

"I was Crippled, could hardly walk and had to Crawl

down stairs at times on my hands and knees. My doctor told me I had an acute attack of inflammatory rheumatism. I was in the hospital for weeks, but was scarcely able to walk when I left it. I read about Dr. Miles' Nervine

bought a bottle and began to get better from the start, and for the past six months I have had scarcely any pain and am able to walk as well as ever." J. H. SANDERS, P. O. box 5, Rockaway, N. J.

Few medicines are of any benefit for rheumatism, but Mr. Sanders tells plainly what Dr. Miles' Restorative Nervine did for it. One ounce of salicylate of soda added to one bottle of Nervine makes an excellent remedy for rheumatism, which is now known to be a nervous disease and therefore subject to the influence of a medicine that acts through the nerves, as does

Sufferers from rheumatism seldom fail to find relief in the use of Dr. Miles' Nervine, with salicylate of soda.

A STEADY DRAIN.

Sick Kidneys Weaken the Whole Body—Make You Ill, Languid and Depressed.
Sick kidneys weaken the body through the continual drainage of life-giving albumen from the blood into the urine, and the substitution of poisonous uric acid that goes broadcast through the system, sowing the seeds of disease. Loss of albumen causes weakness, languor, depression. Uric poisoning causes rheumatic pain, nervousness, nausea, cricks in the back, gravel and kidney stones. The proper treatment is a kidney treatment, and the best remedy is Doan's Kidney Pills. Great Pendleton cures prove it.

C. S. Howard, 1614 W. Webb street, Pendleton, Oregon, says: "For fifteen years I had a great deal of trouble from a dull pain through the small of my back and left side and during the past year there was a numbness under my shoulders. I was unable to lie comfortably on my back and I was bothered a great deal by too frequent passage of the kidney secretions. After several well known remedies had failed to help me, I took Doan's Kidney Pills and they relieved my trouble. I am grateful to this remedy for its good work."

WHEAT TAKES A SHORT TUMBLE

MILLERS NO LONGER WILLING TO PAY PREMIUM

Heavy Sales Made Wednesday But Spurt Was Short-Lived—Livestock Market Holding Its Own—Steers Sell at Slight Advance But Other Lines Remain Stationary.

Portland, Ore., Dec. 8.—With the cargo market easier, top-notch bids for wheat have been reduced a cent and 81c is now the general quotation for club and 83c@84c for bluestem, track delivery.

Exporters say that there is only a nominal demand for cargoes at this time, with values about 35 shillings for club and 36.3 for fortyfold or shipping bluestem.

The small spurt made by millers in the buying ring seems to have subsided and they are no longer willing to pay a premium over the export market.

The Walla Walla Bulletin of Tuesday says of the recent activity there: "Heavy sales of wheat were made here yesterday for the first day of the week, over 60,000 bushels changing hands. Most of the grain was picked up by an independent company, buying for northwestern mills.

"W. S. Clark sold about 12,000 bushels of bluestem and Turkey red. Pat Hughes disposed of 10,000 bushels of club at 75 cents f. o. b. These were the only two fairly large sales made. Several other small lots were disposed of. Bluestem commanded a cent a bushel more than club, with Turkey red bringing a half cent less than bluestem. Prices were stiff yesterday, due, it is said, to the need of millers for a lot of wheat for immediate grinding. Millers continue to purchase grain on the hand-to-mouth plan and buying on their part forced up the price of the cereal a cent a bushel.

"Farmers and dealers look for no material changes in the grain market. Price fluctuations of the past few days are expected to continue as long as the hand-to-mouth buying of the exporter and miller continues."

Livestock Holds Its Own.
The market for livestock just about held its own this morning. There was a good run of cattle and sheep, but only a small showing of hogs.

Steers sold up to \$5.69, which is in reality an advance of 10c above former quotations. This transaction was 15 head the averaged 1666 pounds.

Calf market is firm with one sale of five head, averaging 220 pounds at \$7.

SPOKANE TO HAVE MAIL CRANE FACTORY

The Washington Safety Mail Crane company of Spokane, has been incorporated with a capital stock of \$250,000. The plant will cost \$50,000 and will manufacture improved railway mail cranes. Work will be started on the plant during the coming spring. About 16 men will be employed in the establishment. The inventors of the new crane are Paul Hanson and Thomas Jarrard of Rockford, Wash., 20 miles southeast of Spokane, who, with W. C. Donovan of Spokane, and L. E. Kirkpatrick, of Rathdrum, Idaho, are named in the articles of incorporation. The new crane has been put in use for testing purposes on the Spokane & Inland Empire Railway company lines and has proved satisfactory. They propose to make Spokane the distributing point for the east as well as the west after the business of the company has been put in running order. The crane works automatically, the arms fold link up after the mail sack has been released, and is said to be a great danger eliminator.

ATHENA HAS A SERIOUS RUNAWAY

TWO GIRLS AND MAN ARE THROWN FROM BUGGY

One Girl Rendered Unconscious and Loses All Memory—Prominent Citizen Critically Ill—Smooth Swindler Nearly Wins Large Sum.

Special Correspondence.)

Athens, Ore., Dec. 8.—A runaway that almost proved fatal, occurred here last night. Leon Miller of this city, with two young ladies, Miss Gertrude Booher and Miss Zada Van Winkle, was driving around over the city, when one of the horses became frightened and started to kicking. The animal got one of its hind legs over the tongue and this of course only caused more fright. Owing to the fact that the buggy was small and with so many in the rig, Mr. Miller was unable to control the horses. They started out to run and were kicking all of the time. The team ran about two or three blocks when Miss Booher and Mr. Miller were thrown out, leaving Miss Van Winkle alone in the buggy. The frightened animals ran over a sidewalk close to the Baptist church and the lone occupant was hurled up into the air and thrown on the ground head first. The horses ran only a few feet when they struck a telephone post and one of the horses was thrown so hard it was thought it was killed.

Miss Van Winkle was knocked unconscious by the fall and several eyewitnesses rushed to her aid. She was taken into one of the homes nearby and a physician was hurriedly summoned. No bones were broken, however, but the young lady seemed to have lost her memory entirely, although she was restored to consciousness. She was unable to understand what had happened, and according to last reports last night she was no better although several hours had passed since the accident. Whether fright has caused the young lady to lose her memory or whether it is due to some blow on the skull, the physician had not been able to ascertain last night. Miss Van Winkle is the daughter of I. R. Van Winkle, the photographer, of this place.

Prominent Citizen Ill.
J. F. Gross, who is a very prominent citizen of this community has been very ill for the last few days with cancer of the stomach. Dr. Suttner of Walla Walla came over last evening and performed an operation on Mr. Gross, and so far it has proved successful. Owing to the fact that Mr. Gross' heart is very weak he could not take any ether and the operation was performed by freezing the affected parts as the operation proceeded. However, Mr. Gross' condition is very critical and his son, Bennie Gross, who has been attending the state agricultural college, has been called from his school to the bedside of his father. Small hopes are held out for his recovery.

Smooth Swindler Foiled.
If a stranger that stepped off of the train here a day or two ago had been allowed about fifteen minutes more time, he would probably have been able to defraud the express company out of \$1300. It appears that the stranger checked his grip on which the valuation of \$1300 was placed thereon, and when he arrived here, instead of going to the agent, Mr. Smith, he took the check off of his grip, tore it up, and started up town. While the grafter was carrying on his little game, Mr. Smith was in the depot, and when he came out he missed the satchel. Without delay he started up the street to see if he could find the offender, and overtook the man with the grip. Mr. Smith made him give up the grip and then brought up the man before Justice Richards. It appears that the intent of the man was to hide the grip and then sue the express company for the value of the grip, which would amount to about \$1300. The man was quite eloquent and was able to plead his own case very well. Being unable to find any charge against the party, he was turned loose.

EVELYN "UP AGAINST IT"

Wife of Sanford White's Murderer Proves Too Trusting.

Once the central figure in gay night revels and saturnalia about the heart of the city, where money was plentiful and time hung leisurely on the hands of her admirers, Evelyn Nesbit Thaw, wife of Harry Kendall Thaw, murderer of Stanford White, by all accounts, is up against it. The prevailing suspicion that she received a large sum of money from the family of her husband in consideration of her sensational testimony at his trial appears to have had little basis in fact. There is no doubt that she was promised a fortune, but being of a trusting nature and lacking in business shrewdness she neglected to drive a good bargain when she could have done so, accepting the assurances of the Thaws that they would provide her with a substantial annuity. But for her testimony nothing in the world would have saved Thaw from going to the electric chair. Realizing this the shabby treatment accorded her by the Thaw family has since made her feel that she lost a golden opportunity to make herself comfortable for life when she failed to make them guarantee her a fixed sum.

Her discontinuance of the other day of her suit for damages against the Knickerbocker Hotel for ejecting her and E. R. Thomas, the banker, from its dining room in 1908, revealed the

MILLINERY BILLS REFUSED TO BE CUT.

Gentlemen desiring to cut down millinery bills by raising the fatty supply of ostrich feathers can get all necessary information from reports just received from certain United States consuls. It is set forth that a noted German animal dealer will supply Blue Nile ostriches at \$476 each. If the blue blood is not demanded a pair of East or West African ostriches can be obtained for \$715 or a pair from Somali for \$430. The German dealer has 150 of the millinery producers. He hatches ostrich eggs in incubators. The building in which the grown birds are kept are not heated, even in winter. In Cape Colony, South Africa.
