### Newsy Notes of Pendleton

#### Story Hours Tomorrow.

At the regular story hour tomorrow at the library, Miss Neva Lane will have charge of the program.

#### Real Estate Deal.

By a deed recorded this morning at the court house, Leonard Lavadore and wife of Adams, have transferred 40 acres of land to T. A. Lieuaellen for a consideration of \$3200.

#### Dedication of Rectory.

The Right Rev. Bishop Paddock, D. D., will be in Pendleton tomorrow evening for the purpose of dedicating the Episcopal rectory, which has been made possible by paying off the debt.

#### Sues for Divorce.

Mrs. Effie L. Osborn of this city, has commenced suit for a divorce from her husband, Richard Osborn, alleging in her complaint that in August, 1909 he latter deserted her and has not since contributed to her support. The couple were married August 29, 1899, and have no children. J. B. Perry is attorney for Mrs. Osborn.

#### Grand Jury Still Sits.

The grand jury is again in session today but up until 3 o'clock has made no further report. One of the charges it is investigating is that of assault with a dangerous weapon made against Charles Heater of Milton who Wednesday hit Marshal Anderson over the head with a pair of pliers. Residents of Milton in the case seem to think that Heater, who is a very peaceable man, was almost justified in striking the officer.

#### Will Debate La Grande.

Principal A. C. Hampton of the local high school today announced that the first debate in which the local team would engage in the contests for the state championship had been arranged for February 10 with the team of La Grande high school. The question to be debated will be "Resolved, that it is the function of the federal government to conserve our natural resources." of which question the local team will support the negative. The debate will be held in this city.

#### Enter "Not Guilty" Plea.

"Not guilty" was the plea entered this morning by the five men who were indicted by the grand jury yesterday and arraigned. These men were William Reno, charged with sodomy, Charles Bowers, charged with burglary, Mike O'Neal, charged with obtaining money under false pretenses, James Blake, charged with receiving stolen property, and Jack McCarty, charged with larceny from a dwelling. Bowers and McCarty's trials are both set for next Tuesday and the others have not been set.

#### Attorney Is Sued.

Through their attorneys, Perry and Bailey, Jerry St. Dennis, Nelson St. Dennis, Joe St. Dennis and Thomas Breden have commenced suit against Attorney Homer I. Watts of Athena for the recovery of \$2509.97 and two promissory notes aggregating \$4392.62, all of which, it is alleged, were turned over to the defendant by E. B. Richards, administrator for the estate of Desire St. Dennis. An additional sum of \$150 is also asked for damages.

#### DEEP WELL BEGINS ACTING QUEERLY

On an orchard tract near Wenatchee, Wash., west of Spokane, there is a well 120 feet deep that has been acting queer the last few days. The well was put down two years ago and until recently displayed no peculiarities. A member of the family approached the well for water a few days ago and was astonished to hear a hissing noise from the depths of the well. A closer investigation showed that a blast of air was belching forth through openings in the covering of the well. Curiously led to further investigation and a couple of the planks covering the well were raised. It was found that a warm current of air was floating upward and as near as could be ascertained it was coming from a point just below the surface of the water. The well kept belching wind for a couple of hours. About 6 o'clock in the evening a chinook wind started to blow, and the well immediately quieted down. The same phenomena was repeated a few days later and those who witnessed it are greatly puzzled to know what connection the current of air can have with the chinook.

#### LOCKSTEP ABOLISHED IN WALLA WALLA PEN

Declaring it utterly useless and worthless, a thing without good, C. S. Reed, warden of the state penitentiary at Walla Walla, Wash., formally consigned the prison lockstep to the oblivion from which it came. Since the beginning the lock-step has been the custom at the penitentiary. When the prisoners came in to their meals or marched out to them they did so in lockstep. The lockstep, stripes and other relics of a more barbarous age are a thing of the past at Walla Walla. "The lock-step and the striped suits," continued Warden Reed "have come down to us from the past. Why or how they originated is now of little interest. It suffices that whatever may have been the reasons which actuated their originators, they do not hold good today. The lockstep serves no purpose. It accomplishes no good. It is a senseless custom which has outlived its time. The striped suit has not been seen here for some time. The prisoners wear plain gray clothes, with no distinguishing mark but the prison number."

#### BIG SHOE FACTORY FOR CITY OF SPOKANE

In a few days Spokane will have a new manufacturing plant in the Spokane Shoe company. The company will start with a capacity of 50

employees and expects to eventually employ 1000. William Beck, who is an old shoe manufacturer, controls patents on welt which he is confident will reduce the cost of shoe manufacture one-third, also owning patents on the machinery, which will reduce the cost materially, the company not being obliged to pay a royalty for the use of the machinery for the manufacture of shoes. He has patents in France, Germany, England and Canada and has had many dealers in these countries seeking the handling of his shoes. The present factory, with a machinery equipment necessitating the employment of fifty people, is a two story building just northeast of the city.

Spokane is logically a shoe manufacturing section. As one tannery is assured, the hides ready for the shoemaker can be procured cheaper than at any other point. Mr. Beck has long been watching Spokane as a center for the establishment of a shoe manufacturing plant because of the natural production of hides.

#### DENTIST ON STAND IN SCHENK MURDER TRIAL

Wheeling, W. Va., Jan. 13.—Dr. O. W. Burgatt, a dentist, was the first witness in Mrs. Schenk's trial today. He testified that the dark coloring on Schenk's gums was due to the peculiar condition of Schenk's blood. Dr. Hupp, for the state, had previously testified that the lines might have been from blood poisoning. Burgatt treated Schenk in October. When cross-examined Hupp admitted the line might have resulted from some gum disease.

Burgatt said he was convinced the black lines on the gums were due to a derangement of Schenk's system and not to any disease of the gums themselves. On cross examination he refused to say whether or not stomach disorder might have caused them.

Prof. J. Mallett, the chemist from the University, who analyzed the drinking water Mrs. Schenk is said to have opened and given to her husband, said he found arsenic, eight-tenths of a grain to the pint.

#### PLAGUE IN CHINA SPREADING RAPIDLY

Peking, Jan. 13.—Bubonic plague in Manchuria is spreading rapidly. Reports reaching here state that hundreds of persons are dying every day and that the number of fatalities is increasing. A French plague expert has succumbed to the disease. The Chinese government has appealed to the foreign community for assistance in combating the epidemic and four missionary doctors, one an American and the others British, have volunteered their services. It was planned to quarantine the railways and the great wall in the hope of arresting the spread of the scourge southward.

#### WHITMAN COUNTY BANKER TAKES HIS OWN LIFE

Coffax, Wash., Jan. 13.—John Terhune, a well known banker in Whitman county, and president of the St. John bank, committed suicide yesterday afternoon by shooting himself through the head with a revolver. Mr. Terhune's two sons, Harry and Hugh, who are cashier and assistant cashier of the bank, found a note on the bank desk which their father had written, stating that he intended to kill himself and that his body would be found in the coal shed at the rear of the bank. No cause was given or is known for his act. He leaves a widow and two sons.

#### KNIGHTS INSTALL NEW LODGE AT HERMITSON

About fifty members of the Knights of Pythias order in this city and the east end of the county went to Hermitson last evening to assist in the installation of a new lodge at that place. The entire night was consumed and a fine time is reported. The following officers were installed:

Dr. M. V. Turley, C. C.; George A. Root, V. C.; J. B. Hinkle, M. W.; Wm. A. Leathers, prelate; John W. Campbell, master at arms; J. H. Upthegrove, keeper of records and seal; H. J. Reed, master of finance; F. B. Swayze, master of exchequer; Otto Sapper, inner guard. The past chancellors are G. H. Upthegrove, Robert Allen, J. T. Hinkle and E. O. Comeyes.

#### PEARY BILL WILL PASS CONGRESS

Washington, D. C., Jan. 13.—A bill retiring Robert Peary with the rank of rear admiral in the engineering department of the navy was reported favorably today by the house committee on naval affairs by a vote of six to four. It is predicted the bill is practically certain to pass the house and senate. Peary will also be thanked by congress for the discovery of the pole.

#### CLEMENTS PRESIDENT OF INTERSTATE COMMISSION

Washington, D. C., Jan. 13.—Judson Clements was today elected chairman of the interstate commerce commission. He succeeds Martin Knapp, who has been appointed a member of the court of commerce. Clements was ranking member of the commission.

#### ASTORIA HAS MORE THAN NINE THOUSAND

Washington, D. C., Jan. 13.—The population of Astoria is 9,059, and Reno, Nev., is 10,887.

Bloating, Heartburn, Indigestion, Dyspepsia and Costiveness are quickly overcome when HOSTETTER'S STOMACH BITTERS is Taken. Try a Bottle.

### "DOT" ANGER DIED EARLY THIS MORNING

George Anger, known familiarly to his many friends in this city as "Dot," passed away at the home of his mother on Johnson street at 8.10 o'clock this morning, death resulting from tuberculosis. He was aged 19 years, 5 months and 11 days and leaves to mourn his untimely end, besides a host of friends, his mother, Mrs. Frank Anger of this city, a father, Frank Anger of Burbank, Wash., and a brother Lesne Anger of Walla Walla. The latter two have not reached the city and the funeral arrangements are being held pending their arrival, but will be announced tomorrow.

George Anger was born in Minneapolis, Minn., Sept. 2, 1891 and some years afterward moved with his parents to Walla Walla where he made his home until three years ago when, with his mother and sister, he came to this city. He entered the high school last year but was soon compelled to discontinue his work when the wasting disease laid hold of him. For the past five months he has grown continually weaker but maintained his cheerfulness to the last, and never gave up hope that he would recover his health. His cheery good nature made him a general favorite and his death has occasioned a universal sorrow throughout the city. He was a member of the local chapter of the Lambda Sigma fraternity and members of that organization will act as pallbearers at the funeral.

#### COLONEL BERKELEY DIES.

Was Father of Norbourne Berkeley and Formerly Lived in This County.  
Norbourne Berkeley of this city received a telegram yesterday from his brother, Dr. W. N. Berkeley of Annapolis, Md., announcing the death of their father, Colonel Norbourne Berkeley, at Eversgreen, Virginia.  
Colonel Berkeley was one of four brothers who armed and equipped the 8th Virginia regiment and fought from first Manassas to Appomattox in the civil war.

Col. N. Berkeley, who was with Pickett's division at Gettysburg, was badly wounded in that battle and was captured and taken to Chester hospital and thence to Johnson Island.

In 1866 Col. Berkeley came to Oregon to visit his son who was living on the "Dixie Ranch" in Camas Prairie. The colonel was made justice of the peace in his precinct and still has many friends among the pioneer residents of Camas Prairie.

Col. Berkeley was born in 1828 and would have been 83 years old in March.

It is your human environment that makes climate.

### GIRLS' BASKETBALL TEAM OPENS SEASON

The girls' basket ball team of the Pendleton high school will commence its season tomorrow night with a game with Watsburg high school in Watsburg. While the team has had no game yet by which to test its mettle, the fact that every player has had previous experience augurs well for them. They have been practicing each evening for several weeks and under efficient coaching have developed into a formidable scoring machine.

The first team will be composed of Blanch Baddely and Gladys Hamley, centers; Muriel Saling and Juanita Piersol, forwards; Grace Finnell and Ella Lazinka, guards. The substitutes who will accompany the regular team will not be picked until the final try-out tonight. Miss Louise Wise will accompany the team on its invasion of the Washington city. The girls will leave on the early train in the morning for their destination.

#### REBELS WIN FIERCE BATTLE.

(Continued from page one.)  
ed "It would have been impossible, as the ford, the only crossing place, was literally churned by bullets and a man could not have lived to reach the opposite side.

So far as is known, only one man crossed the river to the American side. He was a press correspondent and he did not do so until two hours after the battle and then under cover of darkness.

The insurgents have a strong fortified camp in the mountains and more than 150 men under arms at that point. They are well armed and plentifully supplied with ammunition.

### FIGHT PICTURES WILL BE ALLOWED

#### WOMEN WILL TAKE NO ACTION AGAINST

While Condemning Pictures They Poptose to Let Mayor and Council Run the City.

Mayor Murphy will not be presented with a petition of remonstrance against the exhibition of the Jeffries-Johnson moving pictures as intimated in these columns yesterday, for, while the individual members of the W. C. T. U. and other women's organizations in the city are strong in their condemnation of such attractions, as a society they will take no action in the matter but are willing to shift the responsibility for such forms of amusement upon the shoulders of the mayor and city council. No meeting of the organizations have been held to consider the matter and none will be held, according to Mrs. G. W. Rugg, president of the W. C. T. U. for there is no disposition on the part of her society to dictate to the city authorities. The impression given yesterday, she says, to the effect that any official action would be taken was erroneous.

"The Womens Christian Temperance Union stands for the principles embodied in the Golden Rule," said Mrs. S. A. Lowell, a prominent worker in that organization this afternoon. "For the same standard of purity for men and women and that the highest standard of each individual life should be a safe guide for every other person to follow. Because of these principles it fought the re-establishment of the saloon, with all its attendant evils, but the majority of the voters decided that the mayor and city council were the safest people with whom to trust the morals of the city, and now the responsibility is theirs. If they desire to go back to the pioneer days when the cowboy-roundup, saloon and prizefights were the chief attractions it is their privilege to do so. There are other cities where these conditions do not exist and the fathers and mothers who care for the future of their children will not long remain in Pendleton, if they are unfortunate enough to come here at all.

"Do the facts that there has been an average of four arrests a day for drunkenness and disorderly conduct since the first of January and that the city is so full of hoboos that burglaries are a common occurrence, add anything to the reputation of Pendleton or teach any lessons? The W. C. T. U. cannot force men to be decent. It seems a misfortune however, that our city government of its own motion has not seen fit to bar the prize fight pictures, as have the progressive cities of the country; even San Fran-

cisco, the boasted Paris of America, has refused to permit this display."

#### MORE GROUND FOR ASYLUM.

(Continued from page one.)

for an additional appropriation for the branch asylum as it is realized that the \$200,000 already available will not be sufficient for the purpose. Dr. Steiner also dwelt upon the importance of moving slowly and of having the plans worked out in detail before starting work. He pointed out some of the blunders made in establishing and constructing the main asylum at Salem and said he hoped to avoid such here. He wants the Eastern Oregon branch hospital to be the best and most satisfactory institution of its kind in the country.

#### Pendleton Will Help.

Replying to the remarks of the members of the board President Thompson, of the Commercial association, said he could pledge the board that the people of Pendleton would do their utmost towards assisting in any way possible. He pointed out that options upon the additional land had been secured at low prices and that the city could also be depended upon to do its part with reference to supplying water. He said the plans for the new gravity system were already on file with the state board.

#### VETOED BILLS UP TUESDAY.

(Continued from page one.)

the existing law all power vested in the members of the state board of horticulture, the secretary thereof and the county fruit inspectors to inspect fruit trees or nursery stock shipped into the state from other states or counties and deprived them of the right to destroy such important stock no matter how badly it might be infected.

No. 48 was vetoed because it was defective in that it was without an enacting clause, and house bill No. 65 was vetoed because two bills with the same number, No. 65, and the same language, were sent to the governor by mistake, error of the enrolling clerks. One of the bills was allowed to take effect, and was filed with the secretary of state, and the other was vetoed. It was a proposed act providing a penalty for wearing the uniform of the Oregon National Guard without right or authority.

#### May Have Outlaw.

Helena, Mont., Jan. 13.—In John Davis, one of the two alleged postoffice robbers in jail in Bozeman, the authorities believe they have "Butch" Cassidy, famous as an outlaw. According to the statement of Glenn Henderson, the fellow prisoner of Davis, the man is none other than the former bandit, who operated in Montana, Wyoming, Utah and Idaho ten or twelve years ago, and who has been reported as living in South America with "Kid Curry, the captain and leader of the gang.
