

## OREGON AND O. A. C. MEET TOMORROW

### GRIDIRON STRUGGLE TO BE FOR SUPREMACY

Annual Game For Championship of State Will be Played in Corvallis—Oregon Has Most Favorable Chances to Win.

(Special Correspondence.) Oregon Agricultural College, Corvallis, Ore., Nov. 11.—Great preparations are now in progress at the Oregon Agricultural college for the annual contest between the football teams of the University and the Agricultural college. It is expected that more than 500 people will be in attendance at this game. Besides the entire student body of this institution, members of the faculty and a great number of citizens of Corvallis, there will be the student body from Eugene with the faculty and a large following of townspeople. Also many members of the alumni of both institutions and others who are interested in the schools will be present. Bleachers are being constructed which will have a seating capacity of over 3000 people. These with the grand stand and the bleachers which are now erected will take care of the enormous crowd.

The intense athletic rivalry which exists between the students of these two institutions is certain to make the game one of exceptional merit.

### THIN FOLKS MADE PLUMP.

Samose Ideal Flesh Builder Says Druggist Koepfen.

Thin people are simply suffering from want of nourishment!

If you are thin, it is because the food you eat is not assimilated and passes through the system without building up the flesh and tissue as it should.

You can readily get plump and rosy by using Samose, a tissue forming food which when taken with the meals, immediately becomes a flesh building and life giving element in the blood.

Use Samose for a few days and increase of life, vigor and weight is felt and you will notice yourself getting plump and rosy.

Samose builds up the system, puts flesh on the bones, brings back the glow of health to the pallid cheek and removes the tired and languid feeling which is the result of exhaustion and low vitality.

Koepfen Bros. are introducing Samose to their customers and recommend it highly which gives the best proof of their belief that Samose will do all that is claimed for it by offering to refund the money if it fails to increase the weight and restore good health. Sent postpaid on receipt of price, 50 cents.

The members of the Agricultural college team will be much lighter than their opponents but they have been working exceptionally hard and feel that they have a chance to offset this handicap. Keck's wonderful ability as a kicker is a factor of no small importance in favor of the college men. On the other hand, greater weight and the fact that the University men are more mature and more experienced, gives the University a better chance in the game.

**Self Government.**  
The students of the Oregon Agricultural college have appointed a committee to confer with President Kerr in order to determine whether or not the faculty would be willing to turn over to the students all matters of student discipline and if so to draw up plans for legislature and administration. The students assume that they will be able to assume the responsibility of self government and to rule themselves more effectively than can the faculty. The students wish to have the faculty rules and regulations repealed and the field cleared for the enactment of new regulations which would be dictated by student opinion and enforced through student organization.

### OREGON NAVAL RESERVE IMPORTANT ORGANIZATION

Portland, Or.—That the Oregon naval reserve is an organization deserving the fullest support is being impressed upon the people of Portland by President Harvey Bookwith of the Commercial club, who has started a fund to supply the reserve with uniforms and a place to store equipment.

He has interested a number of his friends in the cause and through them the whole city is being enlisted in the movement to house the reserve properly and provide uniforms. It is expected a fund of at least \$1500 will be required to start the reserve out on a good basis and it is expected that this sum will be subscribed by public spirited citizens without difficulty. More than this figure will be raised if needed.

The naval reserve is a very popular organization and is being given strong backing. Enlistments are being made in large numbers. Its importance to a Pacific coast state is better understood now than ever before.

### BOOSTS NORTHWEST IN PANAMA CANAL ZONE

Portland, Or.—That the Panama canal zone offers a fruitful field for publicity organizations of the northwest is the belief of J. J. McGillicuddy, of the banking firm of Ehrman & Co., Panama. Mr. McGillicuddy was formerly a resident of Seattle and he naturally boosts the northwest on the isthmus. He is now making a short visit here.

"There is great interest in Oregon and Washington among the canal workers," said he, "and if the proper inducements are offered from reliable sources, many can be brought here for permanent residents as soon as their term of service on the canal work is over. American workmen in the zone are desirable citizens and their attention is turning this way. What is needed is intelligent publicity work directed toward getting these people to locate in the northwest."

"The number of Americans at work on the canal ranges from about 4000 to 6000 at different times. There are now about 3000 men there with families besides about 2000 single men. This number of course is constantly changing, so that people now in the United States will be on the job when it is completed. The northwest I feel sure, can get a large portion of this population by setting about it and attracting the workmen here. It is expected the canal will be finished here in 1914 or in the following year but missionary work for settlers can be carried on at any time as many are constantly leaving the zone on vacations or because of ill health. Panama plans to celebrate the completion of the canal in 1915 with an exposition of its own."

Mr. McGillicuddy is sending down to Panama 275 boxes of Oregon apples that he thinks will help in the work of turning the attention of the Panamanians to the northwest. He thinks various communities should follow this up with literature of a reliable nature and other advertising methods along that line.

### WEDS FIRST WIFE'S SISTER

Divorced Man Gets Consent From His Original Spouse.

New York.—With the hearty approval of his divorced wife, Seymour E. Locke married his sister-in-law Miss Margaret Greenleaf, a magazine writer, whose home is in Lexington, Ky. The first Mrs. Locke was so far from bearing enmity toward her sister that it was at her special request that her son was his father's best man at the ceremony.

When asked to comment about the marriage she said: "He should have married Margaret in the first place. I was quite willing he should marry her now."

**Aches and Pains of rheumatism** are not permanently, but only temporarily. Why not use an internal remedy—Hood's Sarsaparilla, which corrects the acidity of the blood on which rheumatism depends and cures the disease?

## AT THE MOVING PICTURE SHOWS

### The Orpheum.

1. The Tour's Remembrance. Western drama, Essanay, 1000 feet long. This picture is a story of the race track, with lively action, deep heart interest and touches of sparkling comedy. The racing scenes are actual and were obtained expressly for this picture. The photography is exceptionally fine and the acting excellent.

2. The Sick Baby. A good Pathé drama, 1000 feet long.

3. A Jar of Cranberry Sauce. Edison, 1000 feet long. A farmer putting up at a hotel not used to the city ways; a young man given to reading sensational literature; a noise in the next room as of a struggle; a pool of blood which trickles under the door—and then you have the plot. Comedy of the kind that makes you laugh.

4. Almost a Hero. Edison. Percy was a youth whose unkind destiny it was to preside over a ribbon cutter. His soul aspired to deeds of heroism and that each of his attempts came to nothing was really not his fault but that of his moving picture men whose work he interrupted. And then, alas! When he did have an opportunity he let it go by. Unprovisionally funny.
