ROUNDUP CHAIRMEN ARE APPOINTED

ARRANGEMENTS MADE FOR SECOND ANNUAL EVENT

Men Who Made Good Last Year Will Have Charge of Different Features of Coming Show—New Grand Stand and Bleachers Promised.

The promoters of the Roundup are already getting into the harness to pull for the second annual frontier show in this city. At a meeting of the board of control and the directors yesterday afternoon, the various chairmen of the different committees were named. At the annual election of officers held last November, nine directors were elected, each of whom was to be made a chairman of a separate committee in charge of some department of the work that is necessary to the success of the Roundup, the assignments to be made by the president. These were the assignments announced yesterday.

The following are the appointments made: Chairman of finance committee, George Hartman, Jr., assistant cashier of the First National bank; chairman of grounds committee, Lawrence G. Frazier of the Frazier-Nelson book store; chairman of publicity committee, Lee D. Drake, advertising manager of the East Oregonian; chairman of committee on competitive events, Deputy District Attorney Frederick Steiner; chairman of committee on non-competitive events, Fred Earle of the Peoples Warehouse; chairman of Indian committee, Roy T. Bishop of the Pendleton mills; chairman of livestock committee, T. D. Taylor; chairman of accommodations committee, Attorney Dan P. Smythe; chairman of transportation committee, Harry Gray of the Gray Bros. grocery.

Each of these men is either by present occupation or previous experience, especially well qualified for the particular branch of work to which he has been assigned and each will have the right of appointing other members to serve on his committee with him and is allowed to use his own judgment as to the number of fellow-workers he needs.

Other appointments were also made at the meeting yesterday. W. E. Brock was named as a committee of one to secure estimates of the cost of a grandstand with a seating capacity of 5000 and of bleachers of the same capacity. L. G. Frazier was also authorized to secure estimates on the cost of a track and the preparation of grounds for stadium purposes.

It is the intention of the directors to set the date for the 1911 Roundup as soon as possible so that no con-

filting attraction will be arranged and also that advertising matter can be gotten out immediately.

Another meeting of the board of control and the directors will be held tonight for the discussion of further plans of the association and for the outlining of the work that is to be done. A stockholders' meeting will also be called in the near future to listen to the report of the committee appointed to investigate the sites offered for a park and to decide upon the location which will be accepted.

UMATILLA PROJECT NOT TO BE EXTENDED AT PRESENT

(Continued from Page One.)

a new art in this country much freedom was allowed the local engineers in the design of minor structures. While this was a wise policy in the early stage of the work, it has resulted in some complicated and unnecessarily expensive structures. With the present knowledge of the comparative merits of the different types it is believed that standard designs of the simplest, satisfactory type should be adopted for all minor structures.

"The most uncertain feature of nearly all the projects is the water supply. This is under state control, and in the prosecution of its work the reclamation service bears the same relation to the state as to a private individual or corporation. Where the water rights have been adjudicated, the rights of the United States are well defined, but elsewhere they are uncertain and may prove to be materially different from that assumed.

"It is recommended that, wherever possible, steps be taken to secure an early adjudication of water rights on all projects where such adjudications have not yet been made and that, pending such action, expenditures be kept within the probable rights of the United States.

"The actual cost of completed work has almost invariably exceeded the original estimates, and in the case of some structures, has been two or three times as large. This increase in cost has been the cause of much of the discontent among the settlers.

"It was partly due to a general increase in the cost of labor and materials, partly to underestimates and an insufficient allowance for contingencies, and partly to the necessity of doing more work than was originally contemplated."

Thief Attacks Officer.
London, Dec. 27.—Another striking example of the dangers to which unarmed policemen are exposed in pursuing burglars was given yesterday, when Policeman Haynes was fired at four times while chasing a burglar. None of the shots was effective. When the policeman finally grappled with the fleeing law breaker, the latter pressed the muzzle of a revolver to the policeman's forehead and pulled the trigger. The last cartridge failed to explode and the thief was taken to jail.

"Magical Transformation"
Is the unanimous expression of the appearance of your suit when it comes home from Dick Sullivan's. Cleaning and pressing is a study as well as business with us—we have the most modern methods and will make a "Magical Transformation" of your old suit or dress if you only send it to

Newsy Notes of Pendleton

Two Drinks Forfeit Ball.
The city officers received ten dollars this morning when two drunks forfeited their ball.

One Marriage License.
A marriage license was issued today to Thomas H. Mathers and Lena V. Madison.

More Street Lamps.
Four more new street lamps are to be added immediately to the large number that have already been put in by property owners and merchants. Two will be erected in front of the Quelle restaurant and two in front of the Delta candy store.

Goes Into Bankruptcy.
W. A. Fennell, the local plasterer, has filed a petition in bankruptcy. The matter has been adjudicated, and Referee Fitz Gerald has served notice that a meeting of the creditors will be held on January 10. Will M. Peterson is attorney for Mr. Fennell.

Prisoners Given Freedom.
Police Judge Thomas Fitz Gerald had something of the true Christmas spirit which works for "peace on earth and good will toward men." He gave to the prisoners in the city jail, most of whom were serving out three and five day sentences, their freedom and sent them on their way rejoicing.

A One Eared Rabbit.
Albert Humphrey, who lives on Perkins avenue in this city, was exhibiting the mounted head of a frunk rabbit on the street yesterday. The animal, which was one he had shot himself had but one ear, and an examination of the head shows that there has never been another.

Suicide Is Laid to Rest.
The body of May Long, the unfortunate young woman who recently committed suicide in this city and of whose relatives no trace could be found, was interred today in Olney cemetery by Coroner Folsom. One hundred dollars were raised by subscription to provide for a decent burial.

Athena Merchant Sued.
Through Attorneys Peterson & Wilson a suit was filed in the circuit court today by L. B. Jackson against T. M. Taggart and D. M. Taggart. The suit is to collect an account of \$295 alleged to be due the Western Dry Goods company, upon a note, and the sum of \$69.50 due the Hardeman Hat company. \$100 as attorneys' fees is asked for.

Two Errors Corrected.
In the East Oregonian yesterday under the department of Newsy Notes were two short items which should have appeared in Saturday's issue but which were unfortunately crowded out. The will of Madison Jones was therefore referred to as if it were filed on Sunday and the election of officers by the Masons as if it occurred on Sunday night. Apologies are made for the mistake.

Grover Martin Sued.
Attorney W. M. Peterson today filed a suit to collect the sum of \$300 due upon a \$500 attorney's fee incurred by Grover Martin when he was on trial here for the killing of C. N. Preston, five years ago. Martin killed Preston near Milton in June, 1905. He was defended by Peterson & Peterson and Carter, Raley & Raley. He was convicted of manslaughter and sentenced to serve ten years in the penitentiary by Judge W. R. Ellis. He was afterwards pardoned by the governor.

Now the O. W. R. & N. Co.
At the recorder's office today deeds are being transcribed showing the change in the ownership of the lines held by the old O. R. & N. company. Two deeds were filed one for the property held in the name of the O. R. & N., which includes the main line and the Spokane branch, and the other for the Umatilla Central. In the latter deed the value of the Umatilla Central is placed at \$315,000. To file the Umatilla Central deed cost \$2.40, while to file the other deed cost \$4.20.

Makes Sensational Charges.
Charges of undue jealousy and of false accusations are made by Mrs. Maggie Strickler in a suit for divorce which she filed today against Albert Strickler. In the complaint which was filed by Peterson & Wilson, Mrs. Strickler says that soon after her marriage in this city in November, 1905, her husband began to be unusually jealous and faultfinding. She says he openly charged her with intimacy with other men and especially with one Bill McPherson. So she asks for a decree of divorce, for the custody of their little child and for \$35 per month alimony. The husband is an employe of the Domestic laundry.

ROOSEVELT DENIES TAFT SUPPORT TALK

New York, N. Y., Dec. 27.—"All talk of me supporting Taft in 1912 is most absurd," said Roosevelt today in reply to the story that he and Taft had reached an understanding regarding the presidential possibility two years hence.

The colonel continued, saying nothing like it had been discussed and asserting he had never talked to Taft concerning it.

Italians Drink Poison.
New York, Dec. 27.—After drinking-punch, believed to have contained wood alcohol, two Italians died yesterday in North Bergen, N. J. Four others are in a critical condition.

EAST DEMONSTRATES SUPERIORITY OVER WEST

Seattle, Dec. 27.—The Oak Park high school eleven demonstrated the superiority of Chicago football over that of the Pacific coast yesterday by defeating the Wenatchee, Wash., eleven 22 to 0. Wenatchee was outclassed at every point by the Chicago boys, but the game was made interesting by the brilliancy with which the Oak Park team unfolded play after play that had never before been seen on a western gridiron. Oak Park scored three times on touchdowns, kicking one goal, and twice on place kicks. Wenatchee never got nearer Chicago's goal than the 25-yard line and that only once.

Wenatchee, hitherto undefeated, had a slight advantage in weight, but the teamwork was poor, the boys were slow on their feet, and at times seemed to suffer from stage fright. Oak Park's startling plays went off like clockwork and the rapidity with which they introduced new tricks showed that they were not depending upon any particular style of play. The forward pass was frequently resorted to by both sides, but where Wenatchee made miserable failures of their attempts, Oak Park carried the plays through with precision.

Fire in Mena.
Mena, Ark., Dec. 27.—Fire which started early yesterday destroyed property in Mount Ida near here to the amount of \$75,000. Eight business buildings were destroyed.

BOY CAUSES ARREST OF ACCUSED MAN

Through the instrumentality of the young son of Henry Latourelle, C. W. Bowers now occupies a cell in the city jail charged with burglarizing the Koch second hand store on Webb street last night. He stoutly maintains his innocence but the officers believe they have woven a network of proof about him from which it will be difficult for him to escape.

The door of the Koch store was broken in early in the evening and a number of razors and knives stolen. Later young Bowers approached the Latourelle boy and sold him a knife for 25 cents after which he disposed of a safety razor to Al Richardson, the big bootblack at the St. George hotel. The boy this morning gave the officers a clew upon which to work and within an hour Chief of Police Gardane and Officer Glen Bushee had Bowers under arrest.

Young Latourelle was taken to the marshal's office and at once identified Bowers as the man from whom he had purchased the knife as did Al Richardson, and, as the razor purchased by the latter bore the same cost mark as those left in the case at the store, the evidence is pretty complete.

Mr. Kotch stated this afternoon that Bowers came to his store yesterday afternoon and attempted to sell him an overcoat, saying that he wanted money with which to pay for a telephone message. Bowers has been in this neighborhood for several years and has always been regarded as a shady character. According to his assertion he has recently been employed at Blalock Island below Umatilla.

WILL FILE SUIT TO DISSOLVE ELECTRICAL TRUST

Washington, D. C., Dec. 27.—A suit to dissolve the alleged electrical trust will be instituted as soon as the papers can be drawn up, was the semi-official announcement made today.

The government won't wait for the supreme court decisions in the Standard Oil or American Tobacco cases, now appealing, but will start a new issue.

The electrical companies will be charged with conspiracy to restrain trade through the operation of patent laws. They are the General Electric, the Westinghouse and several others.

To Grow Cotton.
Amoy, China, Dec. 27.—Java Chinese are planning the cultivation of cotton on an extensive scale in the province of Fukien.

DELIVERY SYSTEM TAXED TO CAPACITY

Something of the enormity of the Christmas trade can be had from statistics kept by the Penland brothers who made the deliveries from sixteen stores in the city. On Saturday, the day before Christmas, they kept a wagon men at work with seven wagons throughout the entire day and 66 trips were made by these wagons for the delivery of goods. One wagon was kept busy picking up packages from the different stores, making on the average of a round trip ever 25 minutes. This wagon unloaded at the Smith-Crawford building which served as a clearing house from which the other wagons were sent out over the town.

Claude Penland estimates that during the day 1200 packages were delivered to the houses of the city and that with the loss of only one which contained ten cents worth of celery. The only other loss reported is the breakage of four eggs. Every man who was on the job was through with his work at 7 o'clock which speaks well for the system of the Penland

Bros. when it is remembered that in former years the poor delivery men could be seen still on their routes near the midnight hour.

Of course these 1200 packages represented by a portion of one day's city trade and when the country trade is taken into consideration, some idea can be had of the volume of Christmas business done here. Some stores also employed express wagons to make Christmas deliveries.

Students to Protest.
St. Petersburg, Dec. 27.—A deputation of students from Odessa arrived yesterday to protest against the decision of the government to expel students of the University of Odessa because of the recent disorders there. The students say that the official version of the affair was untruthful. They say that the students did not fire a shot, but merely broke windows. They declare also that a judicial inquest into the affair and a search of the precincts of the university did not disclose any firearms and that the reports of the examining doctors did not certify to the wounding of any policemen.
