PROMINENT ATHENA MAN IS DEAD

ELLIS J. ZERBA PASSES AWAY AT FARM HOME

Leaves Large Family of Children—Lodges Install Officers—Second Light Snow of Season Falls.

(Special Correspondence.)

Athena, Ore., Jan. 10.—Ellis J. Zerba, a very prominent wheat grower of this vicinity died yesterday at his home north of town at the age of 56 years. Mr. Zerba was a very honest man and his word was always good, consequently he holds the sincere respect of all this entire community. His wife died a number of years ago, but he is survived by quite a family of children, which he has taken care of since the death of his wife. The funeral will be held from the Methodist church on Wednesday afternoon at 2 p. m.

Saturday evening, Jan. 7, marked the public installation of the Odd Fellows and Rebeccas in their hall on that evening and a large crowd attended the event. After the installation a very fine banquet was spread for the guests and lodge members, which lasted until the early hours of the morning.

Last night a small skiff of snow fell and left the ground sparkling white, which is the second snow of this season—a remarkable record for this part of the country. Ideal weather has prevailed throughout this entire winter as yet, and it has been so much like spring that the trees have started to bud out and the grass is quite green. Up to this snow the roads have been almost dry and the automobiles have been almost as prevalent as in the summer time.

Finest winter weather that this country has ever experienced and should it continue so until spring, undoubtedly, a bumper crop in all fruits and grains would be the ultimate result. The fall weather was the most perfect that could be possible for wheat growing for the rain came and started the weeds and then after they were killed it rained again and the wheat was sown.

After this operation there was a period of almost three weeks that it rained every day, which left the ground moist a number of feet down. With this moisture in the ground and only the usual amount in the spring, the wheat crop next year, as predicted now, will be a great one.

INTERESTING BOYS IN GARDEN WORK

PORTLAND Y. M. C. A. STARTS SERIES OF CONTESTS

Boys Between Ages of 12 and 16 Eligible to Compete—Contestants to be Divided into Classes.

(Special Correspondence.)

Portland boys are to be interested in gardening by the local Y. M. C. A. A contest for the most successful growers of vegetables among boys between the ages of 12 and 16 years will be started, with prizes for the winners.

Any Portland boy is eligible to enter and the only expense will be the actual cost of seed. A plot of ground 10 by 15 feet in extent is to be used by each contestant and if such a piece of ground is not available in his own back yard, the contestant will be given the use of a tract by the Y. M. C. A.

Contestants will be divided into two classes. One will raise early and the other late vegetables. Each division will raise four vegetables, yet to be named, and the first division, in addition, will cultivate sweet peas.

The first division will close its contest on June 23 and on that day and the one following, an exhibition of the products will be made at the auditorium of the Y. M. C. A. Suitable prizes will be presented to the winners, the judges passing both on the products and the gardens themselves, while under cultivation. The contest for the second section will close September 29.

The co-operation of the Oregon Agricultural College will be given to the contest. Instructors in that institution will give advice to the boys and will place bulletins issued on gardening in their hands.

H. W. Stone, general secretary of the Y. M. C. A., and J. C. Clark, boys' secretary, are starting the contest in order to induce the boys to spend a large part of their time in the open air engaged in a useful work, while at the same time they will gain a practical knowledge of gardening. They do not believe that everyone should go back to the farm, even if it were possible, but as a substitute they have outlined the gardening contest to utilize vacant back lots.

GOVERNORS INVITED TO MEET IN SPOKANE

Spokane, Wash.—Trustees of the Spokane chamber of commerce, headed by Frank R. Culbertson, acting president, and the entertainment committee, of which W. S. McCreary is chairman, have invited the governors of Washington, Oregon, Idaho, Montana, Wyoming and California to attend the annual meeting and banquet of the organization in the Masonic Temple the evening of January 17. The invitation says among other things:

"During the past year in particular, the states of Washington, Oregon, California, Idaho, Montana and Wyoming have become thoroughly imbued with the spirit of cooperation. When any city in these states invites a national convention, the governors, mayors and chambers of commerce vie with one another in seconding and endorsing the invitation, the idea being that what helps one community is of benefit to the others.

"The Spokane chamber of commerce fully appreciates the prompt and cordial support and cooperation of the governors, mayors and chambers of commerce of these states.

"At the annual meeting and banquet the prevailing idea will be that of cooperation. It is conceded that if we stand together we are invincible. We are standing together now and on the occasion of the yearly meeting we

desire to proclaim this to the entire country."

The chamber of commerce also has extended an invitation to Colonel Theodore Roosevelt to be its guest while in Spokane on a tour of the northwestern states next April. It is expected he will pass several days here before going to the Pacific coast.

Bids for Railway Materials. Consul Robert S. S. Bergh of Belgrade, reports the bids for spikes, bolts and washers, required by the Serbian state railroads, noted in foreign trade opportunity No. 5784, Daily Consular and Trade Reports for November 11, were opened, and that a Belgian firm's offer was the lowest. Its prices for spikes (two sizes) were 219.50 francs (\$42.36), bolts 228.20 francs (\$44.04), and for washers 14.95 francs (\$2.89) per 1000 c. i. f. Brno. No American tender was received. It is possible that fresh tenders will be invited.

Massive Bridge Now Open. Trains are now operating over the massive concrete bridge of the Baltimore and Ohio, which spans Brandywine creek near Wilmington, Del. It cost \$270,000, and its use permits a reduction of five minutes in the time of passenger trains between Philadelphia and Washington. Only two of the four tracks put in are available at present.
