Frank O'Gara, Pres. Bernard O'Gara, Sec.-Treas  
214-216 East Court Street

### Newsy Notes of Pendleton

**New Collar Case.**  
A collar case twice the size of the one formerly in use has been installed by Bond Brothers on the front of their store. The new case holds 48 different styles of collars.

**Sells Barber Shop.**  
L. Behrens has sold his barber shop at Helix to G. E. Burroughs, who recently moved to Helix from the Willamette valley. Mr. Behrens intends moving to southern Idaho.

**New Heating Plant.**  
Proprietor George Darveau of the Hotel St. George, is equipping his sample rooms in the East Oregonian block with a new heating plant. Steam will be used to keep the rooms warm.

**Purchases Brick Building.**  
Frank O'Gara has purchased from W. L. Thompson of the American National Bank the brick building on Court street now occupied by the Owl Tea House, the consideration being a little less than eight thousand dollars.

**News of Brother's Death.**  
Mrs. F. M. Oliver of Perkins avenue, received the news yesterday of the death of her brother, William Pratt of Linden, Michigan. The deceased was 74 years of age and death was due to a stroke of paralysis. He was Mrs. Oliver's oldest brother.

**Will Open School Room Monday.**  
The room in the Washington school which was closed several days ago because the teacher, Miss McCleay, was ill with scarlet fever will open Monday, according to an announcement made today by City Superintendent Lammers. The room has been thoroughly fumigated and there is no longer danger of infection.

**Was Not Diphtheria.**  
Calvin S. White of Portland, state health officer to whom diphtheria swabs were sent to determine whether or not the disease which was responsible for the death of Lenore Temple was diphtheria or croup, writes back that the swabs give a negative to reaction and therefore the disease could not have been diphtheria.

**Baptists at Herrington.**  
Rev. Ralph E. Storey, pastor of the Baptist church in this city, went to Herrington this morning to attend the Baptist rally which has been in progress there since Thursday evening and which will close tomorrow night. Among the prominent speakers at the rally are Rev. W. B. Hinson, pastor of the White Temple in Portland, Rev. J. L. Whirly of the publication society and Rev. F. C. W. Parker, the state missionary.

**Warner Helps Glee Club.**  
Harold Warner, a well known graduate of the Pendleton high school, who is now in his sophomore year at the University of Oregon, has been chosen assistant manager of the Glee Club at that institution. The Glee Club is scheduled to show at the Oregon theater December 21 and it is probable that Warner will accompany the boys on their eastern Oregon tour. Glen Storie is singing on the tenor section of the club and will likewise make the trip.

**May Change Ministers.**  
In his official capacity as chairman of the home mission committee of the Pendleton presbytery, Rev. J. M. Cornwell went to Pilot Rock this morning to adjust some matters relative to a possible change of ministers. Rev. E. W. Warrington, who has been pastor of the Presbyterian church at Pilot Rock for some time, contemplates going to Bend, Crook county. His successor will probably be Rev. John Campbell of Magdalena, New Mexico. The change, if made, will not take place before the first of the year.

**Rosenberg Returns With Bride.**  
H. H. Wessel, the local merchant, was given one of the surprises of his life yesterday. C. H. Rosenberg, who had just returned from an extended visit to Germany, invited the local merchant to his West Alta street home and there presented him to his own sister, who on October 6 in Hamburg, Germany, had become Mrs. Rosenberg. The news of the wedding had been kept from Mr. Wessel by the bride and groom, who desired to surprise them and in this they were very successful.

**Stanfield May Have Saloon.**  
Though Stanfield precinct voted dry at the election Tuesday, E. H. Brown, former editor of the Stanfield Standard who is in the city today, is of the impression that the town will have a saloon if the famous Home Rule bill proves to be of any effect. This will give the incorporated town, itself the power of deciding the question and he says that the town will be in favor of a saloon, if a straw vote taken in the post office there last evening is any indication. Of nine people in the office at the time, seven were "wet" and two were "dry."

**Crockett Enters Debate.**  
Peter Crockett, leader of the Pendleton high school debating team which won the state championship last year, is a candidate for freshman honors at the University of Oregon, at which institution he is a freshman. His name appears among the list of twelve who have signed up for the two preliminary contests for the selection of a team to debate the University of Utah on the postal savings banks question. These tryouts will occur on November 18 and November 22. Six contestants are to be chosen from the showing made at these tryouts, who will meet in a final tryout on Nov. 22. Young Crockett is a debater of unusual merit and his many friends here will watch his career in college with considerable interest.

Fortunately for both halves of the world, neither half knows how the other half lives.

### WENATCHEE VALLEY IS WELL WATERED

Wenatchee, Wash.—As a result of the different methods of putting water on the lands adjacent to Wenatchee 14,350 acres, not including Peshantinn, Malaga and Leavenworth, are now under water ready for irrigation.

The introduction of electric and gasoline power for pumps has been the means of irrigating 3540 acres during the last three years. Hydraulic rams have been successful, but only 200 acres are now watered by this method.

The Wenatchee valley as a fruit growing section is practically six years old, as the high line canal was completed at that time and afforded water for several thousand acres on its way from the intake on the Wenatchee river near Peshantinn. Since the completion of the high line canal it has been extended and enlarged so that it now furnishes water for 9000 acres.

The Gunn ditch, constructed two years before the high line, furnishes water for 1500 acres. Both irrigation ditches proved the life of the valley and increased the value of land from \$50 an acre seven years ago to \$2000 and \$3000 at the present time.

### ORCHARD COUNTY IS DOWNED HARD

WESTON AND ATHENA STRONG AGAINST IT

Two of Largest Towns in Proposed New County Give Strong Majorities Against—Four Precincts Favorable

That sentiment against the proposed county of Orchard was largely against that proposition, even within the boundaries of the proposed new county is indicated by the official election returns which show that only four precincts returned favorable majorities for the measure. Two of the largest towns in the proposed new county, Weston and Athena, returned strong majorities against the proposition.

The four precincts which gave favorable majorities were North and South Milton, Valley and Ferndale, and even in those precincts there were many more votes cast against the measure than were cast for it in either of the Weston or Athena precincts. Promoters of the Orchard county measure were acting on the assumption that both Weston and Athena were in favor of county division, but the following vote shows no sentiment for county division:  
North Athena—Yes, 12; no, 114.  
South Athena—Yes, 3; no, 65.  
Weston—Yes, 11; No, 82.  
East Weston—Yes, 14; no, 92.

All the other precincts, both within and without the boundaries of the proposed new county, gave strong majorities against the measure. In two or three there was not a single favorable vote cast.

**Rats Infest Paris Chamber.**  
Paris.—There is a plague of rats in the chamber of deputies. During the summer holidays rats, which probably came from the sewers, overran the committee rooms, the offices, the library and the restaurant. But the library suffered most, and in the library the heartiest meals made by the rodents were on the old leather-bound volumes of historic speeches corrected by the hands of their august makers. Gambetta was a great favorite with the rats, and M. Thiers' speeches also suffered badly. The first vote of the new chamber will be one of \$40 for rat poison. There is little doubt that it will be passed unanimously.

**Roumanian Fleet Plans.**  
Odessa.—From Constantia it is stated on apparently excellent authority that the construction of dockyard arsenal naval workshops and the life for the Roumanian fleet will be commenced early in the spring of next year. Tenders and specifications, it is understood, have been invited by King Charles' government and will be ready for inspection about the end of December. The creation of the Roumanian fleet will necessitate the establishment of a ministry of marine at Bucharest. No official program of the number of types and the armaments of the warships to be provided out of the initial credit of \$50,000,000 has as yet been announced.

**Treasure Box is Rifled.**  
St. Petersburg.—An iron strong box containing 30,000 rubles' worth of other jewelry, and 10,000 rubles' worth of ermine was rifled of its contents by Russian state railway officials between St. Petersburg and the Vlatka. The contents had been declared at St. Petersburg and insured for 120,000 rubles. For greater security the owner traveled on the same train as the box. On reaching the Siberian railway the box was examined and it was found that the diamonds, furs etc., had metamorphosed into thirty pounds of bread.

**King Commutes Punishment.**  
London.—The king has commuted the court-martial sentence of dismissal from the army imposed in the case of Lieutenant Sutor of the Royal Garrison artillery to one of a "severe reprimand."

**Hussars Looked Like Convicts.**  
London.—The duke of Beaufort, who commanded the Royal Gloucester Hussars, threw up the command in disgust, when, by order of the powers that be, the splendid uniform of blue and silver was discarded in favor of khaki. The noble duke said the new uniform made the command "look like a lot of convicts."

## Our New FALL CLOTHES Are Now on Display Ready for Your Inspection

Men's Suits Made to Your Measure

If you are hard to fit in a ready-made suit we will fit you correctly by making a suit to your exact measure. Nothing but new fall patterns to select from. Large swatches enable you to choose right and the pattern you most admire.

## Roosevelt's Boston Store

50,000,000 FEET OF LUMBER TO BUILD APPLE BOXES

Spokane, Wash.—E. F. Carties Van Dessel, president of the Phoenix lumber company and second vice president and chairman of the board of trustees of the National Apple Show, Inc., reported at the last quarterly meeting of the Western Pine Manufacturers' association that 50,000,000 feet of pine lumber, or sufficient to build 5,000 five-room cottages, was used to provide boxes for the apples grown in the Inland Empire this season. He also submitted estimates prepared by growers and handlers, showing that not less than 300,000,000 feet of lumber will be needed to supply the demand for boxes in five years. These estimates place the fruit crop of the district, taking in parts of eastern Washington and Oregon, north and central Idaho, western Montana and southeastern British Columbia, at 100,000 cars. Five feet of lumber is used in making a standard apple box, which holds a little more than a Winchester bushel. Mr. Van Dessel says the bulk of the boxes will be used in packing apples for eastern markets.

An electric truck is being used on a farm near Rochester, N. Y., with great success. This truck will handle three times as much farm product in a day as a team.

### SUITABLE GLASSES

Cannot be secured by simply looking through a few pairs at some type and selecting those which seem best.

Many defects of the eye are revealed only by a careful examination, and can only be corrected with specially Ground Lenses.
