-Coe project, is here today. He is a North Dakotan and is a friend of Walter Isacson, who was formerly with the Hunziker jewelry store in this city.

DAVID BENNETT WILL PASSES TO BEYOND

GREAT DEMOCRATIC BOSS OF NEW YORK IS DEAD

Man Who Has Been Great Factor in Politics in Empire State Answers Last Call—Sought Presidential Chair for Years.

Albany, N. Y., Oct. 20.—David Bennett Hill, democratic leader and former governor of this state, and ex-United States senator, died at his home here this morning. He had been ill two weeks with a cold when complications set in. He was improving but his age was responsible for a relapse last night and he soon died. Hill has been the dominating power in New York politics for years. He was a truly great lawyer. He was born in 1849, was admitted to the bar in '64 and was a delegate to the democratic national convention in '77. Since then his rise was rapid. With his eyes always on the presidency, Hill, while governor seized the democratic state machine. Following Cleveland's defeat in 1888 Hill and Cleveland fought bitterly for control in 1895 of the New York delegation to the national convention. Hill won but owing to a political throw down on the part of men whom he thought friends, Cleveland secured the nomination. In 1891 however he was elected senator. After that term he retired.

Praise for Champion Saddle.

Mark Moorhouse, exhibition manager for the recent Roundup, has voluntarily presented Hamley & Son with a letter in which he says: "I have seen a number of prize saddles, including a half dozen that were presented by the Union Pacific Railroad company at the Frontier Day celebration at Cheyenne, Wyoming, and in my opinion the saddle presented by you at the Roundup is much more handsome than any I have ever seen."
