Kidney Troubles Attack Pendleton Men and Women, Old and Young.

Kidney ills seize young and old. Come quickly with little warning. Children suffer in their early years. Can't control the kidney secretions. Girls are languid, nervous, suffer pain.

Women worry, can't do daily work. Men have lame and aching backs. The cure for man, woman or child is to cure the cause—the kidneys. Doan's Kidney Pills cure sick kidneys.

Cure all forms of kidney suffering. Pendleton testimony proves it.

Mrs. George Bargett, 1412 W. Webb street, Pendleton, Oregon, says: "A member of our family suffered from attacks of backache and occasionally was laid up for a month at a time. Stopping or straightening caused sharp twinges in the loins and there was also a distressing kidney weakness in evidence. The use of Doan's Kidney Pills was advised by a physician and a supply of this remedy was procured. After Doan's Kidney Pills were taken, great benefit was received and there has been no serious cause for complaint since. I have also taken Doan's Kidney Pills and can recommend them strongly."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

PRESIDENT KERR HAS GREAT PLAN

WOULD ESTABLISH MANY EXPERIMENT STATIONS

Federal Authorities Will Assist in Aiding Development of Oregon's Industries—Would Encourage Irrigation.

Practically every part of the state of Oregon will be benefited by the plan for the extension of experiment work in all phases of horticulture and agriculture which is now under consideration by President W. J. Kerr of the Oregon Agricultural College and the authorities at Washington. The plan will be submitted to the regents of the college at a meeting which will be held within the plan and it will then be ready for presentation to the legislature at its next meeting. While at Washington Dr. Kerr presented his plans to the officials of the various departments and secured their cooperation. The federal officials have agreed to give material financial support and have offered the services of their experts.

The plan includes extensive experiments in irrigation in the Willamette valley. The experiments will be carried on in cooperation with farmers and fruit growers at such points in the valley as will best test the varying conditions. This may necessitate work in as many as fifteen different communities in the valley. It will include investigations of methods of irrigation and testing of soils, drainage, the adaptability of various kinds of farming and the time and methods of tillage.

Harney valley, or some other locality in the central part of Oregon, will probably be the location for another experiment station. The two or three million acres of land which will be opened up by the building of railroads into this section and which are now almost entirely unproductive will be means of experimental work, be redeemed and made productive. This will be a station at which the problems of dry farming will be studied exclusively.

Some point in southern Oregon will also be selected as a site for an experiment station which will be a center for extensive operations throughout that section of the state. The officials at Washington have expressed themselves as favorable to the station at that point and are now at work on the plans. This station will take up not only the study of the various branches of horticulture but will also make extensive investigations along all agricultural lines. The station authorities will cooperate with the farmers and fruit growers in this section in the solution of whatever problems may present themselves.

Dr. Kerr believes that if these plans meet with the approval of the legislature and receive the support of the people of the state the agricultural products of the state will be increased many millions of dollars.

The experimental work which is to be carried on through these stations will be under the control of the college and will be conducted by experts of the college experiment station and the federal government. The great variety of soils, climate, elevation and other natural conditions make this state a rich field for experimental work. The fact that the state is being settled very extensively at this time by people who are not familiar with the conditions makes the experimental work of exceptional value to the state.

OLYMPIA WOMEN FACE THEIR FIRST JURY DUTY

Olympia, Wash.—By mail and telephone the women who were drawn for jury service in the justice court of Milton Giles next Tuesday are making life miserable for him through their protests, while the rejected women are also on his trail, declaring that he had no right to leave them off the jury duty when he put others on. As a result, Judge Giles is wondering what is going to happen to him when he calls his court to order next Tuesday.

Miss Bernice Sapp announces that she is not a taxpayer and Miss Jean McLeod declares her home is in Bellingham, not in Olympia, so she is ineligible. The question has been raised as to whether or not he wife of a physician is exempt for jury duty, when her husband is exempt, and if the court so rules.

Mrs. J. W. Mowell will be excused, so that three of the six women drawn may not have to serve. Judge Giles announces, however, that they must all appear in court on Tuesday and report for duty whether they serve or not, but excuses made to the court by the person who serves the summons will not be accepted by him as valid reasons for the persons whose names were drawn not appearing in court.

MONTANA WOMAN IS AFTER SWIMMING HONORS

Los Angeles, Cal.—Beach visitors will be treated to an interesting aquatic contest, if Dorothy Newkirk, the champion long distance swimmer of Southern California, accepts the challenge Mrs. Louise Scott, winter tourist from Helena, Mont., issued today. Mrs. Scott offers to engage in a winter contest with any local woman swimmer for any distance, preferring to race with Miss Newkirk in the open sea.

Mrs. Scott has a wonderful record for endurance and among other feats has accomplished a six-hour swim without resting, something that none of the expert swimmers of Santa Monica Bay can boast. Mrs. Scott is modest and unassuming and enters into all phases of the sport for the love of competition. She also holds running records for track athletes. She is determined to race with some of the swimmers here and if the girls

NO BETTER WAY TO BREAK A BAD COLD

ENDS MOST SEVERE GRIPPE MISERY IN A FEW HOURS

The most effective and harmless way to cure the gripe or break a severe cold, either in the head, chest, back, stomach or limbs, is a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

You will distinctly feel the cold breaking and all gripe symptoms going after the very first dose. It promptly relieves the most miserable neuralgia pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, soreness, stiffness and rheumatic aching.

Take this harmless compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or end gripe misery as promptly and without any other assistance or bad after-effects as a 25 cent package of Pape's Cold Compound, which any druggist in the world can supply.

After three years' research we have conclusively demonstrated that quinine is not effective in the treatment of colds or gripe.
