COLDER WEATHER IS EXPERIENCED AT ALBEE

CAMAS PRAIRIE SECTION VISITED BY SNOW STORM

Dairyman Goes to Willamette Valley For Winter—Grant County Horses Pass Through on Way to Pendleton Market.

(Special Correspondence.)
Albee, Ore., Dec. 18.—The weather is somewhat colder than it was a week ago. About 2 inches of snow fell here Friday. It is clear and quite cold this evening. There is no one on the sick list this week that I know of.
Rev. E. W. Warrington of Pilot Rock held services at Ukiah at 11 o'clock today and here at 3 o'clock, then went back to Ukiah to preach again this evening.
Mr. Merwin Gilbert, Mrs. Monkman Miss McReynolds and Miss Smith accompanied Mr. Warrington from Ukiah and attended church here.
H. T. Connelley the well known dairyman of this place left here Tuesday for Portland and the Willamette valley to be absent till spring.
J. McKay Stocker left Tuesday for Caldwell, Idaho, to be away a year. It has been reported that a certain young lady will go to the same place in the near future.
J. B. Ellis made a trip to Pilot Rock and Pendleton on business the first of the week and returned home Thursday.
Mr. and Mrs. Jas. Enright and their estimable daughter Miss Helen, went out to Pendleton last Wednesday on a trading trip.
C. L. Howard made a trip to Pilot Rock Thursday for material for his blacksmith shop.
Mr. Chandler of Susanville, and Mr. Ed Smith of Dale, stayed here Wednesday night with 100 head of horses that they were taking out to put on the market.
Mr. Ed G. Brehm invited a few of his friends to his place 4 miles east of here Friday evening. The evening was spent with social games and the discussion of the general topics of the day. A chicken supper was served at midnight. The supper was prepared by Mr. Brehm and Joe Zipperer and proved conclusively that it was not their first attempt at cooking. Those present were A. S. Quant, Geo. Hofer, S. B. Neil, William and Arthur Fritter, Joe Zipperer and Alex. McKenzie. Mr. Brehm will start for his home at Weston tomorrow, where he will spend the rest of the winter. He leaves Joe Zeppeler in charge of his ranch and stock here.
There will be turkeys, chickens and mutton to be shot for here Friday the 23d.

SPokane MAY GET ANOTHER GOOD INDUSTRY

Spokane, Wash.—A proposal of the officers of the Spokane Asbestos Fire Brick company to erect a plant in Spokane for the manufacture of asbestos products and a \$1,000,000 stock issue for that purpose were given the endorsement of the trustees of the chamber of commerce at a joint meeting with the members of the manufacturers' committee at the Silver Grill at noon Friday.

The company now operates an asbestos quarry at Kamiah, Idaho, and proposes to install a factory for all kinds of asbestos products if assurances of support from Spokane's citizens are assured. Officers of the company state that the proposed factory building would cost \$30,000 and would give employment to 65 men.

A committee consisting of H. L. Ritter, O. M. Green, Stanley Mayall and J. S. Gillespie was appointed to assist the officers of the company in their arrangements for a factory here.

SPENT \$800 AND THEN LOST HIS INTENDED

North Yakima, Wash.—The marriage of Mrs. Marie Leaming to Fred M. Chase, which took place in this city Friday night, not only leaves a second admirer of the bride sadder and wiser, but poorer by about \$800 worth of presents, according to the announcement of the latter, ("Scotty") S. D. Sanderson, a well known local sporting man, is the individual who claims to have had his fond hopes blighted and incidentally to have lost numerous costly gifts.

Sanderson claims to have had the woman's promise to marry him Friday, and says until he saw the announcement of the Chase-Leaming license he was entirely unaware that he was being trifled with.

The jilted lover, who had already completed arrangements for a honeymoon trip to the coast and Canadian cities, it is said, discovered that another man had won his lady's heart about the time the near-bride was putting the finishing touches on her bridal costume.

For the first time since he met the charming widow—for nature has been kind to Mrs. Deaming—he sat down and began to figure up the amount of money he alleged he had spent upon her. When he had finished it read something like this: One black dress, \$35; one brown dress, \$32.50; one green dress, \$20; one set of ear stones, \$250; one hair switch, \$35; one leather handbag, \$18; one hat, with black plume, \$22.50; one hat with white plume, \$30; one diamond ring, \$125; and so on down the line until the startling total of \$800 was reached.

Hasty conferences with the police officers with his attorney, telephone conversations with the bride and finally threats of newspaper airing of the case, all failed to offer any redress. Finally, the jilted man laid his case before the bridegroom.

Ignorant of the second man's claim to his near-bride, Chase was non-plused. Finally he agreed to a conference, and returning to his betrothed, he took her downtown, where he was met by Sanderson, the chief of police and Sanderson's attorney. At the close of the conference the bride, it is declared, returned a part of the presents, after which the ceremony proceeded.

TRAVELERS FIND CROPS ADOPTED TO INLAND EMPIRE

Spokane, Wash.—An agricultural explorer of the department has spent the year exploring the plant resources of southwestern Asia, says Secretary Wilson in his annual report. Among the large number of interesting things he has secured is a variety of alfalfa from Erivan, which is said to be longer lived than the Turkistan; a species of Medicago from an altitude of over 4000 feet, which is already being utilized in the work of creating new hybrid alfalfa for the northwest.

Also he has a wild almond from the Zafarshan valley, found growing on the dry mountain side at an altitude of 8000 feet; a drought-resistant cherry for home gardens in the northwest; and a collection of apricots with sweet kernels from Samarkand; the Afghasian apple and special varieties of pears for trial in the Gulf states; some remarkable olives, which have withstood zero temperatures and still borne good crops of fruit; late and early varieties of Caucasian peaches for trial in the southwest; seeds collected in the caucuses from wild plants of the true Paradise apple, which is used as a dwarf stock for the purpose of obtaining seedlings not infected with crown gall; seedlings of a newly produced crab apple, reported to be better with a skin as smooth as that of a nectarine; a remarkable drought-resistant polar for the middle west; and a wild strawberry, fruiting at the end of February on the dry calcareous cliffs of the Caucasus.
