### BREAKS UP A COLD IN SEVERAL HOURS

#### A FEW DOSES END MOST SEVERE GRIPPE MISERY

There is not one grain of quinine in Pape's Cold Compound, which, when taken every two hours, until three consecutive doses are taken, will surely end the gripple and break up the most severe cold either in the head, chest, back, stomach or limbs.

It promptly relieves the most miserable neuralgia pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, catarrhal affections, soreness, stiffness and rheumatism twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or gripple.

Take this harmless compound as directed with the knowledge that there is no other medicine made anywhere else in the world which will cure your cold or end gripple misery as promptly and without any other assistance or bad after-effects as a 25 cent package of Pape's Cold Compound, which any druggist in the world can supply.

We can seldom go wrong in the conclusion of investigation.

#### WOMEN'S WORDS.

#### Pendleton Women Are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pain that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing-down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know.

Mrs. Valentine Stroble, 738 Johnson street, Pendleton, Oregon, says: "About two years ago I suffered from kidney complaint and when a friend advised me to try Doan's Kidney Pills I did so. This remedy disposed of severe backaches that had kept me awake at night and benefited me in every way."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

### LIGHT HOGS SELL AT A PREMIUM

#### THREE LOTS DISPOSED OF AT PRICE OF \$9.25

Sales of Extra Fancy Swine Made at Advance of 10c Over Wednesday—Better Tone Is Showing at South Omaha.

Portland, Nov. 17.—That the hog market is not really as bad as first indicated is shown by several transactions today at North Portland. Three lots of light stuff were moved during the day at \$9.25, this being 10c better than anything obtained yesterday. The lots sold at the high price were very fancy and light, averaging from 167 to 227 pounds.

There was a change of front in the Omaha market today and sales were made at an advance of 5c. It begins to look as if the swine market was beat down too quickly; this being a common error of big packers when they have the opportunity.

There was a good run in all lines today. Most of the sheep came from the Dun Dial ranch near this city and were sold prior to arrival and therefore did not enter the general trade.

General range of livestock values as indicated by latest sales in the Portland yards:

Cattle—Best Oregon steers, \$5.50@5.55; fancy steers, \$5.25@5.40; common steers, \$4@4.50; cows, best, \$4.75@5; fancy, \$4.25; poor, \$3@3.25; heifers, \$4.50; bulls, \$2@5.25; stags, \$3.10@3.25.  
Hogs—Best light, \$9.15@9.25; ordinary, \$8.85@9; heavy, \$8.75@8.80; stockers and feeders, \$5@8.

Sheep—Best yearling wethers, 4.50@5; old wethers, \$4; spring lambs, Willamette valley, \$5@5.25; eastern Washington, \$5.60@5.75; ewes, \$3@3.50.

Calves—Best, \$7; ordinary, \$6.50; poor, \$3.50@4.50.

#### UNKNOWN VARIETY OF WHEAT VERY HARDY

Spokane, Wash.—J. L. Harper, a practical farmer at Watsburg, Wash., has succeeded in producing sufficient seed of an unknown variety of wheat to sow one and a half acres to what is declared to be the hardest grain grown in the northwest. Experts at the state of Washington college and master agriculturists in other parts of the Pacific country have not been able to classify the grain, though they say it is likely to become a heavy producer. The head is similar to Club wheat, but the grain is harder. Harper found seven stalks on his 1020-acre ranch near Watsburg four years ago and from five stalks, which were carefully cultivated in a garden patch for two years, he made six

pecks, which will be sown next spring. In giving out the foregoing information Harper said he has no bonanza or wonder seed wheat to sell nor does he believe the new grain will yield more than the average northwestern crop. However, he claims it is sufficiently hardy to grow in any part of the United States and Canada.

#### MODEL SYSTEM OF SAFETY APPLIANCES

Spokane, Wash.—What experts say is the most modern system of safety appliances in America has just been installed on the Washington Water Power company's electric lines between Spokane and Cheney and Medical Lake, Wash., 27 miles. The features are the electric block signals, the first on any street railway in the northwest, and the automatic stop device, applied for the first time on any surface line. The system is designed to obviate the possibility of collision. The incoming and outgoing trains are dispatched by telephone. The system is operated by an alternating current reduced to a working voltage by transformers, while the motors are supplied with direct current. The power, generated in the Spokane river, is transmitted over high tension lines. The line to Medical Lake passes through some of the best developed fruit districts in Spokane county and carries enormous tonnage from farms and orchards, in addition to passenger traffic.

"You may say what you like against young ministers, but I have nothing but praise for our young pastor," the pompous Mr. Brown remarked as he passed out of the church. "Nothing but praise!"
