Best paying grocery store and meat market in eastern Oregon must be sold at once on account of sickness. Lee Teutsch. Cold weather is coming. We have the best coal on the market. A ton

is 2000 lbs. at Pendleton Lumbar Yard, Phone Main O.

### FAVORITE TIME TO WED.

London Girl Selects Twenty-one, But Older Age for Widows.

London.—If the age at which a bachelor marries is a criterion of prosperity, then the London bachelor is more prosperous than the bachelors of Paris and Berlin. The majority of London bachelors marry between the ages of twenty and twenty-five; those in the other capitals five years later.

With the women it is the same story. Out of 38,810 marriages in 1908, 4,249 were of young spinsters under age. One of them was under sixteen, and her husband was a youth of twenty. Twenty-two married at sixteen. In Paris 2,819 women (spinners and widows) married under twenty, and in Berlin, 1,971.

These figures are contained in the twentieth volume of "London Statistics." They show that the favorite age at which a London girl marries is twenty-one; 14,832 married at that age in 1898. No fewer than 33,449 spinsters out of the total of 33,449 married between the ages of twenty-one and twenty-five. A woman's matrimonial prospects decline notably after the age of twenty-five. After forty-five they dwindle to nothing.

### LONG RACE WITH DEATH.

Woman With Cancer of Lungs Tries in Vain to Reach Pittsburg.

Pittsburg.—Miss Eva L. Jacobs of 73 West Eighty-eighth street, New York, forty-one years of age, died on a fast East-bound Pennsylvania train at Crestline, Ohio, thus losing a 2,000-mile race against death by 500 miles.

Miss Jacobs about a month ago went to Denver, where her brother, E. G. Jacobs, lived, under the impression that she had consumption. The Denver physicians early in the week told her she had cancer of the lungs and that they could do nothing for her.

Miss Jacobs then told her brother she wished to be hurried to her old home in New York to die, and on Thursday morning sister and brother left Denver for New York.

As the sick woman was whirled down from the high altitude of the Rockies she became rapidly worse, and when Chicago was reached, late on Friday afternoon, Mr. Jacobs wanted her to leave the train and go to a hospital, but she refused, saying she must keep moving if she would see New York again.

Before midnight, while flying across Ohio, the woman had a fainting spell and never rallied, dying in her brother's arms. The body was embalmed at Pittsburg, and then the journey to New York was resumed.

### Current Literature Club.

The meeting of the Current Literature club which was to have been held tomorrow at the home of Mrs. Mark Moorhouse, has been postponed. The next meeting will be held at the home of Mrs. E. T. Wade on November 18.

## FREE LECTURES BY COLLEGE PROFESSORS

CAN BE HAD BY ANY CLUB OR ORGANIZATION

University of Oregon Announces Lectures Prepared by Faculty Members for Benefit of People of State.

University of Oregon, Eugene, Ore.—In connection with university extension work, members of the University of Oregon faculty are prepared to give lectures, free, before study club, or any organization or body of people in the state desiring them. The only consideration will be the expenses for the trips and the quickest way to open up the matter will be a note of inquiry addressed directly to the professor wanted for the lecture, suggesting a date and the subject wanted. The following men with the specific subjects of their lectures, are at this time announced:

Prof. Irving M. Glen—Four lectures on Early English Poetry: "The Beowulf," "Cynewulf's Christ," "St. Juliana," "St. Guthlac."

Dr. F. G. G. Schmidt—"Faust," illustrated; "German Universities," illustrated; "Schiller," illustrated; "Wieland, The Athens of Germany," illustrated.

Prof. A. R. Sweetser—"The Gospel of Purity," "Swat the Fly," "Microscopic Friends and Foes of Every Day Life," "Toadstool Talk," "Oregon Trees."

Prof. Frederick Dunn—"Virgil's Aeneid," illustrated; "The Acropolis," illustrated; "The Passing of Rome," illustrated; "The Pharaohs of Exodus," illustrated; "Caesar and Cicero," illustrated; "Benjamin Franklin Before the Revolution."

Dr. James Gilbert—Twelve lectures on economic subjects, including studies in immigration, the tariff, currency, panics and commercial crises, the railways, trusts and socialism.

Prof. Arthur C. Collier—Three lectures in geology.

Prof. H. C. Howe—Three lectures on Shakespeare (popular), "The Education of a Free People."

Prof. E. E. DeCou—"The World's Peace Movement," "The Solar System," illustrated; "Mathematical Recreations," geometric and algebraic fallacies, magic squares, etc.

Dr. Joseph Schafer—"Some Conditions of Leadership."

Prof. Franklin Barker—"The Geography of the Willamette Valley," "The Development of Oregon's Geography."

Prof. John Boyard—"The Animals of the Past," "Epochs in the History of Zoology," "Hereditary and Environment," "The Problem of Age, Growth and Death."

Dr. Henry D. Sheldon—Educational and institute lectures.

Prof. L. R. Alderman—Educational and institute lectures.

Dr. H. B. Leonard—"Practical Value of the Study of Mathematics," "Methods of Teaching Problems and the Handling of Condition Equations," "The Fourth Dimension."

**DR. THOMAS CONDON'S BOOK INTERESTING**

University of Oregon, Eugene, Or.—One of the most interesting books ever written is that of the late Dr. Thomas Condon of the University of Oregon, on the geology of Oregon, under the title of "The Two Islands."

The book contains charming descriptions of many old types of animals that once inhabited the state of Oregon, together with 20 choice engravings of the fossil remains on which the descriptions are based. These fossils are still to be seen at the University of Oregon, where the Condon cabinet has been purchased. They however, constitute only a small part of the collection, which contains sev-

eral thousand specimens, many of which are equally worthy of a place in Oregon geology.

The geologic history of Oregon as revealed by fossils, goes back several million years, into the Paleozoic period. In "The Two Islands" recently published under the title of "Oregon Geology," Dr. Condon only briefly describes the Triassic, Jurassic and Cretaceous systems of rocks represented, and devotes most of his attention to more interesting later times. In the Eocene period, the Coast range of mountains was the first deposited as sediment on the sea floor and after accumulating there many years was raised up by the folding of the earth's crust, thus forming a new coast line several miles to the west. In the Miocene period, a great sea occupied the place of the Willamette valley, and was cut off from the ocean by many islands. The eastern part of the state was the home of many strange looking beasts, whose remains are preserved in lake beds. During the glacial epoch, the sea again for a short time invaded the Willamette valley, forming the Willamette sound, and strewing granite boulders from floating icebergs over the surface.

Dr. Condon was made professor of geology at the University of Oregon in 1875, which position he occupied until his death in 1907. He was not particularly interested in geology until 1862-63, when he found the first lot of fossils in the now famous John Day valley. From this time on he made a thorough study of geology, and soon became famous. He was visited by many of the older geologists, among whom were King, Blake, Newberry, Hague, Marsh, Dall, Le Conte and others. Although Dr. Condon published comparatively little, he ranks as a geologist with Richard King, Dr. Newberry and Professor Marsh.

### AT 81 WEDS SIXTH WIFE.

Bride, 55, Arrives From Missouri and is Immediately Married.

San Bernardino, Cal.—Edward Hecklin, aged eighty-one, wealthy orange grower of Pomona, for the sixth time took unto himself a wife, marrying Mrs. Thomas Hecklin, the widow of his half-brother. The hale old man applied for a marriage license with the fervor of a youth, and with his blushing bride of fifty-five years sought out the services of the Justice of the Peace.

Back of the marriage lies a pretty romance of years gone by. Years ago the groom knew the girl whom his half-brother later married in Lexington, Mo. Hecklin came West, but several months ago returned to his old home to again make love to the old sweetheart, whose husband had died over a year ago. The woman arrived here and the pair were immediately joined, the jovial groom making his bride a present of a check for \$10,000 at the completion of the ceremony.

### BOTTOM OF LAKE BELOW THE LEVEL OF THE SEA

Spokane, Wash.—Four hundred and ninety-seven feet below the level of the sea is the bottom of Lake Chelan, in Chelan county, north central Washington, according to a report by the United States geological survey, which shows the lake to be 1,597 feet deep. The altitude is about 1,100 feet. For years it was believed by residents in the district and sportsmen from various parts of the country who flock there every season for fish and game, that the lake is so deep it could not be sounded. This was given out following numerous unsuccessful attempts by farmers and others to find bottom. The facts reported to the geological survey and experts were sent to the lake some time ago. They took soundings in various parts of the lake, which is more than 40 miles in length. The results of their work is published in a report issued recently by the department. In addition to the foregoing statistics there is a mass of technical information.

## The World's Best Medicine

MRS. JENNIE GARDNER

There is no time in the life of man or woman when Duffy's Pure Malt Whiskey will not help. Mrs. Jennie Gardner, one of our patients, is passing through woman's most critical period and she is enjoying the best of health.

In her letter she says: "With pleasure I allow my name and testimony to be used for the benefit of those who know not the merits of Duffy's Pure Malt Whiskey. I think it is the best medicine in existence. I am now passing through the most critical period of woman's life (The Menopause or Change of Life). I am enjoying good health, better than for years and all through this wonderful change have suffered comparatively no inconvenience at all. This is remarkable, but nevertheless it is true. I could not do without Duffy's Malt. I expect to use it all my life." Mrs. Jennie Gardner, Menett, Mo.

## Duffy's Pure Malt Whiskey

It is one of the greatest strength builders and tonic stimulants known to science. Its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach. It improves the digestion and assimilation of the food and gives tone and vitality to every organ in the body. It has been used with remarkable results in the prevention and cure of consumption, pneumonia, grip, coughs, colds, asthma, low fevers, stomach troubles and all wasting and diseased conditions. Recognized as a family medicine and prescribed by physicians everywhere.

**CAUTION**—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It is an absolutely pure medicinal malt whiskey and is sold in SEALED BOTTLES ONLY—never in bulk. Look for the trade-mark, the "Old Chemist," on the label, and make sure the seal over the cork is unbroken. Price \$1.00 a large bottle. Write Medical Department, The Duffy Malt Whiskey Co., Rochester, N. Y., for an Aseptic Drinking Cup, also doctors' advice, and an illustrated medical booklet containing testimonials and common sense rules for health, sent free.

### THREE WOMEN DIE WITH SHIP'S CREW

Teneriffe, Canary Islands.—Two seamen, the sole survivors, arrived here today and told of the loss of the Anglo-Algerian liner Kurdistan off Sicily October 20th. The steamer carried a crew of forty. The number of passengers is not known. The survivors reached here on the German steamer Santa Ursula. The Kurdistan was long overdue at Mar-

seilles, and yesterday the owners sent a vessel to search for her. She sailed from Manchester on October 17. The survivors were drifting in a lifeboat when on October 21st they were picked up by the British ship Vincente, which transferred them to the Santa Ursula on November 2d. London.—The owners state that three women were the only passengers on the Kurdistan when the steamer left Manchester.
