PENDLETON, OREGON, THURSDAY, NOVEMBER 10, 1910.

NO 7055

MALONEY DEFEATS GILLILAND IN RACE FOR JUDGE'S CHAIR

HIS MAJORITY IS NEARLY 150

Returns Are All in With the Exception of a Few Minor Precincts.

COUNTY GOES WET BY APPROXIMATELY 500

Dr. C. J. Smith is Defeated by J. N. Burgess by Nearly 300 Votes—Maloney Nesses Out Ben Hill in Race for Joint Representative—Cockburn Wins From Saylor—Jay Bowerman Carries County by Less Than 200 Votes.

Though the complete returns for Umatilla county are not yet all in so much is known that there is no longer doubt as to the outcome of the local races. J. W. Maloney has been elected county judge by a majority that will range between 130 and 150.

Umatilla county has gone wet by about 500 majority while home rule according to the returns so far in is two votes behind.

A complete count in 36 of the 40 precincts in the county gave Maloney a majority of 127, the standing being Gilliland, 1858; Maloney 1995. The precincts missing are Fairview, Ukiah, Mountain, Prospect. Of these Maloney has carried Ukiah and Prospect and the other two are in doubt.

A complete count on the joint representative in 34 precincts gave Maloney a majority of two, the standing being 1677 for Hill, and 1679 for Maloney. The two missing precincts in addition to the four named are Holdman and McKay. The former was carried by Hill and McKay by Maloney.

A complete count on commissioner in 32 precincts gives Cockburn a lead of 143, the standing being, Cockburn, 1823; Saylor, 1680. The missing precincts are Albee, Gibbon, South Reservation, Holdman, Fairview, Mountain, Ukiah and Prospect. Cockburn will probably carry Gibbon, South Reservation and Fairview. Saylor will probably carry the others.

Below is given a summary of the vote for Umatilla county insofar as was obtainable up to this afternoon. Upon the county judgeships the returns are in from all but the four small precincts given above. On the state senatorship the returns are for all but six precincts. The wet and dry vote is for all but nine precincts.

Congressman—Lafferty, 2086; Manning, 1191.

Governor—Bowerman, 1990; West, 1797.

Supreme Justice (four year term)—Bean, 1851; McBride, 1005; Slater, 637.

Supreme Justice (six year term)—Burnett, 1333; King, 743; Moore, 939.

Water Commissioner—Cochran, 1,235; Saxton, 761.

Joint Senator—Barrett, 2382; Hill, 1211.

Joint Representative—Hill, 1677; Mahoney, 1679.

Senator—Burgess, 2004; Smith, 1,731.

County Judge—Gilliland, 1843; Maloney, 1995.

Sheriff—Houser, 1154; Taylor, 2,579.

Recorder—Burroughs, 2134; Hendley, 1202.

Treasurer—Bradley, 2254; Tweedy, 1161.

(Continued on page 8.)

A GREWSOME PLEA FOR PROHIBITION.

Auburn, Wash., Nov. 10.—The people of this city are recovering from the shock of a grewsome plea for prohibition. During the election, H. N. Connell, a local undertaker and leader of the prohibitionists, propped up two coffins in his shop window near the polling booth in which were two men dead. Over the coffins was a placard saying "These men died of drink." Auburn went wet nevertheless.

COUNT BONI WANTS DIVORCE CONFIRMED

Rome, Nov. 10.—The application of Count Boni De Castellane of France for Papal confirmation of his civil divorce from Anna Gould was received today at the Vatican. It is reported the step is preliminary to part of Boni's plan to marry Anne Morgan, daughter of the American money king. It was reported unofficially that his application is based on the ground that the Castellane-Gould marriage was illegal ecclesiastically since the bishop of the diocese in which it was performed was not notified. It is understood high Vatican officials are boosting for Count Boni and are taking steps to secure favorable action from Pope Pius.

WASHINGTON GRANTS SUFFRAGE TO WOMEN

Olympia, Nov. 10.—With a view of correcting the popular impression that the legislature would have to ratify the woman suffrage amendment, the attorney general's office announced that Governor Hay would issue a proclamation that women will be enfranchised in time to vote at the special election in Washington this winter. The suffrage amendment carried almost 2 to 1.

DEMOCRATIC VICTORY AFFECTS RECIPROCITY

MAY RESULT IN BENEFIT TO CANADA

Republicans of Tariff Commission Will Concede Points But Canada Will Not Be Hurried Now.

Ottawa, Ont., Nov. 10.—The American tariff commissioners, who are trying to negotiate a reciprocity convention with Canada say that the result of Tuesday's elections will not have any effect on their plans for a new treaty. The general impression is that the democratic victory in the United States will help the Canadians because it would make the republicans on the commission more anxious to make a trade arrangement which will appease to some extent those who demanded reciprocity with Canada.

Canada, however, can afford to be more independent, because with the democrats coming into power and with the prospects for a reduction of the American to somewhere near the level of the Canadian tariff, it gives Canada little reason for rushing into a treaty where unnecessary concessions might possibly be granted. A report from Montreal and Victoria says the board of trades are taking steps to oppose reciprocity with United States.

ADMIRALTY TURNS OVER NAVY YARDS TO CANADA

Victoria, B. C., Nov. 10.—The Esquimalt naval yard was taken over from the Admiralty yesterday by the Canadian government when the English Jack fluttered slowly to the ground the guards presented arms, the officers saluted and the rule of the admiralty was ended. Commander Vivian turned his command over to Commander Stewart. The naval yards is the only one on the Pacific coast in Canada and will be used in connection with Canada's new navy which now comprises a fleet of one cruiser on the Pacific coast.

Methodist Mission Meeting.

New York, Nov. 10.—Grace church was the gathering place today of some of the most prominent Methodists of the country, assembled at the annual session of the Methodist Episcopal general committee of home missions and church extension. The meeting will continue several days, as several important business matters and appropriations for carrying on the work of the committee are to be passed upon. It is announced that the managing board of the Methodist Brotherhood will meet in this city next week, convening on Wednesday.

New Zealand Mails.

San Francisco, Nov. 10.—With the arrival of the steamship Aorangi, due here tomorrow, a new mail service will be established between New Zealand, Papete Raratonka and this country. The Aorangi will leave on her return trip November 16. With her sister ship, the Naitai, she will maintain a regular service under a mail subsidy for the New Zealand government. Much mail between Great Britain and New Zealand will be exchanged by way of the United States and the new steamship service.

WESTON SCHOOL PROBABLY LOST

Indications Are That Western Oregon Vote Has Gone Against Bill.

WEST LEADS BOWERMAN BY A LARGE MAJORITY

Orchard County Goes Down to Defeat Along With Sister Measures—Home Rule Probably Carried by Small Majority—All Dry Counties But One Revert to Wet Column—West Leads by Over Four Thousand Votes.

Portland, Nov. 10.—No records have been made here in regard to the Weston normal school, but it is believed the bill was defeated. Regarding county division, indications are that all county division schemes, including Orchard county, were defeated. Home Rule probably carried by a small majority and prohibition was decisively defeated. Save in Josephine county, which went prohibition by sixteen votes, all of the hitherto dry counties went wet, repudiating prohibition by a big vote. The data is as yet very incomplete. West this afternoon leads Bowerman by 4045 plurality, throughout the state and over 1500 in Multnomah county.

Portland, Ore., Nov. 10.—Returns today indicate West's plurality over Bowerman will be 3,000 or more. Save for the governorship the republican ticket won straight down the line including state engineer. West this morning led by approximately 2,000 in the state and 900 in Multnomah county with over half of the votes counted. Prohibition is apparently decisively beaten by 11,000 or more. The Home Rule measure probably carried by a small margin. It is noticeable that 12 Oregon counties which previously went dry strongly, this time went strongly wet.

Carey Wins in Wyoming.

Cheyenne, Wyo., Nov. 10.—Outlying district returns received today makes it probable that Carey, the democratic candidate, was elected governor by a small plurality.

Carroll Carries Iowa.

Des Moines, Nov. 10.—Governor Carroll, republican, was re-elected by a plurality of 15,000 probably.

Colorado Goes Democratic.

Denver, Nov. 10.—Fairly complete returns today show that the entire

TAFT IS OFF FOR PANAMA

President Takes Ship for Canal Zone to Make Investigations

SEVERAL PROBLEMS TO BE SOLVED BY CONGRESS

Taft Boards Battleship Tennessee at Charlestown—Will Make Recommendations Following His Trip—Form of Government for Canal Zone Must Be Decided—Increased Cost of Living Is Issue There—Panama Railroad Must Be Disposed Of.

Charleston, S. C., Nov. 10.—President Taft boarded the battleship Tennessee today and at high tide the big war vessel, accompanied by the cruiser Montana as a convoy, sailed out of the harbor with the canal zone as its destination. President Taft is making the trip to the isthmus to obtain information on which to make his recommendations to congress for legislation regarding the canal.

One of the most important questions to be decided by the president relates to the force of government he will recommend that congress should adopt for the canal zone. Colonel Goethals, the chief engineer, has recommended that a military government for the entire zone be adopted, instead of the present system of government by executive order.

Congress will also have its attention called to the establishment of a toll rate over the canal. This is an important question, as on its solution depends largely whether many steamship companies will use the canal or transfer cargoes by rail over the Tehuantepec route, as several companies now do.

The president will also consider the question of the fortification of the canal zone. It is practically certain that he will repeat his recommendation for an appropriation of \$2,000,000 for this purpose.

"Increased cost of living" has become an issue on the canal zone, as elsewhere, and the workmen employed in digging the ditch have asked for an increase in wages. The army officers say the demand is unjust, and the president will have to decide between them.

What will be done with the Panama railroad after the canal is completed is another subject the president will consider. There is some

OSWALD WEST.

Next Governor of State of Oregon.

NEW YORK COAL DRIVERS STRIKE

New York, Nov. 10.—Union drivers of coal wagons struck today, and before nightfall it is confidently expected that New York and vicinity will be in the throes of the biggest general teamsters strike in her history. A call was issued for a mass meeting of all the unions for tonight. A fuel famine already threatens the city. The strike turned favorable to the strikers today when Mayor Gaynor ruled all unlicensed drivers will be arrested. The police seized a number of express wagons and took the unlicensed drivers to jail.

The express companies met this move with an application for 200 licenses to be distributed by them among such drivers as they may be able to employ. This was countered by State Labor Commissioner Williams who announced he would take a hand in the case unless the companies arbitrated. Williams stated he would evince the state law permitting him to examine the books of the companies to determine their ability to pay increased wages if they continued to show a disposition to ignore the public demand for a settlement of the strike. If a general strike is called every kind of wagon from taxicabs to garbage wagons will be affected.

WHY IS THERE NO MERCHANT MARINE?

COMMITTEE INVESTIGATES TO ASCERTAIN REASON

Ship Subsidy Question Will Also Be Gone Into—Intimated Foreign Shipping Interests are Responsible for Lack of Marine.

New York, Nov. 10.—The committee which is investigating the merchant marine and ship subsidy questions, with a view to reporting to congress next month, began a new probing in New York today. Friends and foes of the merchant marine project are becoming bitter in their charges and counter-charges, and the committee is likely to receive some sensational testimony.

At the present time, it was pointed out today, approximately ninety per cent of \$3,150,000,000 of the annual foreign trade of the United States is carried in foreign bottoms. This business, it is alleged, means that \$300,000,000 is taken out of the country each year for foreign freights, England and Germany get the bulk of this tribute. Advocates of an American ship subsidy assert that the foreign steamship interests are actively opposing such a measure and have spent millions of dollars in preventing its passage. A number of congressmen, it is hinted today, have become possessed of considerable stock in foreign steamship companies, and they may be summoned to appear before the committee to explain the matter.

Opponents of a ship subsidy, on the other hand, declare that great American financial interests are back of the movement to "develop the merchant marine of the nation," and that a subsidy, while taking millions out of the people's treasury, would work no public good, but would only add to the wealth of the captains of industry who are now so patriotically demanding that congress aid in their projects.

PRESENT "FROM CAVE LIFE TO CITY LIFE"

Boston, Nov. 10.—Real full-blood Indians will participate in the first presentation tonight of the spectacle "From Cave Life to City Life," by way of illustrating the vast difference that exists between the painted savage and the Boston highbrow. The dramatic pageant is a feature of the "civic advance campaign" planned by the Boston-1915 organization, and will serve as a fitting inaugural for the movement which has for its object the spreading of the name and fame of Boston. The pageant will be staged in the Arena and will be repeated three nights. Thirty Iroquois Indians have been secured to illustrate the primitive life that existed in the wigwams and tepees which once occupied the site of the city of beans and culture. Another elaborate scene, in which 250 men and women will participate, will reproduce a reception by Governor Wentworth during colonial times. This antique social affair will end with the minut and other old fashioned dances.

Mayors of all the cities of New England have been asked to cooperate in the "civic advance campaign" and many of them will be the guests of Boston-1915 at a meeting to consider problems in practical municipal administration.

AMERICAN FLAG IS INSULTED

Torn Down and Spat Upon in Anti-American Riots in Mexico.

TWO AMERICANS ARE REPORTED KILLED

Lynching of Mexican in Texas is Taken as Excuse for Demonstration Against Americans—Students March Through Streets and Tear Down "Old Glory"—Revolutionists Claim Revolution Will Follow—Secretary Knox Takes Matter Up.

Attempt Wilson's Life.

San Antonio, Nov. 10.—Advices received here from Laredo stated that rioters in Mexico City today attempted the life of United States Ambassador Wilson. During the riot a bomb was thrown at Wilson, but he escaped. The bomb thrower was arrested. News reports are being censured.

Mexico, Nov. 10.—Troops are

guarding the streets of this city today following the riots of yesterday and last night in which the American flag was torn and spat on and a demonstration made against the American residents. Five persons, two of whom were Americans, are reported killed, but these reports are unconfirmed. Three Mexicans were killed by the cavalry which dispersed the mob. The American ambassador has demanded protection for the Americans and feeling is intense. The outbreaks are the result of the lynching of Antonio Rodriguez, whose body was burned at Rock Spring, Texas, November 4, for the confessed murder of an American woman.

Yesterday students in colleges here who previously held a meeting at which they denounced the United States and our civilization, marched through the streets, jeering Americans and the plant of El Imperial, the government paper, was badly wrecked, and the American flag torn from above a candy store, torn to bits and insulted.

Claim It Is Revolution.

San Antonio, No. 10.—Mexican revolutionary leaders today state that Mexico is in the hands of aincipient revolution and that the outbreak against Americans was merely a blind to give the revolutionists a chance to get their forces together. According to private advices received here from Mexico city, the troops are really guarding the city against the revolutionists. Revolutionists here claim they have authentic information that two Americans, one a school girl, and the second a young man, were killed. The girl was struck on the head by a rock hurled through a street car window by a rioter. The Rodriguez incident is looked upon merely as a pretense for an outbreak.

Discuss Affair in Washington.

Washington, Nov. 10.—A conference at the state department was held today over the anti-American outbreak in Mexico City. Mexican Ambassador Delabara was closeted for a long time with the secretary. He said Mexico would deal fairly with the situation, but likewise asked Knox what the United States had done toward punishing the men who burned the Mexican Rodriguez, the confessed murderer in Texas. Mexicans yesterday and last night used this as an excuse for the disturbances.

INSANE MAN RUNS AMUCK; KILLS TWO.

Boston, Nov. 10.—Sergeant of Police Schiehuber and an unidentified man, were killed and several deputies and the district attorney narrowly escaped death today at the hands of a man who ran amuck in the office of the district attorney. He was insane and shot indiscriminately at the occupants until his revolver was empty and he was overpowered. Another man on the outside was wounded by a bullet through the door.
