

For Rheumatism and Nervousness.

A Santa Ana, Cal., druggist says: "A customer came limping in, his knees badly swollen with Rheumatism. I persuaded him to try a pair of Electropodes. Three days later he came back happy and said: 'I would not take \$20 for my pair of Electropodes.'"

Your health and comfort are worth many times the price of Electropodes. Why not give them a chance to cure you? Electropodes eliminate all excess uric acid, and cleanse and purify the entire system. They strengthen nerves, increase circulation and cause each organ to perform its duty properly.

You can try Electropodes entirely at our risk. Following is the contract which druggists sign:

Druggist Signs this Contract. The purchaser of Electropodes is entitled to the privilege of returning them within 30 days, and the purchase price (\$1.50) is to be refunded upon the following conditions: They are to be worn according to directions for at least 25 consecutive days, and then if not satisfactory, to be returned in original box.

Druggist's Signature. At druggists; or by mail, post-paid. If your druggist cannot furnish Electropodes, send us \$1.00, and we will see that you are supplied immediately. State whether for man or woman.

NEWS AND VIEWS FROM OVER THE SEA

London.—Although the royal family has been plunged into fresh mourning as a result of the recent death of Prince Francis of Teck, Queen Mary's brother, much quiet entertaining is going on at the Royal Palace. Queen Maud and Crown Prince Olaf of Norway, are visiting there, Queen Maud being a sister of King George. They frequently meet the deposed King Manuel and his mother Dowager Queen Amelia, who are entertained as informally as their rank will permit. Added to the list within the past few days are Prince and Princess Constantine of Greece, who also are relatives of King George and Queen Mary.

Distinguished Japanese residents of London will join next in the observance of the late King Edward's birthday next week, as an evidence of the unusual tribute paid to the Mikado on his birthday. So much has been heard about the strained relations between England and Japan recently, that leading Japanese as well as Englishmen have come to a quiet agreement to take every advantage possible to show the two countries mutual courtesies in the hope of receiving the good feeling which members of both governments persist in felt for each by the other.

Several prominent French residents of London will go to Paris tomorrow to participate in a great birthday ovation to be given President Fallieres of France on Sunday, when he will be sixty-nine years old. The demonstration is intended as a tribute of order loving Frenchmen who have been considerably distressed by the threatening letters received by President Fallieres and members of his cabinet from anarchistic sources following the arrest of the leaders of the strike on the railways.

Now that the White Star Leviathan Olympic has been launched, there come rumors of a gigantic Cunarder in the near future. She will be, according to reports, a thousand feet long will have a tonnage of 90,000 and a speed of twenty-five knots an hour. This year's big increase in transatlantic travel has quite changed the point of view of the steamship companies and shipbuilders on this side of the ocean.

The three children of the King and Queen of Spain seem to have inherited the delicacy of constitution of their father rather than the robust physique and glowing health of their mother. The Prince of the Asturias, to be sure, resembles the Queen and seems fairly strong, but he is lacking in vitality and is very slow in developing. He is unlike the ordinary British youngster of his age and much prefers sitting absolutely still with his hands gravely folded to running about in the palace gardens. Prince Jaime the second boy, suffers from St. Vitus dance and has to be kept in the sea air as much as possible. The baby, Princess Beatrice, is very delicate and has no definite complaint, she does not gain as those in charge of her would like to have her.

Reports of girls' colleges indicate that this year a record number of young English women are studying for medical degrees, this being the result of a proposal to establish a new government service for women

doctors in India. Lady Hardinge, wife of the new Viceroy of India, heads the movement for the creation of a woman's Indian medical service, under the immediate authority of the government.

INLAND EMPIRE CLUB TO BUILD \$350,000 HOME

Spokane, Wash.—Three hundred and fifty thousand dollars will be expended by the Inland Empire club, recently organized, on its new home in Riverside avenue, where a site, costing \$150,000, is to be acquired in a few days. The building also probably will house the Spokane chamber of commerce and its auxiliaries and the University and Architects' clubs and several state and local organizations. These officers were elected for the year:

President, Perry D. Tull; first vice president, W. N. Day; second vice president, J. P. McGoldrick; treasurer, F. M. March; secretary, E. A. Von Hasslocher; governors, Robert E. Sirshorn, Frank R. Culbertson, John F. Meagher, Thomas S. Griffith, Joseph A. Borden and the executive officers.

The purpose of the club is indicated in the following language in its articles of incorporation: "To encourage social intercourse among the residents of Spokane and the Inland Empire; to establish, equip and maintain a club-house or rooms with the usual other appliances of a social club, and to provide ways and means for their social advantages and enjoyment."

The club house will be from five to seven stories in height and occupy a lot 60 by 142 feet. It will be modern in every respect and fitted with summer and winter convertible roof gardens. The offices and permanent exhibits of the chamber of commerce will occupy an entire floor.

"A holding company is now in the process of formation," said Secretary Von Hasslocher, "and the work of financing the project will begin in a short time. The founders of the club are prominent business and professional men in Spokane and everything is moving along smoothly. We believe that in a short time the club will be a factor in the life of the Inland Empire."

Croup is most prevalent during the dry, cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by all dealers.

REMEMBERED SCHOOLBOY FEUD

Parisian Shoots Old Schoolmate After Lapse of 26 Years.

Paris.—A crime that surpasses anything in the history of American feuds was perpetrated recently at St. Enogat. It was the culmination of a simple schoolboys' fight which occurred 26 years ago. The victim had forgotten all about it.

The assassin, one Beslon, chanced upon his victim, a man named Gatebols. The recollections of Gatebols were of the most friendly description. He could not make sufficient of the individual who struggled with himself to master the "three R's." He gave him a good dinner and showed him over his shop and introduced him to many of his friends. The unsuspecting Gatebols had him again to lunch. They chatted and joked and then went into the garden.

Beslon suddenly drew a revolver, "You brute," he shrieked, "do you remember what you did to me 26 years ago?" Before Gatebols could reply Beslon fired, and as his old comrade fell smashed his skull with the revolver.

Neighbors who had heard the shot, took the man prisoner. Gatebols was taken to a hospital, where he died the same night. Beslon remained cool. "Twenty-six years ago," he said "that man struck me when I was defenseless. I have been waiting a chance to revenge myself."

When a cold becomes settled in the system, it will take several days' treatment to cure it and the best remedy to use is Chamberlain's Cough Remedy. It will cure quicker than any other and also leave the system in a natural and healthy condition. Sold by all dealers.

Insanity Gains; German Army.

Berlin.—The report that insanity had been increasing in the army has not surprised anybody living here. One can not well imagine a more dreary career than that of a German soldier. The men are treated worse than if they were animals, indeed, an army horse has a much easier time than a private. As for the officers, they have little else to do but strut around and respond to salutes. And they appear to be constantly appalled by the sense of their impotence. Within a month three of them killed themselves. The army is irreligious, among other things.

Lame back comes on suddenly and is extremely painful. It is caused by rheumatism of the muscles. Quick relief is afforded by applying Chamberlain's Liniment. Sold by all dealers.

Hohbach's coffee and oyster house is now open; best of service.

CHILDREN'S DAY AT ALEXANDERS

WEDNESDAY, NOVEMBER, 16th

Where are you going, Oh, Maiden, I pray,
As you hurry along thro the crowded way;
Your eyes shine bright, your face is aglow
With smiles and sunshine—you're happy I know.
Oh! indeed I am! and so would you be
If you were a little girl just like me;
I'm taking my mamma and Dolly so sweet,
To Alexander's store, which is on Main street.

For November sixteenth is little girl's day,
And to all who bring DOLLIES, he'll give away
A cute little vest, either pink or blue,
That will keep her warm the long winter through.
My Mamma is going, and perhaps will see
Another one like it to just fit me;
But we're in a hurry to be on our way,
And must not stay longer, so bid you good-day.

SIGNS WILL GUIDE FRENCH AVIATORS

Paris.—The French National Aviation league has decided that certain signs be put on land so that aviators may know which way they are travelling. During the eastern circuit Manot, Legagneux and Leblanc had to alight on the earth to see where they were travelling and others lost prizes simply because they went in the wrong direction, unconsciously. It is proposed to place immense numbers on the ground at all points in the country, in the city, in villages. Places marking a point will be designated by two numbers, one indicating the distance north or south on a parallel with Paris, the other number indicating the distance west or east of the Parisian meridian. If an aviator loses his bearings he will see the numbers 168-53. This will tell him that he is 168 kilometers north of the parallel of Paris and 53 kilometers east of its meridian. Now how can he know that he is south instead of north. The numbers will be underlined. For instance, if the first number is underlined he will know that he is south and if the last figure is underlined it will tell him that he is east of the meridian.
