CHICAGO CUBS RETALIATE ON VICTORIOUS MACKMEN

WIN IN TEN INNINGS

Manager Chance Ties Score in Ninth Inning and Victory Comes in Next.

Fourth Game of World's Series is Taken by Chicago Nationals—Bender and Cole Face Each Other—Philadelphia Leads up Until Ninth Inning When Chance Sends Out Three Bagger Scoring Runner and Tying Score.

Chicago, Oct. 22.—With Manager Frank Chance the hero of the hour, the Chicago fans are in a wild state of excitement following the victory today of the Cubs over the Athletics in a 10 inning game. With the score 3 to 2 against him, the big first baseman sent out a three bagger in the ninth, tying the score. Then in the tenth the winning run was sent over the plate.

The batteries were Bender and Thomas for the Athletics; Cole and Archer for the Cubs. A big crowd watched the game.

1 2 3 4 5 6 7 8 9 10 Athletics . . . 0 0 1 2 0 0 0 0 0 0—3 Cubs . . . 1 0 0 1 0 0 0 0 1 1—4

First Inning. Athletics—Strunk went out, Steinfeldt to Chance. Lord filed to Sheekard. Collins went out, Chance to Cole. No runs.

Cubs—Sheekard walked and stole second. Schulte fanned and Hoffman singled Sheekard scoring. Chance forced Hoffman and went out at first on Hoffman's interference, Davis getting the put out. One run.

Second Inning. Athletics—Baker singled, Davis fanned and Murphy filed to Schulte. Baker went out stealing, Archer to Tinker. No runs.

Cubs—Zimmerman filed to Murphy, Steinfeldt went out, Baker to Davis, Tinker walked and went out stealing, Thomas to Collins. No runs.

Third Inning. Athletics—Barry out, Steinfeldt to Chance. Thomas out, Cole to Chance. Bender walked and Strunk doubled, Bender scoring. Strunk out trying to make his hit a triple. Sheekard to Steinfeldt. One run.

Cubs—Archer and Cole fanned. Thomas dropped Cole's third strike but Cole went out at first, Thomas to Davis. Sheekard filed to Strunk. No runs.

Fourth Inning. Athletics—Lord fanned and Collins safe on infield hit. Baker doubled, Davis fanned and Murphy doubled, scoring Collins and Baker. Barry fanned. Two runs.

Cubs—Schulte singled, Hoffman singled and Chance did the same, Schulte scoring. Zimmerman hit into a double play, Bender to Baker, forcing Hoffman out at third to Davis and retiring Zimmerman. Steinfeldt filed to Strunk. One run.

Fifth Inning. Athletics—Thomas out, Zimmerman to Chance. Baker singled and Strunk bunted safe. Lord and Collins filed to Sheekard. No runs.

Cubs—Tinker fanned, Archer out by Davis unassisted. Cole fanned. No runs.

Sixth Inning. Athletics—Baker walked and Davis sacrificed, Cole to Chance. Steinfeldt knocked down Murphy's single but he muffed Barry's grounder but caught Baker at the plate. Thomas singled infield, Bender filed to Schulte. No runs.

Cubs—Schulte safe on Collins' error. Hoffman popped, Baker, Schulte out stealing, Thomas to Collins, Sheekard out, Barry to Davis. No runs.

Seventh Inning. Athletics—Strunk fanned and Lord went out, Zimmerman to Chance, Collins filed to Hoffman. No runs.

Cubs—Chance out, Bender to Da-

WASHINGTON STUDENTS RAID SEATTLE THEATER

MAKES TRIP AROUND GLOBE IN 40 YEARS

"Around the world in forty years." That is longer than the average globe trotter takes to complete the circle, but it is the duration of time which will have elapsed before Chas. Hammond, the popular boot black at the Mark Patten barber shop, finishes his first revolution. He left today at 1:30 via the Northern Pacific for Philadelphia, from where he will take a Red Star steamer for London, the home of his birth, to which he bade good-bye two score years ago. At that time he sailed for Australia, where he spent a number of years among the gold seekers and kangaroos, quitting that land to come to America. He landed in San Francisco, made his way to Portland and from the Oregon metropolis drifted up to Pendleton, twenty years ago.

Since that time he has been working here most of the time, making his daily bread by means of his brush and rag. All of this time he has been dreaming of the day when his surplus earnings would enable him to purchase a ticket back to his old home, the land of cabbies, thick fogs and hoodlums. Yesterday the day arrived, his ticket was bought, and the iron horses of J. J. Hill are now speeding him on the last lap of his journey around the world.

Hammond says he will return here in about four months, as he thinks a man of his years and occupation would stand small show in a city where railroad engineers are forced to strike for a dollar a day.

OLDFIELD-JOHNSON RACE POSTPONED BY RAIN

New York, Oct. 22.—Owing to rainy weather the automobile race between Barney Oldfield and Jack Johnson, champion fighter, was postponed today.

MANY DROWN IN WRECK OF SHIP

STEAMSHIP WALLER HITS UPON ROCKS

Reported That Forty-Five Passengers and Fifteen Members of Crew Perish in South American Waters.

Rio De Janeiro, Oct. 22.—Forty-five passengers and fifteen members of the crew of the steamship Waller drowned off Para in a terrific South Atlantic storm which raged yesterday. Word was received today that 75 passengers had been rescued. The vessel is a total loss.

The storm forced the Waller on a rocky point near the Arzeales lighthouse and all efforts to reach the doomed craft failed.

ALDRICH AFFAIR STILL AN UNSOLVED MYSTERY

New York, Oct. 22.—Despite the usual denial and statement that Aldrich was struck by a vehicle or a street car Wednesday night, scores of persons interested in locating such a vehicle are unable to do so. It is rumored more persistently than ever that an assault was committed on the senator. Aldrich is reported comfortable but refused to be interviewed.

The manner in which the senator received a number of abrasions and contusions still remains unexplained. No witnesses reported the accident, nor could anyone be found who had seen the senator assaulted. Street car men who operated cars where the senator was walking at the time declared no one was struck.

ROOSEVELT OPENS NEW HAMPSHIRE CAMPAIGN

Concord, New Hampshire, Oct. 22.—Roosevelt opened the republican state campaign today when he spoke in behalf of Robert Bass, the gubernatorial candidate. He endorsed the republican platform and ticket. He was received cordially.

MANY BIRDMEN WILL CONTEST

Second Great International Aviation Meet Begins in New York.

\$72,000 IS OFFERED IN PRIZES FOR CONTESTS

Greatest Aeronauts in World Meet to Test Powers at Belmont Park—All Records in Danger—Wright Brothers Will Enter Aeroplane Said to be Twice as Fast as Any Machine Ever Built—First Accident Occurs in Trial Flight.

New York, Oct. 22.—Undaunted by the fear of the gray shadow that ever rides hard on the trail of those who seek the conquest of the air, birdmen of all nations congregated today at Belmont Park to again tempt the fates and the law of gravitation. Veterans of many flights and enthusiastic novices who have yet to feel the sensation of traveling through the air will seek gold and glory during the great international aerial tournament which opened today. All of the most prominent American aviators are entered in the principal events to be decided between today and October 30, and pitted against them are Moissant, Aubrun, Audemars, Simon, Garros, Barrier, Count de Lesseps, Grahame-White, Radley, Ogilvie and other world-famous flyers of France, Great Britain, Germany, Italy and other nations. Several of the French aviators have entered into an agreement to pool their winnings and expect to carry back to Europe the major part of the big purses offered. The total prize list will aggregate about \$70,000.

In the international speed contest France, England and America will each be represented by three contestants, and, in addition to the trophy, there will be the regular cash prize of \$5000 and a special prize of \$2000. The distance of the speed race will be a trifle over sixty-two miles. Besides the world's championship there are three other regular speed events, and a \$10,000 prize offered by Thomas F. Ryan for the fastest flight to the Statue of Liberty and return.

Five thousand dollars is offered for the one who reaches an altitude of more than ten thousand feet, and there are many other valuable prizes for aerial stunts. In the international race, sensations are expected as the Wrights have announced that they will propel their new machine nearly twice as fast as anything which has ever been built. Curtiss also says he has evolved a new racing aeroplane.

In addition to the amount subscribed, the aviators will receive 70 per cent of the first hundred thousand dollars profits and 40 per cent of the second hundred thousand. At noon the police cleared the field of thousands of people so the aviators could get a running start. The principal event will be the international race next Saturday in which three entrants from each nation will fly over a course of 67 1/2 miles. All of the Wright and Curtiss machines are entered.

The first wreck of today occurred when the aviator Tod Schriever fell 50 feet in a trial flight, wrecking his machine. He escaped unhurt.

ACCIDENT EXPLAINED.

Chicago Real Estate Man Says His Daughter Fell Down Stairs.

Chicago, Oct. 21.—M. H. Kilgallen, a wealthy real estate man, tonight issued a statement regarding the injury Thursday of his daughter, Irma, Countess de Beaufort, who is at St. Luke's hospital suffering with a compound fracture of her left wrist, a broken kneecap and other injuries.

"There is nothing mysterious about the accident," said Mr. Kilgallen. "My daughter was hurt Thursday afternoon at my residence. She was on the third floor and was going down to the second floor. She stepped on a small rug on the landing between the floors, the rug slipped and in trying to regain her footing she fell over a small railing. My wife saw the accident as also did the countess' husband. They, however, were not near enough to save her. It was a miracle that my daughter was not more dangerously hurt."

FOREIGN LABORERS LURED AWAY BY PROMISES

Vancouver, B. C., Oct. 22.—Authorities are aroused over the activity of some Seattle labor agency which, on the promise of jobs is shipping a number of foreign laborers to this city. Batches of ten and twenty have been arriving during the last three days, and all say they had been promised that employment would be furnished immediately and that an employment agent would meet them at the dock.

BALLOONS SAIL FAR TO NORTH

America II and Dusseldorf Somewhere in Vicinity of Hudson Bay.

AZURIA LANDS IN ONTARIO WILDERNESS

Believed American Bag Has Won Great Aerial Race After Traveling 2000 Miles—Dusseldorf Is Close Competitor—Men from Azuria Wander Two Days Without Food—Runners Will Be Sent Out to Find Balloons.

New York, Oct. 22.—The balloon Azuria with Pilot Messner, and Aide Giraudan landed in an isolated spot in Ontario near the village of Algoma, 800 miles from St. Louis. They landed Wednesday and spent the next two days in wandering in the woods without food. Finally they reached Algoma. It is believed the America II has won the race. Advice from Montreal say a balloon believed to be the America has been sighted 300 miles from Poga-massing and it is believed the lighted near Hudson bay after a 2000-mile flight. It is reported the Dusseldorf landed near Poga-massing.

America Still Up.

Montreal, Oct. 22.—A telegram from Poga-massing, Ontario, said one balloon lit at a point fifty miles northeast, while another continued towards the Hudson bay in the teeth of a gale going at 55 miles an hour and landed at Coe-Coo, Cache, 1185 miles straight from this city while the Helvina landed at Villa Maria 1100 miles.

Search for Balloons.

St. Louis, Oct. 22.—Unless something is heard by tomorrow of the missing balloons Dusseldorf, Azuria and America II, a systematic search of every mile of woods in Canada will be instituted. An American revenue cutter was ordered today to prepare to search the great lakes while runners left for the wilderness bordering Hudson Bay. Lieutenant Governor Gibson of the province of Ontario, is willing to help, and has so notified the St. Louis Aero club. Officials are inclined to credit the balloon Germania with the record.

TAKES SHEEP DIP BATH.

Pendleton Traveling Man Victim of Practical Joke Perpetrated by Friends.

Friends of George Peck, the popular traveling salesman for the Pacific Hardware & Steel company of Portland and San Francisco, who makes his home in this city, are enjoying several big laughs at his expense. The joke is due to the fact that though Peck makes his headquarters in this city he is still pretty much of a tenderfoot and unable to distinguish between the bite of a bed bug of the common variety and a sheep tick.

According to the story being told, Peck in company with Jack Converse of the same company and Ed Morris, who travels for the Winchester Arms company, attended a shooting match in the city of Wallowa, early this week. The next day Peck complained of having been bitten in about a million places, principally on his back, by "something." His two friends immediately suggested sheep ticks and upon reaching Baker City insisted on making an examination. This was granted and the verdict of "sheep ticks" was immediately pronounced.

Not only was the verdict rendered but the patient was informed that the only thing that would save him would be a sheep dip bath. Not waiting for permission, the two conspirators hastened to a drug store and secured a large size bottle of sheep dip. Peck demurred to further procedure when he accidentally procured a whiff of the medicine, but his remonstrances were of no avail. In a twinkling describing their victim and had him painted a dark brown hue from head to foot. This completed, they plunged him into the bath tub filled with a strong solution of the dope which is guaranteed to cure scabbies and all other skin diseases which flocks of sheep are heir to. Needless to say the cure was complete and the Pendleton traveling man was immediately made an enthusiastic convert to the efficiency of a certain brand of sheep dip which he is now carrying around in his grip for future emergencies. His relief from the pain of the bites was so great that he did not mind converting himself into a walking perfunery.

Peck arrived from Baker yesterday. So did Morris. The latter, however, took the first train for Potland.

DR. HAWLEY CRIPPEN MUST HANG BY NECK TILL DEAD

CONDON GIVES WEST GREATEST OVATION

American Physician is Found Guilty of Killing His Wife by London Jury.

Verdict Reached After Deliberation of Only 30 Minutes—Crippen Receives Sentence Coolly But Protests His Innocence—Judge Gives Him no Hope of Escaping Gallows—Prisoner Relapses into Stupor—Mlle Leneve to be Tried Tuesday.

London, Oct. 22.—Dr. Hawley Crippen, stripped of the British law of his technical defense and handicapped by his missing wife whose body was found in the basement of his home, was found guilty of murder this afternoon, and was sentenced to be hanged by Lord Chief Justice Alverstone. His plausible detailed story which told of the disappearance of Mrs. Crippen failed to prevent the jury from remaining out more than 30 minutes.

In his closing argument, Prosecutor Muir said that Crippen's admission that the scar on the body was similar to that on his wife was itself damaging enough to send him to the gallows. The prisoner's attempt to show the body might be that of some one else was too fantastic to be believed, he said. Lord Alverstone's instructions to the jurors generally supported Muir's contentions.

Crippen rose briskly to receive his sentence. As soon as this was passed Lord Alverstone said: "I advise you to entertain no hope of escaping the gallows." "I still protest my innocence," said Crippen, and then relapsed into a stupor which remained longer after he returned to his cell.

The court told Crippen he had better make his peace with God, but the doctor still protested his innocence. He probably will appeal and if not successful will hang November 14 or 15.

Mlle. Ethel Leneve will be brought to trial Tuesday on the charge of being an accessory in the crime.

Crippen fainted several times in jail and became so depressed that physicians were called.

FISH'S BARBED FIN PIERCES DIVER'S NECK

West Palm Beach, Fla.—Death in an almost unheard-of form awaited Laurence S. Baker, an 11-year-old Jacksonville lad, when he dived from a boat while swimming in Lake Worth.

A stingaree, a huge, flat-bodied and gruesome species of warm water fish, was lurking just under the boat. One of the barbed spines which this fish carries on its whip-like tail pierced the boy's neck, cutting into the jugular vein. He rose to the surface, crying for help, and bled to death within four minutes after his swimming companions had lifted him from the water.

Whether the fish attacked the boy is not known, but it is believed by his companions that stingaree was swimming past and that the force of the boy's dive impaled him on the fearful barb. The stingaree's weapon is poisonous.

September Favorable to Crops.

Washington, D. C.—The Department of Agriculture reports that the month of September was favorable for crops in general, taking the United States as a whole, an improvement during the month of about 1.0 per cent being shown, whereas there usually is an average decline in September of 0.8 per cent. Aggregate crop conditions in the United States on October 1 (or the time of harvest) were about 1.8 per cent higher than on the corresponding date a year ago and 0.4 per cent lower than the average condition on October 1. (or at time of harvest) of the past ten years. The area under cultivation is 3.2 per cent more than last year.

300 CATTLE ARE CREMATED ALIVE

Calhan, Colo., Oct. 22.—Workmen are today busily engaged in clearing away the remains of three hundred cattle which were burned to death when a stock train collided with a freight two miles from here on the Rock Island railroad. An oil car in the freight train overturned and its contents were hurled over the wreckage. A spark from the engine ignited the oil and frightful scene ensued.

If a new assessment is made the plaintiffs will have an opportunity to go before the board of equalization and ask for a reduction.

DEFAULT TAKEN IN FAMOUS TAX CASE

PAPERS NEVER SERVED ON DISTRICT ATTORNEY

Default in Case of Building & Loan Association vs. Umattilla County Caused by Mistake—May be Opened Up.

A default was taken this morning in the famous tax case of the Pendleton Building & Loan association et al against the County of Umattilla. The default, however, was due to the fact that through some mistake the District Attorney had not been notified that the case was to come up for a hearing this morning. When informed of the action taken the District Attorney went before the court, explained to Judge Bean that he had not even seen the papers in the new case, had not been notified that the case was due for a hearing and therefore moved that the default be opened up. It is believed that the motion will be allowed and that the case will yet come to trial or be settled later.

It will be remembered that the first case was filed by dissatisfied local tax payers against the county more than a year ago. It was charged that the assessor had discriminated against city property holders in favor of the owners of farm land and that the assessment was void for the reason that the county board of equalization had not been legally organized. After many months the case came to trial and the court held that while the assessment was void for the reason that the board of equalization had not been legally organized, the plaintiffs had no standing in court for the reason that they had made no tender of the amount which they admitted they should pay to the county.

This decision was rendered several weeks ago. About ten days ago a new suit was filed in which the fraud charges against the assessor were left out and a tender of the amount of money admitted to be due the county was made. This left a difference in dispute of about \$1,000.

This new suit is the one in which the papers were not served on the district attorney, though they were served on the county clerk. Though it seems probable that the amount of the tender will be all that the county can collect on the old assessment, in view of the ruling of the court in the first case, it is possible that Assessor Strain will not assent to a settlement of the case on this basis but will insist on taking advantage of the opportunity offered by the law to make a new assessment.

If a new assessment is made the plaintiffs will have an opportunity to go before the board of equalization and ask for a reduction.
