Must Be Above Suspicion. Kidney and bladder ailments are so serious in their consequences and if unchecked so often fatal in results that any remedy offered for their cure must be above suspicion. They have a definite purpose, to cure all disorders of the kidneys and bladder and all ailments resulting therefrom. They are a pure and unadulterated medicine, tonic in action and quick in results. They cure backache, urinary irregularities, lumbago, dizziness, nervousness and clear the system of uric acid. Chas. L. Truitt, Rasback avenue, Centralia, Ill., says: "My back ached, my kidneys and bladder showed a weakened condition. I had to get up many times of a night and suffered a burning sensation in my bladder. Had headaches and dots floating before my eyes. Several times I tried different medicines, but nothing seemed to do me much good until I took Foley Kidney Pills. I used these according to directions and they helped me in a short time. The backache is all gone, my kidneys and bladder are strong and the bladder annoyance has stopped, and I am no longer bothered with headaches and dizziness. I can again attend to my work without suffering. Foley Kidney Pills have certainly proved their worth with me, and I can honestly recommend them." For sale by A. C. Koepfen & Bros.

It is always a ready help in the many things women do for themselves in their rooms. With the damper top opened it will heat water for tea or cocoa; it will dry the small articles that a woman prefers to wash herself in her own room. It will quickly heat an iron or curling tongs; quickly dry wet shoes or skirts—an ever ready help for the woman who lives alone, dependent on her own resources. The

is invaluable in its capacity of quickly giving heat. It will burn nine hours with one filling. It is safe, smokeless and odorless; has a cool handle and a damper top.

An indicator shows the amount of oil in the font. The filler-cup is put in like a cork in a bottle, and is attached to the font by a chain. It has an automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so the wick can be quickly cleaned.

The burner body or gallery cannot become wedged, and can be unscrewed in an instant for reworking. Finished in Japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental.
