Newsy Notes of Pendleton

To California. H. G. F. Eggers and family of 400 Jackson street will leave for Orange, California, this evening to spend the winter.

Motor Car Party. Mr. and Mrs. Roy Alexander, Mrs. Nell Redfield, Maude Sheridan, Miss Iva Hill and Will Kern constituted a party which went down to Coe last evening on the motor to spend the evening with Mr. and Mrs. James Heiney.

Visits Brother. J. A. Wendell and wife of Chicago, who have been visiting at the home of Joe V. Tallman, left today for Tacoma, from which place they will go to Texas on a business visit.

Motor Car Late. On account of the motor car making an extra trip between Pendleton and Nolin yesterday to convey the men from the Twoby Bros, construction camps to vote at Nolin, the regular return of the car was considerably delayed.

Togo Returns. Togo, the well known Japanese janitor of the O. R. & N. depot and freight house, returned yesterday from Portland, where he underwent a serious operation for stomach trouble.

GERMAN WORKMEN GAIN.

Rise in Pay Settles Dispute of Ship-builders and Employes. Berlin.—The settlement of the dispute between employers and men in the shipbuilding trades has produced universal satisfaction among the workmen, especially as no reprisals are to be taken.

The "Vorwärts," the organ of the socialist party, claims that the men have won all along the line, and assumes a rather boastful attitude. The material gains of the men are contained in the concessions that wages are to be raised by two pfennigs an hour from January 1, and by another pfennig from April 1 next, and that the hours of work a week are reduced from 56 to 55.

It may be assumed from the attitude of the socialist party that there will be no further disturbance of the peace for some time to come, though a later opportunity will undoubtedly be taken to demand further concessions.

MASTER OF HORSE SEIZED.

Official of Russian Court Arrested on Anti-War Evidence. St. Petersburg.—To the many sensational arrests recently made in Russia is now added that of M. Vonliarsky, a master of horse of the imperial court, who is well known, with M. Bezobrazoff in Abaza, in connection with the famous concession on the Yalu river, one of the factors in the situation immediately preceding the war with Japan.

M. Vonliarsky follows his own son, a staff captain, into prison primarily as being involved in the case of a millionaire, Prince Oginsky, but in the course of the search at his residence the police seized some important documents, throwing light upon the real history of the concession on the Yalu, which contributed to bring about the Russo-Japanese conflict.

NEW OFFICERS OF ROUND-UP CHOSEN

J. ROY RALEY AGAIN ELECTED PRESIDENT

Stockholders Hold Meeting Last Night—Most of Officers and Directors Are Retained—Larger Grounds Discussed.

At an enthusiastic meeting of the stockholders of the Roundup, held at the Commercial association rooms last evening the annual election of officers occurred and considerable discussion was made of next year's exhibition.

At the election of officers, J. R. Raley was again made president of the corporation and most of the old officers and directors were retained. The following are the new officers and directors:

- J. R. Raley, president; W. E. Brock, business manager; J. H. Gahlin, secretary; R. W. Rlmer, treasurer; Mark Moorhouse, exhibition manager; Paul Sperry, parade manager; directors, Roy T. Bishop, Fred Steiwer, Dan P. Smythe, George Hartman, Jr., Harry Gray, Lee D. Drake, T. D. Taylor, L. G. Frazier and Fred Earl.

The officers were selected by a nominating committee composed of Leon Cohen, J. T. Brown, Charles Bonney, Charles Bond and Fred Steiwer. The report of the committee was accepted without change.

After Enlarged Grounds. The principal subject of discussion last night was that of larger grounds for next year. It will be necessary for the association to secure enlarged grounds and a slightly larger track.

Last night some stockholders favored using the city's tract above the water works in the east end of town. Others favored using the Matlock tract but enlarging the same. The matter was finally referred to a committee composed of G. I. LaDow, J. T. Brown, A. J. McAllister, J. H. Gahlin and L. G. Frazier. This committee is to investigate both propositions and to submit a recommendation to the stockholders.

Another meeting of the stockholders is to be held soon at the call of the president.

Democrats Sweep Into Office All Over Country. (Continued from Page One.) promised. The high cost of protected manufactured articles which has resulted greatly in an increased cost of living had much to do toward producing the result. There is general dissatisfaction with existing political conditions and with the present republican administration.

Democrats Win in Iowa.

Des Moines, Nov. 9.—Claude Porter, democrat, was elected governor of Iowa by a plurality of fifteen thousand, according to today's estimates.

Harmon Wins Out.

Columbus, Nov. 9.—Governor Harmon, democrat, was reelected over Harding. The legislature will apparently be democratic.

Illinois Goes Democratic.

Chicago, Nov. 9.—The democrats gained four congressmen in Illinois.

Hiram Johnson Wins.

San Francisco, Nov. 9.—Today's indications are that Hiram Johnson, republican, was elected governor by a fifty thousand plurality over Theodore Bell.

Oklahoma Democratic Governor.

Oklahoma City, Nov. 9.—Lee Grace, democrat, was elected governor of Oklahoma by a plurality of thirty thousand.

Both Sides Claim Victory.

Denver, Colo., Nov. 9.—Both democrats and republicans today claim they have won the gubernatorial contest and the result will probably not be known before night. Fully seventy per cent of the ballots were scratched. Congressional fights were likewise close.

Howell Elected.

Salt Lake, Nov. 9.—Joseph Howell, republican, was elected to congress.

Split Even in Wyoming.

Cheyenne, Wyo., Nov. 9.—The legislature of the state will be about evenly divided. The republicans conceded the election of Carey, democrat. Congressman Mondell was re-elected by a plurality of four thousand.

About Even in Illinois.

Chicago, Nov. 9.—Early returns give democrats of Illinois 11 congressional seats and the republicans 14.

Doubtful in Dakota.

Bismark, N. D., Nov. 9.—Returns today leave the gubernatorial contest doubtful.

Kohn is Winner.

San Francisco, Nov. 9.—Julius Kohn will probably be re-elected to congress by about a thousand votes. He is a republican.

"GREAT APPLE WAY."

Two Great Thoroughfares to be Built in Spokane Valley. Spokane, Wash. — Two modern thoroughfares, each 34 miles in length known as "the Great Apple Way" will be built the length of the Spokane valley, between Spokane and Coeur d'Alene, Idaho, at a cost of \$350,000. The preliminary work will be taken up in a few days and it is expected that actual construction will begin early next spring. The funds required will be contributed as follows: States, 50 per cent; counties, 25 per cent, and landowners, 15 per cent. The roads will be of oil macadam, 24-foot center with four-foot shoulders and lined on both sides with apple and elm trees, making two of

the most unique highways in America. Orchardists and nurseries and irrigation companies operating in the valley have contributed trees and water and the work of caring for them will be done by ranchers along the routes. The work on the Washington side will cost about \$200,000 and will be done under the direction of the state highway commission and the Spokane County Good Roads association.

"The first road to be built will be the extension of east Sprague avenue," said J. A. Perry, secretary of the Spokane County Good Roads association. "The property owners there have contributed \$34,000 or about \$9000 more than the proprietors of the Trent road. The route has been surveyed and work will be pushed next spring. This road will be 15 miles in length to the Idaho line. "The Spokane & Inland Empire Electric railway company has donated a bridge across the Spokane river and this span will be maintained by the states of Washington and Idaho. We have also received substantial contributions from other sources and are now in position to say that the two roads will be completed."

BENDING KEEL BAG'S FAULT.

Italian Dirigible Criticized as Worthless in War Time.

Rome.—A long criticism of the new Italian military dirigible balloon, "No. 2," which performed the voyage of 200 miles from Bracciano to Campalton, near Venice, but only after accidents and stoppages which prolonged the journey from one to three days, is published by the Tribuna.

The critic attributes the misadventures which befell the balloon to the fact that it is supplied with a flexible keel of iron, weighing 300 kilograms (672 pounds). The original type of the Italian dirigibles, constructed in 1905, was furnished with a rigid metal keel, but, as this was found unserviceable in the new model, a flexible keel was substituted for it. The critic points out, however, that this very flexibility may and does cause the equilibrium of the balloon to be disturbed, so that excessive weight is placed upon certain ropes, which may snap under the strain.

He also considers that the weight of 672 pounds which the balloon is carrying involved the throwing overboard of all the ballast and the sacrifice of all the benzine in stock to effect the passage of the Apennines. Consequently, he argues, the balloon in real warfare would have arrived too late; and even when it had arrived, would have been without means of executing maneuvers.

ENGLISH WOMEN WARNED.

Doctors Say Liquor Menace Among Fair Sex is Appalling. Liverpool.—British doctors are all worked up over the growing intemperance among women. The weight of medical opinion is against the liquor trade. Addressing a big north of England demonstration, Dr. James Johnson, of Salford, rejoiced that the grape crop this year was a failure everywhere in Europe.

He pointed to statistics to show that imbecile children are born in great numbers after seasons in which the vintages are good. The schools of Switzerland and Austria are full, he said, of short-witted children, born after vintage festivals.

From that he warned British women that their drunken habits are becoming a national reproach, since American and other visitors are constantly commenting on the numbers of women thronging the liquor saloons.

Dr. Saleeby reported cases of children in the slums of Edinburgh and York who were born drunk. Thousands of British babies imbibed alcohol from birth. First-born children were often feeble minded because of homegrown intemperance. An Edinburgh case showed a woman who had five children, all still living. She took to drink, had 14 more children "all of whom died at birth, smothering strongly of rum."

CZAR HUNTS; 1,500 HEAD OF GAME DRIVEN OUT

Berlin.—Emperor Nicholas hunted today in Emperor William's new game preserves near Oranenburg, twenty-six miles northeast of Potsdam.

A battalion of soldiers with foresters had been engaged for some days in assembling 1,500 deer, hare and other game within an inclosure. The animals were driven out today past a line of platforms encircled by pine branches, upon which the royal party and twenty-two other court hunters had taken positions ready for the killing. Emperor Nicholas was permitted the first shot.

The forest was thoroughly searched by troops to make sure that it contained no one whose presence was unauthorized.

Mrs. Beas T. Baker took the prize as best pastry cook in Umatilla county. She always uses Cleveland's Baking Powder and only pays the regular price of \$1 for a 3-pound can. All grocers sell at this price.

SEEK BROTHERS WHO DISAPPEARED IN 1892

New York.—After searching far and wide for trace of their two brothers, from whom they have been separated for years, Miss Della Conlin, and her two sisters have appealed for aid.

In 1892 the family was broken up by the death of Mrs. Conlin, the children's mother; the three girls were sent to a sister's school in Washington county and the two boys, John then nine years, and his infant brother Thomas were placed in the care of a family named Beck, who then resided in West One Hundred and Twelfth street, but whose whereabouts is unknown to the sisters.

"If John is alive now he would be about twenty-seven years old, while Thomas should be about eighteen," said Miss Della Conlin. "It seems strange that while we know that our mother had a number of relatives in the city we have not been able to find any."

"I and my sisters would be glad if any person possessing any information regarding our brothers would send the same to us at 2905 Eighth avenue, in care of Miss R. Riley."

London.—There is being developed in Ireland an industry which is likely to add much to the material prosperity of that country. Recent experiments carried in by the government have shown that nearly every kind of tobacco may be grown in Ireland, and the actual area now under cultivation is 120 acres, comprising 79 acres of pipe tobacco, 28 acres of cigarette and 13 acres of cigar tobacco.

BOOK RAISES BIG PROTEST.

Holy See May Place Duchesne's Work on "Index" as Unorthodox. Rome.—The case of Mgr. Duchesne, who has so long occupied the directorship of the French school at Rome and whose edition of the "Liber Pontificalium" is known to all students of the Papacy in the early middle ages, is attracting much attention in the Italian press.

It has been stated that the Italian translation of Mgr. Duchesne's "Histoire de l'Eglise Ancienne" is to be submitted to the Holy Office with a view to its being placed on the "Index" as unorthodox. The Italian publisher of the work writes to say that he cannot understand such a proceeding, because the French original of the book appeared, without any objection being raised, ten years ago, that four editions of it, as well as Spanish and English versions have been issued, and that the first 200 pages of the Italian translation have not only been approved by the ecclesiastical authorities, but favorably reviewed by two such important clerical journals as the Osservatore Romano, the official organ of the Vatican, and the Difesa of Venice, which has close relations with Pius X. At the same time, the publisher admits that he was warned by a Jesuit of his imprudence in issuing the work in Italian unless it were entirely recast.

It is not the first time that Mgr. Duchesne has been suspected of too liberal opinions.
