TOY TRADE AND INDUSTRY IN STATE OF MEXICO
Within the past few years there has developed in Mexico an increased interest in American manufactured toys, especially mechanical ones. Up to a few years ago mechanical toys were not seen in Latin America, but during the holiday season here now the main feature of window displays is such products, and such show windows attract greatest attention. Another special feature is that the season for selling such toys here is not confined to the holiday or Christmas time, but really lasts the year around, for the reason that the Christmas holidays are not celebrated in Mexico with such special attention by sending presents as in the United States. The celebration takes a more religious and social form and hence toys such as are usually sold in the United States during the month of December are sold here through all the months of the year.

Spend your idle evenings in a gentlemen's resort. Bowling, pool, billiards, shooting gallery. Pastime Parlors. Hoover and Book.

HAULING OF GRAIN IS GIGANTIC TASK

The enormous task of handling grain from the Canadian west at the head of the upper lakes, through Fort William and Port Arthur is described in a report by Consul A. G. Seyfert of Owen Sound, Ontario, in which he says:
"From September 1, 1909, to August 31, 1910, \$9,000,000 bushels of grain passed through these ports, the preceding year 65,000,000 bushels, and the year before 47,000,000.
"The combined harbor has 16 grain elevators with a storage capacity of 20,000,000 bushels. The 4,000,000-bushel one belonging to the Grand Trunk Pacific is the largest in the world, and the unit of ten which that railroad is building. The Canadian Pacific has five, the each with 3,500,000 capacity.
"It is hard to realize what it meant to bring this enormous traffic of grain to the elevators for transshipment by boat. Allowing 1000 bushels to the car, \$9,000,000 bushels would fill \$9,000 cars, or 13,000 trains of 70 cars each. The busy times are the spring and late fall, when 20 to 40 of the Great Lake freighters are alongside the elevators with grain pouring into the vessels' holds.
"The Canadian government takes an important part in handling the grain at this transshipment port. An act of parliament provides for the grading of the grain, and government inspectors pass on every carload in the assembling yard before it goes to the elevator for unloading. The grain has already passed one inspection at the starting point, and the second inspection at the elevator terminal is performed to confirm the western grading. The inspectors are on hand again when the grain is shipped out. They watch the weighing and see that the grade is what is called for. Every boat that clears with a cargo of grain carries a certificate signed by a government official showing the quantity and quality of the grain it contains."

UNIVERSITY GLEE CLUB PROGRAM PROMISING

Something new and something doing "all the time," characterizes the University of Oregon Glee Club program this year. No old and worn out songs, but the latest hits will be given.
The people of Pendleton will be assured of an entertainment no, soon to be forgotten, when this aggregation of college boys appear at the Oregon theater, December 7.
The Glee Club is singing this year some catchy songs of an unusual nature. Several of the popular intermezcos of the day, such as Amina, Wild Flower and Amo, have been arranged especially for a men's choral club, and the way Oregon's bunch of songsters go at them is enough to stir the sense of rhythm in a stone.
A Chinese love song sung by the whole club is another unusual, but catchy number. "The South Wind Blows," a new lullaby, gives the club a chance to show what it can do in tone quality. In this song the soft moaning of the wind can be distinctly heard as the twenty-four men softly hum in the introduction.
The comedy end of the program will be held up by the Suffragette Trio, composed of Messrs. Curtis, Martin, and Geisler, and a skit entitled "The Glee Club in Dope Center," with Tom Burke, Melvin Ogden and Vernon Vawter in the leading roles. In this act are introduced Messrs. Curtis and Geisler, the "Pretzel Twins," in song and dance, Frazier in solo, and the "Hungry Six," a German band, which renders several familiar ditties in characteristic German style.

Leading Housefurnisher.

Daily East Oregonian by carrier only 65 cents per month.

DUTCH TWISTS

It takes the Dutch to get things twisted. Just think of a clearance sale "as it were," at the time you need the stuff, but the time comes on our Tenth anniversary and we had to do it because we said we would, so we are going to cut every article in The Gift Room right square in the middle, and the only requirement that we ask of you is that you bring us the right kind of coin. So get in and hustle for them; turn things topsy-turvy to find them; round them up; we want the full issue.

Starting a Round-Up Sale

Everybody knows the success and satisfaction of the Round-up. Results have been felt everywhere, and we hope every citizen of Umatilla County has absorbed some of its good will spirit the Koeppens have, and they are showing it and their patriotism for Pendleton by opening within its limits one of the best, most complete, and up-to-date stores of its kind in Oregon, and it is going to succeed as the Round-up succeeded. It is going to satisfy as the Round-up satisfied, and we are going to fix it so that every person in the county will have cause to aid in the success and feel well paid for the opportunity.

Every coin bearing the date of 1900 are the ones we want and those will buy just twice the amount of goods at the Gift Room that coin of other dates will buy. It runs till Christmas. It means Christmas goods at half price, and it means that we want the Gift Room to be known by you, appreciated by you, and you benefited by it.
