CHAMBERLAIN MAKES DENIAI

COUNTY OFFICIAL PAPER.

Declares Emphatically There is No Chamberlain-Bourne-West Alliance.

LIFE OF OREGON SYSTEM IS ISSUE HE ASSERTS

United States Senator Brands Charge That There Is Combination Between Himself and Bourne to Elect West As Absolutely False - Says Only Thing He Has in Common With the Senior Senator Is Support of Direct Primary and Kindred Measures,

While in the city last evening for a few minutes Senator George E. Chamberlain, who is to speak at the court house here tonight, reiterated his denial of the existence of any so-Bourne-Chamberlain - West He said:

"In order to cloud the real issue in this campaign, which is conventionism, disguised under the name of assembly'sm, it has been charged by the enemies of the Oregon system, that there is a combination between Senator Bourne, Oswald West and myself to defeat Mr. Bowerman and to elect Mr. West. It is charged that this combination has for its object not only the defeat of Mr. Bower man but in some remote way to as-sist the alleged candidacy of Senator sist the alleged candidacy of Senator Bourne, two years hence, and the alleged candidacy of myself four years

"Those who make this charge know that it is false, and the people are beginning to understand that it is made purposely and deliberately to draw voters away from the issues of conventionism.

"I have made no combination with Mr. Bourne, or Ellis, or Hawley or any of them, to further the candidacy of them or any of them.

"I have one thing in common with Senator Bourne. If this be treason then two-thirds of the voters of the state are equally guilty with Senator Bourne and myself. That thing which Senator Bourne and myself have in voters of the state have in common with us, is the defense of the initiative and referendum, the direct primary law in its full integrity and purpose and Statement No. 1, the corrupt practices act, the recall and enacted by the people under the initiative and referendum.

"The life of the Oregon system is now the issue. It is trembling in the

"The election of Mr. Bowerman and those who with him have been nominated under the so-called assembly method of nomination means the defeat of this system, and I am ready advising the people at the coming election to vote against every man, whether democrat or republican, who has received his nomination in any way or manner than by submitting his candidacy in an open primary, without any suggestion of assemblytem or conventionism, to the voters of the district, or county, or state, as

"I deny as positively as it is possible for me to deny the charge that there is any combination or alliance or understanding between Senator Bourne and myself or between Senator Bourne, Mr. West and myself. and I state with equal positiveness that Senator Bourne and I have not conferred at any time with reference to the candidacy of Mr. West, and I believe as firmly as I believe any-thing that Mr. West himself has never conferred with Senator Bourne at any time with reference to his candidacy for the position for which he is now a candidate,

The charge comes from those who are the recognized friends of the assembly system and who have always opposed the direct primary law and Statement No. 1, and its purpose is so palpably to mislead the voters and to draw their attention away from

Mrs. White was awakened by the dying growls of the mastiff, which with the other dog, had been chloroformed. She was almost overcome ing rooms of the hotel, and half stumbled down stairs. The noise she Pendleton's Round-up Cowboy band made frightened away the burglars, who were at work rifling the cash register in the barroom.

Mrs. White, who is a widow, called her brother, and, receiving no ansceedingly popular in Umatilla county, wer, went to investigate. She found him unconscious in his room. dragged him out of bed and to the window and he revived as soon as he felt the cold air. The two then went into the other sleeping rooms. The more under the influence of the drug than either Mrs. White or her brother had been and they were revived with the greatest difficulty. When they finally were brought to their sens Mrs. White and her brother started on an inspection of the hotel.

On the barroom floor they found the mastiff and the others dog dead. There was plenty of evidence that the bar had been rifled thoroughly. The burglars apparently had saved the cash register for the last, and from it they had obtained only \$20. The fact that several cases of wine and whisky, besides a quantity of cigars, were stolen, led the police, who had been notified, to believe that the burglars had used a wagon in carrying away their plunder.

High Wind Quickly Spreads Conflagration to Other Buildings and Fine Office Buildings Are Laid in Ruins -Firemen and Soldiers Do Heroic Work-Damage Is Covered by Insurance-Origin of Fire Unknown

Victoria, B. C., Oct. 27 .- It is estimated today that damage to the extent of a million dollars was done by a fire which started in this city last night and entirely destroyed a business block in the heart of the city. The burned district is bounded by Government, Broad and East streets and Trounce alley.

The fire started in Spencers departadjacent buildings by the high wind which was blowing at the time. The the Three Sisters building which was A construction car had been left the largest office building in Victoria, it was badly injured by water and smoke. In addition to these damages fifteen hundred telephones are out of commission. All of the burned buildings were fully insured.

Both firemen and soldiers fought valiantly to prevent the spread of the flames and it was largely due to their effective work that a much more serious conflagration was prevented.

Up until the present time no sat isfactory explanation has been offered as to the origin of the fire.

VICTOR ON SCEN

King of Italy Inspects Devastation-Observatories Unharmed, Naples, Oct. 27.—King Victor today inspected the relief work undertaken in the provinces of Naples and Salerno where the homeless, hungry vic-tims of Wednesday's volcanic erup-tion, tidal wave and earthquake are in need. Accompanied by officials the king visited a number of places along the Gulf of Salerno. The dead were buried in trenches. Martial law ended today and the civil authorities are

policing the cities. The scientists who returned to their observatories at the summit of Vesuvius today found that the lava had missed their buildings and that nothing was hurt at the observatories. The work of local authorities is being praised. It is probable the government will now confine its efforts to aiding the distressed and appropriating money to build homes and reimburse the farmers who lost their crops
