Exporters were offering an advance of about 1-2c a bushel for both bluestem and club wheat today. They were quoting club on the basis of \$1c track Portland and bluestem from \$3c to \$4c a bushel.

Some buying continues on this basis at interior points, but the movement has been rather restricted since the holidays.

There was a weaker feeling at Liver pool today in spite of the sharp advance at Chicago yesterday. Although the opening of the foreign market was a fraction better owing to the greater strength shown by Argentina and Australian offerings. However, less continual demand caused the late decline.

Today's prices in the wheat and flour market show an interesting comparison with a year ago. Club wheat was selling then around \$1.11 a bushel or 30c more than today, while blue-stem was 37c higher. Flour was quoted at \$6.35 for patents as compared with \$5.15 today, while export brands went at \$4.60 compared with \$3.60 today.

It had been Mark Twain's ambition to have his books in every American home, and he made a great personal sacrifice to bring about this remarkable opportunity-for the first time In the history of publishing, copyrighted books are sold at the price of non-copyrighted books the chance will not come again.

But for Mark Twain's action this would have been impossible. Never before has a copyrighted library set of a standard author's works been issued at such a low figure.

Cattle Business Decreasing.

That many more cattle men are go ing out of business in the Pacific northwest, and especially in Idaho, than are entering the trade, is the opinion of I. D. Bodine, connected with the Sharkey Commission company at the stockyards, who has just returned from a business trip through the Gem state. "Dry farming is les-sening the livestock interests there," says Mr. Bodine, "and much of the sage brush land formerly used for cattle is now being cut up for farms.
