## MILTON PERSONAL NOTES AND NEWS

(Special Correspondence.)  
Milton, Ore., Jan. 28.—The play given in the Oregon Grand opera house last evening by the Milton high school students was a great success. The house was crowded.  
Miss Lina Coe, a popular young lady of Milton and W. R. Craig of Ellensburg, Wash., were married Thursday evening at 6 o'clock at the home of the bride's parents Mr. and Mrs. S. K. Coe two miles east of this city. Rev. Walker of the M. E. church performing the ceremony in the presence of the immediate relatives and friends of the contracting parties. They were the recipients of many costly presents. Mr. and Mrs. Craig will leave today for Ellensburg, where they will make their home.  
Messrs. Guy Edwards and James McLain left today for Washtucna, going by train.  
Mr. and Mrs. W. E. Miller were

## The Important Problem

confronting anyone in need of a laxative is not a question of a single action only, but of permanently beneficial effects, which will follow proper efforts to live in a healthful way, with the assistance of Syrup of Figs and Elixir of Senna, whenever it is required, as it cleanses the system gently yet promptly, without irritation and will therefore always have the preference of all who wish the best of family laxatives.  
The combination has the approval of physicians because it is known to be truly beneficial, and because it has given satisfaction to the millions of well-informed families who have used it for many years past.  
To get its beneficial effects, always buy the genuine manufactured by the California Fig Syrup Co. only.

Garden City visitors this afternoon. Mrs. R. D. Edwards and son, Raymond spent the day in Walla Walla, the guest of friends.  
Clarence Lesser of the conservatory of music of Columbia college, has started a class in violin lessons at Weston and will also organize an orchestra.

Mrs. Walter Beaumont of Wallowa, Ore., is the guest of relatives in this city and State Line.  
Mr. and Mrs. George Hunter are down from their farm near Kahlotus on a visit to relatives and friends.  
Miss Mary Gallaher will arrive next week from Scotland on a visit to her sisters, Mrs. Robt. McEwen and Mrs. Jack Calder.  
Columbia College students are rehearsing for a negro musical show to be given in the near future.  
Mr. and Mrs. Jack Groom were visitors at the home of their son, Dennis and wife at Ferndale yesterday.

### "CARNATION DAY" TO BE OBSERVED SUNDAY

New York, Jan. 28.—Florists all over the city report a heavy demand for carnations, in anticipation of the observance of McKinley's birthday tomorrow. Many people appeared today wearing the favorite flower of the martyr president.  
The wearing of a carnation on January 29 is a custom established by the Carnation League of America and is now generally observed in nearly all of the states of the union.

Chapter House for Lewiston.  
Lewiston, Idaho, Jan. 24.—Plans are now being formulated by the federated women's clubs of Lewiston to secure a \$5000 chapter house from the American Woman's league, and a meeting was held tonight in the commercial club rooms, which was presided over by Mrs. Anna Walte of Peck, a prominent worker in the league, who secured a chapter house for her home town.  
Promises of assistance were received from the business men and the commercial club. It is proposed to have the chapter house located in the women's park near the new Methodist church.—From Spokesman Review.

Chamberlain's Cough Remedy never disappoints those who use it for obstinate coughs, colds and irritations of the throat and lungs. It stands unrivaled as a remedy for all throat and lung diseases. Sold by all dealers.

## ADAMS NEWS AND PERSONAL ITEMS

(Special Correspondence.)

New York, Jan. 28.—Dates for play in the National Chess Masters' tournament have been assigned to the home clubs as follows: Tomorrow, Manhattan Chess club; Monday, Staten Island club; Tuesday, Brooklyn Chess club, and Wednesday, Rice Chess club.

Have you a weak throat? If so you cannot be too careful. You cannot begin treatment too early. Each cold makes you more liable to another and the last is always the harder to cure. If you will take Chamberlain's Cough Remedy at the outset you will be saved much trouble. Sold by all dealers.

Everybody goes to the Orpheum to see the best and the clearest pictures

## ELECTRICITY MAY SAVE COAL SUPPLY

### WIZARDS WORKING ON SCHEME OF CONSERVATION

Would Convert Coal Into Electric Juice at Mines and Deliver It To Consumers—Would Utilize By-Products.

It lies wholly within the province of electricity to save our rapidly decreasing coal supply for future generations. Not only does the harnessing of the waterpowers of the country mean the saving of millions of tons of coal which otherwise would have to be burned for power purposes, but it is possible to save nearly a hundred million tons of coal every year by burning our coal at the mouths of the mines and retailing electricity instead of coal. This theory was long since advanced by Thomas A. Edison and Charles P. Steinmetz of the General Electric company, but only recently, with the end of our coal supply already in sight has the thought been taken up by other men.

The plan is to convert our coal into electrical energy at a few centers only and retail it in the form of electricity to every one who now burns coal throughout the country. On the face of it this looks like a tremendous undertaking, but so it is a tremendous undertaking for the railroads to transport the millions and millions of tons of coal which now must be hauled across the face of the continent. In this day of electrical development it is possible to transmit electrical energy over long distances with very little loss. Plants are now being successfully operated which transmit energy at high pressure over the country distances from 100 to 300 miles.

If this plan of burning our coal at the mines was adopted we would save all the by-products of the coal which are now being wasted. We would also save annually nearly a hundred million tons of coal. The fertilizer by-product of the coal could be used in agriculture and thus increase the fertility of our soil, increasing its productivity fully twenty per cent.

It is figured that we would run all our motor vehicles on the oils saved and make good roads with the tar which is now wasted.

Summarizing the position, it may safely be said that wherever coal, gas or power are now used, everything for which they are used will be better done when electricity is the medium of application.

Hardly less in importance in the all-electric scheme is the question of the by-products which become available by the proper use of our coal. These consist principally of fixed nitrogen, together with tar and oils.

Fixed nitrogen in the forms of sulphate of ammonia, nitrate of soda and nitrate of lime are most valuable fertilizers, and enable land continually to produce the same crop with a greatly increased yield per acre. Much has been done in finding out how to best utilize these artificial fertilizers, but no doubt a great deal more will be done in this direction, and fertilizers will be prepared, with fixed nitrogen as their principal constituent, which best suit the particular soils and crops that it is desired to deal with.

As there must be an enormous development in the way of motor traction, oil by-products will become most important. The necessity for labor-saving appliances used in agriculture must add greatly to the number of motors which cannot, according to present knowledge, be replaced by electricity, and these, no doubt, would be made to burn the heavier oils which would be produced as a part of the coal by-products.

Considering the general effect of the all-electric scheme, in which, with small exception, the whole of the coal used is turned into electricity, the first important effect would be the saving of some \$9,000,000 to \$9,000,000,000 tons of coal a year. As we should produce the whole of our food requirements, we should not have to export our capital in the form of coal to help pay our food bill. In this way, by making these two savings, we could prolong the useful life of our coal measures two and a half times, and still have 29,000,000 tons of coal

## KIDNEY TROUBLE Suffered Ten Years—Retired in Three Months Thanks to PE-RU-NA.

C. B. FIZER, Mt. Sterling, Ky., says: "I have suffered with kidney and bladder trouble for ten years past. Last March I commenced using Peruna and continued for three months. I have not used it since, nor have I felt a pain." Asy Your Druggist for a Free Peruna Almanac for 1911.

a year available for the use of our steamships over and above the coal required here.

The saving of labor now employed in mining the vast amounts of coal which we now waste or send abroad, and also the labor employed in transporting this coal and using it for all the various purposes for which it is now required, together with the labor employed in cleaning up and getting rid of the effects of burning coal according to our present methods, would be available for additional manufacturing of articles now imported.

Cheap electricity would greatly stimulate all manufacturing operations, which would, in turn, enable labor to be much better remunerated than at present, and to enjoy a much higher standard of comfort. The higher value of labor would in its turn stimulate inventiveness and the production of all sorts of labor-saving appliances which, with cheap electricity, would enable us to produce in the future under suitable market conditions at cheaper rates (than now, notwithstanding the better return labor would obtain.

**Caught in the Rain.**  
then a cold and a cough—let it run on—get pneumonia or consumption, that's all. No matter how you get your cough don't neglect it—take Ballard's Horehound Syrup and you'll be over it in no time. The sure cure for coughs, colds, bronchitis and all pulmonary diseases in young and old. A. C. Koepfen & Bros.

**Notice to the Public.**  
Beginning Monday, Jan. 30, Penland Bros. will make (4) four deliveries a day:

8:40 and 10:30 a. m.  
2:00 and 4:30 p. m.

for—  
Alexander Department Store.  
George A. Clark's Grocery.  
Carney & Tweedy Meat Market.  
Despain & Boney Wonder Store.  
Empire Meat Co.
