BOILER EXPLODES AND GUNBOAT GOES DOWN

Port Au Prince, Hayti, Oct. 26.—Fifty men, including the ranking officers and part of the crew of the Haytian gunboat La Liberté, it is believed, drowned today when the boat sank off Port De Paix. The boiler blew up and tore a great hole in the bottom of the vessel. Twenty were rescued. The vessel was northward bound, having left this port Monday. Many jumped into the sea before the lifeboats were launched. The ship sank in a few minutes.

NEW JERSEY MILITIA IS ASKED TO QUELL RIOT

Jersey City, Oct. 26.—Following the turbulent riot during the last twenty-four hours in connection with the strike of wagon helpers for five dollars a day, the United States Express company asked Governor Fort to call out the militia today. The non union drivers were assaulted and pistols and stones thrown during the disturbance.

NEWS FROM ALASKAN CAMPS.

Several Important New Strikes Reported From the North.

The excellent monthly summary of progress in Alaska, published by the Alaska-Yukon Magazine this month is optimistic. It says: "News of new gold strikes in several districts of the territory sounds a hopeful note in the events of the summer season. It is the fulfillment of many confident predictions and its effect seems certain to be a widely increased area of prospecting and another rise of production. This season's Alaska gold output will bring the grand total up to \$180,000,000, and it is almost certain that in 1911 the two-hundred million mark will be passed. It is not too much to hope, in view of present developments, the next year's production will be larger than that of the banner year of 1906 when \$22,000,000 was sent out.

"Among the strikes reported there is a considerable share of gold quartz finds, indicating definitely the steady development of this permanent form of wealth production. Nevertheless, the reports from new placer ground show that the end of the Alaskan places is still too far off to be visible to the naked eye.

"The facts about the Iditarod are now apparent from the numerous reliable reports that have been received. That the camp is a rich one is assured, conservative estimates placing its possible output at about \$35,000,000. But that the area of minable ground is not so great as had been hoped seems true. Various estimates give the length of the paystreak as about eight miles, divided among ten creeks. Most of the ground will require considerable machinery for its effective operation and a large amount of this is on the way from outside."

There are a lot of men willing to die for the flag who would not swing the parlor carpet in the breeze for wifey for love or money.

Make Your Home COMFORTABLE. Buy a HEATER

REMEMBER

There is a great difference in Heaters. Just because a stove is very highly nickel trimmed and makes a good outside appearance is no reason that it is a good Heater. On the other hand it may be a great fuel consumer.

ECONOMY

on fuel is a great item now-a-days at the present price of wood or coal, and in ordering our Heaters every year we give this one item great consideration. Ask any user of the following stoves if we are right, find out for yourself.

Cole's Hot Blast, Cole's Air-tight, Iona, Wood Superior, Colonial, Mountain Oak, Great Western, Superior Radiator and the Radium

Priced from \$6 to \$32.50

It will pay you to see our line of heaters before buying.
