CHAMPIONS OF EASTERN OREGON

BASKET BALL TEAM RETURNS HOME VICTORIOUS

High School Players Badly Crippled But Triumphant—Complete Brilliant Tour.

Battle scarred and so badly crippled that they could scarcely get off the train but triumphant and happy, the members of the Pendleton high school basketball team returned yesterday afternoon from their victorious tour of Union and Baker counties. By winning the game with Union high school Saturday night by the overwhelming victory of 27 to 10, they completed their series with a straight string of victories.

Despite the great margin with which they took the game from the Union team, it looked very dubious at the close of the first half when the score stood 9 to 8 in favor of the home boys. Captain Houser had not entered the game at the beginning on account of the injuries he received in the Baker game and his absence seemed to demoralize his teammates. However, when the second half opened, he was at his usual position despite his badly sprained ankle and from then on basket followed basket in quick succession in the Pendleton end of the hall.

Mormons Overconfident.
The boys declare they had the Mormon team of La Grande beaten before they went on the floor as those players were suffering from a bad attack of over-confidence due to their two years of unbroken victories. They were not prepared for the scoring machine which the Umatillas had developed and thus they were swept off their feet in the first half and were held safe in the second.

The Baker game was a fast and furious one and rough as well, according to the returned champions, but the result was brought about by superior team work. Nat Kimball, who acted as referee in all three games, declares the Pendleton boys in this department of the game, were simply wonderful and that they can overwhelm any one of the teams on their home floor.

Both the Mormons and the Baker high teams will play return games in this city during the week and local fans will be given an opportunity to witness something in the line of basketball that is not afforded them every day or every year for that matter. The former team will play here on Wednesday night while the latter will play on the following night.

The Baker Game.
The following is the account of the Baker game as chronicled in the Herald of that city:

With a smoothness of team work that literally swept the Baker players off their feet in the first minute of play, the Pendleton five hung the Indian sign on the locals and won the game by a score of 33 to 21. It was the finest game seen here this season and the visitors are deserving of such praise for their fine work. It was an exciting game throughout and the large crowd was well satisfied with the exhibition.

Pendleton was the first to score and made a basket almost as soon as the ball was put in play. Their team work was the finest that has ever been seen here and time and again they pulled off some very pretty plays. Every member of the team is fast and they worked with a precision and smoothness that was fine to watch. They excelled the locals in every part of the game except the throwing of fouls, although they were good there. At the end of the first half they had scored a lead of nine points the score being 18 to 9.

In the second half the Baker boys played a better game, but they still showed a little nervousness, and did not put up the game that they usually play. They were all in the game but they were up against a better team. They gained on their opponents with the score of 21 to 33 in favor of the visitors. A return game is scheduled for next week when Baker will go to Pendleton.

Caught in the Rain.
then a cold and a cough—let it run on—get pneumonia or consumption, that's all. No matter how you get your cough don't neglect it—take Ballard's Horehound Syrup and you'll be over it in no time. The sure cure for coughs, colds, bronchitis and all pulmonary diseases in young and old. A. C. Koeppen & Bros.

QUEEN MARY SELECTING DESIGN FOR CROWN

Queen Mary has not yet selected the design for her crown for the coronation. As Queen Consort a crown has to be especially made for her, as the State crown is worn by the King. Only a certain latitude of choice is allowed the Queen. She must decide on the shape with regard to curving of the arches and their number; that is all. The crown must consist of a circle of diamonds resting on a narrow ermine border, a cap of crimson velvet, four crosses, four diamond fleur de lys, in these respects being a duplicate of the State crown. The diamonds will be set in platinum, but the pose of the hoops can be suggested by any crown of any period the Queen prefers, whether Hanoverian, Stuart, Tudor or Plantagenet.

The present State crown was made from jewels taken from old crowns and other ornaments at the command of Queen Victoria. In addition to one large ruby it now has sixteen sapphires, brilliant diamonds, 1,273 rose diamonds, 147 table diamonds, four drop shaped pearls and 283 pearls with the smaller of the Cullinan diamonds inset.

NEW HEAD OF STEEL TRUST IS "SELF MADE"
James A. Farrel, the prospective

new president of the steel trust, is what is usually termed a "self-made man." He is now about forty-eight years of age, and began his career as a lad of sixteen in a New Haven wire mill. After nine years of toil in the Connecticut metropolis, he went to Pittsburg, and at the end of six years in that city found himself general manager of the Pittsburg Wire company. He entered the employ of the steel trust in 1903, and helped organize the United States Steel Products company, becoming its president. This concern is the general selling agency of the trust. That was less than eight years ago. In that short period he has gained the confidence of J. Pierpont Morgan and E. H. Gary—the ruling powers of the steel trust—to so great an extent that he has become the logical choice for the biggest job in industrial America. Mr. Farrel is a devoted Catholic and an equally devoted husband and father.

TWO MILLION DOLLAR FACTORY PROMISED

Portland, Or.—That a \$2,000,000 factory will soon be located in Portland, employing 500 men on the day it opens, was announced at the annual meeting of the Manufacturers' association of the northwest, just held here. Dr. J. R. Wetherbee told of the big addition to Portland's manufacturing interests that is promised, but said he was not yet at liberty to name the newcomer.

Dr. Wetherbee said the president of one of the largest manufacturing concerns in the United States will be in Portland within a few days to look over the ground for a location. Moreover, five new factories are in sight for this city, which is becoming more and more the manufacturing center of the northwest.

There was a great deal of interest in addresses at the dinner of the manufacturers, and employers' liability laws, freight matters, etc., were discussed. Those in attendance favored an equitable measure that will provide for those dependent upon the injured workmen. The German plan of a commission whereby the government, the employer and the employee contribute to the relief fund, was generally favored.

The manufacturers will give an exposition in Portland on the two weeks commencing February 27. Goods made in Oregon will be shown on an extensive scale, a local department store having offered to house the exhibits. Secretary Vincent of the manufacturers, promises that over 100,000 people will view the showing of Oregon-made products.

Old Soldier Tortured.

"For years I suffered unspeakable torture from indigestion, constipation and liver trouble," wrote A. K. Smith a war veteran at Erie, Pa., "but Dr. King's New Life Pills fixed me all right. They're simply great." Try them for any stomach, liver, or kidney trouble. Only 25c at Koeppens.

AX MAY HIT LAND AGENT.

Bowerman Drafts Bill to Abolish Office as Unnecessary.
State Capitol, Salem, Or., Jan. 30.—To abolish the office of state land agent is the substance of a bill drafted by Senator Bowerman for introduction this week.

Details of the bill are not given as there may be some duties of the land agent which should be done and which should be transferred to the clerk of the land board in event such duties are discovered.

Bowerman, in his message as retiring governor, called attention to the fact that the duties for which the office of state land agent was originally created have been fulfilled and that there seems to be little necessity of retaining the office.

What position Governor West will take in relation to this bill is not known.

State of Ohio, City of Toledo, Lucas County.
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, Ohio and State of Ohio, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.
Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1904.

A. W. WILSON,
Notary Public.
Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

Notice to the Public.
Beginning Monday, Jan. 30, Pendleton Bros. will make (4) four deliveries a day:

Sealed proposals will be received for the erection and completion of St. Mary's R. C. church, Pendleton, Oregon, until Wednesday, March 1st, 1911, at 1 o'clock p. m.

All bids must be addressed to M. P. White, architect, 610 Market street, Pendleton, Oregon.
Plans and specifications may be had from the Rev. J. M. Cataldo, S. J., Pendleton, Oregon, and from M. P. White, architect, 1917 First street, Baker City, Oregon.
Dated January 18, 1911.

RHEUMATISM WEAK KIDNEYS & THIN BLOOD

Not only is the blood the great nourishing source of our systems, but equally as important is its work of removing the waste of oxidized tissues which have been consumed in force and bodily heat. This waste is filtered out through the kidneys. When, however, the kidneys become weak and unable to perform their regular duties, the waste is allowed to remain in the circulation, soon forming uric acid which destroys the greater portion of nourishing elements of the blood and leave it weak and acrid. This imperfect blood deposits into the different muscles and joints the uratic impurity with which it is contaminated. Then the pains and aches of Rheumatism commence. The gritty formation which uric acid causes collects in the joints and produces the aches and stiffness which always accompany the disease. Likewise the muscles are contorted and lose their elasticity, while the continual irritation to the nerves produces swelling and inflammation of the flesh.

S.S.S. MOST CERTAIN WAY TO END A BAD COLD

RELIEVES SEVERE GRIPPE MISERY IN A FEW HOURS

It is a positive fact that a dose of Pape's Cold Compound taken every two hours until three consecutive doses are taken will cure grippe or break up the most severe cold, either in the head, chest, back, stomach or limbs.

You distinctly feel the cold breaking and all the disagreeable grippe symptoms leaving after the very first dose. It promptly ends the most miserable headache, neuralgia pains, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

FISH SCREENS DEEMED MENACE

Senator Norton Has Bill to Keep Irrigation Ditches Clear.

State Capitol, Salem, Jan. 30.—Senator Norton introduced a bill today providing for a modification of the existing laws which require fish screens at the mouth of small irrigation ditches.

Senator Norton says that such screens are of no material or practical value, but work considerable hardship upon farmers. Small sticks and floating debris gather on the screens and he says that in many instances it nearly requires the work of one man to keep the screens free.

On the other hand, he says, they are not necessary, as the small ditches seldom, if ever, catch any fish. The salmon go out with the high water he declares, and generally, when this high water is running, the farmers keep their small ditches dry as a protection to the ditches.

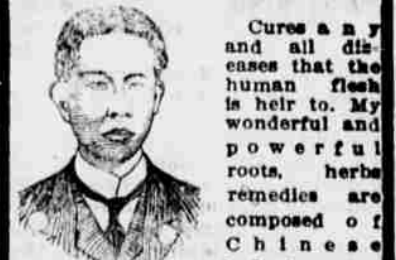

Attention, Knights.

Damon Lodge No. 4, K. of P., will work in the first rank this evening. A full attendance desired.

D. B. WAFFLE, C. C.
