BLOOD DISEASES IN THE PORTLAND **CONTAGIOUS TROUBLES**

Contagious Blood Poison more thoroughly permeates the system than any other disease. Its infectious virus contaminates every corpuscle and tissue of the circulation, and for this reason its symptoms are of a varied nature. When it enters the blood it Omaha Hog Market is Higher-Costs is but a short time until the mouth and throat begin to ulcerate, the skin becomes spotted, rashes and eruptions appear on the body, sores and ulcers break out, the hair falls, and frequently nails on hands and feet thicken and come off. Mineral medicines which simply shut the poison up in the system should be avoided, for when such treatment is left off the old disease will break out again, often worse than before. S. S. load of livestock arrived in the yards overnight and this consisted of 75 head of hogs. The strength in the eastern hog markets is sure to have an effect here. It cost \$8.70 to bring Nebraska hogs to the Pacific northwest, therefore the difference between the present price and what packers are forced to pay for the bulk of their richness and requirements. South Omaha, where the local packers secure practically all culation and of their imported stock was 15c and 25c higher today and has been unusually firm recently. The bulk of the sales were from \$7.35 to \$7.60 today and it cost \$1.10 per hundred pounds to bring the supplies to the coast.

J. C. Davis of Shedd, Ore., was the only shipper in the yards today. He was offering a load of hogs.

TARIFF COMMISSION

(Continued from page three.) trade between the eastern and west-

ern seaboards. Department of Justice.

The duties of the department of justice have been greatly increased by legislation of congress. I am glad to say that under the appropriations made for the department, the attorney general has improved its organization that a vast amount of litigation of a civil and criminal character has been disposed of during the current year.

in a special message last year I brought to the attention of congress the propriety and wisdom of enacting a general law providing for the incorporation of industrial and other companies engaged in interstate commerce, and I renew my recommendation in the behalf.

The president then discusses the need of cheapening the cost of litigation by simplifying judicial procedure and expediting final judgment, recommendation made in his last annual message of a law regulating the issulng of injunctions in equity without notice in accordance with the best practice now in vogue,

Postoffice Department. Discussing postal savings banks the

Arrangements have been perfected that postal savings bank opened in some cities and towns on the first of January, and there will be a gradual extension of the benefits of the plan to the rest of the

country. The postmaster general has been ble to make his estimate of expenses for the present year so low as to keep within the amount the postal service

s expected to earn. Upon the recommendation of the postmaster general I have included in the classified service all assistant postmasters. I think it would be wise o put in the classified service the first, second and third class postmast-

In my last annual message I in vited the attention of congress to the inadequacy of the postal rate imposed upon second class mail matter insofar as that includes magazines, and showed by figures prepared by perts of the postoffice department that the government was rendering a service to the magazine, costing many millions in excess of the compensation paid. An answer was attempted to this by the representatives of the magazines I agree that the question is one of fact; but I insist that, if the fact is as the experts of the postoffice department show that we are furnishing to the owners of magazines a service worth millions more than they

pay for than justice requires. With respect to the parcels post, ecommend its adoption on all rural delivery routes and that 11 poundsthe international limit—be made the limit of carriage in such post,

Naval Department. Of the naval program, the president

The estimates of the navy departnent are \$5,000,000 less than the apropriations for the same purpose ast year, and included in this, is the building program of the same amount as that submitted for your onsideration last year. It is merely carrying out the plan of building two battleships a year, with a few needed auxiliaries I hope that this program will be adopted.

The president recommends that the secretary of the navy be authorized to make the necessary expenditure to create at Guantunamo a naval station of sufficient size to serve as an emergency naval base.

The president calls attention to Peary's discovery of the North Pole and adds: I recommend fitting recognition by

ongress of the great achievement of Robert Edwin Peary.
