FARMERS' WEEK AT O. A. C. COMING

PRACTICAL PROBLEMS WILL BE DISCUSSED

Special Lecturers Are Secured and Efforts Will Be Made to Give Useful Information to Those in Attendance.

Oregon Agricultural College, Corvallis, Ore., Jan. 21. The annual farmers week course at the Oregon agricultural college has been set for February 13 to 18 and the plans for work are being rapidly brought to completion. In addition to the regular lecture and demonstration work in fruit growing, orchard work, marketing, soils, drainage, farm management, stock raising, home management, insect and dis-

HIRAM CARPENTER'S WONDERFUL CURE OF PSORIASIS

"I have been afflicted for twenty years with an obstinate skin disease, called by some Dr. H. K. psoriasis, and others eczema, commencing on my scalp, and in spite of all I could do, with the help of the most skillful doctors, it slowly but surely extended until a year ago this winter it covered my entire person in the form of dry scales. For the last three years I have been unable to do any labor, and suffering intensely all the time. Every morning there would be nearly a dust-pail of scales falling from the sheet on my bed, some of them half as large as the envelope containing this letter. In the latter part of winter my skin commenced cracking open. I tried everything, almost, that could be thought of, without any relief. The 12th of June I started West, in hopes I could reach the Hot Springs. I reached Detroit and was so low I thought I should have to go to the hospital, but finally got as far as Lansing, Mich., where I had a sister living. One Dr. — treated me about two weeks, but did me no good. All thought I had but a short time to live. I scarcely dared to die. Cracked through the skin all over my back, across my ribs, arms, hands, limbs; feet badly swollen; toes-nails came off; fingers-nails dead and hard as a bone; hair dead, dry and lifeless as old straw. O my God! how I did suffer.

"My sister wouldn't give up, said: 'We will try Cuticura.' Some was applied on one hand and arm. Eureka! there was relief; stopped the terrible burning itching from the word go. They immediately got Cuticura Resolvent, Ointment and Soap. I commenced by taking Cuticura Resolvent three times a day after meals; had a bath once a day, water about blood heat, used Cuticura Soap freely; applied Cuticura Ointment morning and evening. Result: returned to my home in just six weeks from the time I left, and my skin as smooth as the sheet of paper. Hiram E. Carpenter, Henderson, N. Y."

The above remarkable testimonial was written January 19, 1883, and is reprinted because of the permanency of the cure. Under date of April 22, 1910, Mr. Carpenter wrote from his present home, 610 Walnut St., No. Lansing, Mich.: 'I have never suffered a return of the psoriasis and although many years have passed I have not forgotten the terrible suffering I endured before using the Cuticura Remedies.'

ease pests, butter and cheese making and kindred subjects, two special features in the form of discussions and demonstrations on the subjects of good roads for the state and irrigation in the Willamette valley will be added to the program.

A large corps of special lecturers many of whom are representative men of this state, have been secured to assist the college experts in carrying on the work. This has made it possible to fill every hour of the day from 8 in the morning until 10 at night with special features.

The work will deal entirely with vital problems which are claiming the attention of the people of Oregon. Those attending will be urged to bring up for discussion and demonstration subjects in which they are particularly interested and which pertain to the peculiar problems arising out of their experience and which characteristic of their particular community. The work will be carried on very much in the form of a large farmers institute with special division giving particular attention to the various features of home making and management.

A poultry show, at which the fowls in the northwest will be exhibited, is scheduled for the last day of the session. This feature, in connection with the special work on good roads and irrigation, will add greatly to the scope of the work. Indications are that last year's attendance of 400 will be more than doubled at this session. Dean Cordley reports that communications are coming in much greater number than ever before and that the general interest throughout the state seems to justify the belief that the college will be crowded to its utmost during this week. The railroads have promised to give a special rate for the occasion and the city is being canvassed for accommodations for visitors.

WATER POWER DEVELOPMENT RETARDED BY STATE TAX

State Engineer John H. Lewis argued with figures and statistics before the Commonwealth Conference at the University that the state's annual tax on water power development seriously retards industrial and financial development in the state. He showed that the tax in no measure begins to produce sufficient revenue to offset this retarding influence.

"The equivalent," he says, "of seventy million dollars worth of coal is being annually wasted in the undeveloped water power in Oregon. This energy should be developed and used, and Oregon will prosper in proportion as this is accomplished.

"The engineering and financial difficulties in the way of development are usually sufficient to defeat construction except in the most promising cases." To add to this a heavy annual tax, imposed only on new projects, and with the idea of securing a revenue, Mr. Lewis thinks defeats, or at least seriously retards, development. To substitute for the tax, Mr. Lewis believes that an annual license should be imposed on all companies, old and new alike, simply for regulation purposes.—U. of O. Bulletin.

Churches

Chamberlain's Cough Remedy is not a common, every-day cough mixture. It is a meritorious remedy for all the troublesome and dangerous complications resulting from cold in the head, throat, chest or lungs. Sold by all dealers.

TOPOGRAPHIC SURVEY OF STATE URGED

At the recent Commonwealth Conference at the University of Oregon, the paper on Land and Stream Surveys, submitted by J. C. Stevens, ex-U. S. Engineer, and the open discussion following, pointed clearly to the fact that the state of Oregon very greatly needs a topographical survey. It was the united opinion of the Conference that the present legislature should provide for such a survey. It would probably take ten or twelve years to complete the survey of the whole state, but the beginning should be made at once. Since the national government is pledged to make an appropriation for the same purpose equal to the state's appropriation, the cost to the state would be half as much as otherwise.

A topographical survey, it was pointed out, showing surfaces, drainage, water power, and possibilities for irrigation, road and railroad building and manufacturing, could at once be made the basis for publicity for the whole state of Oregon.

Jointly with the topographical survey could be run a value survey, which would include a scientific study of the soils, timber, water power, minerals, and all the natural resources of the state. With all this complete data, from the reliable source of the national government and the state, capital would flow to every corner of the commonwealth from outside sources, seeking rich investment in developing the great natural resources of soil and mountains, at present known for a certainty only to ourselves. Oregon can not hope to interest foreign capital in her resources to any great extent until opportunities for investigation in the state are made clearly apparent. An authoritative topographical survey would make our resources apparent. Washington and California are each spending large sums in such surveys.—U. of O. Bulletin.

TWO SALARY BILLS ARE INTRODUCED

Salem, Ore., Jan. 21.—Eleven bills were introduced in the house yesterday morning, two of which were salary bills. Representative Brooke of Malheur and Harney introduced a bill proposing to increase the salary of the prosecuting attorney of the Tenth district, comprised of Union and Wallowa counties, from \$2100 to \$3000, and providing him with a deputy at a salary of \$600. Representative Miller of Columbia also introduced a bill increasing the salaries of the circuit judges in the Fifth district, Columbia, Clatsop, Clackamas and Washington counties, from \$3000 to \$4000, the extra \$1000 to be contributed equally by each of the counties in the district.

WANT FIRE INSURANCE LAWS LEFT UNTOUCHED

Portland, Ore., Jan. 21.—Directors and stockholders in the Farmers' Mutual Fire Relief association meeting in annual session at the hall at

Grand avenue and East Washington streets last night, vigorously condemned all bills now before the legislature for the amending of insurance laws. Copies of resolutions discouraging such amendments will be sent to each member of the legislative body.

Herman Loeding, secretary of the association, said it was ridiculous to amend laws that now safeguard the people and satisfy the insurance companies, and that to do so would cause confusion and burden the state with expense. Others also spoke against insurance legislation.

Have you a weak throat? If so you cannot be too careful. You cannot begin treatment too early. Each cold makes you more liable to another and the last is always the harder to cure. If you will take Chamberlain's Cough Remedy at the outset you will be saved much trouble. Sold by all dealers.

Electrically driven pumps are now extensively used in irrigation.

FOR ELDERLY PEOPLE

How the Kidneys and Bladder Cause Pain, Misery and Discomfort, and How They May Be Healed.

No matter how apparently strong and healthy you may be, as you approach middle age here is a certain letting down in the physical forces sure to make itself felt. When this happens to the kidneys and bladder, then they do not perform their work properly, and cannot until they are toned up and strengthened, and restored to their normal action. Weak kidneys, sharp backache, and pain over the hips, steepliness, urinary irregularities and headaches, with a dry and bad tasting mouth, are all symptoms that show the need of a tonic and stimulant for the kidneys and bladder. Foley Kidney Pills furnish exactly the corrective and stimulating medicine needed at such a time. They are antiseptic, healing and tonic in action. They will give first a quick relief, then a lasting benefit, and will remove the pains and annoyance that come from kidney and bladder disorders, which make the approach of old age a time of misery and pain, instead of serenity and peacefulness. Marcus Markham, 138 Harrison St., Coldwater, Mich., says: "I am past 80 years old and always enjoyed excellent health until two or three years ago when I noticed my kidneys and bladder were getting weak and caused me a great deal of trouble. The kidney action was at times suppressed and again made me get up many times during the night. At times I would get a stitch in the small of my back. Seeing Foley Kidney Pills recommended for similar cases I began taking them. They relieved me promptly of all annoyance, correcting the action of my kidneys and bladder, and I can again sleep all night. All symptoms of kidney trouble were dispelled on such short notice that I was certainly pleased with Foley Kidney Pills and have since recommended them." For sale by A. C. Koepfen & Bros.
